INDEPENDENT AUDITOR'S REPORT

To the Board of Education Lake Zurich Community Unit School District No. 95 Lake Zurich, Illinois

Report on the Financial Statements

Opinions

We have audited the financial statements of the governmental activities and each major fund of

Lake Zurich Community Unit School District No. 95

as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of June 30, 2022, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Lake Zurich Community Unit School District No. 95 and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Change in Accounting Principle

As described in Note 16 to the financial statements, the District implemented GASB Statement No. 87, *Leases.* Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's

ability to continue as a going concern for one year after the date that the financial statements are issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risk of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Lake Zurich Community Unit School District No. 95's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Lake Zurich Community Unit School District No. 95's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary information as listed in the table of contents and the Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information, except for the average daily attendance figure included in the computation of operating expense per pupil and per capita tuition charges, has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information and the Schedule of Expenditures of Federal Awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 7, 2022 on our consideration of Lake Zurich Community Unit School District No. 95's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Lake Zurich Community Unit School District No. 95's internal control over financial reporting and compliance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Education Lake Zurich Community Unit School District No. 95 Lake Zurich, Illinois

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of

Lake Zurich Community Unit School District No. 95

as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise Lake Zurich Community Unit School District No. 95's basic financial statements, and have issued our report thereon dated October 7, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Lake Zurich Community Unit School District No. 95's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Lake Zurich Community Unit School District No. 95's internal control. Accordingly, we do not express an opinion on the effectiveness of Lake Zurich Community Unit School District No. 95's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Lake Zurich Community Unit School District No. 95's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our

audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2022

The Management's Discussion and Analysis of Lake Zurich Community Unit School District No. 95's (the District) financial performance provides an overall review of the District's financial activities for the year ended June 30, 2022. The management of the District encourages readers to consider the information presented herein in conjunction with the basic financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

- The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at June 30, 2022 by \$139,798,521 (net position).
- The District's total net position increased by \$6,982,540, including a net position adjustment of \$2,885,720. This increase represents the degree to which increases in ongoing revenues exceeded similar increases in ongoing expenses.
- At June 30, 2022 the District's governmental funds reported combined ending fund balances of \$109,015,251, a decrease of \$6,953,622 in comparison with the prior year.
- At June 30, 2022 the unassigned fund balance for the General Fund was \$60,296,137, or 59.89% of total General Fund expenditures.
- The District's total long-term debt decreased by \$4,626,041 during the year ended June 30, 2022 due to retirement of existing debt.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the District's assets and deferred outflows of resources, less its liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes).

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities). Governmental activities include instruction, support services, operations and maintenance, transportation, food services, and certain other activities and expenses such as payments to other districts and governmental units and interest and fees.

The government-wide financial statements can be found on the pages listed in the table of contents.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District are governmental funds (the District maintains no fiduciary or proprietary funds).

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains six individual governmental funds. Information is presented separately in the governmental fund Balance Sheet and in the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General, Operations and Maintenance, Debt Services, Transportation, Illinois Municipal Retirement/Social Security, and Capital Projects Funds, all of which are considered to be major funds.

The District adopts an annual budget for each of the funds listed above. A budgetary comparison statement, which is required supplementary information, has been provided for the General Fund and each major special revenue fund to demonstrate compliance with this budget.

The basic fund financial statements can be found on the pages listed in the table of contents.

Notes to the Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on the pages listed in the table of contents.

Other Information - In addition to the basic financial statements, accompanying notes, and required supplementary information, this report also presents certain supplementary information concerning the District's progress in meeting its obligation to provide fully adequate educational services and extracurricular activities to all of its resident's students.

Supplemental financial information can be found on the pages listed in the table of contents.

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$139,798,521 at the close of the most recent fiscal year.

The following table presents a summary of the District's net position for the years ended June 30, 2022 and 2021:

Unrestricted		11,599,889		6,428,019				
Total Net Position	\$	139,798,521	\$	132,815,981				

The net investment in capital assets (66.34% of total net position) represents assets such as land, buildings, and equipment less any related debt used to acquire those assets that is still outstanding. The District uses its assets to provide educational services and extracurricular activities for the students of the local community. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the District's net position (25.36%) represents resources that are subject to external restrictions on how they may be used.

The District's net position increased by \$6,982,540, including a net position adjustment of \$2,885,720. Substantially, all of this increase represents the degree to which increases in ongoing revenues exceeded similar increases in ongoing expenses

Governmental Activities. Governmental activities increased the District's net position by \$6,982,540, including a net position adjustment of \$2,885,720. Key elements of this increase are as follows:

Lake Zurich Community Unit School District No. 95's Change in Net Position

Net Position - Ending	\$	139,798,521	\$	132,815,981			

- Charges for services increased by \$1,782,413 due to tuition, food service revenue and pupil activities revenue being higher in the current year since school was in person all year.
- Operating Grants and Contributions decreased by \$14,220,553 primarily due to a decrease in transportation grants (\$469,709) and state retirement contributions (\$14,644,339), offset partially by an increase in Child Nutrition Cluster grants (\$781,953).
- Property Taxes increased by \$1,394,099 over the prior year due to an overall increase in the EAV for the District.
- The District's total expenses decreased \$5,006,852 (3.82%) primarily due to a \$14,644,339 decrease in State Retirement Contributions, offset by an increase of \$5,563,092 in facilities acquisition and construction services, \$931,141 in transportation services, \$968,361 in food services, and \$954,141 in interest and fees.

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with financerelated legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on nearterm inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

As of June 30, 2022, the District's six governmental funds reported combined ending fund balances of \$109,015,251, a decrease of \$6,953,622 in comparison with the prior year.

General Fund – The greatest variety and the largest volume of transactions shall be recorded in the General Fund because the General Fund covers transactions that are not specifically covered in another fund. Certain expenditures that must be charged to this fund include the direct costs of instructional, health, and attendance services, lunch programs, all costs of administration, and related insurance costs. Certain revenues that must be credited to this fund include educational and working cash tax levies, tuition, and textbook rentals.

At June 30, 2022 the General Fund had an unassigned fund balance of \$60,296,137. This unassigned fund balance represents 59.89% of total General Fund expenditures.

