# INDEPENDENT AUDITORS' REPORT

To the Board of Education of the Mount Pleasant Central School District, New York:

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Mount Pleasant Central School District, New York ("School District") as of and for the year ended June 30, 2011, which collectively comprise the School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the School District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the School District as of June 30, 2011 and the respective changes in financial position, thereof, and the respective budgetary comparison for the General and Special Aid funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated September 13, 2011 on our consideration of the School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis and the Schedule of Funding Progress - Other Post Employment Benefits be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical

context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements as a whole. The combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments and Non-Profit Organizations, and is also not a required part of the financial statements. The combining and individual fund financial statements and schedules and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

O'Connor Davies Munns & Dobbins, LLP Harrison, New York September 13, 2011

# Mt. Pleasant Central School District, New York Management's Discussion and Analysis (MD&A) June 30, 2011

#### Introduction

Our discussion and analysis of the Mt. Pleasant Central School District, New York's financial performance provides an overview of the School District's financial activities for the year ended June 30, 2011. It should be read in conjunction with the basic financial statements, which immediately follows this section, to enhance understanding of the School District's financial performance.

# **Financial Highlights**

Key financial highlights for fiscal year ended June 30, 2011 are as follows:

At the end of the last fiscal year 2009-2010, the total fund balance of the General Fund was \$6,664,234 and the restricted fund balance was \$3,359,910, the assigned fund balance was \$1,289,134, and the unassigned fund balance was \$2,015,190. At the end of the current fiscal year the fund balance was \$6,898,778. The restricted balance was \$3,565,662, the assigned fund balance was \$1,280,118, and the unassigned fund balance was \$2,052,998. New York State Law limits the amount of unassigned fund balance that can be retained by the General Fund to 4% of the ensuing year's budget, exclusive of the amount designated from the subsequent year's budget. The increase in fund balance, \$234,544, was primarily due to controlling expenditures while maintaining revenues. Expenditures overall were approximately \$1.8 million less than the final budget. There were significant savings in regular school instruction, programs for students with disabilities, transportation, and employee benefits. Regular school instruction savings were achieved by reducing staff, replacing retiree positions at lower costs, and improving staffing efficiencies. In special education, we continued several programs within our curriculum so that we did not incur the planned tuition and transportation costs of outside We also realized savings in contractual costs for related services and contractual salaries. Redesigned bus routes created greater efficiency, which resulted in substantial savings in transportation. In employee benefits, we realized savings in social security costs and other miscellaneous employee fringe benefits costs.

Our revenues were higher than planned due to an increase in the county sales tax received. Sales tax received was approximately \$235,000 higher than budgeted amounts. As a result of controlling expenditures and increased revenues, the fund balance was significantly improved for the fifth year in a row, which in turn allowed the District to increase the amount designated for subsequent year's expenditures to balance the 2011/12 budget.

 On the district-wide financial statements, the liabilities of the School District exceeded assets by \$2,337,052. Of this amount, the unrestricted portion is a deficit of \$13,881,248. This deficit results from the payment of tax certioraris that were financed through longterm borrowings and the recognition of the other post employment benefit obligations ("OPEB") as required under the provisions of Governmental Accounting Standards Board ("GASB") Statement No. 45. The GASB is charged with developing the accounting rules that apply to governments, including school districts and BOCES. These obligations include any benefits provided to retirees, other than a pension, including health insurance, life insurance, vision and dental. GASB Statement No. 45 establishes standards for an accrual based measurement and recognition of OPEB expenses over periods that approximate employees' years of active service, as well as the required note disclosures. For the year ending June 30, 2011, the School District's OPEB obligation of \$7,715,237 is reflected as a liability on the district-wide financial statements, and accordingly is a major factor in the decrease in total net assets.

#### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the School District's basic financial statements. The School District's basic financial statements are comprised of three components: (1) district-wide financial statements, (2) fund financial statements and (3) notes to the financial statements. This report also contains individual fund statements and schedules in addition to the basic financial statements.

#### District-Wide Financial Statements

- The district-wide financial statements are designed to provide readers with a broad overview of the School District's finances, in a manner similar to a private-sector bûsiness.
  - The *statement of net assets* presents information on all of the School District's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the School District is improving or deteriorating.
  - The statement of activities presents information showing how the District's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.
  - The *governmental* activities of the School District include instruction, pupil transportation, cost of food sales, interest, other and general administrative support.

The district-wide financial statements can be found on the pages immediately following this section as the first two pages of the basic financial statements.

#### Fund Financial Statements

 A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. All of the funds of the School District can be divided into two categories: governmental funds and fiduciary funds.

- Governmental funds are used to account for essentially the same functions reported as
  governmental activities in the district-wide financial statements. However, unlike the
  district-wide financial statements, governmental fund financial statements focus on nearterm inflows and outflows of spendable resources, as well as on balances of spendable
  resources available at the end of the fiscal year. Such information may be useful in
  evaluating the School District's near-term financing requirements.
- Because the focus of governmental funds is narrower than that of the district-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the district-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.
- The School District maintains five individual governmental funds; General Fund, Special Aid Fund, School Lunch Fund, Special Purpose Fund, and Capital Projects Fund. The General and Capital Projects funds are considered major funds and information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for these funds. The remaining funds are non-major and their information is aggregated and presented in a single column as other governmental funds.
- The School District adopts an annual budget for its General Fund. A budgetary comparison statement has been provided for the General Fund within the basic financial statements to demonstrate compliance with the respective budget.
- The Fiduciary Funds are used to account for assets held by the School District in an agency capacity on behalf of others. Fiduciary funds are not reflected in the district-wide financial statement because the resources of these funds are not available to support the School District's programs.

The financial statements for the governmental and fiduciary funds can be found in the basic financial statements section of this report.

#### Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the district-wide and fund financial statements. The notes to the financial statements can be found following the basic financial statements section of this report.

# **District-Wide Financial Analysis**

This is the fifth year for district-wide financial statements using the full accrual basis of accounting; therefore a comparison with prior years is available.

As noted earlier, net assets may serve over time as a useful indicator of the School District's financial position. In the case of the Mount Pleasant Central School District, New York, liabilities exceeded assets by \$2,337,052 at the close of the current fiscal year.

