ACT Benchmarks

Are my students ready for college and career?

ACT College Readiness Benchmarks

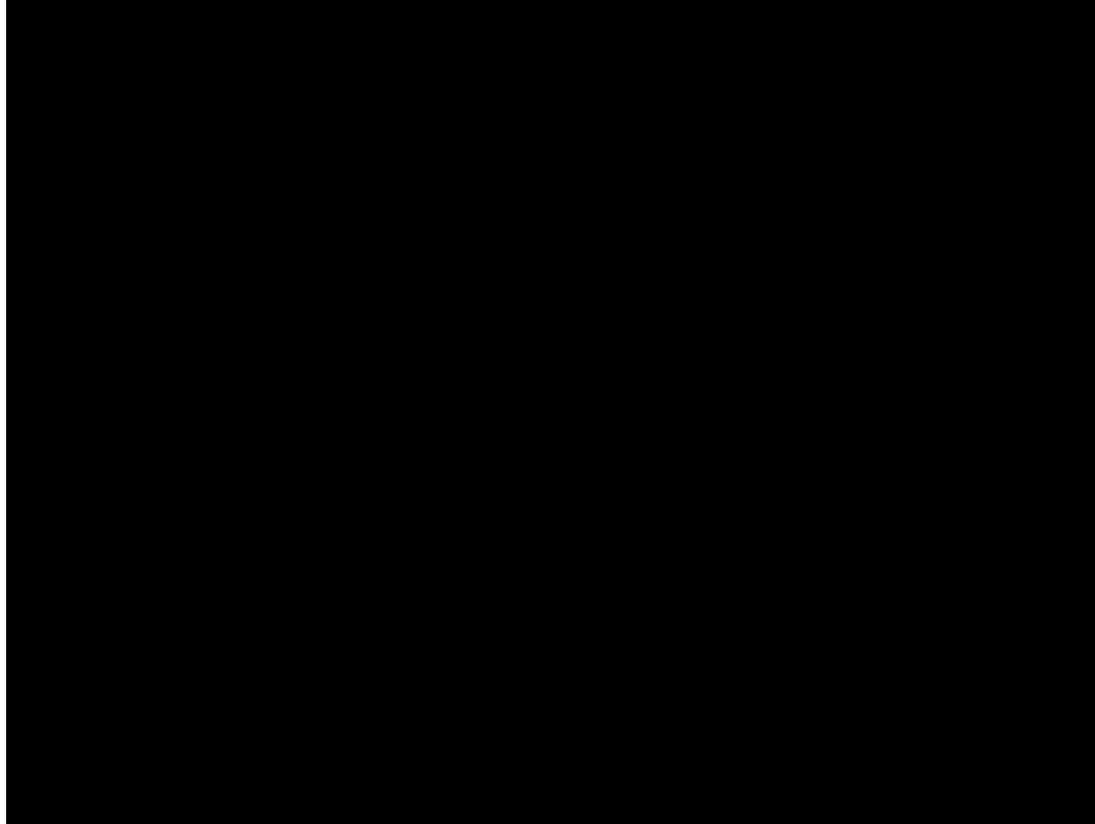

- The ACT followed students from high school, to college and beyond to determine what makes a student ready for post-secondary education.

ACT College Readiness Benchmarks

- These are the ACT Benchmarks:

ACT test score	College courses	Benchmark
English	English Composition I	18
Mathematics	College Algebra	22
Reading	American History, Other History, Psychology, Sociology, Political Science, Economics	22
Science	Biology	23
STEM ¹	Calculus, Chemistry, Biology, Physics, Engineering	26
ELA ²	English Composition I, American History, Other History, Psychology, Sociology, Political Science, Economics	20

ACT College Readiness Benchmarks

ACT College Readiness Benchmarks

- Benchmarks are the minimum scores needed to indicate a 50% chance of B or higher or 75% of a C or higher their freshman year.

ACT College Readiness Benchmarks

- Benchmarks are the minimum scores needed to indicate a 50% chance of B or higher or 75% of a C or higher their freshman year.
- These benchmarks help identify
 - Students ready for credit-bearing courses
 - Students who need more academic support

Any questions about
ACT Benchmarks?

SCIENCE 18

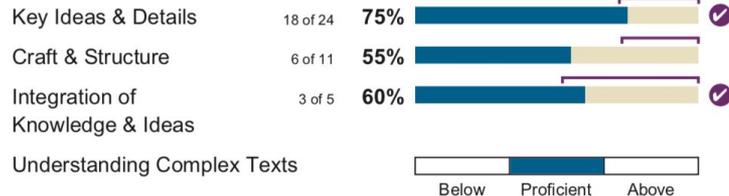

ACT Composite Score: ACT math, science, English, and reading test scores and the Composite score range from 1 to 36. For each test, we converted your number of correct answers into a score within that range. Your Composite score is the average of your scores on the four subjects rounded to the nearest whole number. If you left any test completely blank, that score is reported as two dashes and no Composite score is computed.

ACT Readiness Range: This range shows where a student who has met the ACT College Readiness Benchmark on this subject test would typically perform.

If you took the writing test, your essay was scored on a scale of 1 to 6 by two raters in each of the four writing domains. These domains represent essential skills and abilities that are necessary to meet the writing demands of college and career. Your domain scores, ranging from 2 to 12, are a sum of the two raters' scores. Your writing score is the average of your four domain scores rounded to the nearest whole number.