The remaining five funds had a combined fund balance of \$47,020,854. The significant transactions of these funds for the year ended June 30, 2022 are summarized as follows:

	 erations and laintenance Fund			Tra	ansportation Fund	R	bis Municipal etirement/ cial Security Fund	 Capital Projects Fund
Beginning Fund Balance Net Change in Fund Balance	\$ 11,894,761 1,205,741	\$	4,494,815 35,787	\$	6,049,459 (1,020,443)	\$	1,604,553 (53,568)	\$ 32,840,663 (10,030,914)
Ending Fund Balance	\$ 13,100,502	\$	4,530,602	\$	5,029,016	\$	1,550,985	\$ 22,809,749

The Transportation Fund had a decrease in fund balance due to capital outlay expenditures, as the District purchased buses and other vehicles in the current year. The Illinois Municipal Retirement/Social Security Fund had a decrease in fund balance due to an increase in benefits paid. The Capital Projects Fund had a decrease in fund balance due to expenditures for facilities acquisition and construction services being higher than the revenue and interfund transfers made by the Operation and Maintenance Fund.

General Fund Budgetary Highlights

The District amended the budget during the year ended June 30, 2022. Significant differences between the original and final budget were as follows:

• Instruction expenditures increased by \$54,000, while support services expenditures decreased by the same amount.

Significant differences between budgeted and actual revenues and expenditures are summarized as follows:

- The difference between budgeted revenues and actual revenues was \$12,670,292 (unfavorable) which is 12.21% of total revenues. The most significant factor was state retirement contributions being lower than budgeted by \$12,728,291.
- The difference between budgeted expenditures and actual expenditures was \$15,323,383 (favorable) which is 15.22% of total expenditures. The most significant factor was state retirement contributions being lower than budgeted by \$12,728,291, followed by lower than expected student activity fund expenditures (\$704,534), private tuition special education programs K-12 expenditures (\$649,804) and special education program expenditures (\$381,178).

Capital Asset and Debt Administration

Capital Assets. At June 30, 2022 the District had invested \$174,991,416 (net of depreciation) in a broad range of capital assets, including land, building and building improvements, site improvements and infrastructure, capitalized equipment, and construction in progress. Total depreciation expense for the year was \$5,478,201.

Major capital asset events during the current fiscal year included the following:

- Major building improvement projects finalized in the current year at Isaac Fox and Middle School South for a total of \$2,123,458.
- Major land improvement project finalized in the current year related to the parking lot at Sarah Adams for a total of \$1,544,427.
- District purchased various equipment, including two John Deere utility tractors, 3D printers and other miscellaneous equipment for a total of \$111,757.

Economic Factors and Next Year's Budget

Fiscal year 2022 represents the 15th consecutive balanced budget adopted by the District. The District annually completes a five-year long-range plan to anticipate and address the revenue and expenses of the District. The District's 2021 assessed property values declined slightly due to market assessment. Standard and Poor's reaffirmed the District's AAA bond rating in 2020. The communities served by the District strongly support the District; this was illustrated by passing a building referendum for \$77,600,000 by a 2 to 1 vote in March of 2018. \$5.3 million in debt extension bonds were issued in January 2021 for the purpose of capital improvements. These funding sources continue to support projects associated with the promises made as part of the referendum. The District has a stable workforce and has a labor agreement with the District's certified staff through the 2025-2026 school year.

The fiscal year 2023 budget is balanced on an operating fund basis. The District will continue spending referendum and local dollars from the Capital Projects Fund in accordance with the referendum related projects and capital projects identified within the Long Range Facilities Plan. The District has strong fund balances which will provide additional resources through investment earnings.

Amounts reported for governmental activities in the Statement of Activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeds depreciation expense in the current period.

LAKE ZURICH COMMUNITY UNIT SCHOOL DISTRICT NO. 95 NOTES TO FINANCIAL STATEMENTS JUNE 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Lake Zurich Community Unit School District No. 95's (District) accounting policies conform to generally accepted accounting principles as applicable to local education agencies.

The District's financial statements are prepared in accordance with generally accepted accounting principles (GAAP) as applied to local governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant accounting policies established in GAAP and used by the District are discussed below.

A. Reporting Entity

The accompanying financial statements comply with the provisions of GASB Statements, *The Financial Reporting Entity*, in that the financial statements include all organizations, activities, and functions that comprise the District. Component units are legally separate entities for which the District (the primary entity) is financially accountable. Financial accountability is defined as the ability to appoint a voting majority of the organization's governing body and either (1) the District's ability to impose its will over the organization or (2) the potential that the organization will provide a financial benefit to, or impose a financial burden on, the District. Using these criteria, the District has no component units. In addition, the District is not included as a component unit in any other governmental reporting entity as defined by GASB pronouncements.

B. Basic Financial Statements – Government-Wide Financial Statements

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund (reporting the District's major funds) financial statements. Both the government-wide and fund financial statements categorize all of the primary activities of the District as governmental activities. The District does not have any business-type activities.

In the government-wide Statement of Net Position, the governmental activities column (a) is presented on a consolidated basis, and (b) is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The District's net position is reported in three parts – net investment in capital assets; restricted net position; and unrestricted net position. The District first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the District's functions. The functions are also supported by general government revenues (property taxes, personal property replacement taxes, grants and contributions not restricted to specific activities, unrestricted investment earnings, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function (regular programs, special education programs, payments to other districts and governmental units, etc.). Program revenues include charges to those who purchase, use, or directly benefit from goods, services, or privileges provided by a given function. Program revenues also include grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

The net costs (by function) are normally covered by general revenue (property taxes, personal property replacement taxes, grants and contributions not restricted to specific activities, unrestricted investment earnings, etc.).

The District does not allocate indirect costs.

In the process of aggregating data for the government-wide financial statements, some amounts reported as interfund activity and balances were eliminated or reclassified. Interfund services provided and used are not eliminated in the process of consolidation.

This government-wide focus is more on the sustainability of the District as an entity and the change in the District's net position resulting from the current year's activities.

C. Basic Financial Statements – Fund Financial Statements

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

The emphasis in fund financial statements is on the major funds. GASB Statement No. 34 sets forth minimum criteria (percentage of the assets, liabilities, revenues, or expenditures/expenses of all governmental funds) for the determination of major funds. The District electively made all governmental funds major funds.

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate.

Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The District reports these major governmental funds:

<u>General Fund</u> – The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. Educational and Working Cash levies and included in this fund.

<u>Special Revenue Funds</u> – The Special Revenue Funds (Operations and Maintenance Fund, Transportation Fund, and Illinois Municipal Retirement/Social Security Fund) are used to account for the proceeds of specific revenue sources that are restricted, committed, or assigned to expenditures for specified purposes other than debt service or capital projects.

<u>Debt Services Fund</u> – The Debt Services Fund is used to account for financial resources that are restricted, committed, or assigned to expenditures for the periodic payment of principal, interest, and related fees on general long-term debt.

<u>Capital Projects Fund</u> – The Capital Projects Fund is used to account for financial resources that are restricted, committed, or assigned to expenditures for the acquisition or construction of major capital facilities.

D. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

1. Accrual

The governmental activities in the government-wide financial statements are presented on the accrual basis of accounting. Property taxes are reported in the period for which levied. Other nonexchange revenues, including intergovernmental revenues and grants, are reported when all eligibility requirements have been met. Fees and charges and other exchange revenues are recognized when earned and expenses are recognized when incurred.

2. Modified Accrual

The governmental fund financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year-end. An exception was made to the 60 day recognition period for State Aid revenues due to delayed payments from the State of Illinois. The exception was made to preserve the consistency of revenue recognition between years. Property tax revenues are recognized in the period for which levied provided they are also available. Intergovernmental revenues and grants are recognized when all eligibility requirements are met and the revenues are available. Expenditures are recognized when the related liability is incurred. Exceptions to this general rule include principal and interest on general obligation long-term debt and employee vacation and sick leave, which are recognized when due and payable.

E. Cash and Cash Equivalents and Investments

Separate bank accounts are not maintained for all of the District's funds. Instead, the funds maintain their cash balances in common accounts, with accounting records being maintained to show the portion of the common bank account balances attributable to each participating fund.

Occasionally certain of the funds participating in the common bank account may incur overdrafts (deficits) in the account. Such overdrafts in effect constitute cash borrowed from other District funds and are, therefore, interfund loans that have not been authorized by District Board action.

No District fund had a cash overdraft at June 30, 2022.

The District has defined cash and cash equivalents to include cash on hand, demand deposits, and shortterm investments with original maturities of three months or less from the date of acquisition. Cash equivalents are accounted for at cost, which approximates market.

Investments are stated at fair value. Fair value is determined by quoted market prices. Gains or losses on the sale of investments are recognized as they are incurred. The District has adopted a formal written investment and cash management policy.

F. Receivables

All receivables are reported net of estimated uncollectible amounts.

G. Prepaid Expenses

Prepaid expenses are for payments made by the District in the current year for goods and services received in the subsequent fiscal year.

H. Inventories

No inventory accounts are maintained to reflect the values of resale or supply items on hand. Instead, the costs of such items are charged to expense when purchased. The value of the District's inventories is not deemed to be material.

I. Interfund Activity

Interfund activity is reported either as loans, services provided, reimbursements, or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. All other interfund transactions are treated as transfers. Transfers between governmental funds are netted as part of the reconciliation to the government-wide financial statements.

J. Capital Assets

Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are reported at acquisition value. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Building and Building Improvements	5 - 50 years
Site Improvements and Infrastructure	20 years
Capitalized Equipment	5 - 20 years

K. Deferred Outflows and Inflows of Resources

In addition to assets and liabilities, the Balance Sheet and Statement of Net Position will sometimes report separate sections for deferred outflows of resources and deferred inflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and so will not be recognized as an outflow of resource until then. Deferred inflows of resources represent an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resource until then.

L. Compensated Absences

Vacation benefits are granted to employees in varying amounts up to specified maximums depending on tenure with the District. A portion of unused vacation time can accumulate and carryover to the subsequent year depending upon which department the employee is employed in.

M. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds on a straight-line basis. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as debt service expenditure.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

N. Government-Wide Net Position

Net position is divided into three components:

- Net Investment in Capital Assets consists of capital assets (net of accumulated depreciation) reduced by the outstanding balances of bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- Restricted Net Position consists of net position that is restricted by the District's creditors (for example, through debt covenants), by the state enabling legislation (through restrictions on shared revenues), by grantors (both federal and state), and by other contributors.
- Unrestricted Net Position the remaining net position is reported in this category.

O. Governmental Fund Balances

Governmental fund balances are divided between nonspendable and spendable. Nonspendable fund balances are balances that cannot be spent because they are not expected to be converted to cash or they are legally or contractually required to remain intact.

The spendable fund balances are arranged in a hierarchy based on spending constraints.

- Restricted Restricted fund balances are restricted when constraints are placed on the use by either (a) external creditors, grantors, contributors, or laws or regulations of other governments or (b) law through constitutional provisions or enabling legislation.
- Committed Committed fund balances are amounts that can only be used for specific purposes as a result of a resolution of the Board of Education. Committed amounts cannot be used for any other purpose unless the Board of Education removes those constraints by way of resolution. Committed fund balances differ from restricted balances because the constraints on their use do not come from outside parties, constitutional provisions, or enabling legislation.
- Assigned Assigned fund balances are amounts that are constrained by the District's intent to be used for specific purposes but are neither restricted nor committed. Intent is expressed by an appointed body (e.g. a budget or finance committee) or official to which the Board of Education has delegated the authority to assign, modify or rescind amounts to be used for specific purposes. Pursuant to a resolution by the Board of Education, the Assistant Superintendent of Business and Operations has been delegated this authority.

Assigned fund balances also include (a) all remaining amounts that are reported in governmental funds (other than the General Fund) that are not classified as nonspendable, restricted or committed, and (b) amounts in the General Fund that are intended to be used for a specific purpose. Specific amounts that are not restricted or committed in a special revenue, capital projects or debt services fund are assigned for purposes in accordance with the nature of their fund type. Assignment within the General Fund conveys that the intended use of those amounts is for a specific purpose that is narrower than the general purpose of the District itself.

Unassigned – Unassigned fund balance is the residual classification for the General Fund. This classification represents the General Fund balance that has not been assigned to other funds, and that has not been restricted, committed, or assigned to specific purposes within the General Fund. Unassigned fund balance in the General Fund also includes amounts levied and/or borrowed for working cash. This classification is also used to represent negative fund balances in special revenue, debt services, and capital projects funds.

The District permits funds to be expended in the following order: Restricted, Committed, Assigned and Unassigned.

P. Property Tax Calendar and Revenues

The District's property tax is levied each calendar year on all taxable real property located in the District's district on or before the last Tuesday in December. The 2021 levy was passed by the Board on December 2, 2021. Property taxes attach as an enforceable lien on property as of January 1 of the calendar year they are for and are payable in two installments early in June and early in September of the following calendar year. The District receives significant distributions of tax receipts approximately one month after these dates.

Q. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 2 - DEPOSITS AND INVESTMENTS

Deposits with financial institutions are fully insured or collateralized by securities held in the District's name.

The District is allowed to invest in securities as authorized by the <u>School Code of Illinois</u>, Chapter 30, Section 235/2 and 6; and Chapter 105, Section 5/8-7.

