Mr. Cook-

Below is the information on the number of students who were seen for nosebleeds by the school nurse from the last school year. To give you a basis for comparison, we also included data from the 2019/20 and 2018/19 school years.

Nosebleeds

2021/20	2020/19	2019/18
425	739	999

Mr. Cook-

I apologize for the delay. I have been waiting for information from a staff member who has been out of the office. I will need to follow up and send it to you separately soon.

2020-21 School Year Covid+ Cases
Staff: 273
Students: 1,034

Contact tracing, and subsequent disease surveillance, is the responsibility of the Department of Health and Environmental Control (DHEC). Anecdotally, transmission in the schools was minimal, and the preponderance of infections were community acquired. This observation was consistent with CDC data.