#### **Net Assets**

Unrestricted		(13,881,248)		(12,271,988)
Total Net Assets	\$	(2,337,052)	\$	(1,829,392)

By far, the largest component of the School District's net assets is its investment in capital assets, less any related debt used to acquire those assets that is still outstanding. The School District uses these capital assets to provide services to the students and consequently, these assets are not available for future spending. Although the School District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Those assets subject to external restrictions constitute \$3,913,954 of the total net assets. The balance of unrestricted net assets, a deficit of (\$13,881,248) is related to financed tax certioraris and recognition of OPEB expenses in accordance with GASB Statement No. 45.

# **Changes in Net Assets**

Change in Net Assets	(507,660)	(971,140)
Net Assets - Beginning	(1,829,392)	(858,252)
Net Assets - Ending	\$ (2,337,052)	\$ (1,829,392)

# The major changes are as follows:

#### Revenues:

- Capital grants and contributions decreased as a result of Expanding our Children's Education and Learning (EXCEL) Aid in the amount of \$300,000 in the previous year.
- Real property taxes decreased by \$1,184,432. This was a result of a lower tax levy associated with the 2010-11 school budget.
- Other tax items include the reimbursement received from the School Tax Relief Reimbursement Program (STAR). The STAR Program provides tax relief to homeowners through New York State reimbursement to the District.
- The decrease in Unrestricted Federal Aid of \$339,499 was a result of a smaller allocation from the New York State appropriation under the American Recovery and Reinvestment Act of 2009.

# Expenses:

- General Support expenses decreased by \$951,502. This decrease was primarily the result of a significant tax certiorari payment that was financed by a serial bond in the prior year.
- Instruction program expenses decreased by \$707,888. This decrease is due to staff reductions and a decrease in contractual costs for related services.
- Transportation expense decreased by \$395,968 due to a redesign of bus routes and savings in fuel costs.

# Financial Analysis of the School District's Funds

As noted earlier, the School District uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

#### Governmental Funds

The focus of the School District's *governmental funds* is to provide information on near-term inflows, outflows and balances of *spendable* resources. Such information is useful in assessing the School District's financing requirements.

The General Fund is the primary operating fund of the School District. At the end of the current fiscal year, the total fund balance of the General Fund was \$6,898,778. The fund balance includes \$2,052,998 of unassigned fund balance, exclusive of \$1,200,000, which has been designated for subsequent year's expenditures. For the fifth year in a row, the District has managed both 2010-2011 budget revenues and expenditures (excluding certioraris) to be favorable when compared to budget. For the 2010-2011 fiscal year, revenues exceeded budgetary estimates by \$37,423 and expenditures were \$1,772,018 less than the final

budget, inclusive of encumbrances of \$80,118. This budgetary control contributed to the increase in fund balance. In addition, a designation for subsequent year's expenditures in the amount of \$1,200,000 exists for use in the 2011-2012 budget.

# **General Fund Budgetary Comments**

The original budget of \$50,470,134, inclusive of prior year encumbrances, (expenditures) was increased to \$50,911,404. The resolutions increasing the budget included an authorization to pay tax certiorari expenditures.

# **Capital Assets**

At June 30, 2011, the School District had \$26,515,242 net of accumulated depreciation invested in capital assets, including land, improvements other than buildings, buildings and improvements and machinery and equipment. The change in capital assets is reflected below.

	June 30,							
		2011	1	2010				
Land	\$	1,632,800	\$	1,632,800				
Improvements Other than Buildings Buildings and Improvements		7,402 24,625,158		8,541				
Machinery and Equipment		24,025,150		25,274,657 274,492				
		2-10,002	-	214,402				
Total Capital Assets, net of Accumulated Depreciation	\$	26,515,242	¢	27,190,490				
7 todamalaca Depresiation	<u>Ψ</u>	20,010,242	<u>Ψ</u>	21,130,490				

The statement of capital assets reflects the asset categories net of accumulated depreciation. More detailed information about the School District's capital assets is presented in the notes to the financial statements.

# **Long-Term Debt**

At June 30, 2011, the School District has \$ 36,323,899 in general obligation and other debt outstanding, as follows:

	June 30,						
i i		2011		2010			
	\$	28,275,000 333,662	\$	30,125,000 374,482			
		7,715,237		5,406,112			
	\$	36,323,899	\$	35,905,594			
	3	\$ \$	2011 \$ 28,275,000 333,662 7,715,237	\$ 28,275,000 \$ 333,662 <u>7,715,237</u>			

More detailed information about the School District's long-term liabilities is presented in the notes to the financial statements.

# Requests for Information

This financial report is designed to provide a general overview of the School District's finances for all those with an interest in the School District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to:

MOUNT PLEASANT CENTRAL SCHOOL DISTRICT, NEW YORK
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
YEAR ENDED JUNE 30, 2011

Amounts Reported for Governmental Activities in the Statement of Activities are Different Because: Net Change in Fund Balances - Total Governmental Funds \$ 581,470 Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This amount may be less than the total capital outlay since capital outlay includes amounts under the capitalization threshold. This is the amount by which depreciation expense exceeded capital outlays in the current period. Capital outlay 15,343 Depreciation expense (690,591)(675,248)Long-term debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of bond principal is an expenditure in the governmental funds. but the repayment reduces long-term liabilities in the statement of net assets. Principal paid on bonds 1,850,000 Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. Accrued interest 4,423 Compensated absences 40,820 Other post employment benefit obligations (2,309,125)(2,263,882)Change in Net Assets of Governmental Activities (507,660)

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2011

# Note 1 - Summary of Significant Accounting Policies

The Mount Pleasant Central School District, New York ("School District") as presently constituted, was established in 1912 and operates in accordance with the provisions of the Education Law of the State of New York. The Board of Education is the legislative body responsible for overall operation of the School District and is elected by the voters of the School District. The Superintendent serves as the chief executive officer. The School District's primary function is to provide education for its pupils. Services such as transportation of pupils, administration, finance and plant maintenance support the primary function.