Investments

As of June 30, 2022, the District had the following investments and maturities:

		Investment Maturities (in Years)											
Investment	Fair Value	Less Than 1	1 - 5	5 - 10	More Than 10								
State Investment Pool	\$ 37,355,681	\$ 37,355,681	\$-	\$-	\$ -								
U.S. Treasury Securities	50,473,782	39,733,035	10,740,747	-	-								
Total	\$ 87,829,463	\$ 77,088,716	\$ 10,740,747	\$-	\$-								

The fair value of investments in the State Investment Pool is the same as the value of pool shares. The State Investment Pool is not SEC-registered but does have regulatory oversight through the State of Illinois.

Interest Rate Risk. The District does have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. State law limits investments based on credit risk. The District has an investment policy that would further limit its investment choices. As of June 30, 2022, the District's investments were rated as follows:

Investment	Credit Rating	Rating Source						
State Investment Pool	AAAm	Standard and Poor's						

NOTE 3 - FAIR VALUE MEASUREMENT

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The District has the following recurring fair value measurements as of June 30, 2022:

			Fair Value Measurements Using:					
				Quo	ted Prices in			Significant
		A			tive Markets			Other
				for Identical			(Observable
Investments by fair value level	6/30/2022			Ass	ets (Level 1)	Inputs (Level 2		
State Investment Pool	\$	37,355,681		\$	-		\$	37,355,681
US Treasury Securities		50,473,782			50,473,782			-
Certificates of Deposit		519,210			-			519,210
Total Investments by fair value level	\$	88,348,673		\$	50,473,782		\$	37,874,891

Debt and equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Debt securities and certificates of deposit classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

NOTE 7 - PROPERTY TAXES

Property taxes receivable and unavailable revenue recorded in these financial statements are from the 2021 tax levy. The unavailable revenue is 50% of the 2021 tax levy. These taxes are unavailable as only a portion of the taxes (approximately 50%) are collected before the end of the fiscal year and the District does not consider the remaining amounts to be available and does not budget for their use until the following fiscal year. The District has determined that 50% of the 2021 tax levy (\$44,857,596) and 50% of the 2020 tax levy, plus back taxes, less uncollectible amounts (\$43,276,596) are allocable for use in fiscal year 2022. Therefore, 50% of each of these levies are recorded in these financial statements as property taxes revenue. A summary of tax rates, assessed valuations, and extensions for tax years 2021, 2020, and 2019 is as follows:

NOTE 9 - RETIREMENT FUND COMMITMENTS

A. Teachers' Retirement System of the State of Illinois

General Information About the Pension Plan

Plan Description

The District participates in the Teachers' Retirement System of the State of Illinois (TRS). TRS is a costsharing multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago. TRS members include all active non-annuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration.

TRS issues a publicly available financial report that can be obtained at http://www.trsil.org/financial/cafrs/fy2021; by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, IL 62794; or by calling (888) 678-3675, option 2.

Benefits Provided

TRS provides retirement, disability, and death benefits. Tier I members have TRS or reciprocal system service prior to January 1, 2011. Tier I members qualify for retirement benefits at age 62 with five years of service, at age 60 with ten years, or age 55 with twenty years. The benefit is determined by the average of the four highest consecutive years of creditable earnings within the last ten years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2% of final average salary up to a maximum of 75% with 34 years of service.

Tier II members qualify for retirement benefits at age 67 with ten years of service, or a discounted annuity can be paid at age 62 with ten years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the highest four. Disability provisions for Tier II are identical to those of Tier I. Death benefits are payable under a formula that is different from Tier I.

Essentially all Tier I retirees receive an annual 3% increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. Tier II annual increases will be the lesser of 3% of the original benefit or 1/2% of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

Public Act 100-0023, enacted in 2017, creates an optional Tier III hybrid retirement plan, but it has not yet gone into effect. Public Act 100-0587, enacted in 2018, requires TRS to offer two temporary benefit buyout program that expire on June 30, 2024. Once program allows retiring Tier I members to receive a partial lump-sum payment in exchange for accepting a lower, delayed annual increase. The other allows inactive vested Tier I and II members to receive a partial lump-sum payment in 2019 and will be funded by bonds issued by the state of Illinois.

Contributions

The State of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2021 was 9.0% of creditable earnings. The member contribution, which may be paid on behalf of employees by the employer, is submitted to TRS by the employer.

<u>On-Behalf Contributions to TRS.</u> The State of Illinois makes employer pension contributions on behalf of the District. For the year ended June 30, 2022, State of Illinois contributions recognized by the District were based on the State's proportionate share of the pension expense associated with the District, and the District recognized revenue and expenditures of 23,529,303 in pension contributions from the State of Illinois.

<u>2.2 Formula Contributions.</u> Districts contribute 0.58% of total creditable earnings for the 2.2 formula change. The contribution rate is specified by statute. Contributions for the year ended June 30, 2022, were \$270,880 and are deferred because they were paid after the June 30, 2021 measurement date.

<u>Federal and Special Trust Fund Contributions.</u> When TRS members are paid from federal and special trust funds administered by the employer, there is a statutory requirement for the employer to pay an employer pension contribution from those funds. Under Public Act 100-0340, the federal and special trust fund contribution rate is the total employer normal cost beginning with the year ended June 30, 2018.

Previously, employer contributions for employees paid from federal and special trust funds were at the same rate as the state contribution rate to TRS and were much higher.

For the year ended June 30, 2022, the District pension contribution was 10.31% of salaries paid from federal and special trust funds. For the year ended June 30, 2022, salaries totaling \$39,797 were paid from federal and special trust funds that required District contributions of \$4,097. These contributions are deferred because they were paid after the June 30, 2021 measurement date.

<u>Employer Retirement Cost Contributions.</u> Under GASB Statement No. 68, contributions that an employer is required to pay because of a TRS member retiring are categorized as specific liability payments. The employer is required to make a one-time contribution to TRS for members granted salary increases over 6% if those salaries are used to calculate a retiree's final average salary.

A one-time contribution is also required for members granted sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. For the year ended June 30, 2022, the District paid \$2,761 to TRS for employer contributions due on salary increases in excess of 6% and \$0 for sick leave days granted in excess of the normal annual allotment.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of</u> <u>Resources Related to Pensions</u>

At June 30, 2021, the District reported a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for state pension support provided to the District. The State's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net pension liability, the related State support and the total portion of the net pension liability that was associated with the District follows below:

District's proportionate share of the net pension liability	\$ 3,914,114
State's proportionate share of the net pension liability associated with the District	328,044,361
Total	\$ 331,958,475

The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2021. The employer's proportion of the net pension liability was based on the District's share of contributions to TRS for the measurement year ended June 30, 2021, relative to the contributions of all participating TRS employers

and the State during that period. At June 30, 2021, the District's proportion was 0.00501737%, which was a decrease of 0.0002913% from its proportion measured as of June 30, 2020.

