INDEPENDENT AUDITORS' REPORT

To the Board of Directors Woodburn School District No. 103 Marion County, Oregon

Report on the Financial Statements

We have audited the accompanying basic financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Woodburn School District No. 103 (the District) as of and for the year ended June 30, 2021, and the related notes to the basic financial statements, which collectively comprise the basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these basic financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of basic financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these basic financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the basic financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the basic financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the preparation and fair presentation of the basic financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the basic financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of Woodburn School District No. 103 as of June 30, 2021, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplemental information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the schedules of net pension liability or contributions for PERS, schedules of net OPEB asset or contributions for RHIA, changes in total OPEB and related ratios for health insurance, or management's discussion and analysis because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance on them.

The budgetary comparison schedules presented as Required Supplementary Information, as listed in the table of contents, have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America, and in our opinion are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the basic financial statements that collectively comprise the basic financial statements. The supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. The Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CRF) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is not a required part of the basic financial statements. The supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information and the Schedule of Expenditures of Federal Awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

The listing of board members containing their term expiration dates, located before the table of contents, and the other information, as listed in the table of contents, have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Reports on Other Legal and Regulatory Requirements

In accordance with Government Auditing Standards, we have also issued our reports dated December 29, 2021 on our consideration of the internal control over financial reporting and on our tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of these reports is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. The reports are an integral part of an audit performed in accordance with Government Auditing Standards in considering internal control over financial reporting and compliance.

In accordance with Minimum Standards for Audits of Oregon Municipal Corporations, we have issued our report dated December 29, 2021, on our consideration of compliance with certain provisions of laws and regulations, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing and not to provide an opinion on compliance.

Roy R Rogers, CPA

PAULY, ROGERS, AND CO., P.C.

WOODBURN SCHOOL DISTRICT NO. 103

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2021

As management of Woodburn School District (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities for the fiscal year ended June 30, 2021. We encourage readers to consider the information presented here in conjunction with the District's Financial Statements and Notes to Financial Statements, which follow this MD&A.

FINANCIAL HIGHLIGHTS

- In the government-wide statements, the liabilities of the District exceeded its assets at June 30, 2021 by \$17,317,192. Of this amount \$22,094,670 represents the District's net investment in capital assets. The District has \$7,379,548 of restricted net position. The District's unrestricted net position is (\$46,791,410).
- The District's governmental funds report combined ending fund balance is \$22,430,632 for a decrease of \$27,580,319 in comparison with the prior year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements: The government-wide financial statements are designed to provide the reader with a broad overview of the District's finances, in a manner similar to a private-sector business. One of the most important questions asked about the District is; "Is the District as a whole better off or worse off financially as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information on the District as a whole and its activities in a way that helps answer this question.

<u>The Statement of Net Position</u>. The statement of net position presents information on all of the assets and liabilities of the District at year end. Net position is what remains after the liabilities have been paid or otherwise satisfied. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

<u>The Statement of Activities.</u> The statement of activities presents information showing how the net position of the District changed over the year by tracking revenues, expenses and other transactions that increase or reduce net position.

All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal period (e.g., uncollected taxes and earned but unused vacation leave).

In the government-wide financial statements, the District's activities are shown in one category:

<u>Governmental Activities</u>. Most of the District's basic functions are shown here, such as regular and special education, child nutrition services, transportation, administration, and facilities acquisition and construction. These activities are primarily financed through: property taxes; Oregon's State School Fund; proceeds from the sale of long-term general obligation bonds; and other intergovernmental revenues.

Fund Financial Statements: The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds - not the District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Woodburn School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds maintained by the District are governmental funds.

Governmental Funds: The governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decision. Both the governmental fund Balance Sheet and Statement of Revenue, Expenditures and Changes in Fund Balances are reconciled to the government-wide Statements of Net Position and Activities.

The District maintains seven individual governmental funds, four of which have been reported as major funds. Information is presented separately in the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances for the General Fund, Special Revenue Fund, Debt Service Fund, and Facilities and Construction Fund.

Notes to the Basic Financial Statements: The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 13 to 42 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Condensed Statement of Net Position

Total School District Governmental Activities

	2021	2020
Assets		
Current and other assets	\$ 34,612,705	\$ 62,403,790
Net capital assets	97,512,174	67,916,851
Total Assets	132,124,879	130,320,641
Pension Rated Deferrals	31,347,459	26,310,269
Liabilities		
Long-term debt outstanding	67,610,000	70,415,000
Other liabilities	106,518,541	94,203,173
Total Liabilities	174,128,541	164,618,173
Pension Rated Deferrals	6,660,989	7,468,615
Net Position		
Net investment in capital assets	22,094,670	6,293,256
Restricted	7,379,548	38,185,131
Unrestricted	(46,791,410)	(59,934,265)
Total Net Position	\$ (17,317,192)	\$ (15,455,878)

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, liabilities exceeded assets by \$17,317,192 at June 30, 2021.

Capital assets, which consist of the District's land, buildings, building improvements, construction in progress, vehicles, and equipment, represent about 74 percent of total assets. The remaining assets consist mainly of cash & investments, grants receivable, and pension related deferrals.

The District's largest liability is for the Other Liabilities, which includes the Proportionate Share of Net Pension Liabilities (PERS) of \$83,966,618. Long-term debt outstanding, representing about 38.83 percent of the District's total liabilities, consists mostly of Bond payments due in more than one year.

The District's net position is largely invested in capital projects related to the 2015 Bond, less any related debt used to acquire those assets that are still outstanding. The District uses these capital assets to provide services to students and other District residents; consequently these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources (generally property taxes), since the capital assets themselves cannot be used to liquidate these liabilities.

Condensed Statement of Activities

Total School District Governmental Activities

	2021 2020							
Revenues

Net assets - ending	\$	(17,317,192)	\$	(15,455,878)				
•	Ψ	(11,011,174)	Ψ	(13,433,070)				

Revenues. Since the District's mission is to provide a free and appropriate public education for K-12 students within its boundaries, the District may not charge for its core services. As expected, therefore, general revenues provide 87% of the funding required for governmental programs. Property taxes and state school fund combined account for 94% of general revenues and 82% of total revenues.

Operating grants and contributions account for 12% of total revenues. Included in this category is \$1,368,092 for federal reimbursement under the national school lunch program. Federal and state grants for designated programs totaled \$10,133,851.

Expenses. Expenses related to governmental activities are presented in four broad functional categories. Costs of direct classroom instruction activities account for 54% of the total expenses of \$93,988,717. In addition, approximately half of the costs in supporting services relate to students, instructional staff and school administration.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds: The focus of the District's governmental funds is to provide information on relatively short-term cash flow and funding for future basic services. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of a fiscal year.

At June 30, 2021, the District's total governmental funds reported combined ending fund balances of \$22,430,632; a decrease of \$27,580,319 in comparison with the prior year. About \$15,930,879 (71 percent) of the ending fund balance constitutes unassigned ending fund balance, which is available for spending at the direction of the Board of Directors.

General Fund: The General Fund is the chief operating fund of the District. As of June 30, 2021, there is \$245,578 of non-spendable fund balance and unassigned fund balance was \$15,930,879. As a measure of the fund's liquidity, it may be useful to compare total fund balance to total fund expenditures. Fund balance represents 23 percent of total General Fund expenditures. The fund balance increased by \$3,754,744 during the current fiscal year.

Special Revenue Fund: The Special Revenue Fund has a total fund balance of \$513,934. The net increase in fund balance during the current year was \$359,029.

Debt Service Funds: The Debt Service Fund has a total fund balance of (\$54,747). The net decrease in fund balance during the current year was \$69,082.

Facilities Acquisition & Construction Fund: The Facilities Acquisition & Construction Funds have a total fund balance of \$2,025,529. The fund balance decreased by \$30,340,065 during the current fiscal year due to ongoing capital construction projects.

Construction Excise Tax Fund: The Construction Excise Tax Fund has a total fund balance of \$633,386. The fund balance decreased by \$423,052 during the current fiscal year.

Food Service Fund: The Food Service Fund has a total fund balance of \$3,136,073. The fund balance decreased by \$861,893 and is designated for ongoing food service operations and equipment repairs and replacements.

GENERAL FUND BUDGETARY HIGHLIGHTS

The State School Fund (made up of local and state funding sources) accounts for over 68% of the General Fund revenue. 2020-21 was the first year of the 2021-23 biennium, which saw an increase for K-12 funding of 3% over the 2019-21 biennium.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets: The District's investment in capital assets includes land, buildings and improvements, vehicles and equipment, and construction in progress. As of June 30, 2021, the District had invested \$97,512,174 in capital assets, net of depreciation.

During the year, the District's investment in capital assets, net of depreciation, increased by \$29,595,323. The major capital asset events for the year included the start and completion of several 2015 Bond projects including Nellie Muir Elementary, Lincoln Elementary and Valor Middle School.

