

LEGAL NOTICE
TOWN OF VERNON
WATER POLLUTION CONTROL AUTHORITY
AUGUST 25, 2022

Notice is hereby given that the Vernon Water Pollution Control Authority held a Public Hearing at 7:00 P.M. on August 25, 2022 in the conference room at the Wastewater Treatment Facility 100 Windsorville Road, Vernon CT so that citizens may be heard concerning a proposed schedule of user charges, establishing collection and disposal of sewage as a service of special benefit nature, and establishing user charges for the collection and disposal of sewage within the Town of Vernon.

In accordance with the provisions of Chapter 13, Section 1,(a) of the Charter of the Town of Vernon, it is hereby established that the collection and disposal of sewage is a service of special benefit nature.

In accordance with the provisions of Chapter 13, Section 1,(b) and 1,(c) of the Charter of the Town of Vernon, the Water Pollution Control Authority has prepared lists of properties against which user charges for the collection and disposal of sewage are to be charged, and hereby establishes the following rates for this service for the period of usage January 1, 2022 through December 31, 2022.

Each user shall pay for the services provided by the Town of Vernon based on their use of the sewer works as determined by water meter readings or other appropriate methods acceptable to the Water Pollution Control Authority.

Each user shall pay a per unit minimum usage charge for the operation, maintenance, system replacement, and availability of sewer services of \$60.50, said minimum to include the first 10,000 gallons of metered usage. Each additional thousand (1000) gallons of usage, or portion thereof, will be charged \$6.04. Usage charges will be billed based upon the following biannual schedule: October 1, 2022 for the usage period January 1 to June 30, 2022 and April 1, 2023 for the usage period July 1 to December 31, 2022.

Residential users on wells without approved metering will be charged a flat rate of \$154.09 per six months of usage.

For any multi-unit building, facility, or instances where multiple units share a single metered water supply and separate ownership, the volume upon which the charge to such user is set shall be based upon the metered total volume for facility or building divided by the number of units within such building, and the charge so determined shall be the user charge rates multiplied by usage of each such unit to derive the charge to the owner of said unit. In no instance shall the per unit charge be less than the minimum charge.

Non-residential users on wells are required to install water meters acceptable to the Water Pollution Control Authority.

Non-residential users, specifically including industrial manufacturing operations, shall be charged for total flow as determined by an out-flow metering device furnished and/or installed by the user and approved by the Water Pollution Control Authority.

Septage disposal fee at the Wastewater Treatment Facility shall be \$75.00 per 1000 gallons or portion thereof, with monthly totals rounded up to the next 1000, with a minimum charge of \$75.00 to be billed once a month.