For the year ended June 30, 2022, the District recognized pension expense of \$23,529,303 and revenue of \$23,529,303 for support provided by the State. At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflow s of Resources		Deferred Inflows of Resources		0411011 0 0

\$270,880 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the reporting year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows in these reporting years:

Actuarial Assumptions

The total pension liability in the June 30, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.25%
Salary Increases	varies by amount of service credit
Investment Rate of Return	7.0%, net of pension plan investment
	expenses, including inflation

In the June 30, 2021 actuarial valuation, mortality rates were based on the PubT-2010 Table with appropriate adjustments for TRS experience. The rates are based on a fully-generational basis using projection table MP-2020. In the June 30, 2020 actuarial valuation, mortality rates were also based on the RP-2014 White Collar Table with appropriate adjustments for TRS experience. The rates were used on a fully-generational basis using projection table MP-2017.

The long-term (20-year) expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The

target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
U.S. equities large cap	16.7%	6.2%
U.S. equities small/mid cap	2.2%	7.4%

Discount Rate

At June 30, 2021, the discount rate used to measure total pension liability was 7.00%, which was the same as the June 30, 2020 rate. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions, and State contributions will be made at the current statutorily-required rates.

Based on those assumptions, TRS's fiduciary net position at June 30, 2021 was projected to be available to make all projected future benefit payments to current active and inactive members and all benefit recipients. Tier I's liability is partially funded by Tier II members, as the Tier II member contribution is higher than the cost of Tier II benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. All projected future payments were covered, so the long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1-percentage-point-higher (8.00%) than the current rate.

B. Illinois Municipal Retirement Fund

Plan Description

The District's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The District's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Annual Comprehensive Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

Benefits Provided

IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired **before** January 1, 2011 are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last ten years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired **on or after** January 1, 2011 are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last ten years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by Benefit Terms

All appointed employees of a participating employer who are employed in a position normally requiring 600 hours (1,000 hours for certain employees hired after 1981) or more of work in a year are required to participate. As of December 31, 2021, the following employees were covered by the benefit terms:

Inactive plan members and beneficiaries currently receiving benefits	214
Inactive plan members entitled to but not yet receiving benefits	269
Active plan members	249
Total	732

Contributions

As set by statute, the District's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District's annual contribution rate for calendar year 2021 was 9.38%. For the fiscal year ended June 30, 2022, the District contributed \$817,126 to the plan. The District also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability/(Asset)

The components of the net pension liability/(asset) of the IMRF actuarial valuation performed as of December 31, 2019, and a measurement date as of December 31, 2021, calculated in accordance with GASB Statement No. 68, were as follows:

Total Pension Liability	\$ 35,094,280
IMRF Fiduciary Net Position	38,137,280
District's Net Pension Liability/(Asset)	(3,043,000)
IMRF Fiduciary Net Position as a Percentage	
of the Total Pension Liability	108.67%

See the Schedule of Changes in the Employer's Net Pension Liability and Related Ratios in the Required Supplementary Information following the notes to the financial statements for additional information related to the funded status of the plan.

Actuarial Assumptions

The total pension liability/(asset) above was determined by an actuarial valuation performed as of December 31, 2021 using the following actuarial methods and assumptions:

Assumptions	
Inflation	2.25%
Salary Increases	2.85% to 13.75% including inflation
Interest Rate	7.25%
Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Market value of assets
Projected Retirement Age	Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2020 valuation pursuant to an experience study for the period 2017-2019.

For non-disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020 were used. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020 were used. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020 were used.

Long-Term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a buildingblock method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class.

These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table as of December 31, 2021:

Asset Class	Target Allocation	Projected Return
Equities	39.0%	1.90%
International Equities	15.0%	3.15%
Fixed Income	25.0%	-0.60%
Real Estate	10.0%	3.30%
Alternatives	10.0%	
Private Equity		5.50%
Hedge Funds		N/A
Commodities		1.70%
Cash Equivalents	1.0%	-0.90%
	100.0%	

Single Discount Rate

A Single Discount Rate of 7.25% was used to measure the total pension liability as of December 31, 2021. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

- 1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
- 2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of this valuation, the expected rate of return on pension plan investments is 7.25%; the municipal bond rate is 1.84%; and resulting single discount rate is 7.25%. The prior year single discount rate was 7.25% and increased 0.00% to the current year single discount rate.

C. Social Security

Employees not qualifying for coverage under the Teachers' Retirement System of the State of Illinois or the Illinois Municipal Retirement Fund are considered "non-participating employees". These employees and those qualifying for coverage under the Illinois Municipal Retirement Fund are covered under Social Security. The District paid the total required contribution for the current fiscal year.

NOTE 10 - POST-EMPLOYMENT BENEFIT COMMITMENTS – RETIREE INSURANCE PLAN

A. Teacher Health Insurance Security Fund (THIS)

General Information About the OPEB Plan

Plan Description

The District participates in the Teacher Health Insurance Security (THIS) Fund, a cost-sharing, multipleemployer defined benefit post-employment healthcare plan that was established by the Illinois legislature for the benefit of retired Illinois public school teachers employed outside the city of Chicago. The THIS Fund provides medical, prescription, and behavioral health benefits, but it does not provide vision, dental, or life insurance benefits to annuitants of the Teachers' Retirement System (TRS). Annuitants not enrolled in Medicare may participate in the state-administered participating provider option plan or choose from several managed care options. Annuitants who are enrolled in Medicare Parts A and B may be eligible to enroll in a Medicare Advantage plan.

The publicly available financial report of the THIS Fund may be found on the website of the Illinois Auditor General (http://www.auditor.illinois.gov/Audit-Reports/ABC-List.asp). The current reports are listed under "Central Management Services" (http://www.auditor.illinois.gov/Audit-Reports/CMS-THISF.asp). Prior reports are available under "Healthcare and Family Services" (http://www.auditor.illinois.gov/Audit-Reports/HEALTHCARE-FAMILY-SERVICES-Teacher-Health-Ins-Sec-Fund.asp).

Benefits Provided

The State of Illinois offers comprehensive health plan options, all of which include prescription drug and behavioral health coverage. The State of Illinois offers TCHP, HMO, and OAP plans.

