Westwood Trail Academy

1 **Teaching & Learning**	### Elevating Student Reading Proficiency • **Advancing Student Reading Levels:** Empower students to improve their reading proficiency through targeted strategies and support. • **Flexible Assessment Scheduling:** Allow students to complete assessments on personalized timelines, promoting individualized learning and reducing stress. • **Motivational Incentives:** Leverage positive reinforcement strategies to boost student motivation, engagement, and enthusiasm for reading. • **Comprehensive Educational Support:** Provide staff with in-depth training on effective instructional and assessment methods to improve student outcomes and literacy development. • **Personalized Goal Setting:** Encourage students to set, track, and review personal reading goals, fostering a sense of ownership and accountability in their progress. • **Ongoing Professional Development:** Offer staff continuous professional development on district-approved instructional materials for Tier 1 through Tier 3 interventions, enhancing instructional quality and student support. • **Data-Driven Decision-Making:** Implement a data warehouse system to track and analyze student progress, enabling informed instructional decisions and targeted intervention.
2 **Teaching & Learning**	### Elevating Student Math Proficiency • **Assessment:** Students complete IXL diagnostics to establish baseline math skills. • **Goal Setting & Progress Monitoring:** Collaborate with students to set realistic math goals based on diagnostic results. Provide monthly check-ins to review progress, adjust goals, and offer support. • **Parental Involvement:** Share progress reports with families and provide strategies for home support. • **Daily Practice and Check-In Approaches:** Implement personalized practice and immediate feedback. Implement regular one-on-one teacher-student meetings to discuss progress and challenges. • **Data-Driven Instruction:** Track progress and review student performance data to adjust teaching strategies.

	• **Technology & Engagement:** Incorporate technology and games to boost student motivation. • **Teacher Training:** Provide professional development on trauma-informed practices and relationship-building. • **Student Ownership & Community Building:** Use group projects and team-building activities to foster classroom community. Involve students in decisions about classroom expectations and activities to promote responsibility.
2 **Culture & Climate**	## Improving Student Attendance and Classroom Engagement • **Daily Intervention Time:** Case managers conduct daily check-ins and update student attendance SMART goals weekly. • **Attendance Contact Process:** Continue and improve the contact process for students with frequent absences. • **Student SMART Goals:** Students set and track personal SMART goals to improve attendance. • **Attendance Incentives:** Students at each grade level (elementary, middle, and high school) will receive quarterly attendance recognitions. • **Attendance Committee:** Hold monthly staff meetings to review and address student attendance concerns. • **Staff Training:** Conduct quarterly training sessions on best practices for supporting students with diverse needs. • **Resource Access:** Empower staff with access and share resources for supporting students' mental health. • **Parent Education Opportunities:** Design and promote workshops for parents, monitoring their effectiveness through metrics like attendance and feedback. • **Family Engagement:** Organize family nights with school/community resources to support parents and guardians.