The accounting policies of the School District conform to generally accepted accounting principles for local governmental units and the Uniform System of Accounts as prescribed by the State of New York. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the School District's more significant accounting policies:

# A. Financial Reporting Entity

The financial reporting entity consists of a) the primary government, which is the School District, b) organizations for which the School District is financially accountable and c) other organizations for which the nature and significance of their relationship with the School District are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete as set forth by GASB.

In evaluating how to define the School District, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the School District's reporting entity was made by applying the criteria set forth by GASB, including legal standing, fiscal dependency and financial accountability. Based upon the application of these criteria, there are no other entities which would be included in the financial statements.

The School District participates in the Southern Westchester Board of Cooperative Educational Services ("BOCES"), a jointly governed entity. BOCES is a voluntary cooperative association of school districts in a geographic area that share planning, services and programs, which provide educational and support services. BOCES' governing board is elected based on the vote of members of the participating district's governing boards. BOCES' budget is comprised of separate budgets for administrative, program and capital costs. BOCES charges the districts for program costs based on participation and for administrative and capital costs. Each component school district's share of administrative and capital costs is determined by resident public school enrollment as defined by Education Law. Copies of BOCES' financial statement can be requested from Southern Westchester BOCES, 17 Berkley Drive, Rye Brook, New York 10573.

#### B. District-Wide Financial Statements

The district-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) report information on all non-fiduciary activities of the School District as a whole. For the most part, the effect of interfund activity has been removed from these statements, except for interfund services provided and used.

NOTES TO FINANCIAL STATEMENTS (Continued) JUNE 30, 2011

# Note 1 - Summary of Significant Accounting Policies (Continued)

The Statement of Net Assets presents the financial position of the School District at the end of its fiscal year. The Statement of Activities demonstrates the degree to which direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods or services, or privileges provided by a given function or segment, (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment and (3) interest earned on grants that is required to be used to support a particular program. Taxes and other items not identified as program revenues are reported as general revenues. The School District does not allocate indirect expenses to functions in the Statement of Activities.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter is excluded from the district-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

#### C. Fund Financial Statements

The accounts of the School District are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts, which comprise its assets, liabilities, fund balances, revenues and expenditures. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance related legal and contractual provisions. The School District maintains the minimum number of funds consistent with legal and managerial requirements. The focus of governmental fund financial statements is on major funds as that term is defined in professional pronouncements. Each major fund is to be presented in a separate column, with nonmajor funds, if any, aggregated and presented in a single column. Fiduciary funds are reported by type. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the district-wide statements' governmental activities column, a reconciliation is presented on the pages following, which briefly explain the adjustments necessary to transform the fund based financial statements into the governmental activities column of the district-wide presentation. The School District's resources are reflected in the fund financial statements in two broad fund categories, in accordance with generally accepted accounting principles as follows:

#### **Fund Categories**

a. <u>Governmental Funds</u> - Governmental Funds are those through which most general government functions are financed. The acquisition, use and balances of expendable financial resources and the related liabilities are accounted for through governmental funds. The following represents the School District's major governmental funds.

General Fund - The General Fund constitutes the primary operating fund of the School District and is used to account for and report all financial resources not accounted for and reported in another fund.

Capital Projects Fund - The Capital Projects Fund is used to account for and report financial resources that are restricted, committed or assigned to expenditures for capital outlays, including the acquisition or construction of major capital facilities and other capital assets.

23

NOTES TO FINANCIAL STATEMENTS (Continued) JUNE 30, 2011

# Note 1 - Summary of Significant Accounting Policies (Continued)

Special Revenue Funds - Special revenue funds are used to account for an report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The major special revenue fund of the School District is as follows:

Special Aid Fund - The Special Aid Fund is used to account for special projects or programs supported in whole or in part with Federal, State or local funds.

The School District also reports the following non-major governmental funds:

Special Revenue Funds:

School Lunch Fund - The School Lunch Fund is used to record the operations of the breakfast and lunch programs of the School District.

Special Purpose Fund - The Special Purpose Fund is used to account for assets held by the School District in accordance with the terms of a trust agreement.

b. <u>Fiduciary Funds</u> (Not Included in District-Wide Statements) - Fiduciary Funds are used to account for assets held by the School District in an agency capacity on behalf of others. Among the activities included in the Agency Fund are the student activity funds. The Agency Fund is also utilized to account for payroll tax withholdings that are payable to other jurisdictions.

# D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources (current assets less current liabilities) or economic resources (all assets and liabilities). The basis of accounting indicates the timing of transactions or events for recognition in the financial reports.

The district-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. The Agency Fund has no measurement focus and utilizes the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Property taxes are considered to be available if collected within sixty days of the fiscal year end. A ninety day availability period is used for revenue recognition for all other governmental fund revenues. Property taxes associated with the current fiscal period as well as charges for services and intergovernmental revenues are considered to be susceptible to accrual

NOTES TO FINANCIAL STATEMENTS (Continued)
JUNE 30, 2011

# Note 1 - Summary of Significant Accounting Policies (Continued)

and have been recognized as revenues of the current fiscal period. Fees and other similar revenues are not susceptible to accrual because generally they are not measurable until received in cash. If expenditures are the prime factor for determining eligibility, revenues from Federal and State grants are accrued when the expenditure is made. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and other post employment benefit obligations are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

#### E. Assets, Liabilities and Net Assets or Fund Balances

#### Deposits, Investments and Risk Disclosure

Cash and Equivalents - Cash and equivalents consist of funds deposited in demand deposit accounts, time deposit accounts and certificates of deposit with original maturities of less than three months.

The School District's deposit and investment policies are governed by State statutes. The School District has adopted its own written investment policy, which provides for the deposit of funds in FDIC insured commercial banks or trust companies located within the State. The School District is authorized to use demand deposit accounts, time deposit accounts and certificates of deposit. Permissible investments include obligations of the U.S. Treasury, U.S. Agencies and obligations of New York State or its political subdivisions.

Collateral is required for demand deposit accounts, time deposit accounts and certificates of deposit at 100% of all deposits not covered by Federal deposit insurance. The School District has entered into custodial agreements with the various banks which hold their deposits. These agreements authorize the obligations that may be pledged as collateral. Such obligations include, among other instruments, obligations of the United States and its agencies and obligations of the State and its municipal and school district subdivisions.