- Teachers' Choice Health Plan (TCHP) benefit recipients can choose any physician or hospital for medical services; however, benefit recipients receive enhanced benefits, resulting in lower out-ofpocket costs, when receiving services from a TCHP in-network provider. TCHP has a nationwide network and includes CVS/Caremark for prescription drug benefits and Magellan Behavioral Health for behavioral health services.
- Health Maintenance Organizations (HMO) benefit recipients are required to stay within the health plan provider network. No out-of-network services are available. Benefit recipients will need to select a primary care physician (PCP) from a network of participating providers. The PCP will direct all healthcare services and make referrals to specialists and hospitalization.
- Open Access Plan (OAP) benefit recipients will have three tiers of providers from which to choose to obtain services. The benefit level is determined by the tier in which the healthcare provider is contracted.
 - Tier I offers a managed care network which provides enhanced benefits and operates like an HMO.
 - Tier II offers an expanded network of providers and is a hybrid plan operating like an HMO and PPO.
 - Tier III covers all providers which are not in the managed care networks of Tiers I or II (i.e., out-of-network providers). Using Tier III can offer benefit recipients flexibility in selecting healthcare providers but involves higher out-of-pocket costs. Furthermore, benefit recipients who use out-of-network providers will be responsible for any amount that is over and above the charges allowed by the plan for services (i.e., allowable charges), which could result in substantial out-of-pocket costs. Benefit recipients enrolled in an OAP can mix and match providers and tiers.

Contributions

For the fiscal year ended June 30, 2022, the State Employees Group Insurance Act of 1971 (5 ILCS 375/6.6) requires that all active contributors of the THIS make contributions to the plan at a rate of 0.90% of salary and for every employer of a teacher to contribute an amount equal to 0.67% of each teacher's salary. For the fiscal year ended June 30, 2021, the employee contribution was 1.24% of salary and the employer contribution was 0.92% of each teacher's salary. The Department of Central Management Services determines, by rule, the percentage required, which each year shall not exceed 105% of the percentage of salary actually required to be paid in the previous fiscal year. In addition, under the State Pension Funds Continuing Appropriations Act (40 ILCS 15/1.3), there is appropriated, on a continuing annual basis, from the General Revenue Fund, an account of the General Fund, to the State Comptroller for deposit in the Teachers' Health Insurance Security Fund (THISF), an amount equal to the amount certified by the Board of Trustees of THIS as the estimated total amount of contributions to be paid under 5 ILCS 376/6.6(a) in that fiscal year. The member contribution, which may be paid on behalf of employees by the employer, is submitted to THIS by the employer.

<u>On-Behalf Contributions to THIS.</u> The State of Illinois makes employer benefit contributions on behalf of the District. For the year ended June 30, 2022, State of Illinois contributions recognized by the District were based on the State's proportionate share of the collective net OPEB liability associated with the District, and the District recognized revenue and expenditures of \$561,299 in benefit contributions from the State of Illinois.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At June 30, 2021, the District reported a liability for its proportionate share of the net OPEB liability (first amount shown below) that reflected a reduction for state benefit support provided to the District. The State's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$	38,235,022
State's proportionate share of the net pension liability associated with the District		51,841,067
Total	\$	90,076,089

The net OPEB liability was measured as of June 30, 2021, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2020 and rolled forward to June 30, 2021. The District's proportion of the net OPEB liability was based on the District's share of contributions to THIS for the measurement year ended June 30, 2021, relative to the contributions of all participating THIS employers and the State during that period. At June 30, 2021, the District's proportion was 0.1733590%, which was a decrease of 0.002991% from its proportion measured as of June 30, 2020.

For the year ended June 30, 2022, the District recognized benefit income of \$455,054 and on-behalf revenue/expense of \$561,299 for support provided by the State. At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflow s of Resources		Deferred Inflows of Resources	Net Outflow s of Resources
Differences betw een expected and actual experience	\$	-	\$ (1,788,587)	\$ (1,788,587)

	\$	1,323,692	\$ (18,156,108)	\$ (16,832,416)

\$312,913 reported as deferred outflows of resources related to OPEB resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the reporting year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows in these reporting years:

Year Ending June 30	
2023	\$ (6,924,081)
2024	(4,671,947)
2025	(2,684,301)
2026	(2,453,919)
2027	(411,081)
	\$ (17,145,329)

Actuarial Assumptions

The total OPEB liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary Increases	Depends on service and ranges from 9.50% at 1 year of service to 4.00% at 20 or more years of service. Salary increase includes a 3.25% wage inflation assumption.
Investment Rate of Return	2.75%, net of OPEB plan investment expense, including inflation
Healthcare Cost Trend Costs	to develop average costs. For fiscal years ending on or after 2023, trend starts at 8.00% for non-Medicare costs and post- Medicare costs, and gradually decreases to an ultimate trend of 4.25%

Mortality rates for retirement and beneficiary annuitants were based on the RP-2014 White Collar Annuitant Mortality Table, adjusted for TRS experience. For disabled annuitants mortality rates were based on the RP-2014 Disabled Annuitant Table. Mortality rates pre-retirement were based on the RP-2014 White Collar Table. All tables reflect future improvements using Projection Scale MP-2017.

The actuarial assumptions that were used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period July 1, 2014 through June 30, 2017.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation

and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Illinois Public Treasurers' Investment Pool	100.0%	0.32%
	100.0%	

Discount Rate

Projected benefit payments were discounted to their actuarial present value using a Single Discount Rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bond with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met). Since TRIP (Teachers' Retirement Insurance Program) is financed on a pay-as-you-go basis, a discount rate consistent with the 20-year general obligation bond index has been selected. The discount rates are 1.92% as of June 30, 2021, and 2.45% as of June 30, 2020. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions, and State contributions will be made at the current statutorily-required rates.

Based on those assumptions, THIS's fiduciary net position at June 30, 2021 was projected to be available to make all projected future benefit payments to current active and inactive members and all benefit recipients. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. All projected future payments were covered, so the long-term expected rate of return on THIS investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

At June 30, 2021, the discount rate used to measure the total OPEB liability was 1.92%.

Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net OPEB liability calculated using the discount rate of 1.92%, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1 percentage-point lower (0.92%) or 1 percentage-point higher (2.92%) than the current rate.

Plan Overview

In addition to providing the pension benefits described in Note 9, the District provides post-employment benefits other than pensions ("OPEB") for retired employees through a single-employer defined benefit plan. The benefits, benefit levels, employee contributions and employer contributions are governed by the District and can be amended by the District through its personnel manual and union contracts. The plan is not accounted for as a trust fund, as an irrevocable trust has not been established to account for the plan. The plan does not issue a separate report. The activity of the plan is reported in the District's governmental activities.

Benefits Provided

The District provides postemployment health care benefits to its retirees. To be eligible for benefits, an employee must qualify for retirement under the Illinois Municipal Retirement Fund (IMRF). IMRF employees may continue coverage into retirement on the District plan if they pay the entire premium. Dependents may also continue coverage on a pay-all basis. Coverage may continue for as long as required contributions are paid. All health care benefits are provided through the District's insured health plan. The benefit levels are the same as those afforded to active employees.