Long-term Debt: At the end of the current fiscal year, the District had total bonded debt outstanding of \$55,940,000, consisting of general obligation debt, net of unamortized premium/discount. The District had \$11,670,000 of full faith and credit obligation and notes outstanding.

Additional information on the District's long-term debt can be found in Note 6 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The most significant economic factor for the District is the State of Oregon's State School Fund. For the year ended June 30, 2021, the State School Fund - General Support provided 68 percent of the District's General resources.

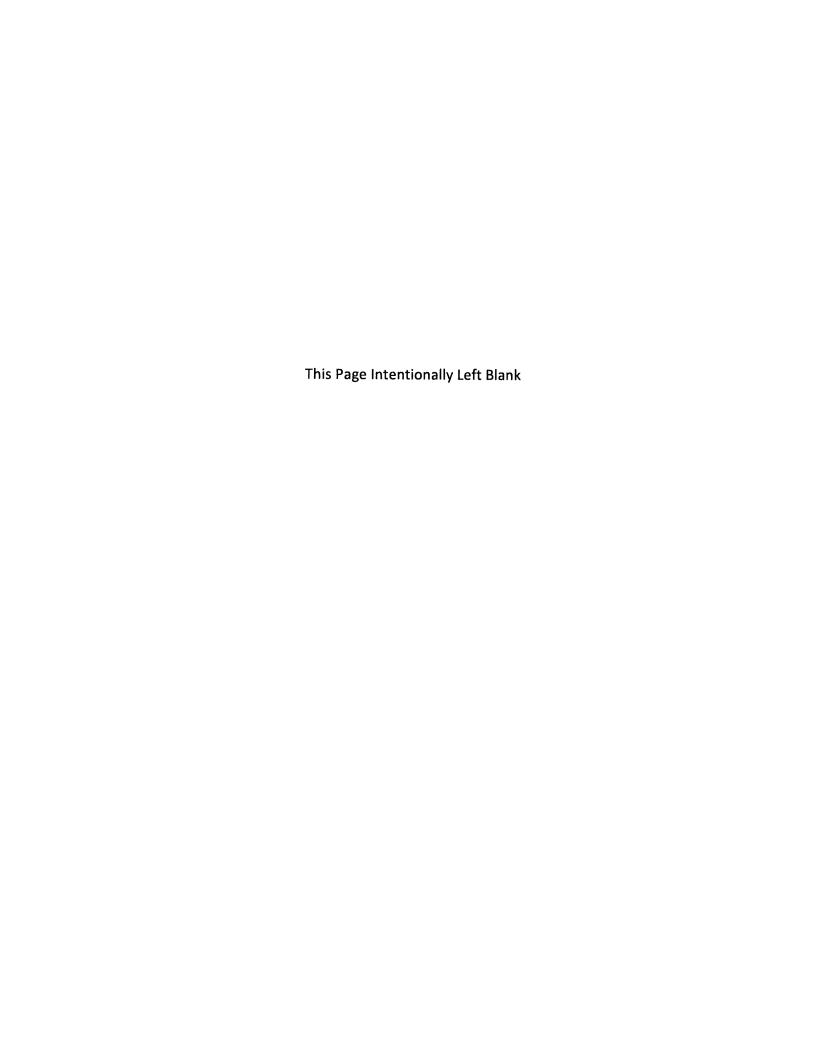

Salaries and benefits costs will increase in 2021-22 due to negotiated increases in both the Licensed and Classified Bargaining Agreements. Both of those agreements expire on June 30, 2022.

The passage and full funding of Student Success Act has had a positive impact on the District's finances.

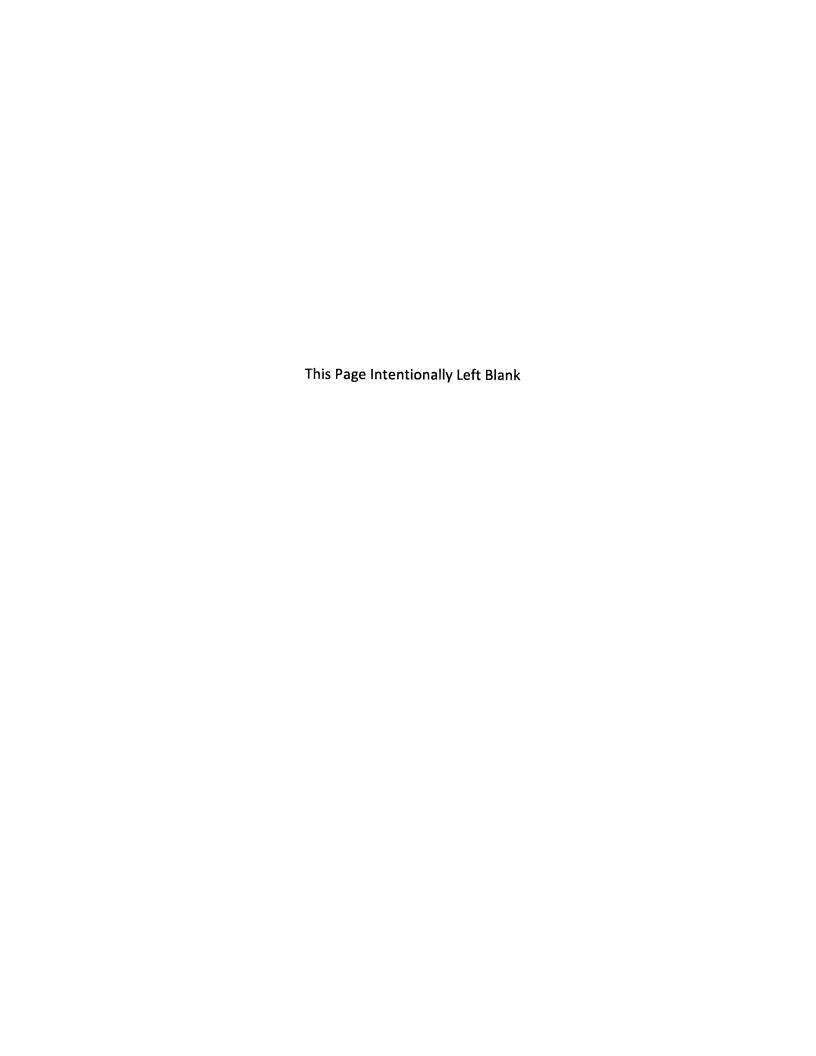

REQUESTS FOR INFORMATION

This financial report is designed to present the user (citizens, taxpayers, investors, and creditors) with a general overview of the District's finances and to demonstrate the District's accountability. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Director of Business at 1390 Meridian Drive, Woodburn, OR 97071.

Sarah Bishop Director of Business

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES

For the Year Ended June 30, 2021

TOTAL NET CHANGES IN FUND BALANCES-GOVERNMENTAL FUNDS	\$	(27,580,319)
The expense represents the changes in net asset (liability) from year to year due to changes in total liability and the fair value of plan net position available to pay benefits.		
PERS OPEB Health Insurance	\$ (7,386,309) (281,884)	(7,668,193)
OPEB - RHIA income represents the net change in total OPEB liability from year to year related to the medical benefit OPEB and is not included in the governmental funds		349,916
Governmental funds report capital outlay as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation expense in the current period:		
Expenditures for Capital Assets, net of adjustments Less Current Year Depreciation, net of adjustments	31,647,174 (2,051,851)	29,595,323
Short and long-term debt proceeds are reported as other financing sources in governmental funds. In the Statement of Net Position, however, issuing short and long-term debt increases liabilities. Similarly, repayment of principal is an expenditure in the governmental funds but reduces the liability in the Statement of Net Position. This is the amount by which proceeds exceeded repayments:		
Debt Principal Repaid Amortization of Debt Premiums	2,805,000 561,343	3,366,343
Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.		5,546
Property taxes that do not meet the measurable and available criteria are not recognized as revenue in the current year in the governmental funds. In the Statement of Activities property taxes are recognized as revenue when levied.		(12,326)
Compensated absences are recognized as expenditure in the governmental funds when they are paid. In the Statement of Activities these liabilities are recognized as an expenditure when earned.		82,396

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements have been prepared in conformity with accounting principles generally accepted in the United States of American (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the accounting policies are described below.

A. The Financial Reporting Entity

Woodburn School District No. 103 (the District) is a municipal corporation governed by an elected Board of Directors. Administrative officials are approved by the Board. The daily functioning is under the supervision of the Superintendent-Clerk. As required by generally accepted accounting principles, all activities have been included in these basic financial statements.

The District qualifies as a primary government since it has a separately elected governing body, is a legally separate entity, and is fiscally independent. There are various governmental agencies and special service districts which provide services within the District boundaries. However, the District is not financially accountable for any of these entities, and therefore, none of them are considered component units or included in these basic financial statements, in accordance with GASB 61.

B. Government-wide and Fund Financial Statements

The Statement of Net Position and Statement of Activities display information about the District as a whole.

The Statement of Net Position and the Statement of Activities were prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of GASB Statement No. 33 "Accounting and Financial Reporting for Nonexchange Transactions."

