**CIP Code: 50.0402**

Educational & Physical Attributes and Program Requirements	Recommended for Success
<b>Program Description</b>	<p>This program introduces students to the creative design industry. In a world where commercial art has never been more relevant, DCTS Advertising Design and Commercial Art offers students a community in which to develop the conceptual foundation and skills needed for admission to a post- secondary institution to refine their skills. Students learn the fundamentals to finish each project at an entry level. They are introduced to the relevant applications of the Adobe Creative Suite and explore mediums such as print design, electronic design, drawing and illustration.</p> <p>Students learn the fundamentals to finish each project at a beginner level. They explore graphic design, advertising, print design, illustration, digital photography, and game art &amp; design. Students gain an exceptional amount of knowledge and understanding of creative software such as Adobe Photoshop, Illustrator and InDesign. Please visit the program web page at <a href="https://www.dciu.org/Page/3309">https://www.dciu.org/Page/3309</a></p>
<b>Program Safety &amp; Physical/Environmental Considerations</b>	<p>Excellent Hand/Eye coordination            Drawing ability and color keenness            Stamina (ability to focus at work station for long periods of time)</p>
<b>Essential skills</b>	<p>College prep classes            Clerical perception            Color discrimination            Finger dexterity            Academic skills            Art skills</p>
<b>Grading Scale</b>	<p>Knowledge (texts, quizzes, projects, assignments) 40%            Skills (Program of Study Competency Task List) 40%            Work Ethic (Professional Expectations, Employability Skills) 20%</p>
<b>Grade Level of Textbook:</b>  <b>Reading &amp; Language Arts Requirements</b>	<p>Flesch-Kincaid Grade Level 10.1 (<a href="#">sample text</a>)</p> <p>Read grade level text independently and proficiently            Identify the main idea(s) of a text            Analyze how an author's ideas or claims are developed in a text/ad            Analyze how words and phrases shape meaning and tone            Use academic words and phrases correctly            Determine and clarify the meaning of new words            Write short and long selections with a distinct focus            Develop a main idea or topic with specific details            Organize ideas, concepts, and information within writing selections            Identify and use various persuasive techniques when creating ads            Conduct short and extended research projects</p>

**Delaware County Technical High Schools**  
**Skill Alignment Chart for: Advertising Design & Commercial Art**  
**CIP Code: 50.0402**

	Use grade-appropriate grammar, capitalization, punctuation, and spelling in ads and designs
<b>Math Requirements</b>	<a href="#">Sample Mathematics</a> Add, subtract, multiply, and divide whole numbers, fractions and decimals Convert between fractions, decimals, and percent Solve ratio and proportion problems for page proportions For Computer Page Layout- determine spacing in type composition, calculate margins, and create tabs, columns, and tables Determine paper stock size, thickness, and weight Identify and convert measurement- standard, picas, and pixels (1 inch = 6 picas = 72 pixels) Analyze relationships between two-dimensional and three-dimensional objects Calculate perimeter and area of polygons Calculate estimates for jobs
<b>Science Requirements</b>	No Science Requirements
<b>Theory Time</b>	40%
<b>Lab Time</b>	60%
<b>Career Portfolio Requirements</b>	Career Objective Video Career Research Essay Education Research Graphic Organizer Resume, Cover Letter, Interview Practice, Post Interview Thank You Email The Responsible Employee - Scenarios Resolving Workplace Conflicts - Scenarios Interview an Expert Summary Defining Entrepreneurship Response
<b>Homework</b>	OSHA 10 completion; review
<b>Assessments</b>	List Mandatory and other assessments including Math Assessment Literacy Assessment Quarterly Assessment Quizzes (# per marking period) NOCTI (mandatory for all CTC programs)
<b>Industry Certifications</b>	OSHA 10 Industry Certification Employability: Interviewing Skills
<b>Study &amp; Other Skills</b>	Good attendance Ability to work independently Work in small groups Ability to access computer based learning resources Basic knowledge of utilizing Google products
<b>Dual Enrollment Opportunities</b>	Widener University - Gen Ed courses
<b>Articulation Agreements</b>	<b>SOAR Credits</b> Community College of Allegheny County and Harcum College <b>Articulation Agreements</b> Harrisburg University of Science and Technology, Neumann University, Pittsburgh Technical College, and Saint Francis University.

