Community Service Class

Six students are currently enrolled in the inaugural year of the Community Service class. Mrs. Ahlbrand, teacher of the course, reports: The students are currently work on stocking and maintaining the Food Pantry, school supply stations, and hygiene stations throughout the school. In addition, the class has been reading *The Framework of Poverty* by Ruby Payne. The in-depth discussions have helped students learn about the mindset of people who have suffered from the cycle of poverty. Some of those ideologies that come from living generation after generation of poverty are very difficult to comprehend; however, our class has shown great empathy towards those experiences. The class recently helped facilitate the Thanksgiving Food drive which brought in enough side items to not only build 60 Thanksgiving Meals, but 60 Holiday Meals as well. Another highlight is their independent service learning projects. One team is in the process of working with the SCMS to set up a school supply/personal hygiene station for students in need at the middle school. Another team is working on a blessing box to be located on our school campus. It will contain shelf stable side items such as canned veggies, fruit, and pasta meals. This will serve our community outside of the SC Food Pantry normal operating hours in case of food emergencies. I am so proud of their hard work and drive to give to something bigger than themselves.

Academic Superbowl

Silver Creek High School is proud to announce that we will be starting up the Academic Super Bowl team again! Students can choose to be on one or two teams. The subject teams are Math, English, Fine Arts (Music and Visual Arts), Social Studies and Science. Invationals take place in February

and March and Area Competitions are on April 18. This year's theme is The Age of Exploration from 1400-1650. Interested

students can contact Ms. Bennett at cbennett@scsc.school

Construction Update

Construction continues on our site. The marquee has been installed and most of the drainage that will be under the football field has been completed. The buildings, lights, track, football field, and bleachers have been removed. The stadium that will go in the location of the old baseball field should start to take shape soon.

Next week, the new construction management company will start walk-throughs of our building as they begin to take a second look at our plans and begin the process of putting together bids that will go out in the spring. Construction activity in the building will possibly start before the end of the school year.