Program Revenues included in the Statement of Activities derive directly from the program itself or from outside parties, program revenues reduce the cost of the function to be financed from the general revenues.

All direct expenses are reported by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Interest on general long-term debt is considered an indirect expense and is reported separately on the Statement of Activities. In the process of aggregating data for the Statement of Net Position and the Statement of Activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities.

The accounts are organized and operated on the basis of funds. A fund is an independent self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions.

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

GOVERNMENTAL FUND TYPES

Governmental funds are used to account for general government activities. Governmental fund types use the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they are "measurable and available"). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period, which is 60 days. Property tax revenue and proceeds from sale of property are not considered available and, therefore, are not recognized until received. Expenditures are recorded when the liability is incurred, except for unmatured interest on general long-term debt which is recognized when due, interfund transactions, OPEB expenses, pension costs, and certain compensated absences and claims and judgments which are not recognized as expenditures because they will be liquidated with future expendable financial resources. Capital asset acquisitions are reported as expenditures in the governmental funds, and proceeds from general long-term debt and acquisitions under capital leases are reported as other financing sources.

Revenues susceptible to accrual are interest, state, county and local shared revenue and federal and state grants. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

Financial operations are accounted for in the following major funds:

General Fund

This fund accounts for all financial resources and expenditures, except those required to be accounted for in another fund. The principal revenue sources are property taxes and an apportionment from the State of Oregon School Support Fund.

Special Revenue Fund

The Special Revenue Fund accounts for revenues and expenditures restricted for specific educational projects or programs. Programs included are the federal and state and local grants funds, and the student activities fund. The grants funds account for revenue and expenses from federal, state and local grants. The student activities fund accounts for revenue and expenses from student activities.

Debt Service Fund

The Debt Service Fund accounts for the payment of principal and interest of the general obligation bonds. The principal resource is property taxes.

Facilities Acquisition & Construction Fund

This fund accounts for the proceeds of bonds and capital improvements that are funded by the bonds.

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Governmental funds are accounted for on a spending measurement focus. Only current assets and current liabilities are generally included in their balance sheet. Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current position.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, revenues are considered to be available if they are collected within 60 days of the end of the current fiscal year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, pensions and OPEB costs are recorded only when payment is due.

Property taxes associated with the current fiscal period, are considered to be susceptible to accrual, if received in cash by the District or a County collecting such taxes within 60 days after year-end. All other revenue items are recognized in the accounting period when they become both measurable and available.

D. Assets, Liabilities, and Net Position or Balance

Cash and Investments

Investments with a remaining maturity of more than one year at the time of purchase are stated at fair value. Other investments are stated at amortized cost, which approximates fair value.

Cash and Cash Equivalents

The cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Property Taxes

Uncollected real and personal property taxes are reflected on the statement of net position and the balance sheet as receivable. Uncollected taxes are deemed by management to be substantially collectible or recoverable through liens; therefore no allowance for uncollectible taxes has been established. All property taxes receivable are due from property owners within the District.

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Under state law, county governments are responsible for extending authorized property tax levies, computing tax rates, billing and collecting all property taxes, and making periodic distributions of collections to entities levying taxes. Property taxes become a lien against the property when levied on July 1 of each year and are payable in three installments due on November 15, February 15 and May 15. Property tax collections are distributed monthly except for November, when such distributions are made weekly.

Supply Inventories

Inventory is accounted for based on the purchase method for the budgetary statements, and on the consumption method and charged to expense when used, for the government-wide financial statements. Donated commodities consumed during the year are reported as revenues and expenditures. The amount of unused donated commodities at balance sheet date is considered immaterial by management for reporting purposes. There are no material inventories reported at year end by management.

Prepaid Expenses

Prepaid expenses are reported for purchases of goods or services paid for during the year but not used until next year. They will be recognized as expenditures when their benefits are realized.

Accounts and Other Receivables

Accounts and other receivables are comprised primarily of claims for reimbursement of costs under various federal, state and local grants. No allowance for uncollectible accounts has been recorded because management believes all receivables are collectible.

Grant Accounting

Unreimbursed expenditures due from grantor agencies are reflected in the basic financial statements as receivables and revenues. Grant revenues are recorded at the time eligible expenditures are incurred. Cash received from grantor agencies in excess of related grant expenditures are recorded as unearned revenue on the statement of net position and the balance sheet.

Capital Assets

Capital assets are recorded at original cost or estimated original cost. Donated capital assets are recorded at their estimated fair market value on the date donated. Capital assets are defined as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Interest incurred during construction is not capitalized. The cost of routine maintenance and repairs that do not add to the value of the assets or materially extend asset lives are charged to expenditures as incurred and not capitalized. Capital assets are depreciated using the straight-line method over the following useful lives:

Buildings and Improvements Vehicles and Equipment

10 to 50 years 5 to 30 years

Compensated Absences

It is policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since there is no policy to pay any amounts when an employee separates from service. All vacation pay is accrued when incurred in the government-wide basic financial statements.

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Long Term Obligations

In the government-wide financial statements long-term debt is reported as a liability in the Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the bonds outstanding method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuance are reported as other financing sources while discounts on debt issuance are reported as other financing uses.

Retirement Plans

Substantially all of the District's employees are participants in the State of Oregon Public Employees Retirement System (PERS). For the purpose of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about fiduciary net position of PERS and additions to/deductions from PERS's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Net Position

Net Position comprises the various net earnings from operations, nonoperating revenues, expenses and contributions of capital. Net Position is classified in the following three categories:

Net investment in capital assets – consists of all capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted – consists of external constraints placed on net position use by creditors, grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation. There is net position restricted for debt service, special revenue, and other governmental funds.

Unrestricted – consists of all other amounts that are not included in the other categories previously mentioned.

Deferred Outflows/Inflows of Resources

In addition to assets, the basic financial statements will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to future periods and so will *not* be recognized as an outflow of resources (expenditure) until then. At June 30, 2021 there were deferred outflows representing PERS and RHIA pension related deferrals and OPEB related deferrals for health insurance reported in the Statement of Net Position.

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

In addition to liabilities, the basic financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future periods and so will *not* be recognized as an inflow of resources (revenue) until that time. The District has two types of items which qualify for reporting in this category. The first, unavailable revenue for property taxes is reported only in the governmental funds balance sheet. This amount is deferred and recognized as an inflow of resources in the period that the amount becomes available. At June 30, 2021 there were also deferred inflows representing PERS pension related deferrals and deferred inflows representing OPEB related deferrals for RHIA and health insurance reported in the Statement of Net Position.

Fund Balance

GASB Statement No. 54, Fund Balance Reporting and Governmental Fund-type Definitions, is followed. The objective of this statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund-type definitions. This statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed on the use of the resources reported in governmental funds. Under this standard, the fund balance classifications are – nonspendable, restricted, committed, assigned, and unassigned.

- Nonspendable fund balance represents amounts that are not in a spendable form.
- Restricted fund balance represents amounts that are legally restricted by outside parties for a specific purpose (such as debt covenants, grant requirements, donor requirements, or other governments) or are restricted by law (constitutionally or by enabling legislation).
- <u>Committed fund balance</u> represents funds formally set aside by the governing body for a particular purpose. The use of committed funds would be approved by resolution.
- Assigned fund balance represents amounts that are constrained by the expressed intent to use resources for specific purposes that do not meet the criteria to be classified as restricted or committed. Intent can be stipulated by the governing body or by an official to whom that authority has been given by the governing body. Authority to classify portions of ending fund balance is granted to the Superintendent and the Director of Business.
- <u>Unassigned fund balance</u> is the residual classification of the General Fund. Only the General Fund may report a positive unassigned fund balance. Other governmental funds would report any negative residual fund balance as unassigned.

The governing body has approved the following order of spending regarding fund balance categories: Restricted resources are spent first when both restricted and unrestricted (committed, assigned or unassigned) resources are available for expenditures. When unrestricted resources are spent, the order of spending is committed (if applicable), assigned (if applicable) and unassigned.

There were no committed or assigned fund balances as of June 30, 2021.

There is a fund balance policy that directs the Superintendent to manage the currently adopted budget in such a way to ensure an ending fund cash balance of between 5 and 10 percent of the total adopted general fund revenues.

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The preparation of the basic financial statements in conformity with accounting principles generally accepted in the United States of America, requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues, expenditures and expenses during the reporting period. Actual results could differ from those estimates.

E. Fair Value Inputs and Methodologies and Hierarchy

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Observable inputs are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are developed based on the best information available about the assumptions market participants would use in pricing the asset. The classification of securities within the fair value hierarchy is based upon the activity level in the market for the security type and the inputs used to determine their fair value, as follows:

<u>Level 1</u> – unadjusted price quotations in active markets/exchanges for identical assets or liabilities that each Fund has the ability to access

<u>Level 2</u> – other observable inputs (including, but not limited to, quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, loss severities, credit risks and default rates) or other market—corroborated inputs) <u>Level 3</u> – unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including each Fund's own assumptions used in determining the fair value of investments)

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3. The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the fair value hierarchy classification is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The investments, as of June 30, 2021, were all classified as Level 1. For more information, see Note 4.

