

DECEMBER 2022

OSHKOSH AREA SCHOOL DISTRICT PROJECT PROGRESS REPORT

CONSTRUCTION UPDATE

At Vel Phillips Middle School, the project continues to make good progress as the building shape comes closer to a complete picture. The last exterior walls to be completed are on the third floor of the academic tower, the music wing, and the connecting corridor between the main office and the gym/music wing. Miron Construction is progressing in all aspects of the project, with many contractors ranging from plumbers and electricians to painters active within the building. As winter approaches, temporary enclosures are in place to heat the building with temporary equipment, and as the building closes up, those temporary enclosures will come out.

PLANNING & DESIGN UPDATE

The Oshkosh Elementary School construction drawings and building design are complete. The project is going out to bid the first week in December, with a bid date of late January. At the remaining Secure Entry sites (Oakwood, Read, North HS, and West HS), those projects are wrapping up final details over the next two weeks, with those projects going out to bid on December 14. There is still some planning to occur with the naming of the Elementary School and associated environmental branding projects that support that building.

PLANNING & DESIGN UPDATE

- » Construction is at full speed at Vel Phillips Middle School: masonry walls, stud walls, roofing, ductwork/piping, electrical infrastructure is in place, and drywall is being hung.
- » The Elementary School project will go out to bid on December 1, 2022.
- » The Secure Entry projects will go out to bid on December 14, 2022.