**Delaware County Technical High Schools**  
**Skill Alignment Chart for: Advertising Design & Commercial Art**  
**CIP Code: 50.0402**

<b>Uniform and other costs</b>	Program Shirts - @ \$28.00 4GB+USB Flash Drive - \$21.95 Sketchbook (50-100pgs) - \$6.95 Gmail Account - Free 24 x 36 Newsprint Pad - \$21.53 Drawing Pencil Set (with all of the different pencil weights) - \$14.99 Adobe Creative Suite - recommended
<b>Career Pathways</b>	<b>Median Wage for Related Occupations:</b> Multimedia - \$70,000 Commercial & Industrial Designer - \$75,650 Graphic Designer - \$51,730 Desktop Publisher - \$51,090
<b>Transition Activities Completed in Program - Can be added to Transition Plan</b>	Opportunity to complete a career portfolio in compliance with the PA Future Ready Index and Career Readiness Standards Opportunity to complete the competency task list for the Advertising Design & Commercial Art Program Opportunity to Interview an expert in the Advertising Design & Commercial Art field Opportunity to earn a safety certification Opportunity to participate in college and career presentations

**Delaware County Technical High Schools**  
**Skill Alignment Chart for: Automotive Technology**  
**CIP Code: 47.0604**

Educational & Physical Attributes and Program Requirements	Recommended for Success
<b>Program Description</b>	<p>Automotive Technology is a recognized NATEF/ASE accredited instructional program that emphasizes skills to diagnose, service and maintain all types of automobiles. Upon graduation and following one year of employment in the field, students are eligible to take the automotive NATEF/ASE exam. Successful graduates of this program are qualified to enter the automotive field as entry-level service technicians in new car dealerships or related automotive businesses. When students start in the program, they are introduced to topics such as brakes, steering and suspension, electrical, and engine performance. If students believe a smooth-running engine is a beautiful sound, and want to keep cars running that way while using the most up-to-date tools and equipment, that student is in the right place! To be successful, students should be ready to work with constantly changing technology. They have the opportunity to put that knowledge to use with their hands in a timely manner to repair vehicles</p> <p>Please visit the program webpage at <a href="https://www.dciu.org/Page/3311">https://www.dciu.org/Page/3311</a></p>
<b>Program Safety &amp; Physical/Environmental Considerations</b>	<p>A focus on safety around moving equipment, hand tools, power tools and other equipment found in the industry</p> <p>Ability to diagnose the source of a problem quickly and accurately</p> <p>Ability to work in tight spaces</p> <p>Ability to work independently, read and follow directions</p> <p>Good eye/hand coordination</p> <p>Stamina to stand for long periods of time</p>
<b>Essential skills</b>	<p>Finger dexterity, Manual dexterity</p> <p>Motor coordination</p> <p>Critical Thinking</p> <p>Complex problem solving</p> <p>Troubleshooting</p> <p>Spatial/visual thinking</p> <p>Good speaking skills</p> <p>Ability to work collaboratively with others</p>
<b>Grading Scale</b>	<p>Knowledge (texts, quizzes, projects, assignments) 40%</p> <p>Skills (Program of Study Competency Task List) 40%</p> <p>Work Ethic (Professional Expectations, Employability Skills) 20%</p>
<b>Grade Level of Textbook</b>  <b>Reading &amp; Language Arts Requirements</b>	<p>Flesch-Kincaid Grade Level 10.8 (<a href="#">sample text</a>)</p> <p>Read grade level text independently and proficiently</p> <p>Identify the main idea(s) of a text</p> <p>Use academic words and phrases correctly</p> <p>Determine and clarify the meaning of new words</p> <p>Write short and long selections with a distinct focus</p> <p>Develop a main idea or topic with specific details</p>

**Delaware County Technical High Schools**  
**Skill Alignment Chart for: Automotive Technology**  
**CIP Code: 47.0604**

	Organize ideas, concepts, and information within writing selections Conduct short and extended research projects Use grade-appropriate grammar, capitalization, punctuation, and spelling Participate effectively in collaborative discussions Present information, findings, and supporting evidence clearly in repair/service reports
<b>Math Requirements</b>	<a href="#">Mathematics Sample</a> Adding, subtracting, multiplying, and dividing whole numbers, fractions and decimals Measuring in the metric and English systems Using and manipulating formulas Using conversion factors Working with angular measurements in degrees Determining if measurements are within tolerances Extracting data from tables and using appropriately Using and reading various measuring devices accurately
<b>Science Requirements</b>	Physical Science Chemistry Environmental Science
<b>Theory Time</b>	30%
<b>Lab Time</b>	70%
<b>Career Portfolio Requirements</b>	Career Objective Video Career Research Essay Education Research Graphic Organizer Resume, Cover Letter, Interview Practice, Post Interview Thank You Email The Responsible Employee - Scenarios Resolving Workplace Conflicts - Scenarios Interview an Expert Summary Defining Entrepreneurship Response
<b>Homework</b>	Study for tests and quizzes, completion of projects and missed assignments, OSHA safety training
<b>Assessments</b>	List Mandatory and other assessments including Math Assessment Literacy Assessment Weekly Quizzes Unit Tests Quarterly Assessments Projects NOCTI (mandatory for all CTC programs)
<b>Industry Certifications</b>	OSHA 10 Employability: Interviewing Skills ICAR Greenlink: Safety & Pollution Prevention (SP/2) Prepare for Automotive Service Excellence (ASE) - Upon graduation and working in the Automotive field for one year.
<b>Study &amp; Other Skills</b>	note taking skills Attendance

**Delaware County Technical High Schools**  
**Skill Alignment Chart for: Automotive Technology**  
**CIP Code: 47.0604**

