

# College Credit Options

GPHS offers several courses in which students can earn college credit at a variety of colleges if they meet certain standards. Earning credit in the listed courses may qualify toward earning an associate degree. Some colleges charge a fee for these credits. College Abbreviations: **RCC** = Rogue Community College, **LCC** = Lane Community College, **SOU** = Southern Oregon University. Please note: College credit bearing courses may change at the discretion of the college. Please review teacher syllabus for more information or talk with your teacher.

**For Rogue Community College Courses:** Students wanting to earn credit through Rogue Community College as 9<sup>th</sup> or 10<sup>th</sup> graders may be required to participate in the Accuplacer assessment and earn threshold standards established by RCC. Grants Pass High School will offer Accuplacer assessments once in August and several times during the year. Check with the counseling center for specific dates and times. Students may also register to take the Accuplacer assessment through Rogue Community College. 11<sup>th</sup> and 12<sup>th</sup> grade students will be required to meet one of a variety of multiple measures. Please review the course syllabus for more information. For more information on prerequisite requirements at RCC visit