2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Information

A budget is prepared and legally adopted for all funds on the modified accrual basis of accounting in the main program categories required by the Oregon Local Budget Law.

NOTES TO BASIC FINANCIAL STATEMENTS

2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (CONTINUED)

Expenditure budgets are appropriated at the following levels for each fund:

LEVEL OF CONTROL

Instruction
Support Services
Enterprise and Community Services
Facilities Acquisition and Construction
Debt Service
Operating Contingency
Other Uses of Funds: Interfund Transactions

Expenditures cannot legally exceed the above appropriation levels except in the case of grants which could not be estimated at the time of budget adoption. Appropriations lapse at the fiscal year end. Management may amend line items in the budget without Board approval as long as appropriation levels (the legal level of control) are not changed. Supplemental appropriations may occur if the Board approves them due to a need which exists which was not determined at the time the budget was adopted.

Budget amounts shown in the budgetary financial statements reflect the final budget and one supplemental budget.

Expenditures of the various funds were within authorized appropriations for the year ended June 30, 2021.

3. BUDGETARY BASIS OF ACCOUNTING

The budgetary basis of accounting differs from generally accepted accounting principles. The budgetary statements provided as part of supplementary information elsewhere in this report are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The budgetary basis of accounting is substantially the same as generally accepted accounting principles in the United States of America with the exception that capital outlay expenditures are expensed when purchased, depreciation is not calculated, inventories of supplies are budgeted as expenditures when purchased, property taxes are recorded as revenue when received instead of when levied, compensated absences, pension expenses, and post-employment benefits are expensed when paid rather than when incurred, and principal payments and proceeds on long term debt are recorded as revenues when received and expenditures when paid.

NOTES TO BASIC FINANCIAL STATEMENTS

4. CASH AND INVESTMENTS

Cash management policies are governed by state statutes. Statutes authorize investing in banker's acceptances, time certificates of deposit, commercial paper, repurchase agreements, obligations of the United States and its agencies and instrumentalities, and the Oregon State Treasurer's Local Government Investment Pool.

A cash pool is maintained that is available for use by all funds. Each fund type's portion of this pool is reported on the combined balance sheet as Cash and Investments or amounts Due To Other Funds.

In addition, cash is separately held by some of the funds.

Cash and Investments (recorded at cost) consisted of:

Deposits with Financial Institutions:

Demand Deposits \$ 10,457,757 Investments \$ 17,342,554 \$ 27,800,311

Deposits

Deposits with financial institutions include bank demand deposits. Oregon Revised Statutes require deposits to be adequately covered by federal depository insurance or deposited at an approved depository as identified by the Treasury. The total bank balance per the bank statements as of June 30, 2021 was \$13,127,917 of which \$500,000 was covered by federal depository insurance and the remainder was collateralized by the Oregon Public Funds Collateralization Program (PFCP).

Credit Risk - Deposits

In the case of deposits, this is the risk that in the event of a bank failure, the deposits may not be returned. There is no deposit policy for custodial credit risk. All deposits were either FDIC insured or collateralized.

Investments

Since the LGIP is not a private investment pool, it is not subject to U.S. Securities and Exchange Commission Rule 2a-7, and instead is valued under the simplified method below:

Investments in the Local Government Investment Pool (LGIP) are included in the Oregon Short-Term Fund, which is an external investment pool that is not a 2a-7-like external investment pool, and is not registered with the U.S. Securities and Exchange Commission as an investment company. Fair value of the LGIP is calculated at the same value as the number of pool shares owned. The unit of account is each share held, and the value of the position would be the fair value of the pool's share price multiplied by the number of shares held. Investments in the Short-Term Fund are governed by ORS 294.135, Oregon Investment Council, and portfolio guidelines issued by the Oregon Short-Term Fund Board, which establish diversification percentages and specify the types and maturities of investments. The portfolio guidelines permit securities lending transactions as well as investments in repurchase agreements and reverse repurchase agreements. The fund's compliance with all portfolio guidelines can be found in their annual report when issued.

NOTES TO BASIC FINANCIAL STATEMENTS

4. CASH AND INVESTMENTS (CONTINUED)

The LGIP seeks to exchange shares at \$1.00 per share; an investment in the LGIP is neither insured nor guaranteed by the FDIC or any other government agency. Although the LGIP seeks to maintain the value of share investments at \$1.00 per share, it is possible to lose money by investing in the pool. We intend to measure these investments at book value since it approximates fair value. The pool is comprised of a variety of investments. These investments are characterized as a level 2 fair value measurement in the Oregon Short Term Fund's audited financial report. Amounts in the State Treasurer's Local Government Investment Pool are not required to be collateralized. The audited financial reports of the Oregon Short Term Fund can be found here:

http://www.oregon.gov/treasury/Divisions/Investment/Pages/Oregon-Short-Term-Fund-(OSTF).aspx

If the link has expired please contact the Oregon Short Term Fund directly.

The Board has established investment policies to approve only certain depositories and investment instruments and has limited investments to those with maturities of no more than 36 months. The District holds investments in Corporate Securities, US Government Securities and US Cash Equivalents through an investment account with a depository approved by the Board. The fair value of these securities is determined based on a level 1 classification due to their availability on open markets. At June 30, 2021, the District appeared to be in compliance with all policies regarding depositories, instruments and maturities.

At year-end, investment balances were as follows:

			Investment Maturities (in months					
Investment Type	Fair	Value	Less	than 3	3-1	18	18	-59
Corporate Securities	\$	-	\$	_	\$	_	\$	_
Foreign Issues		-		_		_		•
US Government Securities		-		_		_		-
State Treasurer's Investment Pool	17	,342,554	17,3	342,554		•••		-
Total	\$ 17	7,342,554	\$ 17,3	342,554	\$	_	\$	_

Investments in the State Treasurer's Local Government Investment Pool cannot be classified as to credit risk because they are not evidenced by securities that exist in physical or book entry form.

Amounts in the State Treasurer's Local Government Investment Pool are not required by law to be collateralized.

Interest Rate Risk - Investments

Oregon Revised Statutes require investments to not exceed a maturity of 18 months, except when the local government has adopted a written investment policy that was submitted to and reviewed by the OSTFB. There are no investments that have a maturity date beyond 36 months, within the time frame of the anticipated use of funds.

NOTES TO BASIC FINANCIAL STATEMENTS

4. CASH AND INVESTMENTS (CONTINUED)

Credit Risk-Investments

Oregon Revised Statutes does not limit investments as to credit rating for securities purchased from US Government Agencies or USGSE. The State Investment Pool is not rated. Other investments are classified by credit risk as follows:

Investment	S&P Rating	Moodys Rating
US Government Securities:		
Federal Home Loan Bks	AA+	AAA
FNMA	AA+	AAA
FNMAMTN	AA+	AAA
FHLMCMTN	AA+	AAA
Federal Farm Credit Bks	AA+	AAA
Foreign Issues:		
Westpac Banking Corp	AA-	AA3
Royal Bank of Canada	AA-	AA3

Concentration of Credit Risk - Investments

At June 30, 2021, 100 percent of total investments were in the State Treasurer's Investment Pool. State statutes do not limit the percentage of investments in this instrument.

There are no significant default remedy clauses noted in the agreements for any of the obligations listed above for the District.

General Obligation Bonds

In August 2015 the District issued a general obligation bond for construction, repairs, renovations and improvements at various school and District facilities in the amount of \$62,605,000. The interest varies between 2 percent and 5 percent, and payments continue through June 16, 2035. In February 2019, the District issued a general obligation bond in the amount of \$2,395,000. The interest varies between 4 percent and 5 percent, and payments continue through June 2024.

Changes in bonds outstanding are as follows:

Issue Date	Interest Rates	Original Issue	Outstanding July 1, 2020	Matured And Redeemed	Outstanding June 30, 2021
2015 GO Bond 2019 GO Bond	2-5% 4-5%	\$ 62,605,000 2,395,000	\$ 56,165,000 2,015,000	\$ 1,795,000 445,000	\$ 54,370,000 1,570,000
Total Bonds Paya	able		\$ 58,180,000	\$ 2,240,000	\$ 55,940,000

NOTES TO BASIC FINANCIAL STATEMENTS

6. LONG-TERM OBLIGATIONS (CONTINUED)

General Obligation Bonds (Continued)

Future maturities of bonds are payable as follows:

Ending June 30,	Principal	Interest
2022	\$ 2,490,000	\$ 2,716,925
2023	2,760,000	2,597,225
2024	3,015,000	2,494,475
2025	2,685,000	2,371,250
2026	2,945,000	2,249,500
2027-2031	19,480,000	8,732,750
2032-2036	22,565,000	2,931,500
Total	\$ 55,940,000	\$ 24,093,625

Full Faith and Credit Obligations

In December 2007, \$653,311 of Full Faith and Credit Obligations were issued with interest at 4.05 percent. The proceeds were placed in the Facilities Acquisition & Construction Fund and will be used for maintenance projects. In February 2019, the District issued a Full Faith and Credit Bond in the amount of \$12,965,000 that paid off a 2006 Full Faith and Credit Obligations issued for maintenance projects. The 2019 bond has variable interest rate between 3 percent and 4 percent, and payments continue through June 2039.