	Ability to access online resources such as Google Classroom and online textbooks
<b>Dual Enrollment Opportunities</b>	Delaware County Community College Widener University - General Education Courses
<b>Articulation Agreements</b>	<b>Soar College Credits:</b> Harrisburg Area Community College-Harrisburg, Community College of Allegheny County, Delaware County Community College, Luzerne County Community College, Northampton County Area Community College, Community College of Philadelphia, Thaddeus Stevens College of Technology, Pennsylvania College of Technology, Allegany College of Maryland, Johnson College, Commonwealth Technical Institute and Rosedale Technical College <b>Articulation Agreements:</b> Automotive Training Center, University of Northwestern Ohio, Northampton Community College and Saint Francis University.
<b>Uniform and other costs</b>	Program shirts - @ 52.00 Need work books Work pants
<b>Career Pathways</b>	<b>Median Wage for Related Occupations:</b> Electronic Equipment Installers & Repairers, Motor Vehicles \$39,150 Automotive Service Technicians & Mechanics \$41,800 Automotive Product Specialists \$40,000 Supervisor, Mechanics \$67,340
<b>Transition Activities Completed in Program - Can be added to Transition Plan</b>	Opportunity to complete a career portfolio in compliance with the PA Future Ready Index and Career Readiness Standards Opportunity to complete the competency task list for the Automotive Technology Program Opportunity to Interview a expert in the Automotive Technology Program Opportunity to earn a safety certification Opportunity to participate in college and career presentations

**Delaware County Technical High Schools**  
**Skill Alignment Chart for: Biomedical Technology and Laboratory**  
**Sciences**  
**CIP Code: 51.9999**

Educational & Physical Attributes and Program Requirements	Recommended for Success
<b>Program Description</b>	This program provides students with the opportunity to use state-of-the-art equipment to learn the principles of scientific investigation and how they apply to environmental health, forensics, genetic engineering, and medicine. Students explore the principles of biomedical science. By engaging students in dissection, experimental design, and various laboratory skills, students learn concepts of biology and medicine to determine the factors that lead to the death of a fictional program. This program utilizes the Project Lead the Way curriculum, preparing students for the foundation necessary to pursue post secondary and career opportunities in pathology, biomedical engineering, genetics, medical technology, and molecular and cellular biology. Please visit the program webpage at <a href="https://www.dciu.org/Page/3312">https://www.dciu.org/Page/3312</a>
<b>Program Safety &amp; Physical/Environmental Considerations</b>	Emotional and mental stability (as some situations and scenarios can be hard to handle) Good personal hygiene and proper attire (hair pulled back, no long nails, facial piercings, or dangling earrings/clothing) Not disturbed by incidents involving bodily fluids, surgeries, injections, traumatic situations, etc... Prolonged standing, bending, and stooping required Ability to follow safety procedures and guidelines AT ALL TIMES
<b>Essential skills</b>	Social Perceptiveness Strong basic science skills Directional skills Ability to work independently and as part of a group Good attendance a MUST Attention to detail extremely important Basic computer and keyboarding skills Demonstrate initiative, responsibility, and critical thinking skills Excellent listening and independent note taking skills Professionalism Good math skills (using formulas for calculations; accurate measurement techniques; proper volumetric measurements)
<b>Grading Scale</b>	Knowledge (texts, quizzes, projects, assignments) 40% Skills (Program of Study Competency Task List) 40% Work Ethic (Professional Expectations, Employability Skills) 20%
<b>Grade Level of Textbook:</b>  <b>Reading &amp; Language Arts Requirements</b>	Flesch-Kincaid Grade Level: 13.1 ( <a href="#">sample text</a> )  Read grade level text independently and proficiently Identify the main idea(s) of a text Analyze how an author's ideas or claims are developed in a text Cite thorough textual evidence to support the analysis of a text Analyze, interpret, and evaluate the series of ideas or events in a text Analyze how words and phrases shape meaning and tone Use academic words and phrases correctly Determine and clarify the meaning of new words

**Delaware County Technical High Schools**  
**Skill Alignment Chart for: Biomedical Technology and Laboratory**  
**Sciences**  
**CIP Code: 51.9999**

	Write short and long selections with a distinct focus Develop a main idea or topic with specific details Organize ideas, concepts, and information within writing selections Conduct short and extended research projects, including labs Use grade-appropriate grammar, capitalization, punctuation, and spelling Participate effectively in collaborative discussions Present information, findings, and supporting evidence clearly in lab reports
<b>Math Requirements</b>	<a href="#">Sample Mathematics</a> Apply properties of exponents, rational and irrational numbers to solve problems Manipulate formulas and equations Represent, solve and interpret equations/inequalities and systems of equations/inequalities algebraically and graphically Understand functions and their graphs on a coordinate plane Summarize, represent, and interpret graphs and data displays Recognize and evaluate random processes underlying statistical experiments Analyze decisions and strategies using probability concept Make inferences and justify conclusions based on sample surveys, experiments, and observational studies Calculate angle measurements
<b>Science Requirements</b>	Strong Basic Science Skills Biology
<b>Theory Time</b>	50%
<b>Lab Time</b>	50%
<b>Career Portfolio Requirements</b>	Career Objective Video Career Research Essay Education Research Graphic Organizer Resume, Cover Letter, Interview Practice, Post Interview Thank You Email The Responsible Employee - Scenarios Resolving Workplace Conflicts - Scenarios Interview an Expert Summary Defining Entrepreneurship Response
<b>Homework</b>	OSHA 10, Career Portfolio, incomplete class work
<b>Assessments</b>	Math Assessment Literacy Assessment Quarterly Assessment each quarter Project based learning, no paper and pencil quizzes but many data analysis assessments NOCTI (mandatory for all CTC programs)
<b>Certifications</b>	OSHA 10 Employability: Interviewing Skills CPR/AED First Aid
<b>Study &amp; Other Skills</b>	Good attendance Ability to work in groups