Custodial credit risk is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. GASB Statement No. 40 directs that deposits be disclosed as exposed to custodial credit risk if they are not covered by depository insurance and the deposits are either uncollateralized, collateralized by securities held by the pledging financial institution or collateralized by securities held by the pledging financial institution's trust department but not in the School District's name. The School District's aggregate bank balances that were not covered by depository insurance were not exposed to custodial credit risk at June 30, 2011.

Investments - The School District participates in the Cooperative Liquid Assets Securities System ("CLASS"), a cooperative investment pool, established pursuant to General Municipal Law that meets the definition of a 2a7-like pool. In accordance with the provisions of General Municipal Law, Article 3A, CLASS has designated Cutwater Asset Management, a wholly owned subsidiary of MBIA, Inc. as its registered investment advisor. MBIA, Inc. is registered with the Securities and Exchange Commission ("SEC"), and is

NOTES TO FINANCIAL STATEMENTS (Continued) JUNE 30, 2011

# Note 1 - Summary of Significant Accounting Policies (Continued)

subject to all of the rules and regulations of an investment advisor handling public funds. As such, the SEC provides regulatory oversight of CLASS.

The pool is authorized to invest in various securities issued by the United States and its agencies. The amount represents the amortized cost of the cooperative shares and is considered to approximate fair value. The School District's position in the pool is equal to the value of the pool shares. Additional information concerning the cooperative is presented in the annual report of CLASS, which may be obtained from MBIA Municipal Investors Service Corporation, 113 King Street, Armonk, NY 10504.

CLASS is rated AAAm by Standard & Poor's. Local government investment cooperatives in this rating category meet the highest standards for credit quality, conservative investment policies and safety of principal. The Cooperative invests in a high quality portfolio of investments legally permissible for municipalities and school districts in the State.

The School District was invested only in the above mentioned obligations and, accordingly, was not exposed to any interest rate or credit risk.

**Property Taxes Receivable** - Real property taxes attach as an enforceable lien on real property as of July 1st and are levied and payable in September and January. The towns included in the levy are responsible for the billing and collection of the taxes. The towns guarantee the full payment of the School District warrant and assume responsibility for uncollected taxes.

Other Receivables - Other receivables include amounts due from other governments and individuals for services provided by the School District. Receivables are recorded and revenues recognized as earned or as specific program expenditures are incurred. Allowances are recorded when appropriate.

**Due From/To Other Funds** - During the course of its operations, the School District has numerous transactions between funds to finance operations, provide services and construct assets. To the extent that certain transactions between funds had not been paid or received as of June 30, 2011, balances of interfund amounts receivable or payable have been recorded in the fund financial statements.

Inventories - Inventories in the School Lunch Fund consist of food and supplies and are recorded at cost on a first-in, first-out basis or, in the case of surplus food, at a stated value, which approximates market. These inventories consist primarily of items held for consumption. The cost is recorded as inventory at the time individual inventory items are purchased. The School District uses the consumption method to relieve inventory. In the fund financial statements, reported amounts are equally offset by a reservation of fund balance, which indicates that these amounts do not constitute "available spendable resources", even though they are a component of current assets.

Capital Assets - Capital assets, which include property, plant and equipment, are reported in the governmental activities column in the district-wide financial statements. Capital assets are defined by the School District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

NOTES TO FINANCIAL STATEMENTS (Continued)
JUNE 30, 2011

## Note 1 - Summary of Significant Accounting Policies (Continued)

Major outlays for capital assets and improvements are capitalized as projects are constructed. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives is not capitalized.

Land is not depreciated. Property, plant and equipment of the School District are depreciated using the straight line method over the following estimated useful lives.

Class	Life in Years
Improvements Other than Buildings	20
Buildings and Improvements	50
Machinery and Equipment	5-20

The costs associated with the acquisition or construction of capital assets are shown as capital outlay expenditures on the governmental fund financial statements. Capital assets are not shown on the governmental fund balance sheets.

Unearned/Deferred Revenues - Unearned/deferred revenues arise when assets are recognized before revenue recognition criteria has been satisfied. In district-wide financial statements, unearned revenues consist of amounts received in advance and/or revenue from grants received before the eligibility requirements have been met.

Deferred revenues in fund financial statements are those where asset recognition criteria have been met, but for which revenue recognition criteria have not been met. The School District has reported deferred revenues of \$28,602 for amounts received in advance for various programs in the General Fund and \$9,356 for State and Federal aid received in advance in the Special Aid Fund. Such amounts have been deemed to be measurable but not "available" pursuant to generally accepted accounting principles.

**Long-Term Liabilities** - In the district-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable premium or discount. Bonds issuance costs are amortized over the term of the related debt.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as Capital Projects Fund expenditures.

Compensated Absences - The various collective bargaining agreements provide for the payment of accumulated vacation leave upon separation from service. The liability for such accumulated leave is reflected in the district-wide Statement of Net Assets as current and long-term liabilities. A liability for these amounts is reported in the governmental funds only if the liability has matured through employee resignation or retirement. The liability for compensated absences includes salary related payments, where applicable.

NOTES TO FINANCIAL STATEMENTS (Continued) JUNE 30, 2011

# Note 1 - Summary of Significant Accounting Policies (Continued)

**Net Assets** - Net assets represent the difference between assets and liabilities. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net assets on the Statement of Net Assets include, invested in capital assets, net of related debt, restricted for tax certiorari, unemployment benefits, debt service, retirement contribution, capital projects, school lunch and special purposes. The balance is classified as unrestricted.

Fund Balance - Generally, fund balance represents the difference between current assets and current liabilities. In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the School District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Under this standard, the fund balance classifications are as follows:

Nonspendable fund balance includes amounts that cannot be spent because they are either not in spendable form (inventories, prepaid amounts, long-term receivables) or they are legally or contractually required to be maintained intact (the corpus of a permanent fund).

Restricted fund balance is to be reported when constraints placed on the use of the resources are imposed by grantors, contributors, laws or regulations of other governments or imposed by law through enabling legislation. Enabling legislation includes a legally enforceable requirement that these resources be used only for the specific purposes as provided in the legislation. This fund balance classification will be used to report funds that are restricted for debt service obligations and for other items contained in General Municipal Law or Education Law.