Future maturities of full faith and credit obligations are as follows:

Fiscal Year

Ending June 30,	Principal		-	Interest
2022	\$	595,000	\$	485,200
2023		610,000		461,400

2037-2041		2,370,000		192,000
Total	\$	11,670,000	\$	4,799,900

NOTES TO BASIC FINANCIAL STATEMENTS

7. DEFINED BENEFIT PENSION PLAN

<u>Plan Description</u> – The Oregon Public Employees Retirement System (PERS) consists of a single cost-sharing multiple-employer defined benefit plan. All benefits of the system are established by the legislature pursuant to Oregon Revised Statute (ORS) Chapters 238 and 238A. Oregon PERS produces an independently audited Comprehensive Annual Financial Report which can be found at:

https://www.oregon.gov/pers/Documents/Financials/CAFR/2020-CAFR.pdf

If the link is expired, please contact Oregon PERS for this information.

- a. **PERS Pension (Chapter 238)**. The ORS Chapter 238 Defined Benefit Plan is closed to new members hired on or after August 29, 2003.
 - i. Pension Benefits. The PERS retirement allowance is payable monthly for life. It may be selected from 13 retirement benefit options. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (2.0 percent for police and fire employees, and 1.67 percent for general service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated under either a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefits results.
 - A member is considered vested and will be eligible at minimum retirement age for a service retirement allowance if he or she has had a contribution in each of five calendar years or has reached at least 50 years of age before ceasing employment with a participating employer (age 45 for police and fire members). General service employees may retire after reaching age 55. Police and fire members are eligible after reaching age 50. Tier 1 general service employee benefits are reduced if retirement occurs prior to age 58 with fewer than 30 years of service. Police and fire member benefits are reduced if retirement occurs prior to age 55 with fewer than 25 years of service. Tier 2 members are eligible for full benefits at age 60. The ORS Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003.
 - ii. **Death Benefits**. Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided one or more of the following contributions are met:
 - member was employed by PERS employer at the time of death,
 - member died within 120 days after termination of PERS covered employment,
 - member died as a result of injury sustained while employed in a PERS-covered job, or
 - member was on an official leave of absence from a PERS-covered job at the time of death.
 - iii. **Disability Benefits**. A member with 10 or more years of creditable service who becomes disabled from other than duty-connected causes may receive a non-duty disability benefit. A disability resulting from a job-incurred injury or illness qualifies a member (including PERS judge members) for disability benefits regardless of the length of PERS-covered service. Upon qualifying for either a non-duty or duty disability, service time is computed to age 58 (55 for police and fire members) when determining the monthly benefit.
 - iv. Benefit Changes After Retirement. Members may choose to continue participation in their variable account after retiring and may experience annual benefit fluctuations due to changes in the fair value of the underlying global equity investments of that account. Under ORS 238.360 monthly benefits are adjusted annually through cost-of-living changes (COLA). The COLA is capped at 2.0 percent.

NOTES TO BASIC FINANCIAL STATEMENTS

7. Defined Benefit Pension Plan (continued)

- b. **OPSRP Pension Program (OPSRP DB)**. The ORS Chapter 238A Defined Benefit Pension Program provides benefits to members hired on or after August 29, 2003.
 - i. **Pension Benefits**. This portion of OPSRP provides a life pension funded by employer contributions. Benefits are calculated with the following formula for members who attain normal retirement age:

Police and fire: 1.8 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for police and fire members is age 60 or age 53 with 25 years of retirement credit. To be classified as a police and fire member, the individual must have been employed continuously as a police and fire member for at least five years immediately preceding retirement.

General service: 1.5 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for general service members is age 65, or age 58 with 30 years of retirement credit.

A member of the pension program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which termination becomes effective.

- ii. **Death Benefits**. Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse, receives for life 50 percent of the pension that would otherwise have been paid to the deceased member. The surviving spouse may elect to delay payment of the death benefit, but payment must commence no later than December 31 of the calendar year in which the member would have reached 70½ years.
- iii. **Disability Benefits**. A member who has accrued 10 or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary determined as of the last full month of employment before the disability occurred.

Contributions — PERS funding policy provides for monthly employer contributions at actuarially determined rates. These contributions, expressed as a percentage of covered payroll, are intended to accumulate sufficient assets to pay benefits when due. The funding policy applies to the PERS Defined Benefit Plan and the Other Postemployment Benefit Plans. Employer contribution rates during the period were based on the December 31, 2017 actuarial valuation, which became effective July 1, 2019. The state of Oregon and certain schools, community colleges, and political subdivision have made unfunded actuarial liability payments and their rates have been reduced. Effective January 1, 2020, Senate Bill 1049 requires employees to pay contributions on re-employed PERS retirees' salaries as if they were an active member, excluding IAP (6%) contributions. Employer contributions for the year ended June 30, 2021 were \$10,759,793 excluding amounts to fund employer specific liabilities. In addition, approximately \$2,260,314 in employee contributions were paid or picked up by the District in 2020-2021.

Pension Asset or Liability – At June 30, 2021, the District reported a net pension liability of \$83,966,618 for its proportionate share of the net pension liability. The pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation dated December 31, 2018. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. As of the measurement dates of June 30, 2020 and 2019, the District's proportion was .385 percent and .405 percent, respectively. Pension expense for the year ended June 30, 2021 was \$7,386,309.

NOTES TO BASIC FINANCIAL STATEMENTS

7. Defined Benefit Pension Plan (continued)

The rates in effect for the year ended June 30, 2021 were:

- (1) Tier 1/Tier 2 32.03%
- (2) OPSRP general services 26.58%

	Deferred Outflow of Resources		Deferred Inflow of Resources

2025	(43,517)		
Thereafter	· -		
Total	\$ 14,923,614		

All assumptions, methods and plan provisions used in these calculations are described in the Oregon PERS systemwide GASB 68 reporting summary dated March 4, 2021 Oregon PERS produces an independently audited CAFR which can be found at:

https://www.oregon.gov/pers/Documents/Financials/CAFR/2020-CAFR.pdf

<u>Actuarial Valuations</u> – The employer contribution rates effective July 1, 2019 through June 30, 2021, were set using the entry age normal actuarial cost method. For the Tier One/Tier Two component of the PERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (1) an amount for normal cost (estimated amount necessary to finance benefits earned by employees during the current service year), (2) an amount for the amortization unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial liabilities being amortized over 20 years.

NOTES TO BASIC FINANCIAL STATEMENTS

7. DEFINED BENEFIT PENSION PLAN (CONTINUED)

For the OPSRP Pension Program component of the PERS Defined Benefit Plan, this method produced an employer rate consisting of (a) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (b) an actuarially determined amount for funding a disability benefit component, and (c) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 16 years.

Actuarial Methods and Assumptions:

Valuation Date	December 31, 2018	
Experience Study Report	2018, Published July 24, 2019	
Actuarial cost method	Entry Age Normal	
Amortization method	Level percentage of payroll	
Asset valuation method	Market value of assets	
Inflation rate	2.50 percent	
Investment rate of return	7.20 percent	
Discount rate	7.20 percent	
Projected salary increase	3.50 percent	
Cost of Living Adjustment Blend of 2% COLA and graded COLA (1.25%/0.15%) in accordance		
	with Moro decision, blend based on service	
	Healthy retirees and beneficiaries:	
	Pub-2010 Healthy annuitant, sex-distinct, generational with Unisex, Social	
	Security Data Scale, with collar adjustments and set-backs as described in	
	the valuation. Active members: Pub-2010 Employees, sex-distinct,	
Mortality	generational with Unisex, Social Security Data Scale, with collar	
l	adjustments and set-backs as described in the valuation. Disabled retirees:	
	Pub-2010 Disabled retirees, sex-distinct, generational with Unisex, Social	
	Security Data Scale, with job category adjustments and set-backs as	
	described in the valuation.	

Actuarial valuations of an ongoing plan involve estimates of value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The method and assumptions shown are based on the 2018 Experience Study which is reviewed for the four-year period ending December 31, 2018.

