

Advanced Placement & College Credit-bearing Courses

Westlake High School offers 18 AP courses in the following subjects:

United States History, Biology, Calculus AB, Calculus BC, Chemistry, English Lang, English Lit, Environmental Science, Physics, Gov't & Politics, Macroeconomics, Music Theory, Spanish Lang, Statistics, Studio Art, World History, European History & Computer Science Principles

Each student enrolled in an AP class will take the corresponding AP exam as a part of the requirement of that course. The AP exams are at a cost to the student that is set by the College Board Corp each year. Detailed info on the exact cost can be found at: www.collegeboard.com

Students who do not take the AP exam will have the AP designation removed from their transcript.

Students enrolled in these classes do NOT automatically receive credit. They must register through the individual college and pay a fee for each class. The process for each class/college is clearly outlined in a classroom presentation to the students by the respective college and/or high school teacher assigned to that class.

Students must also attain a satisfactory grade in the college credit-bearing classes in order to earn the college credit. Details about this are also discussed by the college and high school teacher.

Guidance does NOT issue the credits and/or grades for these classes. Seniors who participate in the Senior Experience (internship program) and take these courses in their senior year MUST continue attending classes in the 4th quarter in order to receive the college credit.

***** N.B. – As is the case with the transfer of any credit, colleges and universities reserve the right to deny transfer credits including those obtained through AP and college articulation programs.**
