MOUNT OLIVE SCHOOL DISTRICT
"Ready for what comes next"

REALTIME PARENT PORTAL QUICK TIPS

PORTAL ACCESS

- Realtime Parent Portal offers online access to student information. Check grades, attendance, and other information.
- Initial username/password information will be provided by the district in an upcoming communication with initial set up directions.
- Access to the portal can always be found on the motsd.org website under the Parent tab.
- A Student Portal for MS/HS will also be available.

UPDATE CONTACT INFO

- Realtime is the district's MAIN notification system. Keep contact information and other important documents up to date.
- Be patient when making changes -they need to be approved before appearing on the portal

LINK MULTIPLE STUDENTS

- When linking students under one account, parents need to create unique usernames & passwords for each child.
- Link all siblings to the YOUNGEST child's account- this will help avoid the need to reset account info when an older sibling graduates.

THE MOBILE APP

- You will need to set up your online account before using the mobile app.
- The mobile app is designed to be a quick link to the parent portal.
- You can set up push notifications.
- Not all features can be accessed through the app.
