

SEPTEMBER 2022

# OSHKOSH AREA SCHOOL DISTRICT PROJECT PROGRESS REPORT

## CONSTRUCTION UPDATE

At Vel Phillips Middle School, construction continues to push ahead as Miron Construction is trying to capitalize on the nice weather. Steel continues to rise in the middle of the building, while masonry work continues on the northern portion of the building. The building will start to take shape even faster in the next few months to prepare for winter construction, with roof and window installation in many portions of the building by December.

## PLANNING & DESIGN UPDATE

There has been continued progress in the design for the new elementary school at the Webster-Stanley site as we approach the final eight weeks of design. Meetings with the City of Oshkosh are scheduled in September to start the design approval process.

A Webster-Stanley neighborhood meeting will take place on Thursday, September 15. The goal of the neighborhood meeting is to bring the surrounding community to this site to discuss improvements to the site access points, the improved handling of traffic around this site, and building design, and listen to any questions or concerns from the surrounding community.

Neighborhood residents will receive a meeting notice from the City of Oshkosh. If you have not received an invite and are interested in attending, please reach out to Dr. David Gundlach at [david.gundlach@oshkosh.k12.wi.us](mailto:david.gundlach@oshkosh.k12.wi.us).

## WHAT'S NEXT?

- » Framing of exterior and interior walls at Vel Phillips Middle School
- » Continued steel erection and masonry work at Vel Phillips Middle School
- » Thursday, September 15, Neighborhood Meeting at Webster-Stanley