Eligibility

Employees of the District are eligible for retiree health benefits as listed below:

Regular Plan Tier 1 (Enrolled in IMRF Prior to January 1, 2011)

- At least 55 years old and at least 8 years of credited service (reduced pension)
- At least 60 years old and at least 8 years of credited service (full pension)

Regular Plan Tier 2 (Enrolled in IMRF On or After January 1, 2011)

- At least 62 years old and at least 10 years of credited service (reduced pension)
- At least 67 years old and at least 10 years of credited service (full pension)

Membership

Membership in the plan consisted of the following at July 1, 2021, the date of the latest actuarial valuation:

Active employees	244
Inactive employees entitled to but not yet receiving benefits	-
Inactive employees currently receiving benefits	4
Total	248

Total OPEB Liability

The District's total OPEB liability was measured as of June 30, 2022, and the total OPEB liability was determined by an actuarial valuation as of July 1, 2021.

Actuarial Assumptions

The total OPEB liability in the July 1, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Actuarial Method	Entry Age Normal
Discount rate	4.09%
Inflation	3.00%
Salary Rate Increase	4.00%
Health Care Trend	
Initial Trend Rat	e PPO plan - 5.00%
	HMO IL and Blue Adv. HMP Plans - 6.00%
Ultimate Trend Rat	e 4.50%
FY the Ultimate Rate is Reache	d Fiscal Year 2038
Mortality	Active Employees - PubG.H-2010(B) Mortality Table - General (below -median income) with future mortality improvement using Scale MP-2020
Election at Retirement	<i>Retirees</i> - IPubG.H-2010(B) Mortality Table - General (below-median income), Male adjusted 106% and Female adjusted 105% tables, with future mortality improvement using scale MP-2020 10% of active employees will elect coverage at retirement
Marital Status	40% of employees electing coverage are assumed to be married and to elect spousal coverage with males three years older than females. Actual spouse data was used for current retirees.

The actuarial assumptions used in the July 1, 2021 valuation were based on the results of an actuarial experience study for the period July 1, 2021 through June 30, 2022. Assumption changes reflect a change in the discount rate of 1.91% from 2.18% for the beginning of the year values and 4.09% for the disclosure date.

There is no long-term expected rate of return on OPEB plan investments because the District does not have a trust dedicated exclusively to the payment of OPEB benefits.

Discount Rate

The District does not have a dedicated trust to pay retiree healthcare benefits. Per GASB 75, the discount rate should be a yield or index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher (or equivalent quality on another rating scale).

A rate of 4.09% is used, which is the S&P Municipal Bond 20-Year High-Grade Rate Index as of June 30, 2022.

- The transfer from the Operations and Maintenance Fund to the Debt Services Fund was made to pay principal and interest on capital leases.
- The transfer from the Operations and Maintenance Fund to the Capital Projects Fund was made to transfer funds for renovation projects.

NOTE 13 - JOINT VENTURE – LAKE COUNTY AREA VOCATIONAL SYSTEM (LCAVS)

The District and seventeen other districts within Lake and McHenry Counties have entered into a joint agreement to provide vocational programs for member districts that are not offering these services individually. Each member district has a financial responsibility for annual and special assessments as established by the management council.

A summary of financial condition (cash basis) of LCAVS at June 30, 2021 (most recent information available) is as follows:

Assets	\$ 34,307,531
Liabilities	\$ 1,026
Fund Equity	 34,306,505
	\$ 34,307,531
Revenues Received	\$ 12,221,326
Expenditures Disbursed	 12,944,548
Net Increase/(Decrease) in Fund Balance	\$ (723,222)

Complete financial statements for LCAVS can be obtained from the Administrative Offices at 19525 W. Washington Street, Grayslake, Illinois 60030.

NOTE 14 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and the destruction of assets; errors and omissions; and injuries to employees.

The District is a member of the Collective Liability Insurance Cooperative (CLIC), a joint risk management pool of school districts through which property, general liability, automobile liability, crime, excess property, excess liability, and boiler and machinery coverage is provided in excess of specified limits for the members, acting as a single insurable unit.

The relationship between the District and CLIC is governed by a contract and by-laws that have been adopted by resolution of each unit's governing body. The District is contractually obligated to make all annual and supplementary contributions for CLIC, to report claims on a timely basis, cooperate with CLIC,

management procedures as outlined by CLIC. Members have a contractual obligation to fund any deficit of CLIC attributable to a membership year during which they were a member.

CLIC is responsible for administering the self-insurance program and purchasing excess insurance according to the direction of the Board of Directors. CLIC also provides its members with risk management services, including the defense of and settlement of claims, and establishes reasonable and necessary loss of reduction and prevention procedures to be followed by the members.

During the year ended June 30, 2022, there were no significant reductions in insurance coverage. Also, there have been no settlement amounts that have exceeded insurance coverage in the past three years. The District is insured under a retrospectively-rated policy for workers' compensation coverage. Whereas the initial premium may be adjusted based on actual experience. Adjustments in premiums are recorded when paid or received. During the year ended June 30, 2022, there were no significant adjustments in premiums based on actual experience.

NOTE 15 - CONSTRUCTION COMMITMENTS

The District has entered into contracts for building repairs at various schools. The total amount of outstanding contracts is \$14,904,023. As of June 30, 2022, \$2,216,988 has been accrued to be paid on these contracts of which \$638,329 is retainage payable.

NOTE 16 - CHANGE IN ACCOUNTING PRINCIPLE/NET POSITION ADJUSTMENT

The District has implemented GASB Statement No. 87, *Leases*. This statement establishes financial reporting standards related to leases. Implementation of this standard resulted in recognizing the fair market value of the liability and asset at the commencement of the agreement. There have been no changes to the previously issued audited financial statements which would be required on a retrospective basis. During the evaluation of the ongoing leases, it was noted that the District's administrative building, which is currently being leased with the intent to purchase at the expiration of the lease, should be added as a capital asset. The addition of the building and related accumulated depreciation resulted in a net position adjustment of \$2,885,720.

NOTE 17 - LEGAL DEBT LIMITATION

The Illinois School Code limits the amount of indebtedness to 13.8% of the most recent available equalized assessed valuation (EAV) of the District. The District's legal debt limitation is as follows:

2021 EAV	\$ 1,723,218,851
Rate	 13.8%
Debt Margin	\$ 237,804,201
Current Debt	 74,949,426

Actuarial Method and Assumptions Used on the Calculation of the 2021 Contribution Rate *

Actuarially determined contribution rates are calculated as of December 31 each year, which are 12 months prior to the beginning of the fiscal year in which contributions are reported.