Committed fund balance will be reported for amounts that can only be used for specific purposes pursuant to formal action of the entity's highest level of decision making authority. These funds may only be used for the purpose specified unless the entity removes or changes the purpose by taking the same action that was used to establish the commitment. This classification includes certain designations established and approved by the entity's governing board.

Assigned fund balance, in the General Fund, will represent amounts constrained either by the entity's highest level of decision making authority or a person with delegated authority from the governing board to assign amounts for a specific intended purpose. An assignment cannot result in a deficit in the unassigned fund balance in the General Fund. This classification will include amounts designated for balancing the subsequent year's budget and encumbrances. Assigned fund balance in all other governmental funds represents any positive remaining amount after classifying nonspendable, restricted or committed fund balance amounts.

Unassigned fund balance, in the General Fund, represents amounts not classified as nonspendable, restricted, committed or assigned. The General Fund is the only fund that would report a positive amount in unassigned fund balance. For all governmental funds other than the General Fund, unassigned fund balance would necessarily be negative, since the fund's liabilities, together with amounts already classified as nonspendable, restricted and committed would exceed the fund's assets.

# Note 1 - Summary of Significant Accounting Policies (Continued)

When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the School District's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the School District's policy to use fund balance in the following order: committed, assigned, and unassigned.

#### F. Encumbrances

In governmental funds, encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve applicable appropriations, is generally employed as an extension of formal budgetary integration in the General and Special Aid funds. Encumbrances outstanding at year-end are reported as assigned fund balance since they do not constitute expenditures or liabilities.

#### G. Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

# H. Subsequent Events Evaluation by Management

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which date is September 13, 2011.

## Note 2 - Stewardship, Compliance and Accountability

#### A. Budgetary Data

The School District generally follows the procedures enumerated below in establishing the budgetary data reflected in the fund financial statements:

- a) At least seven days prior to the budget hearing, a copy of the budget is made available to the voters.
- b) At the budget hearing, the voters may raise questions concerning the items contained in the budget.
- c) The Board of Education establishes a date for the annual meeting, which by law will be held on the third Tuesday in May.
- d) The voters are permitted to vote upon the General Fund budget at the annual meeting.

NOTES TO FINANCIAL STATEMENTS (Continued)
JUNE 30, 2011

# Note 2 - Stewardship, Compliance and Accountability (Continued)

- e) If the voters reject the budget, the Board of Education may resubmit the budget to the voters only once in revised form or as originally issued. The Board may also elect to adopt a contingent budget without voter approval. The contingent budget includes all expenditures needed to provide the minimum services legally required. Total spending under a contingency budget cannot increase by more than 4% or 120% of the Consumer Price Index, whichever is lower. In addition, the administrative budget segment, exclusive of the capital component, may not comprise a greater percentage of the budget than the lesser of either (1) the comparable percentage of the prior year's budget or (2) the comparable percentage of the last defeated budget (See Note 5).
- f) Formal budgetary integration is employed during the year as a management control device for General and Special Aid funds.
- g) Budgets for General and Special Aid funds are legally adopted annually on a basis consistent with generally accepted accounting principles. The Capital Projects Fund is budgeted on a project basis. The Board of Education does not adopt an annual budget for the School Lunch or Special Purpose funds.
- h) The Board of Education has established legal control of the budget at the function level of expenditures. Transfers between appropriation accounts, at the function level, require approval by the Board of Education. Any modification to appropriations resulting from increases in revenue estimates or supplemental reserve appropriations also require a majority vote by the Board.
- i) Appropriations in General and Special Aid funds lapse at the end of the fiscal year, except that outstanding encumbrances are reappropriated in the succeeding year, pursuant to the Uniform System of Accounts promulgated by the Office of the State Comptroller.

Budgeted amounts are as originally adopted, or as amended by the Board of Education.

#### B. Limitation on Unreserved Fund Balance

The School District is limited to the amount of unassigned fund balance that can be retained. New York State law limits the unassigned fund balance to 4% of the ensuing year's budget.

# C. Application of Accounting Standards

For the year ended June 30, 2011, the School District implemented GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions" ("GASB 54"). GASB 54 changed the terminology and classification of fund balance to reflect spending constraints on resources, rather than availability for appropriations. This approach is intended to provide users more consistent and understandable information about a fund's net resources.

# Note 3 - Detailed Notes on All Funds

#### A. Due From/To Other Funds

The balances reflected as due from/to other funds at June 30, 2011 were as follows:

Fund		Due From	Due To		
General	\$	786,169	\$	476,299	
Capital Projects		470,299		-	
Special Aid		9,356		766,430	
Other Governmental	-			23,095	
	\$	1,265,824	\$	1,265,824	

The outstanding balances between funds results mainly from the time lag between the dates that 1) interfund goods and services are provided or reimbursable expenditures occur, 2) transactions are recorded in the accounting system and 3) payments between funds are made.

# B. Capital Assets

Changes in the School District's capital assets are as follows:

Class		Balance July 1, 2010	Additions		Balance June 30, 2011	
Capital Assets, not being depreciated -						
Land	\$	1,632,800	\$	-	\$	1,632,800
Capital Assets, being depreciated:						
Improvements Other than Buildings	\$	717,074	\$	-	\$	717,074
Buildings and Improvements		33,780,142				33,780,142
Machinery and Equipment	_	833,091		15,343	_	848,434
Total Capital Assets,						
being depreciated		35,330,307	_	15,343		35,345,650
Less Accumulated Depreciation for:			860			*
Improvements Other than Buildings		708,533		1,139		709,672
Buildings and Improvements		8,505,485		649,499		9,154,984
Machinery and Equipment		558,599		39,953		598,552
Total Accumulated Depreciation		9,772,617		690,591		10,463,208
Total Capital Assets, being						
depreciated, net	\$	25,557,690	\$	(675,248)	\$	24,882,442
Capital Assets, net	\$	27,190,490	\$	(675,248)	\$	26,515,242

NOTES TO FINANCIAL STATEMENTS (Continued)
JUNE 30, 2011

# Note 3 - Detailed Notes on All Funds (Continued)

Depreciation expense was charged to School District functions and programs as follows:

