Notre Dame Academy

School Report Card
November 2022

Data-Driven Decisions

The Notre Dame Academy Report Card presents longitudinal data in a number of areas that are regularly monitored. The information is the result of systematic, robust processes of data collection and analysis. Conclusions based on the consistent review of both academic and demographic student data are used to inform decision making and school improvement.

NDA uses the STAR suite of tests, administered to students grades 9-11 three times a year. STAR reading and math tests are nationally normed and aligned with the ACT. STAR scores are used along with attendance and course enrollment to monitor student achievement, growth and college and career readiness.

At a Glance...

60+%

Juniors and seniors enrolled in at least one honors, dual credit or IB class