Total			100.0%

(Source: June 30, 2020 PERS ACFR; p. 102)

Long-Term Expected Rate of Return:

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in May 2019 the PERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. The table below shows Milliman's assumptions for each of the asset classes in which the plan was invested at that time based on the OIC long-term target asset allocation. The OIC's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

Asset Class	Target Allocation	Compounf Annual (Geometric) Return
Core Fixed Income	9.60%	4.07%
Short-Term Bonds	9.60%	3.68%
Bank/Leveraged Loans	3.60%	5.19%

Assumed Inflation - Mean		2.50%

(Source: June 30, 2020 PERS ACFR; p. 74)

NOTES TO BASIC FINANCIAL STATEMENTS

7. DEFINED BENEFIT PENSION PLAN (CONTINUED)

Discount Rate – The discount rate used to measure the total pension liability as of the measurement dates of June 30, 2020 and 2019 was 7.20 percent for both years, for the Defined Benefit Pension Plan. The projection of cash flows used to determine the discount rate assumed that contributions from the plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Defined Benefit Pension Plan was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate – The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.20 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.20 percent) or 1-percentage-point higher (8.20 percent) than the current rate.

	1	% Decrease (6.20%)	Di	scount Rate (7.20%)	1	% Increase (8.20%)
District's proportionate share of	***************************************			(1.201.0)		(0.2070)
the net pension liability	\$	124,683,493	\$	83,966,618	\$	49,823,631

Changes Subsequent to the Measurement Date

As described above, GASB 67 and GASB 68 require the Total Pension Liability to be determined based on the benefit terms in effect at the Measurement Date. Any changes to benefit terms that occurs after that date are reflected in amounts reported for the subsequent Measurement Date. However, Paragraph 80f of GASB 68 requires employers to briefly describe any changes between the Measurement Date and the employer's reporting date that are expected to have a significant effect on the employer's share of the collective Net Pension Liability, along with an estimate of the resulting change, if available.

There are no changes subsequent to the June 30, 2020 Measurement Date that meet this requirement.

OPSRP Individual Account Program (OPSRP IAP)

Plan Description:

Employees of the District are provided with pensions through OPERS. All the benefits of OPERS are established by the Oregon legislature pursuant to Oregon Revised Statute (ORS) Chapters 238 and 238A. Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003. Chapter 238A created the Oregon Public Service Retirement Plan (OPSRP), which consists of the Defined Benefit Pension Program and the Individual Account Program (IAP). Membership includes public employees hired on or after August 29, 2003. PERS members retain their existing defined benefit plan accounts, but member contributions are deposited into the member's IAP account. OPSRP is part of OPERS, and is administered by the OPERS Board.

NOTES TO BASIC FINANCIAL STATEMENTS

7. DEFINED BENEFIT PENSION PLAN (CONTINUED)

Pension Benefits:

Participants in OPERS defined benefit pension plans also participate in their defined contribution plan. An IAP member becomes vested on the date the employee account is established or on the date the rollover account was established. If the employer makes optional employer contributions for a member, the member becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, the date the IAP is terminated, the date the active member becomes disabled, or the date the active member dies. Upon retirement, a member of the OPSRP IAP may receive the amounts in his or her employee account, rollover account, and vested employer account as a lump-sum payment or in equal installments over a 5-, 10-, 15-, 20-year period or an anticipated life span option. Each distribution option has a \$200 minimum distribution limit.

Death Benefits:

Upon the death of a non-retired member, the beneficiary receives in a lump sum the member's account balance, rollover account balance, and vested employer optional contribution account balance. If a retired member dies before the installment payments are completed, the beneficiary may receive the remaining installment payments or choose a lump-sum payment.

Contributions:

Employees of the District pay six (6) percent of their covered payroll. Effective July 1, 2020, currently employed Tier 1/Tier 2 and OPSERP members earning \$2,500 or more per month will have a portion of their 6 percent monthly IAP contributions redirected to an Employee Pension Stability Account. The Employee Pension Stability Account will be used to pay part of the member's future benefit. Of the 6 percent monthly IAP contribution, Tier 1/Tier 2 will have 2.5 percent redirected to the Employee Pension Stability Account and OPSERP will have 0.75 percent redirected to the Employee Pension Stability Account, with the remaining going to the member's existing IAP account. Members may voluntarily choose to make additional after-tax contributions into their IAP account to make a full 6 percent contribution to the IAP. The District did not make any optional contributions to member IAP accounts for the year ended June 30, 2021.

Additional disclosures related to Oregon PERS not applicable to specific employers are available online, or by contacting PERS at the following address: PO Box 23700 Tigard, OR 97281-3700.

http://www.oregon.gov/pers/EMP/Pages/GASB.aspx

NOTES TO BASIC FINANCIAL STATEMENTS

8. OTHER POST-EMPLOYMENT BENEFIT PLAN - (RHIA)

Plan Description:

As a member of Oregon Public Employees Retirement System (OPERS) the District contributes to the Retirement Health Insurance Account (RHIA) for each of its eligible employees. RHIA is a cost-sharing multiple-employer defined benefit other postemployment benefit plan administered by OPERS. RHIA pays a monthly contribution toward the cost of Medicare companion health insurance premiums of eligible retirees. Oregon Revised Statute (ORS) 238.420 established this trust fund. Authority to establish and amend the benefit provisions of RHIA reside with the Oregon Legislature. The plan is closed to new entrants after January 1, 2004. OPERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Oregon Public Employees Retirement System, PO Box 23700, Tigard, OR 97281-3700.

Funding Policy:

Because RHIA was created by enabling legislation (ORS 238.420), contribution requirements of the plan members and the participating employers were established and may be amended only by the Oregon Legislature. ORS require that an amount equal to \$60 dollars or the total monthly cost of Medicare companion health insurance premiums coverage, whichever is less, shall be paid from the Retirement Health Insurance Account established by the employer, and any monthly cost in excess of \$60 dollars shall be paid by the eligible retired member in the manner provided in ORS 238.410. To be eligible to receive this monthly payment toward the premium cost the member must: (1) have eight years or more of qualifying service in OPERS at the time of retirement or receive a disability allowance as if the member had eight years or more of creditable service in OPERS, (2) receive both Medicare Parts A and B coverage, and (3) enroll in an OPERS-sponsored health plan. A surviving spouse or dependent of a deceased OPERS retiree who was eligible to receive the subsidy is eligible to receive the subsidy if he or she (1) is receiving a retirement benefit or allowance from OPERS or (2) was insured at the time the member died and the member retired before May 1, 1991.

Participating employers are contractually required to contribute to RHIA at a rate assessed each year by OPERS, and the District currently contributes 0.06% of annual covered OPERF payroll and 0.00% of OPSRP payroll under a contractual requirement in effect until June 30, 2021. The OPERS Board of Trustees sets the employer contribution rates based on the annual required contribution of the employers (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years. The District's contributions to RHIA for the year ended June 30, 2021 equaled the required contribution amounts.

At June 30, 2021, the District reported a net OPEB asset of \$1,125,373 for its proportionate share of the net OPEB asset. The OPEB asset was measured as of June 30, 2020, and the total OPEB asset used to calculate the net OPEB asset was determined by an actuarial valuation as of December 31, 2018. Consistent with GASB Statement No. 75, paragraph 59(a), the District's proportion of the net OPEB asset is determined by comparing the employer's actual, legally required contributions made during the fiscal year to the Plan with the total actual contributions made in the fiscal year of all employers. As of the measurement dates of June 30, 2020 and 2019, the District's proportion was .55 percent and .31 percent, respectively. OPEB income for the year ended June 30, 2021 was \$349,916

NOTES TO BASIC FINANCIAL STATEMENTS

Mortality	adjustments and set-backs as described in the valuation.

Actuarial valuations of an ongoing plan involve estimates of value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The method and assumptions shown are based on the 2018 Experience Study which is reviewed for the four-year period ending December 31, 2018.

NOTES TO BASIC FINANCIAL STATEMENTS

8. OTHER POST-EMPLOYMENT BENEFIT PLAN - (RHIA) (CONTINUED)

Discount Rate:

The discount rate used to measure the total OPEB liability as of the measurement dates of June 30, 2020 and 2019 was 7.20 and 7.20 percent, respectively. The projection of cash flows used to determine the discount rate assumed that contributions from contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the RHIA plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments for the RHIA plan was applied to all periods of projected benefit payments to determine the total OPEB liability.

Long-Term Expected Rate of Return:

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in May 2019 the PERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. The table below shows Milliman's assumptions for each of the asset classes in which the plan was invested at that time based on the OIC long-term target asset allocation. The OIC's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

	Target	Compound Annual
Asset Class	Allocation	(Geometric) Return
Core Fixed Income	9.60%	4.07%
Short-Term Bonds	9.60%	3.68%
Bank/Leveraged Loans	3.60%	5.19%
High Yield Bonds	1.20%	5.74%
Large/Mid Cap US Equities	16.17%	6.30%
Small Cap US Equities	1.35%	6.68%
Micro Cap US Equities	1.35%	6.79%
Developed Foreign Equities	13.48%	6.91%
Emerging Market Equities	4.24%	7.69%
Non-US Small Cap Equities	1.93%	7.25%
Private Equity	17.50%	8.33%

NOTES TO BASIC FINANCIAL STATEMENTS

8. OTHER POST-EMPLOYMENT BENEFIT PLAN - (RHIA) (CONTINUED)

Sensitivity of the District's proportionate share of the net OPEB liability/(asset) to changes in the discount rate – The following presents the District's proportionate share of the net OPEB liability/(asset) calculated using the discount rate of 7.20 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.20 percent) or 1-percentage-point higher (8.20 percent) than the current rate.

