

SECTION 4
FACILITIES

FACILITIES

4.1 Overview

In September 2008, ISL Qatar opened in its new home, a modern, purpose-built campus in the northern suburbs of Doha. The buildings have been developed to embody the school's philosophy of child-focused education. It offers a curriculum appropriate to the 21st century, using methods and technologies that engage children while advancing their learning and knowledge. We also offer facilities for sport and recreation, for individualised learning and research, and personal development and growth.

4.2 Teaching Areas

The primary and secondary sections of the school share some facilities; however, the vast majority of classrooms are for dedicated age-appropriate use. To cater for the different ages and learning styles, specially designed teaching areas surround a central open atrium which is the heart of our school community. There are 28 primary classrooms including newly-built facilities for our early childhood students. Secondary classrooms include 5 Science labs, an Art room, Design Workshop, Drama Studio, Film Room, Music/Performing Arts classrooms, Mother-Tongue classrooms and subject-specific classes for delivery of each of the curriculum areas. We have a well-resourced main library, opened in November 2012. Instrumental lessons, available through our Rock School Programme (<https://www.rslawards.com/rockschool/>), are taught in a suite of purpose-built music practice rooms.

4.3 Sports facilities

Our commitment to outdoor and physical education is reflected in the sports facilities which include a large multi-purpose sports hall, 25 metre swimming pool, 14 metre splash pool for younger children, multi-purpose hall for early childhood students, an all-weather sports pitch and outdoor football/ basketball/handball courts. Extensive use is made of these facilities for PHE lessons and the diverse extra-curricular programme offered by ISL Qatar.

4.4 Recreational areas

Students have access to extensive recreational areas inside and outside school to enable them to enjoy periods of having fun together in supervised recreational spaces. Recreational spaces include the main internal atrium, shaded areas, study areas and a common room for G11/12 students and extensive external play areas. There is space for all students to play together or simply expend some energy.