**Delaware County Technical High Schools**  
**Skill Alignment Chart for: Biomedical Technology and Laboratory**  
**Sciences**  
**CIP Code: 51.9999**

	<p>Good interpersonal skills</p> <p>Ability to read and carry out directions independently and in a group</p> <p>Strong empathy to understand the pains and suffering of others</p> <p>Ability to access computer based learning resources</p> <p>Basic knowledge of Google products</p>
<b>Dual Enrollment Opportunities</b>	Widener University - Gen Ed Courses
<b>Articulation Agreements</b>	<p><b>Soar Credits:</b></p> <p>Harrisburg Area Community College-Harrisburg, Mount Aloysius College, Harcum College, Lackawanna College, Greater Altoona Career &amp; Technology Center, Johnson College, Lenape Technical School Practical Nursing Program, Central Pennsylvania Institute of Science and Technology, Western Area Career and Technology Center, Greater Johnstown Career and Technology Center and Crawford County Career and Technical Center Practical Nursing Program.</p> <p><b>Articulation Agreements:</b></p> <p>St. Francis University, Neumann University, Pittsburgh Technical College</p>
<b>Uniform and other costs</b>	<p>Student should expect to spend approximately \$65.00 for Lab Coat and other uniform requirements</p> <p>Other items: Two composition books; two boxes of latex-free, powder-free gloves (size large); one pack of chalk markers; blue &amp; black pens; a container of bleach wipes; a pkg. of colored paper; and post-it notes</p>
<b>College/Career Pathways</b>	<p><b>Median Wage for Related Occupations</b></p> <ul style="list-style-type: none"> <li>• Healthcare Technologists &amp; Technicians, all other \$43,120</li> <li>• Healthcare Practitioners &amp; Technical Workers, all other \$82,870</li> <li>• Healthcare support worker \$38,850</li> <li>• Nurse, Other Specialist \$69,170</li> </ul>
<b>Transition Activities Completed in Program - Can be added to Transition Plan</b>	<p>Opportunity to complete a career portfolio in compliance with the PA Future Ready Index and Career Readiness Standards</p> <p>Opportunity to complete the competency task list for the Biomedical Technology &amp; Laboratory Sciences Program</p> <p>Opportunity to Interview an expert in the Biomedical field</p> <p>Opportunity to earn a safety certification</p> <p>Opportunity to participate in college and career presentations</p>

**Delaware County Technical High Schools**  
**Skill Alignment Chart for: Building Trades**  
**CIP Code: 46.0401**

Educational & Physical Attributes and Program Requirements	Recommended for Success
<b>Program Description</b>	This program teaches general construction skills and knowledge necessary to build a house. Practical experience and classroom training prepares students for employment in general construction or property maintenance. Students are taught carpentry, masonry, plumbing, roofing, drywall application, painting and framing/finishing. Students learn basic safety, the use of hand tools and power tools, and construction technology. Students explore floor systems, wall systems, ceiling joists, and roof joists. They also learn plumbing with copper tubing and fittings. Students learn about exterior finishes, basic stair layout, electrical safety, residential electric work, and PVC plumbing for drains, waste, and vents. Please visit the program page at <a href="https://www.dciu.org/Page/3313">https://www.dciu.org/Page/3313</a>
<b>Program Safety &amp; Physical/Environmental Considerations</b>	Ability to lift 40 lbs Ability to work in all weather conditions Ability to work independently No fear of heights or working on closed spaces Physical strength and stamina Hair pulled back Safety equipment worn
<b>Essential skills</b>	Eye/hand/foot coordination Flexibility Critical thinking Active listening Judgement, decision making, and self control Finger dexterity Form perception Manual dexterity Spatial aptitude Ability to work independently and in groups

