Did you know that Rochester Public Schools has an Employees of Color Resource Group?

The Employees of Color Resource Group’s mission is to provide an affinity space for Employees of Color to understand how our racial/ethnic identities impact our experiences at RPS and to collaborate with the District in creating a more supportive, anti-racist school and work environment for students and staff. We seek to increase the retention of Black, Indigenous, and other Staff of Color by supporting and celebrating the impactful work we do to inspire, challenge and empower all students.
