

7-12 Options

Which is right for your student?

Google Classroom

This option works well for families wanting a classroom option with live virtual interactions with a teacher and other students.

- ★ Google Classroom is an asynchronous learning platform with synchronous learning opportunities established by each teacher.
- ★ Students can attend live virtual office hours, small group learning sessions, or individual learning sessions scheduled with teachers.
- ★ Students will access all information, zoom links, assignments, grades, communication, etc in their Google Classroom(s).
- ★ Students are required to maintain adequate progress and regular attendance.

Edmentum

This option works well for families wanting a more flexible learning schedule and do not want to attend live learning sessions.

- ★ Edmentum is an asynchronous learning platform. This platform allows for more flexibility with at home learning schedules.
- ★ There are no required live zoom sessions.
- ★ Progress through the coursework will be monitored by a certified local teacher that will communicate with families when needed.
- ★ Learning coaches are responsible for establishing a learning schedule that works for each child and family.
- ★ Students are required to maintain adequate progress and regular attendance in all content areas.

To be successful in virtual learning for both options:

- ★ Students need a consistent, dedicated adult at home to serve as a learning coach:
 - Provide a quiet place for child to learn
 - Help with virtual and physical learning tools
 - Ensure assignments are completed and turned in on time
 - Consistently communication with child's teacher(s)

We want all students to be successful. Selecting the best learning environment and having an active and dedicated learning coach is critical to each child's success.

Communicating regularly with the teacher(s) and school liaison is vital in making virtual learning a successful experience for your child!