**Delaware County Technical High Schools**  
**Skill Alignment Chart for: Carpentry**  
**CIP Code: 46.0201**

Educational & Physical Attributes and Program Requirements	Recommended for Success
<b>Program Description</b>	<p>This program provides students the opportunity to learn building layout, framing, roofing, window and door installation, and finish trim work. On-site projects include the use of hand and power tools to do building layout, flooring, framing and wall construction, roofing, and the application of exterior and interior finishes. Upon graduation, students can continue their education through local union apprenticeships, a variety of partnering college programs, or the Association of Builders and Contractors. Through this project-based program, students learn about hand and power tool safety, measuring, layout, basic blueprint reading, basic wood joints, and material sizing. Additionally they learn basic trim methods, advanced framing methods, interior trim package installation, exterior, roofing, window and door installation, blueprint reading, and estimation. Advancement in the program means students will be eligible to increase their knowledge on roof framing, building layout, advanced exterior finishes, advanced interior finishes, blueprint reading, deck construction, and advanced estimation. Please visit the program webpage at <a href="https://www.dciu.org/Page/3314">https://www.dciu.org/Page/3314</a></p>
<b>Program Safety &amp; Physical/Environmental Considerations</b>	<p>Ability to lift 40 lbs            Ability to work in all weather conditions            Ability to work independently            No fear of heights or working on closed spaces            Physical strength and stamina            Hair pulled back            Safety equipment worn</p>

**Delaware County Technical High Schools**  
**Skill Alignment Chart for: Collision Repair Technology**  
**CIP Code: 47.0603**

Educational & Physical Attributes and Program Requirements	Recommended for Success
<b>Program Description</b>	Collision Repair Technology is based on an occupational analysis of the auto body field and reflects the entry-level job requirements of I-CAR (Inter-Industry Conference on Auto Collision Repair) and the Automotive Collision Technology standards. Using state-of-the-art equipment, students are taught MIG welding/cutting, metal repair, corrosion protection, masking, refinishing, undercoating, and unibody inspection. They are taught safety compliance, tools and equipment identification. Each student will gain the knowledge, understanding and training needed to secure a position in the collision repair field, and/or enter a post-secondary institution.
<b>Program Safety &amp; Physical/Environmental Considerations</b>	Safety focus around moving equipment, hand tools, power tools Ability to work with potentially toxic fumes in dusty environment Stamina to stand for long periods of time Problem solving skills Any type of respiratory condition would be a concern
<b>Essential skills</b>	Equipment Maintenance Eye/hand/foot coordination Finger and manual dexterity Form perception, spatial relationships Troubleshooting Complex problem solving Time Management Ability to work independently, read and follow directions
<b>Grading Scale</b>	Knowledge (texts, quizzes, projects, assignments) 40% Skills (Program of Study Competency Task List) 40% Work Ethic (Professional Expectations, Employability Skills) 20%

**Skill Alignment Chart for: Computer Networking & Digital Forensics**  
**CIP Code: 11.0901**

Educational & Physical Attributes and Program Requirements	Recommended for Success
<b>Program Description</b>	<p>The Computer Networking &amp; Digital Forensics curriculum centers on networks and the computer devices that comprise a typical network, including building, maintaining, and supporting computer network systems forming the foundation for beginning a career in Information Technology. With a solid understanding of network fundamentals, a variety of careers related to information technology are possible. The industry career focus in the program is on desktop support, network engineering, digital forensics, and IT security. Industry certifications align with CompTIA including IT Fundamentals, A+, Network+ and Security+. Additionally, there is a copper-based certification. Computer based training certifications also include routing and switching. Upon achieving the skills and certifications offered in the program, students are competitive for entry level employment in Information Technology as well as many post-secondary colleges or universities. Please visit the program web page at <a href="https://www.dciu.org/Page/3316">https://www.dciu.org/Page/3316</a></p>
<b>Program Safety &amp; Physical/Environmental Considerations</b>	<p>Excellent self discipline to focus for long periods of time          Good eye/hand coordination          Stamina (ability to focus at work station for long periods of time)          Indoors, environmentally controlled</p>
<b>Essential skills</b>	<p>Critical thinking          Judgment and decision making          Reading comprehension          Systems analysis          Active listening          Complex problem solving          Troubleshooting          Time management          Social perceptiveness          Deductive reasoning          Inductive reasoning</p>

**Delaware County Technical High Schools**  
**Skill Alignment Chart for: Cosmetology**  
**CIP Code: 12.0401**

Educational & Physical Attributes and Program Requirements	Recommended for Success
<b>Program Description</b>	<p>The Cosmetology program focuses on the fundamentals of the profession. This enables students to confidently begin working with hair, skin and nails early in their training. Technical skill development blends with applied sciences to guide them toward a successful career as a salon professional. During this three-year, 1250-hour training program, students learn hair sculpture, color application, chemical texture, and skin and nail procedures. Students study a wide variety of scientific applications, such as the chemistry of cosmetics, biology, human anatomy, and physiology. Upon completion, graduates are fully prepared to take the Pennsylvania State Board of Cosmetology examination. Students learn the history and career opportunities of Cosmetology. Topics of study include Life Skills, Professional Image, Communicating for Success, Infection Control: Principles and Practices, Basics of Electricity, Properties of the Hair and Scalp, Principles of Hair Design, Scalp Care, Shampooing &amp; Conditioning, Hairstyling, Braiding and Extensions, Hair Cutting, Hair Removal, Facials, Make-up, Manicuring, and Pedicuring.</p> <p>Students must successfully complete the 1250 hour training program to qualify for the Pennsylvania State Board of Cosmetology Examination. Visit the program webpage at <a href="https://www.dciu.org/Page/3317">https://www.dciu.org/Page/3317</a></p>
<b>Program Safety &amp; Physical/Environmental Considerations</b>	<p>Ability to stand for long periods of time            Ability to work with strong chemicals odors (breathing and skin reactions)            Good hand/eye coordination</p>

