	GENDER IDENTITY SUPPORT	JBD

HOLLISTON

The Holliston Public Schools (HPS) strives to provide a safe, respectful and supporting learning and work environment for all students and staff. Students who identify as gender nonconforming, non-binary and/or transgender, are entitled to have access to restrooms, locker rooms and changing facilities that are sanitary, safe and adequate, so they can comfortably and fully engage in their school program and activities. Transgender/gender nonconforming, non-binary students/staff who are uncomfortable using a gender-segregated restroom will be provided with a safe and adequate alternative.

A component of the student’s support plan may include name changes and gender identity markers used in communication with and about the student and in written communication with the parent/guardian(s). HPS will not require legal documentation to change the student’s name or gender.

HPS will work in collaboration with the student and parent/guardian(s) to discuss the plan for disclosure regarding changes in name and/or gender identity marker. Gender segregated activities should be avoided. However, whenever students are separated by gender in school activities, students must be permitted to participate in such activities or conform to such rule, policy, or practice consistent with their gender identity.

To further a safe and supportive school environment for all students and staff, HPS incorporates and encourages staff to participate in education, training, and professional development about transgender, non-binary, and gender nonconforming students. HPS supports the integration of best practices around transgender, non-binary, and gender nonconforming students into curriculum, school culture, and all school activities where appropriate.
