A Tribute To The

CLASS OF 2020 CONGRATULATIONS GRADUATE

Serving the communities of Mantua, Hiram, and Shalersville

Crestwood COMMENTS

News from your excellent-rated school district!

Congratulations Class of 2020

David Toth, Superintendent

Superintendent David Toth

Welcome to the commencement of 2020. We all know this celebration is under unique circumstances, but none the less it is a celebration. I have heard various media outlets calling this the Covid-19 graduating class, but to me, this is not accurate. That diminishes everything that all of the graduates have accomplished. You may well be associated with this virus, but do not let it downplay any of your accomplishments.

Around the world, many people are dealing with the harsh realities of this virus. Some are fighting battles on the front lines as hospital workers and in the safety and armed forces. Others have lost their jobs or businesses. Tragically others have lost their lives. We all may have faced some adversity during this time or other times in our lives, and most likely, we all will face more difficulty in our lives in the future.

I am asking you as graduates, to face adversity, and these obstacles head-on. Learn from it and thrive. But, if we are going to be high achievers, we must understand that obstacles are only failures when we accept them as failures. Successful people did not become successful by avoiding obstacles; they become successful by learning to expect setbacks to face them head-on. Expect obstacles, delays, and disappointments to happen and plan for them. The longer you dwell on disappointment, the more it will disrupt your ability to focus on your other goals. Do not dwell on issues and move on and stick to your goals. Obstacles are not failures; they are simply setbacks that we need to overcome.

"The tests we face in life's journey are not to reveal our weaknesses but to help us discover our inner strengths. We can only know how strong we are when we strive and thrive beyond the challenges we face."

— Kemi Sogunle

According to Austin Bollinger, research shows that how you deal with disappointment is an accurate predictor of your success. If you shut down every time you face a roadblock or a setback, your ability to succeed is going to be far less than if you refuse to accept defeat.

Class of 2020, you have had some disappointments and have faced some obstacles. You will undoubtedly face more in the future. But do not let these setbacks deter you from reaching your goals.

Congratulations.