**Delaware County Technical High Schools**  
**Skill Alignment Chart for: Culinary Arts**  
**CIP Code: 12.0508**

Educational & Physical Attributes and Program Requirements	Recommended for Success
<b>Program Description</b>	The Culinary Arts program prepares students for success in the foodservice and hospitality industry. Students are taught food preparation, dining service, inventory control, safety, and sanitation. Students also learn nutrition, healthy cooking, equipment identification, use of hand tools, and culinary vocabulary. Students prepare soups and sauces, breakfast entrées, sandwich production, pies, cakes, yeast-raised products, entrée preparation, international dishes, vegetable preparation, garnishing, salads, and dressings. Students may seek immediate employment, enter an apprentice program or continue culinary or management studies at the postsecondary level. Culinary Arts is a creative program for students to learn teamwork, different techniques, and preparation skills. Students learn safety and sanitation efficiency as well as hospitality services.
<b>Program Safety &amp; Physical/Environmental Considerations</b>	A focus on preparing, holding and serving food A focus on safety around kitchen equipment, knives, and other tools and equipment found in the industry Ability to work in a fast-paced environment Good personal hygiene Stamina needed to stand on feet for long periods of time Industry dress uniform daily Professional and meet industry standards

**Delaware County Technical High Schools**  
**Skill Alignment Chart for: Dental Occupations**  
**CIP Code: 510601**

Educational & Physical Attributes and Program Requirements	Recommended for Success
<b>Program Description</b>	Students who enroll in the Dental Technology Program learn a variety of skills that will enable them to become a dental assistant, dental laboratory technician, and/or pursue a career as a dental hygienist, EFDA, or dentist. The dental assisting program focuses on patient-centered care in support of improving oral health as a key to personal health and well-being. The major areas of study in the course include: dental radiology, oral pathology, chair-side dental assisting, anatomy and physiology, dental materials, sterilization, and dental office business procedures. The dental assistant works directly with the dentist, performing a variety of tasks from helping the dentist examine and treat patients to completing laboratory and office work.
<b>Program Safety &amp; Physical/Environmental Considerations</b>	Empathy to understand the pains and suffering of others Good personal hygiene – hair pulled back, no artificial nails, facial piercings removed, no dangling earrings Lift heavy objects/people Not disturbed by incidences such as bodily fluids, surgeries, injections, traumatic situations Prolonged standing, bending, & stooping
<b>Essential skills</b>	Basic computer & keyboarding skill Demonstrate initiative, responsibility, and critical thinking skills Attention to detail extremely important Interpersonal skills Manual dexterity Service Orientation Oral Comprehension Oral Expression
<b>Grading Scale</b>	Knowledge (texts, quizzes, projects, assignments) 40% Skills (Program of Study Competency Task List) 40% Work Ethic (Professional Expectations, Employability Skills) 20%

**Electrical Construction Technology**  
**CIP Code: 46.0399**

Educational & Physical Attributes and Program Requirements	Recommended for Success
<b>Program Description</b>	<p>This program provides students with an introduction to the basic concepts of residential and commercial wiring. With an emphasis on safety, students install circuits, switches, conductors, circuit breakers, and other electrical devices. Topics covered include selecting and ordering materials, key supplies and tools, codes, blueprint reading, and low voltage wiring. Students are taught in compliance with the National Electrical Code (NEC) and the Residential Construction Academy (RCA) industry standards. Students begin working toward their RCA and OSHA 10 certifications immediately. When students first explore this program, they learn safety, tools, residential wiring, blueprints, circuitry, devices, raceways, bending, OHM's Law, and work to complete OSHA 10. As students continue in the program, they attain employability skills. Students gain more in-depth knowledge with respect to safety &amp; tools, commercial wiring, review of blueprints, devices, raceways, bending, panels, disconnects, and circuitry. Visit the program webpage at <a href="https://www.dciu.org/Page/3322">https://www.dciu.org/Page/3322</a></p>

**Skill Alignment Chart for: Emergency Protective Services**  
**CIP Code: 43.9999**

Educational & Physical Attributes and Program Requirements	Recommended for Success
<b>Program Description</b>	The Emergency and Protective Services program offers a comprehensive public safety education to students interested in pursuing a career or volunteering in the emergency medical, law enforcement, fire, security, industrial safety or emergency management services. Students work with protective service professionals to gain first-hand experience in all areas of these exciting professions. Units of study include cadet firefighting, law enforcement, emergency medical services, communications and report writing, public speaking and physical training. Students receive instruction in the field as well as the classroom. Students are required to have a high degree of motivation and self-discipline, as well as the ability to obtain Child Abuse and Criminal Background Clearances. Visit the program page at <a href="https://www.dciu.org/Page/3323">https://www.dciu.org/Page/3323</a>
<b>Program Safety &amp; Physical/Environmental Considerations</b>	Able to lift 50 pounds and up to 100 pounds Ability to work independently Able to work under pressure/in adverse conditions/within time constraints Good conflict resolution skills & an even temperament (not prone to aggressive behaviors)