	 Decrease (6.20%)	scount Rate (7.20%)	1	% Increase (8.20%)
District's proportionate share of the net OPEB liability/(asset)	\$ (908,549)	\$ (1,125,373)	\$	(1,310,766)

Changes Subsequent to the Measurement Date

There are no changes subsequent to the June 30, 2020 Measurement Date that meet this requirement and thus would require a brief description under the GASB standard.

9. OTHER POST-EMPLOYMENT BENEFITS (OPEB)

<u>Plan Description</u> – A single-employer retiree benefit plan is operated that provides postemployment health, dental vision and life insurance benefits to eligible employees and their spouses. The District provides retiree benefits through the Oregon Educator Benefit Board (OEBB). Retirees may choose health plans through MODA or Kaiser, and dental plans through ODS. There are active and retired members in the plan. Benefits and eligibility for members are established through the collective bargaining agreements.

The post-retirement healthcare plan was established in accordance with Oregon Revised Statutes (ORS) 243.303. ORS stipulated that for the purpose of establishing healthcare premiums, the rate must be based on all plan members, including both active employees and retirees. The difference between retiree claims cost, which because of the effect of age is generally higher in comparison to all plan members, and the amount of retiree healthcare premiums represents the implicit employer contribution.

An irrevocable trust (or equivalent arrangement) was not established to account for the plan.

<u>Funding Policy</u> – The benefits from this program are paid by the retired employees on a self-pay basis and the required contribution is based on projected pay-as-you go financing requirements. There is no obligation on the part of the District to fund these benefits in advance.

Annual OPEB Cost and Total OPEB Liability - The annual other postemployment benefit (OPEB) cost is calculated based on the Total OPEB Liability, an amount actuarially determined in accordance with the parameters of GASB Statement 75. For detailed information and a table showing the components of the District's annual OPEB costs and liabilities, see page 45.

NOTES TO BASIC FINANCIAL STATEMENTS

9. OTHER POST-EMPLOYMENT BENEFITS (OPEB) (CONTINUED)

Actuarial Methods and Assumptions – The Total OPEB Liability for the current year was determined as part of the July 1, 2019 actuarial valuation using the entry age normal method. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about mortality, claim cost and the healthcare cost trend. The actuarial assumptions included; (a) a rate of return on investment of present and future assets of 3.50% compounded annually; (b) no future increase in benefit payable from this program; and (c) no post-retirement benefit increases and a payroll increase of 3.50%. Amounts determined regarding the funded status of the plan and the annual required contribution of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

The following tables show sensitivity of the Total OPEB Liability to changes in discount and trend rates, as determined by the July 1, 2020 actuarial valuation and rolled forward to June 30, 2021:

Discount Rate Sensitivity

	4.	n c m	Current	
	1.	% Decrease	Discount Rate	1% Increase
		1.25%	2.25%	3.25%
Total OPEB Liability	\$	4,110,752	\$ 3,765,460	\$ 3,444,222
Trend Rate Sensitivity				
			Current	
		1% Decrease	Trend Rate	1% Increase
	2	2.50% Graded	3.50% Graded	4.50% Graded
		own to 3.50%	 Down to 4.50%	Down to 5.50%
Total OPEB Liability	\$	3,244,463	\$ 3,765,460	\$ 4,397,691

For the year ended June 30, 2021, the District recognized OPEB expense for Health Insurance of (\$281,884). At June 30, 2021, the District reported deferred outflows and deferred inflows of resources related to OPEB for Health Insurance from the following sources:

	Deferred Deferr Outflows Inflow		ferred flows
Differences between expected and actual experienced	\$ 34,803	\$	-
Change of assumptions	 -	(7	31,121)
Subtotal- Amortized Deferrals (Below)	34,803	(7	31,121)
Benefit Payments	-		_
Total as of June 30, 2021	\$ 34,803	\$ (7	31,121)

NOTES TO BASIC FINANCIAL STATEMENTS

9. OTHER POST-EMPLOYMENT BENEFITS (OPEB) (CONTINUED)

Subtotal amounts related to OPEB as deferred outflows of resources, \$34,803, and deferred inflows of resources, (\$731,121), net to (\$696,318) and will be recognized in OPEB expense as follows:

Ann	ual Recognition
\$	(92,079)
\$	(92,079)
\$	(92,079)
\$	(92,079)
\$	(92,079)
	(235,923)
\$	(696,318)
	\$ \$ \$

<u>Funding Status and Funding Progress</u> – As of July 1, 2018, the plan was 0% funded. For detailed information and a table showing the components of the District's annual OPEB costs and liabilities, see page 45.

Program membership consisted of the following as of the July 1, 2020 actuarial valuation date:

Participant Counts:

Active	648
Inactive	15
Total	663

10. PROPERTY TAX LIMITATION

The voters of the State of Oregon approved ballot measure 5, a constitutional limit on property taxes for schools and non-school government operations, in November, 1990. School operations include community colleges, local school districts, and education service districts.

The limitation provides that property taxes for school operations are limited to \$5.00 for each \$1,000 of property market value. This limitation does not apply to taxes levied for principal and interest on general obligation bonded debt. The result of this initiative has been that school districts have become more dependent upon state funding and less dependent upon property tax revenues as their major source of operating revenue.

The voters of the State of Oregon passed ballot measure 50 in May 1997 to further reduce property taxes by replacing the previous constitutional limits on tax bases with a rate and value limit. Measure 50 reduced the amount of operating property tax revenues available for the 1998-99 fiscal year, and thereafter. This reduction is accomplished by rolling property values back to their 1995-96 values less 10% and limiting future tax value growth of each property to no more than 3% per year, subject to certain exceptions. Taxes levied to support bonded debt are exempted from the property tax limitations. The measure also sets restrictive voter approval requirements for most tax and many fee increases and new bond issues, and requires the State of Oregon to minimize the impact of the tax cuts to the school districts. The ultimate impact to the District as a result of the measure has been greater reliance on state funding and less reliance on local funding.

NOTES TO BASIC FINANCIAL STATEMENTS

11. OPERATING LEASES

There are leases for equipment, primarily copiers, and a parking area and facility under non-cancelable lease agreements. The facility being leased is located at 1274 North 5th Street in Woodburn with a monthly payment of \$7,824 effective through September 30, 2023. Total operating leases payments of \$152,312 were made for the year ended June 30, 2021.

Future payments associated with operating leases are due as follows:

Fiscal Year			Fac	ility/Parking				
Ending June 30,	Ec	quipment		Area	Total			
2022	\$	47,354	\$	96,290	\$	143,644		
2023		21,776		96,290		118,065		
2024		10,053		24,672		34,725		
	\$	79,183	\$	217,252	\$	296,434		

12. RISK MANAGEMENT

There is exposure to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters for which commercial insurance is purchased. There were no significant reductions in insurance coverage from coverage in prior years in any of the major categories of risk. Also, the amounts of any settlements have not exceeded insurance coverage for any of the past three fiscal years.

13. INTERFUND RECEIVABLE/PAYABLE AND INTERFUND TRANSFERS

Amounts were comprised of the following:

	<u>T</u>	ransfers In	Tr	ansfers Out	 Interfund Receivable]	Interfund Payable		
General Fund	\$	10,000	\$	561,600	\$ 2,653,749	\$	77,561		
Special Revenue Fund		5,200		536,400	-		2,475,628		
Debt Service Fund		1,072,800		-	77,561		178,121		
Facilities & Construction Fund		10,000		_	-		_		
	\$	1,098,000	\$	1,098,000	\$ 2,731,310	\$	2,731,310		

Transfers were made to fund operations, and the internal receivables/payables are used as a pooling of cash between various funds.

14. TAX ABATEMENTS

As of June 30, 2021, the District potentially had tax abatements through various state allowed programs that impacted levied taxes. Based on the information available from the county as of the date of issuance of these basic financial statements, the amount of abatements for the year ended June 30, 2021 is deemed immaterial.

NOTES TO BASIC FINANCIAL STATEMENTS

15. COMMITMENTS AND CONTINGENCIES

Substantially all amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the management expects such amounts, if any, to be immaterial.

A substantial portion of operating funding is received from the State of Oregon. State funding is determined through state wide revenue projections that are paid to individual school districts based on pupil counts and other factors in the state school fund revenue formula. Since these projections and pupil counts fluctuate they can cause either increases or decreases in revenue. Due to these future uncertainties at the state level, the future effect on the operations cannot be determined.

The District in the course of normal operations is subject to litigation. As of the financial statement issuance date there is no material pending or threatened litigation that would have an adverse effect on the financial condition of the District.

The COVID-19 outbreak in the United States has caused substantial disruption to business and local governments due to mandated and voluntary suspension of operations and stay at home orders. There is considerable uncertainty around the duration of the outbreak and the long-term impact to the overall economy. The ultimate impact on the District's finances is not determinable at this time.

