

Dear Parents,

Welcome to Rowland Hall Boys Soccer 2023! I am excited to return for my third year as Head Coach of the Boys Soccer team, having also served as an Assistant Coach in the shortened 2020 season. The 2022 season was obviously very special, with the team being crowned State champions. The new season will bring new and exciting challenges. I am particularly looking forward to welcoming a new freshman contingent and integrating new players from all grades into the group.

Your student has indicated an interest in playing Soccer on the Rowland Hall Upper School team this spring. Given that, I wanted to share some important information with you.

**A mandate from the UHSAA requires that a physical examination be performed each school year. This means that you need to schedule an appointment *now* to have that exam done by a physician and the Physical Exam Form A completed, signed, and submitted by February 10. If your student participated in a fall or winter sport, we already have your form on file and there is no need to submit another.**

Several other forms are also required and will be read and E-signed by you and your son as you register him for Boys Soccer on the UHSAA site called “Aktivate” (formerly “Register My Athlete”), that procedure outlined in another attachment to this email. **Registration on the “Aktivate” site needs to be done by February 10 or before.** All forms except for the Physical Exam and Consent Form will now be **electronically signed by you and your student.**

Our schedule and some other boys’ soccer related information can be found through your Parent Portal.

A required **Parent Meeting** via Zoom will be held on **Monday, February 13 at 6:30 p.m.**, a link to that meeting to be sent later.

We are looking forward to an exciting, successful season of Winged Lion soccer! Thanks for your continued support of Rowland Hall athletics.

Sincerely,

Joe Murray