**Delaware County Technical High Schools**  
**Skill Alignment Chart for: Engineering & Robotics**  
**CIP Code: 15.9999**

Educational & Physical Attributes and Program Requirements	Recommended for Success
<b>Program Description</b>	<p>The Engineering program will prepare students to apply knowledge and skills in the engineering field. Using Project Lead the Way (PLTW) curriculum, instruction will include safety, ethics, power, problem solving, teamwork, engineering graphics, automated systems, fundamental electronics and manufacturing systems as well as adhering to the Science, Technology, Engineering and Mathematics (STEM) initiative. PLTW Engineering course work engages students in interdisciplinary activities like working with a client to design a home, programming electronic devices or robotic arms, or exploring algae as a biofuel source. These activities not only build knowledge and skills in engineering, but also empower students to develop essential skills such as problem solving, critical and creative thinking, communication, collaboration, and perseverance. Advanced Aerial Education (AAE) curriculum will be integrated within the Engineering program to introduce students to the commercial use of “unmanned aircraft systems” (drones). Visit the program page at <a href="https://www.dciu.org/Page/3324">https://www.dciu.org/Page/3324</a></p>

**Delaware County Technical High Schools**  
**Skill Alignment Chart for: Exercise Therapy & Sports Science**  
**Program Name- CIP Code: 51.2604**

Educational & Physical Attributes and Program Requirements	Recommended for Success
<b>Program Description</b>	<p>“Exercise Therapy &amp; Sports Science” is for high school students interested in pursuing careers in Sports Medicine, Athletic Training, Physical Therapy, Occupational Therapy, Exercise Physiology, Fitness Training, and Nutrition. The salary range for these careers range from \$27,000-\$205,000 depending on the level of post-secondary education and career choice. Students who complete this DCTS program could potentially earn certifications in the following areas: Personal Training, First Aide, CPR, and AED. The projected job growth for occupations related to this program is up to 33% higher than the average growth rate for all careers!</p> <p><b>Core Curriculum:</b> Legal and Ethical Issues, Communication, Infection Control, Disaster Preparedness, Emergency Care and First Aide, Human Needs and Development, Moving, Lifting, Positioning and Body Mechanics, Nutrition and Hydration, Basic Clinical Skills, Mental Health and Wellness, Rehabilitation and Restorative Care, Medical Terminology, Administrative Skills, Anatomy, Physiology and Pathophysiology, Mathematics in Rehabilitative Care and Concussion Management.</p> <p>Please visit the program page at <a href="https://www.dciu.org/Page/3325">https://www.dciu.org/Page/3325</a></p>
<b>Program Safety &amp; Physical/Environmental Considerations</b>	<p>Emotional and mental stability          Empathy to understand the pains and suffering of others          Good personal hygiene – hair pulled back, no artificial nails, facial piercings removed, no dangling earrings          Lift heavy objects/people (30-50 Lbs)          Not disturbed by incidences such as bodily fluids, surgeries, injections, traumatic situations          Prolonged standing, bending, &amp; stooping</p>
<b>Essential skills</b>	<p>Manual &amp; Finger Dexterity          Motor/hand/foot/eye coordination          Verbal Communication          Social perceptiveness          Judgment and Decision Making          Complex Problem Solving          Understand medical jargon          Ability to learn anatomy and physiology</p>
<b>Grading Scale</b>	<p>Knowledge (texts, quizzes, projects, assignments) 40%          Skills (Program of Study Competency Task List) 40%          Work Ethic (Professional Expectations, Employability Skills) 20%</p>

**Delaware County Technical High Schools**  
**Skill Alignment Chart for: HVAC/Plumbing**  
**CIP Code: 47.0201**

Educational & Physical Attributes and Program Requirements	Recommended for Success
<b>Program Description</b>	HVAC and plumbing professionals are instrumental in ensuring that homes and buildings function properly on a daily basis. The HVAC and Plumbing Technology program introduces students to the basic concepts of residential and commercial work. With an emphasis on safety, students work with copper, black pipe, electric, and full HVAC systems. Topics covered include selecting and ordering materials, supplies, tools, codes, blueprint reading, and low voltage wiring. Students learn about safety, tools, residential work, blueprints, basic HVAC systems, and basic plumbing skills. Students are taught in compliance with the International Code Council (ICC) Plumbing, Mechanical, Fuel Gas Code and the Residential Construction Academy (RCA) industry standards. Visit the program webpage at <a href="https://www.dciu.org/Page/3327">https://www.dciu.org/Page/3327</a>
<b>Program Safety &amp; Physical/Environmental Considerations</b>	A focus on safety around HVAC equipment, hand tools, power tools and other equipment found in the industry Ability to work independently, read and follow directions Able to lift 50lbs Good eye hand coordination Stamina to stand for long periods of time Ability to work in small, cramped, dark and damp spaces