16. Debt Service Fund Balance

The District has a negative fund balance in the Debt Service Fund in the amount of (\$54,747). The fund balance will be addressed with Transfers from the General Fund in the coming year.

December 29, 2021

### **Independent Auditors' Report Required by Oregon State Regulations**

We have audited the basic financial statements of the Woodburn School District No. 103 as of and for the year ended June 30, 2021, and have issued our report thereon dated December 29, 2021. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and Government Auditing Standards.

#### Compliance

As part of obtaining reasonable assurance about whether the basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statues as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of basic financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to the following:

- Deposit of public funds with financial institutions (ORS Chapter 295)
- Indebtedness limitations, restrictions and repayment.
- Budgets legally required (ORS Chapter 294).
- Insurance and fidelity bonds in force or required by law.
- Programs funded from outside sources.
- Authorized investment of surplus funds (ORS Chapter 294).
- Public contracts and purchasing (ORS Chapters 279A, 279B, 279C).
- State school fund factors and calculation.

In connection with our testing, nothing came to our attention that caused us to believe the District was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations. Expenditures were within authorized appropriation levels.

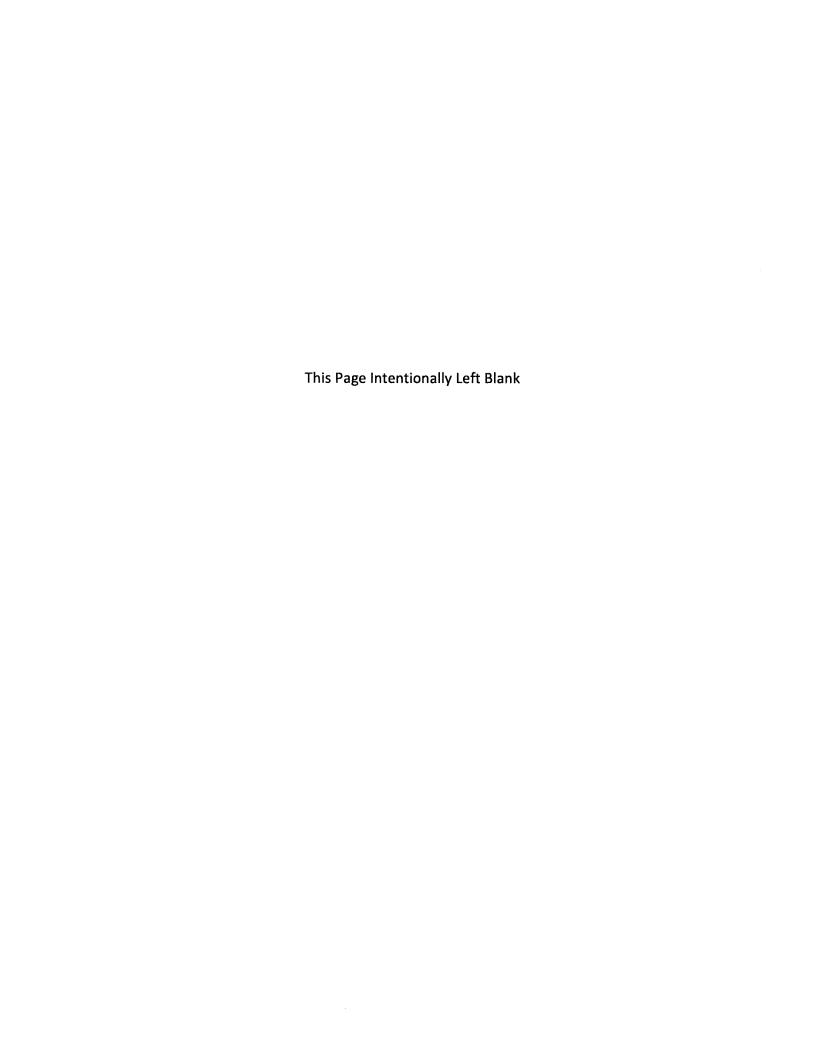

#### OAR 162-10-0230 Internal Control

In planning and performing our audit, we considered the internal controls over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of the internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the internal controls over financial reporting.

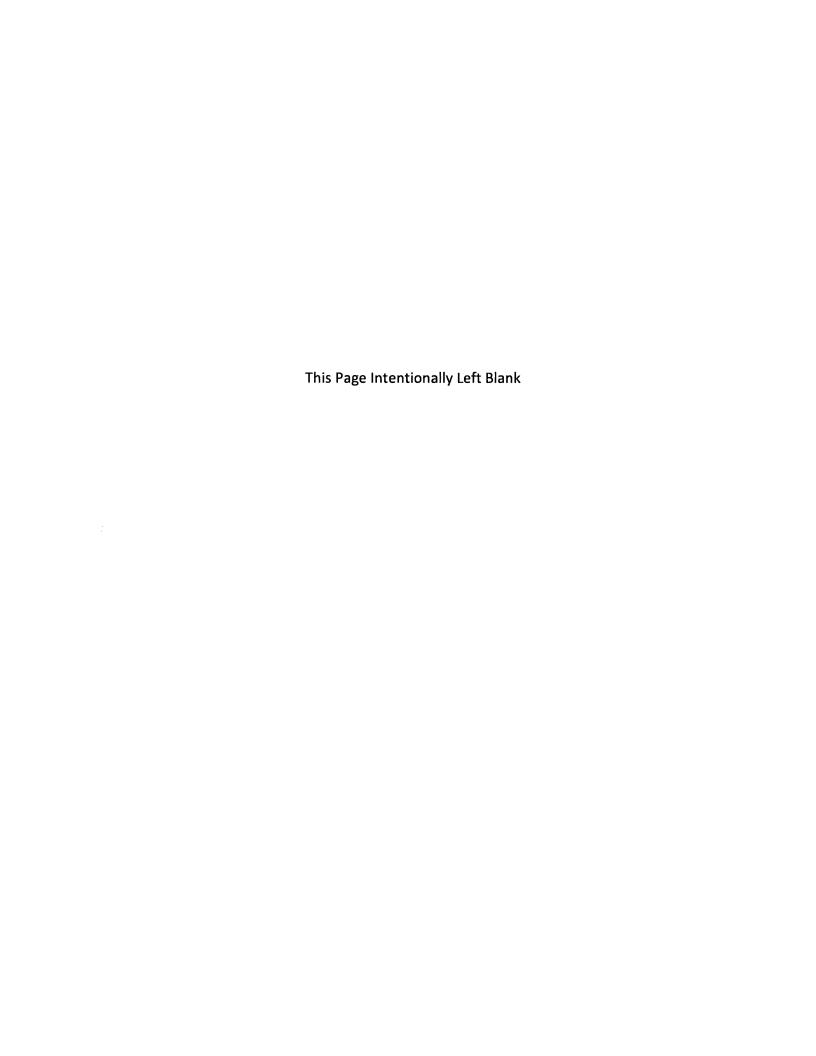

This report is intended solely for the information and use of the Board and Management and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.

Roy R Rogers, CPA

To the Board of Directors Woodburn School District No. 103 Marion County, Oregon

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the basic financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Woodburn School District No. 103 as of and for the year ended June 30, 2021, and the related notes to the basic financial statements, which collectively comprise the basic financial statements, and have issued our report thereon dated December 29, 2021.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the basic financial statements, we considered the internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of internal control. Accordingly, we do not express an opinion on the effectiveness of internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the basic financial statements will not be prevented, or detected and corrected on a timely basis.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the basic financial statements are free from material misstatement, we performed tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of basic financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

December 29, 2021

To the Board of Directors Woodburn School District No. 103 Marion County, Oregon

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

#### Report on Compliance for Each Major Federal Program

We have audited Woodburn School District No. 103's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the major federal programs for the year ended June 30, 2021. The major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

#### **Auditors' Responsibility**

Our responsibility is to express an opinion on compliance for each of the major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of compliance.

#### **Opinion on Each Major Federal Program**

In our opinion, Woodburn School District No. 103 complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

### Report on Internal Control Over Compliance

Management is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis.

A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

\$750,000

### SCHEDULE OF FINDINGS AND QUESTIONED COSTS

For the Year Ended June 30, 2021

#### SECTION II – FINANCIAL STATEMENT FINDINGS

None

## SECTION III - FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

None

### NOTES TO SCHEDULE OF EXPENDITURE OF FEDERAL AWARDS

#### 1. BASIS OF PRESENTATION

The schedule of expenditures of federal awards as listed in the table of contents, includes the federal grant activity and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the schedule of expenditure of federal awards are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowed or are limited as to reimbursement. Negative amounts shown on the schedule represent adjustments or credits made in the normal court of business to amounts reported as expenditures in prior years. The District elected not to use the ten percent de minimis indirect cost rate as allowed under Uniform Guidance, since they already have a negotiated indirect cost rate with Oregon Department of Education, and therefore are not allowed to use the de minimis rate.