General Support Instruction		\$ 645,199 45,392
Total Depreciation Expense	10	\$ 690.591

143.739

#### C. Accrued Liabilities

Accrued liabilities at June 30, 2011 were as follows:

Payroll and Employee Benefits

#### D. Pension Plans

The School District participates in the New York State and Local Employees' Retirement System ("ERS") and the New York State Teachers' Retirement System ("TRS") ("Systems"). These Systems are cost-sharing multiple-employer defined benefit pension plans. The Systems provide retirement, disability and death benefits to plan members. Obligations of employers and employees to contribute and benefits to employees are governed by Education Law and the New York State Retirement and Social Security Law. The Systems issue publicly available financial reports that include financial statements and required supplementary information for the Systems. These reports may be obtained by writing to the New York State and Local Employee's Retirement System, 110 State Street, Albany, New York 12224 and the New York State Teachers' Retirement System, 10 Corporate Woods Drive, Albany, New York 12211-2395.

Funding Policy - The Systems are non-contributory except for employees in tiers 3 and 4 that have less than ten years of service, who contribute 3% of their salary and employees in tier 5 who also contribute 3% of their salary for ERS and 3.5% for TRS without regard to their years of service. Contributions to ERS are certified by the State Comptroller and expressed as a percentage of members' salary. Contribution rates are actuarially determined and based upon membership tier and plan. Contributions to ERS consist of a life insurance portion and regular pension contributions. Pursuant to Article 11 of Education Law, actuarial contributions are established annually for TRS by the New York State Teachers' Retirement Board. Contribution rates for the plans' year's ending in 2011 are as follows:

ERS	<u> </u>	T	RS
Tier/Plan	Rate	Tiers	Rate
1 751	15.3%	1-4	8.62%
3 A14	11.4

NOTES TO FINANCIAL STATEMENTS (Continued)
JUNE 30, 2011

# Note 3 - Detailed Notes on All Funds (Continued)

Contributions made or accrued to the Systems for the current and two preceding years were as follows:

	-	ERS	TRS		
2011	\$	414,431	\$	2,115,570	
2010		230,521		1,455,146	
2009		225,309		2,139,656	

The ERS and TRS contributions were equal to 100% of the actuarially required contributions for each respective fiscal year.

The current year ERS and TRS contributions were charged to the General Fund.

# E. Short-Term Non-Capital Borrowings

The schedule below details the changes in short-term non-capital borrowings. These borrowings consisted of notes issued in anticipation of the collection of real property taxes.

	Balance July 1, 2010	New Issues	Redemptions	Balance June 30, 2011	
Tax Anticipation Note	\$ -	\$ 2,500,000	\$ 2,500,000	\$	

The tax anticipation note of \$2,500,000 was issued on July 6, 2010 and redeemed on November 5, 2010, with interest at 1.00%. Interest expenditures of \$6,464 were recorded in the fund financial statements in the General Fund and the government-wide financial statements.

#### F. Long-Term Liabilities

The following table summarizes changes in the School District's long-term liabilities for the year ended June 30, 2011:

	Balance July 1, 2010	New Issues/ Additions	Maturities and/or Payments	Balance June 30, 2011	Due Within One-Year
Bonds Payable	\$ 30,125,000	\$ -	\$ 1,850,000	\$ 28,275,000	\$ 1,860,000
Other Non-Current Liabilities: Compensated Absences Other Post Employment	374,482	4,180	45,000	333,662	33,000
Benefit Obilgations Payable	5,406,112	3,805,015	1,495,890	7,715,237	
. 1	5,780,594	3,809,195	1,540,890	8,048,899	33,000
Total Long-Term Liabilities	\$ 35,905,594	\$ 3,809,195	\$ 3,390,890	\$ 36,323,899	\$ 1,893,000

Each governmental fund's liability for bonds, compensated absences and other post employment benefit obligations is liquidated by the General Fund.

NOTES TO FINANCIAL STATEMENTS (Continued) JUNE 30, 2011

### Note 3 - Detailed Notes on All Funds (Continued)

### **Bonds Payable**

Bonds payable at June 30, 2011 are comprised of the following individual issues:

Purpose	Year of Issue	Original Issue Amount	Final Maturity	Interest Rates		Amount Outstanding at June 30, 2011
Tax Certiorari Refunds	2003	\$ 451,000	June, 2012	3.600 %	\$	40,000
Tax Certiorari Refunds	2004	453,651	June, 2014	4.250-4.500	Ť	150,000
<b>Building Construction</b>	2005	10,155,000	May, 2025	4.000-4.250		7,745,000
<b>Building Construction</b>	2005	10,000,000	June, 2024	4.250-4.625		7,840,000
<b>Building Construction</b>	2006	4,740,000	December, 2019	3.650-3.700		3,300,000
Tax Certiorari Refunds	2006	861,000	June, 2015	4.000		430,000
Tax Certiorari Refunds	2008	7,655,819	June, 2027	4.250-4.375		6,825,000
Tax Certiorari Refunds	2008	1,027,110	June, 2015	4.250-4.500		670,000
Tax Certiorari Refunds	2010	1,350,000	June, 2025	3.250-4.000		1,275,000
					\$	28,275,000

Interest expenditures of \$1,240,994 were recorded in the fund financial statements in the General Fund. Interest expense of \$1,236,571 was recorded in the district-wide financial statements.

### **Payments to Maturity**

The annual requirements to amortize all outstanding bonded debt as of June 30, 2011 including interest payments of \$9,203,457 are as follows:

_	Year Ending June 30,		Principal		Interest		Total
	2012	\$	1,860,000	\$	1,168,434	\$	3,028,434
	2013		1,895,000		1,093,501		2,988,501
	2014		1,975,000		1,016,642		2,991,642
	2015		2,000,000		936,539		2,936,539
	2016		1,965,000		855,525		2,820,525
	2017-2021		10,025,000		3,049,850		13,074,850
	2022-2026		7,975,000		1,057,591		9,032,591
	2027	_	580,000	-	25,375	_	605,375
		\$	28,275,000	\$	9,203,457	\$	37,478,457

The above general obligation bonds are direct obligations of the School District for which its full faith and credit are pledged and are payable from taxes levied on all taxable real property within the School District.

