

DOs & DON'Ts for Your New iPad

Tips for taking care of your iPad:

- **ALWAYS KEEP YOUR IPAD IN ITS CASE!!!**
- **To clean the screen.** Only use a soft, lint-free cloth to clean your screen. Don't use window cleaners, household cleaners, compressed air, aerosol sprays, solvents, ammonia, abrasives, or cleaners containing hydrogen peroxide.
- **NEVER spray water or cleaners** directly on your iPad. When your iPad is off, you may clean the case with a lightly damp cloth.
- **NEVER use a pencil, pen, crayon, chalk, eraser or other object** on your iPad screen. These are made for fingers and can be damaged by these other things.
- **Don't place heavy things on your iPad.** Don't stack it with books. This could crack your screen. It should never be in a pile!
- **Even though it might look cool, stickers can hurt your iPad.** Don't put stickers on the screen or cloth parts of the case. Appropriate stickers, that can be peeled off easily, may be placed on the hard part of the case.
- **Don't remove the school provided sticker/tag that is on your iPad and case.**
- **Don't eat or drink when using your iPad.** Even though they are iPads, even very small pieces of food or drink can make them sticky, get into the ports or keys and make them stop working. Plus, it's kinda gross when you think about it.
- **Don't carry drinks or other liquids with your iPad** in your backpack. You hate it when a drink fizzes or spills on you, right, well so does your iPad!
- **Don't bend, twist, or chew (ew!) the charging cords.** It will make them break and could short out and hurt you too. Leave plenty of room for the wire to reach the iPad. Each student is only provided with 1 charger set and these are NOT covered under insurance. Replacement falls on the Student/Parent/Guardian.
- **To maximize battery life:** Turn down volume, turn down brightness, quit applications you are not using.
- **Lending, borrowing, or sharing the iPads with another person or student is prohibited.** Each student is assigned his or her own iPad and is responsible for it.
- **DO NOT ALLOW others to sign in** to their email accounts on the student's device. This can disrupt the students day to day school work and cause unnecessary delays for the student and the rest of the class.
- Finally, just **use common sense** when it comes to your cool new iPad. Don't do anything you know will damage it, like swinging your iPad around. Please don't do anything purposefully destructive, like scratching it up.