Actuarial Cost Method: Aggregate Entry Age Normal

Amortization Method: Level percentage of payroll, closed

Remaining Amortization Period: 22-year closed period

Asset Valuation Method: 5-year smoothed market; 20% corridor

Wage Growth: 3.25%

Price Inflation: 2.50%, approximate; No explicit price inflation assumption is used in this valuation.

Salary Increases: 3.35% to 14.25%, including inflation

Investment Rate of Return: 7.25%

Retirement Age: Experience-based table of rates that are specific to the type of eligibility condition; last updated for the 2017 valuation pursuant to an experience study of the period 2014 to 2016.

Mortality: For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality rates were used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustments that were applied for non-disabled lives. For active members, an IMRF specific mortality rates were used with fully generational projection scale MP-2017 (base year 2015). Changes of Assumptions:

For the 2021 measurement year, the assumed investment rate of return was of 7.0%, including an inflation rate of 2.25% and a real return of 4.75%. Salary increases were assumed to vary by service credit. These actuarial assumptions were based on an experience study dated Sept. 30, 2021.

For the 2020-2016 measurement years, the assumed investment rate of return was of 7.0%, including an inflation rate of 2.5% and a real return of 4.5%. Salary increases were assumed to vary by service credit. The assumptions used for the 2020-2018 and 2017-2016 measurement years were based on an experience study dated September 18, 2018 and August 13, 2015 respectively.

For the 2015 measurement year, the assumed investment rate of return was 7.5%, including an inflation rate of 3.0% and a real return of 4.5%. Salary increases were assumed to vary by service credit. Various other changes in assumptions were adopted based on the experience analysis for the three-year period ending June 30, 2014.

LAKE ZURICH COMMUNITY UNIT SCHOOL DISTRICT NO. 95 NOTES TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2022

NOTE 1 - BUDGETARY PROCESS

The District follows procedures mandated by Illinois State law and District Board policy to establish the budgetary data reflected in its financial statements. The budget was passed on September 23, 2021 and it was amended on June 23, 2022. The modified accrual basis budgeted amounts in this report are the result of full compliance with the following procedures:

For each fund, total fund expenditures may not legally exceed the budgeted amounts. The budget lapses at the end of each fiscal year.

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. Prior to July 1, the Superintendent submits to the Board of Education a proposed operating budget for the fiscal year commencing on that date. The operating budget includes proposed expenditures and the means of financing them.
- 2. A public hearing is conducted to obtain taxpayer comments.
- 3. Prior to October 1, the budget is legally adopted through passage of a resolution.
- 4. Formal budgetary integration is employed as a management control device during the year.
- 5. The Board of Education may make transfers between the various items in any fund not exceeding in the aggregate 10% of the total of such fund as set forth in the budget.
- 6. The Board of Education may amend the budget (in other ways) by the same procedures required of its original adoption.

NOTE 2 - EXCESS OF EXPENDITURES OVER BUDGET

For the year ended June 30, 2022, none of the District's funds presented as Required Supplementary Information had expenditures that exceeded the budget.

ANNUAL FEDERAL FINANCIAL COMPLIANCE SECTION

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH THE UNIFORM GUIDANCE

To the Board of Education Lake Zurich Community Unit School District No. 95 Lake Zurich, Illinois

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited

Lake Zurich Community Unit School District No. 95's

compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of Lake Zurich Community Unit School District No. 95's major federal programs for the year ended June 30, 2022. Lake Zurich Community Unit School District No. 95's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

In our opinion, Lake Zurich Community Unit School District No. 95 complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations*, Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency in internal control over compliance is a deficiency of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses as defined above. However, material weaknesses or significant deficiencies in internal control over compliance that weaknesses or significant deficiencies in internal control over compliance that we consider to be material control over compliance that we consider to be material weaknesses as defined above. However, material weaknesses or significant deficiencies in internal control over compliance that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

*Include the total amount provided to subrecipients from each Federal program. §200.510 (b)(4).

The accompanying notes are an integral part of this schedule.

¹ To meet state or other requirements, auditees may decide to include certain nonfederal awards (for example, state awards) in this schedule. If such nonfederal data are presented, they should be segregated and clearly designated as nonfederal. The title of the schedule should also be modified to indicate that nonfederal awards are included.

² When the CFDA number is not available, the auditee should indicate that the CFDA number is not available and include in the schedule the program's name and, if applicable, other identifying number.

³ When awards are received as a subrecipient, the name of the pass-through entity and identifying number assigned by the pass-through entity must be included in the schedule. §200.510 (b)(2)

⁴ The Uniform Guidance requires that the value of federal awards expended in the form of non-cash assistance, the amount of insurance in effect during the year, and loans or loan guarantees outstanding at year end be included in the schedule and suggests to include the amounts in the SEFA notes.

LAKE ZURICH COMMUNITY UNIT SCHOOL DISTRICT NO. 95 NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS JUNE 30, 2022

NOTE 1 - BASIS OF PRESENTATION

The Schedule of Expenditures of Federal Awards includes the federal award activity of Lake Zurich Community Unit School District No. 95 under programs of the federal government for the year ended June 30, 2022. The information in this Schedule is presented in accordance with requirements of the Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in the schedule may differ from amounts presented in, and used in the preparation of, the basic financial statements.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

NOTE 3 - INDIRECT COST RATE

The District has elected not to use the 10 percent de minimis indirect rate as allowed under the Uniform Guidance.

NOTE 4 - SUBRECIPIENTS

The District did not provide federal awards to subrecipients during the year ended June 30, 2022.

NOTE 5 - FEDERAL LOANS

There were no federal loans or loan guarantees outstanding at year end.

NOTE 6 - DONATED PERSONAL PROTECTIVE EQUIPMENT (PPE) (UNAUDITED)

The District was not a recipient of federally donated PPE.

Lake Zurich Community Unit School District No. 95 34-049-0950-26 SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS¹⁹ Year Ending June 30, 2022

[If there are no prior year audit findings, please submit schedule and indicate NONE]

Finding Number	Condition	Current Status ²⁰
2021-001	During the audit it was determined that for fiscal year 2021 incorrect rates were used for claiming meal reimbursements.	District submitted corrections for the questioned costs. Procedures were implemented to ensure review of claims by someone other than the person submitting the claims.
2021-002	During the audit it was determined that for one of the days selected for testing, the number of meals on the summary reports prepared by grant personnel, and used to submit claims for reimbursement, did not match the number of meals on the tally sheets prepared while serving the meals.	Management improved their monitoring procedures to ensure that any discrepancies are caught and corrected promptly.

When possible, all prior findings should be on the same page

¹⁹ Explanation of this schedule - §200.511 (b)