NOTES TO FINANCIAL STATEMENTS (Continued)
JUNE 30, 2011

### Note 3 - Detailed Notes on All Funds (Continued)

### **Compensated Absences**

Pursuant to collective bargaining agreements, upon separation of service, the School District is required to compensate administrators, clerical staff and custodians for unused vacation time. The District is required to make a contribution to a 403B Plan of up to \$12,000 for a maximum of 200 days to all teachers and administrators upon retirement in compensation for accumulated unused sick days. The School District is not required to compensate other employees for accumulated sick leave. The value of the compensated absences has been reflected in the district-wide financial statements.

### Other Post Employment Benefit Obligations Payable

In addition to providing pension benefits, the School District provides certain health care benefits for retired employees. The various collective bargaining agreements stipulate the employees covered and the percentage of contribution. Contributions by the School District may vary according to length of service. The cost of providing post employment health care benefits is shared between the School District and the retired employee. Substantially all of the School District's employees may become eligible for those benefits if they reach normal retirement age while working for the School District. The cost of retiree health care benefits is recognized as an expenditure/expense as claims are paid. The School District has recognized revenues and expenditures of \$173,799 for Medicare Part D payments made directly to its health insurance carrier on behalf of its retirees.

The School District's annual other post employment benefit ("OPEB") cost (expense) is calculated based on the annual required contribution, ("ARC"), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. GASB Statement No. 45 establishes standards for the measurement, recognition and display of the expenses and liabilities for retirees' medical insurance. As a result, reporting of expenses and liabilities will no longer be done under the "pay-as-you-go" approach. Instead of expensing the current year premiums paid, a per capita claims cost will be determined, which will be used to determine a "normal cost", an "actuarial accrued liability", and ultimately the ARC. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty years.

Actuarial valuations for OPEB plans involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. These amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Calculations are based on the OPEB benefits provided under the terms of the substantive plan in effect at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point. The actuarial calculations of the OPEB plan reflect a long-term perspective.

The School District is required to accrue on the government-wide financial statements the amounts necessary to finance the plan as actuarially determined, which is equal to the expected rate of return on the School District's general assets. Funding for the Plan has been established on a pay-as-you-go basis. The assumed increase in postretirement benefits are as follows:

### Note 3 - Detailed Notes on All Funds (Continued)

Year Ended June 30,	Medical
2012	6.00 %
2013	6.00
2014	6.00
2015	6.00
2016-2020+	6.00

The amortization basis is the level dollar method with a closed amortization approach with 27 years remaining in the amortization period. The actuarial assumptions included a 5.0% discount rate, 4.0% ultimate health care trend rate and a payroll growth rate of 4.0%. The School District currently has no assets set aside for the purpose of paying post employment benefits. The actuarial cost method utilized was the unit credit method.

The number of participants as of June 30, 2011 was as follows:

Active Employees	262		
Retired Employees	144		
Total	406		
Amortization Component: Actuarial Accrued Liability as of July 1, 2009 Assets at Market Value		\$	44,506,537

	0.7		

NOTES TO FINANCIAL STATEMENTS (Continued)
JUNE 30, 2011

### Note 3 - Detailed Notes on All Funds (Continued)

The School District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligations for the current and two preceding years are as follows:

Fiscal Year Ended June 30,	 Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
2009	\$ 4,268,100	39.4	\$ 2,587,800
2010	4,519,962	37.6	5,406,112
2011	3,805,015	39.3	7,715,237

The schedule of funding progress for the OPEB plan immediately following the notes to the financial statements presents multi-year trend information about whether the actuarial value of the plan assets is increasing or decreasing relative to the actuarial accrued liability for the benefits over time.

### G. Revenues and Expenditures

### **Interfund Transfers**

Interfund transfers are defined as the flow of assets, such as cash or goods and services, without equivalent flows of assets in return. The interfund transfers reflected below have been reported as transfers.

		Capital		Special	
	*	Projects		Aid	
Transfers Out		Fund	*	Fund	 Total
General Fund	\$	300,000	\$	24,611	\$ 324,611

Transfers are used to move amounts earmarked in the operating funds to fulfill commitments for Special Aid and Capital Projects funds expenditures.

### H. Net Assets

The components of net assets are detailed below:

Invested in Capital Assets, net of Related Debt - the component of net assets that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unexpended proceeds, that is directly attributable to the acquisition, construction or improvement of those assets.

Restricted for Tax Certiorari - the component of net assets that has been established in accordance with Education Law to provide funding for court ordered tax refunds which are currently in process.

NOTES TO FINANCIAL STATEMENTS (Continued) JUNE 30, 2011

### Note 3 - Detailed Notes on All Funds (Continued)

Restricted for Unemployment Benefits - the component of net assets established to set aside funds to be used for a specific purpose in accordance with Section 6m of General Municipal Law.

Restricted for Debt Service - the component of net assets that reports the difference between certain assets and liabilities with constraints placed on their use by Local Finance Law.

Restricted for Retirement Contribution - the component of net assets that reports the amounts set aside to be used for retirement costs in accordance with Section 6-r of General Municipal Law.

Restricted for Capital Projects - the component of net assets that reports the amounts restricted for capital projects, less unexpended bond proceeds and unrestricted interest earnings.

Restricted for School Lunch - the component of net assets that reports the difference between assets and liabilities in the School Lunch Fund with constraints placed on their use.

Restricted for Special Purposes - the component of net assets that reports the difference between assets and liabilities with constraints placed on their use by either external parties and/or statute.

Unrestricted - all other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt".

NOTES TO FINANCIAL STATEMENTS (Continued)
JUNE 30, 2011

### Note 3 - Detailed Notes on All Funds (Continued)

Certain elements of fund balance are described above. Those additional elements which are not reflected in the Statement of Net Assets but are reported in the governmental funds balance sheet are described below.

Inventories in the School Lunch Fund have been classified as nonspendable to indicate that a portion of fund balance is not "available" for expenditure because the asset is in the form of commodities and the School District anticipates utilizing them in the normal course of operations.

