Four Pillars of National Honor Society Membership

Character...is valuing diverse cultures and building relationships that reflect love of self but also concern for others. It is about the personal commitment to ethical and compassionate decision making that affects oneself and others.

Scholarship...is a commitment to learning and growing on both a personal and educational path that stems from a desire to contribute to the world in a positive way.

Service...is seeking out and engaging in meaningful service voluntarily, not simply doing acts of service to fulfill a school, district, or program requirement, or to collect hours.

Leadership...is carrying oneself with dignity and taking ownership and responsibility for one's own actions and participation.
