Social Media Sharing Reminders

Our **Purpose**

Any information such as an image, video, or data that can identify a person is their personal information. It belongs to them as they have a legal, moral, and social right to privacy.

JIS has a responsibility to protect all students, including any personal information that could be used to harm them, in line with JIS Child Safeguarding, Security, Safety, and Privacy policies.

Respect for privacy is a shared social responsibility.

Our Commitment to the Community

Together, we foster creative expression and collaboration with the wider JIS community, and promoting the responsible use of social media services while respecting everyone's right to privacy, and protecting students, parents, staff, and faculty.

Social Media Sharing

At JIS, *privacy and data protection* is a shared responsibility. Here are some reminders for posting pictures and videos taken at school on your private social media pages.