Employee Benefit Accrued Liability - the component of fund balance that has been restricted pursuant to General Municipal Law to provide funds for the payment of unused sick time and other forms of payment for accrued leave time granted upon termination of or separation of services.

Purchases on order are assigned and represent the School District's intention to honor the contracts in process at year-end. The subsequent year's appropriation will be amended to provide authority to complete the transactions.

Designations of fund balance are not legally required segregations but represent intended use for a specific purpose. At June 30, 2011, the Board of Education has assigned the above amounts to be appropriated for the ensuing year's budget.

Unassigned fund balance in the General Fund represents amounts not classified as nonspendable, restricted or assigned.

### Note 4 - Summary Disclosure of Significant Contingencies

### A. Litigation

There are currently pending certiorari proceedings, the results of which could require the payment of future tax refunds by the School District if existing assessment rolls are modified based on the outcome of the litigation proceedings. However, the amount of these possible refunds cannot be determined at the present time. Any payments resulting from adverse decisions will be funded in the year the payment is made.

### B. Contingencies

The School District participates in various Federal grant programs. These programs are subject to program compliance audits pursuant to the Single Audit Act. The amount of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the School District anticipates such amounts, if any, to be immaterial.

The School District is subject to audits of State aid by the New York State Education Department. The amount of aid previously paid to the School District which may be disallowed cannot be determined at this time, although the School District anticipates such amounts, if any, to be immaterial.

NOTES TO FINANCIAL STATEMENTS (Continued) JUNE 30, 2011

### Note 4 - Summary Disclosure of Significant Contingencies (Continued)

### C. Risk Management

The School District and other school districts have formed a reciprocal insurance company to be owned by these districts. This Company operates under an agreement effective July 1, 1989. The purpose of the Company is to provide general liability, auto liability, all risk building and contents and auto physical damage coverage. In addition, as part of the reciprocal program, excess insurance, school board legal liability, equipment floaters, boilers and machinery and crime and bond coverages will be purchased from commercial carriers and be available to the subscriber districts. The Company retains a management company which is responsible for the overall supervision and management of the reciprocal. The reciprocal is managed by a Board of Governors and an Attorney-in-fact, which is comprised of employees of the subscriber districts. The subscribers have elected those who sit on the board and each subscriber has a single vote. The Company is an "assessable" insurance company, in that, the subscribers are severally liable for any financial shortfall of the Company and can be assessed their proportionate share by the State Insurance Department if the funds of the Company are less than what is required to satisfy its liabilities. The subscriber districts are required to pay premiums as well as a minimal capital contribution.

The School District purchases various insurance coverages from the Company to reduce its exposure to loss. The School District maintains a general liability insurance policy with coverage up to \$1 million per occurrence and in the aggregate and an excess catastrophe liability policy with coverage up to \$12 million. The School District also maintains liability coverage for school board members up to \$1 million. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

The School District and neighboring school districts in Southern Westchester County, participate in the Southern Westchester Schools Cooperative Self-Insurance Plan for Workers' Compensation. The purpose of the Plan is to provide efficient and economical evaluation, processing, administration, defense and payment of claims against plan members for workers' compensation and to provide for risk management to reduce future liability for workers' compensation and employers' liability payments. The Plan is managed and governed by a Board of Trustees comprised of a representative from each district. Billings are based upon the participants' experience rating. The School District has transferred all related risk to the Plan.

The School District and neighboring school districts in Southern Westchester County participate in the State-Wide Schools Cooperative Health Plan. This Plan operates under an agreement, as amended, dated December 12, 1985. The purposes of the Plan are to effect cost savings in members' expenses for health coverage; to provide for centralized administration, funding and disbursements for health coverage; and to provide for such risk management services as may be appropriate to reduce future expense and liability for health coverage. The governance of the Plan shall be in all respects in the hands of the Board of Trustees. The Board of Trustees shall consist of seven trustees elected by the general membership of the Plan. No action may be taken by the Board of Trustees except by a vote of a majority of the total number of trustees. Billings to participants are based upon coverage provided to each participant's employees. The School District has transferred all related risk to the Plan.

NOTES TO FINANCIAL STATEMENTS (Concluded)
JUNE 30, 2011

### Note 5 - Other Matters

On June 24, 2011, the Governor signed Chapter 97 of the Laws of 2011 ("Tax Levy Limitation Law"). This law applies to all local governments, including school districts.

The Tax Levy Limitation Law restricts the amount of real property taxes that may be levied by a school district in a particular year, beginning with the 2012-2013 fiscal year. It expires on June 16, 2016.

Pursuant to the Tax Levy Limitation Law, the tax levy of a school district can not increase by more than the lesser of two percent or the annual increase in the consumer price index. Certain adjustments would be permitted as defined by Section 1220 of the Real Property Tax Law. A school district could exceed the tax levy limitation only if the budget is approved by at least 60% of the vote. There are certain exemptions to the tax levy limitation, such as expenditures made on account of certain tort settlements and certain increases in the actuarial contribution rates of the various public employee retirement systems.

### REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Education of the Mount Pleasant Central School District, New York:

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Mount Pleasant Central School District, New York ("School District") as of and for the year ended June 30, 2011, which collectively comprise the School District's basic financial statements and have issued our report thereon dated September 13, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

### Internal Control Over Financial Reporting

Management of the School District is responsible for establishing and maintaining effective internal control over financial reporting.

In planning and performing our audit, we considered the School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the School District's, financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to the management of the School District in a separate letter.

This report is intended solely for the information and use of the Board of Education, management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

O'Common Davies Munns & Dobbins, LLP

Harrison, New York September 13, 2011

### REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECTON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the Board of Education of the Mount Pleasant Central School District, New York:

### Compliance

We have audited the Mount Pleasant Central School District, New York's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that could have a direct and material effect on each of the School District's major federal programs for the year ended June 30, 2011. The School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the School District's management. Our responsibility is to express an opinion on the School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the School District's compliance with those requirements.

In our opinion, the School District complied, in all material respects, with the compliance requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2011.

### **Internal Control Over Compliance**

Management of the School District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the School District's, internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over compliance.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the School District's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information of the Board of Education, management, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
