

Notes from December 7, 2022 - group who looked at Board End #1

Like:

- The mention of strengths in the goal
- The reference to all students (or each learner as we preferred)
- The emphasis on the fact that there are some foundational pieces that are critical

Missing and/or revision suggestions:

- Family engagement and partnership as more explicit strategies
- A simplified, family friendly version that also includes strategies that parents can use
- A clear way we're engaging and empowering students through the use of their voice
- Future ready skills (and we probably spent the most amount of time discussing what that meant, and even that we perhaps "future ready" is a phrase that enables things to be kicked down the road
- Use of a guaranteed and viable curriculum missing from strategies
