

## **INTRODUCTION OF WIAA ON-LINE RULES CLINICS FOR HEAD COACH**

As a head coach here is all the information you need to get you started on the required WIAA On-Line Rules Clinics.

**There are 3 WIAA On-Line Rules Clinics:**

**General Rules  
Concussion Management  
Sport Specific Rules**

Please complete the 3 Clinics by the Sunday following your tryouts and send or bring in the Certificates to Debbie McKenzie in the Athletic Office.

Each Clinic is worth 2 coaches' education hours, but it probably won't take you 2 hours to do each.

To access these on-line rules clinics, you need to start at [www.wiaa.com](http://www.wiaa.com). On their cover page, there is a "Coaches" link on the top tool bar. Click the "Coaches" link, then click "coaches home"

You are now on the cover page of the Coaches' section. Click "LOGIN".

User name and password:

This information is available from either Debbie McKenzie or Mark Zmuda

Once you enter your user name and password, you'll have access to the on-line rules clinics and their instructions.

The clinics must be successfully completed by the Sunday after tryouts. You'll receive confirmation of passing each clinic. For each clinic, please print this confirmation page and give Debbie McKenzie a copy for your coaches' file. You receive coaches' education hours for passing each clinic.

Right now, the on-line clinic is a requirement for all Head Coaches. If you would like your Assistant Coaches to also complete the clinic, please let Debbie know so that she can establish a username and a password for each of them. Assistant coaches will also receive coaches' education hours upon successful completion of the clinic and turning in a confirmation page to Debbie McKenzie.

If you have any questions about or problems with the on-line rules clinic, please let us know right away!!

Thanks!!
