

MyMedicalShopper™ Healthcare Cost-Containment Platform

What is MyMedicalShopper?

TALON's MyMedicalShopper is a powerful tool that makes shopping for your medical care as easy as a Google search! With mobile apps for Apple and Android devices and a website you can access anywhere, you'll never be surprised by a medical bill again. Our tool empowers you to choose where to receive medical care based on price, quality and convenience - the same way you shop for everything else in your life!

Why MyMedicalShopper?

Because prices paid for medical tests and procedures by insured patient vary radically across healthcare providers, even in the same town! As patients. We often pay 5x to 10x more than we need to, simply because we don't have the ability to shop for our medical care. This leads to higher out-of-pocket costs, and in turn, higher health insurance premiums.

Who should use MyMedicalShopper?

Everyone! We estimate that our users saved over 30% on their out-of-pocket medical expenses last year. Your employer has provided you with this valuable benefit to help you minimize your out-of-pocket costs and save money!

Don't forget to download the app to your phone so you'll always have MyMedicalShopper when you need it!

You can also click the link on the Dunn & Associates website.