**Delaware County Technical High Schools**  
**Skill Alignment Chart for: Logistics & Inventory Management**  
**CIP Code: 52.0203**

Educational & Physical Attributes and Program Requirements	Recommended for Success
<b>Program Description</b>	<p>The Logistics &amp; Inventory Management program introduces students to the distribution service industry. The course curriculum prepares students to work in distribution centers, warehouses, and supply rooms. Students learn safety standard compliance, tool and equipment identification, operation of industrial lift and transport equipment, data entry, and communication skills. People with careers in Logistics and Inventory Management work with an inventory of raw materials and finished parts. They move raw materials to the production line, unload trucks with raw materials, wrap pallets of finished products for shipment, and communicate with traffic managers. Students develop these skills while managing and operating the DCIU Distribution Center and the Science Material Center for Delaware County. Visit the program webpage at <a href="https://www.dciu.org/Page/3328">https://www.dciu.org/Page/3328</a></p>

**Skill Alignment Chart for: Management Information Systems**  
**CIP Code: 52.1201**

Educational & Physical Attributes and Program Requirements	Recommended for Success
<b>Program Description</b>	<p>Management Information Systems is a series of methods of collecting, compiling, and analyzing large quantities of data to satisfy our society's ever-increasing need for information. With increasing frequency it is apparent that an understanding of technology is a necessary part of general education for students who live and work in our technological society. Students acquire the skills to analyze, design, implement, test, and document an application solution. The students utilize a state-of-the-art network computer system and its associated peripheral equipment to work on live problems, utilizing business software and object-oriented integrated development environments. Concepts delivered provide the basis of understanding in the area of computer programming and are applicable to business applications, mobile applications, and video gaming. Students will create a relational database, receive instruction in a variety of computer programming languages including writing, testing and debugging code; writing related system user documentation; demonstrating an understanding of core computer concepts to include the internet and the basic functions of business desktop applications; and analyzing common hardware, software and network processes. Students will receive instruction in business ethics and law, economics, office procedures and communications. Students will learn office safety, computer fundamentals, database administration and computer maintenance/troubleshooting. Please visit the program webpage at <a href="https://www.dciu.org/Page/3310">https://www.dciu.org/Page/3310</a></p>
<b>Program Safety &amp; Physical/Environmental Considerations</b>	<p>Ability to work independently            Excellent self discipline to focus for long periods of time            Good eye/hand coordination            Stamina (ability to focus at work station for long periods of time)</p>
<b>Essential skills</b>	<p>Clerical perception            Color discrimination            Finger dexterity            General learning            Locate evidence            Analyze evidence            Make inferences            Draw conclusions            Summarize            Work in small groups            Identify main idea and differentiate from details            Determine word meanings from context</p>
<b>Grading Scale</b>	<p>Knowledge (texts, quizzes, projects, assignments) 40%            Skills (Program of Study Competency Task List) 40%            Work Ethic (Professional Expectations, Employability Skills) 20%</p>

Delaware County Technical High Schools  
**Skill Alignment Chart for: Medical Careers**  
 CIP Code: 51.9999

Educational & Physical Attributes and Program Requirements	Recommended for Success
<b>Program Description</b>	<p>This <b>Senior only</b> program provides students with the opportunity to participate in clinical rotations at their assigned hospitals. They will be working and observing alongside doctors and nurses while visiting patient rooms. Students will observe various aspects of their assigned hospitals including Emergency Room, Operating Room, Pediatrics, Hospital Pharmacy, and more. This year-long program is offered at seven different area hospitals. Students benefit from career-based presentations from an array of healthcare professionals including nurses, physicians, physician assistants, physical therapists, medical technologists and pharmacists. The curriculum includes anatomy, physiology, pathophysiology, medical terminology, safety, infection control and medical law and ethics. Students graduate from the program with a solid understanding of the integral relations of the hospital team and a vision of their potential role in the healthcare industry.</p> <p><b><i>There is a supplemental application process for this competitive, honors level program.</i></b></p> <p>Hospitals: Crozer-Chester Medical Center, Bryn Mawr Hospital, Mercy Fitzgerald Hospital, Lankenau Medical Center, Taylor Hospital, Riddle Hospital and Delaware County Memorial Hospital.</p> <p>Visit the program webpage at <a href="https://www.dciu.org/Page/3329">https://www.dciu.org/Page/3329</a></p>
<b>Program Safety &amp; Physical/Environmental Considerations</b>	<p>Emotional and mental stability          Empathy to understand the pains and suffering of others          Excellent personal hygiene – hair pulled back, no artificial nails, facial piercings removed, no dangling earrings, no visible tattoos          Lift heavy objects/people up 50 lbs          Not disturbed by incidences such as bodily fluids, surgeries, injections, traumatic situations          Prolonged standing, bending, &amp; stooping</p>
<b>Essential skills</b>	<p>Strong science skills          Complex Problem Solving          Social Perceptiveness          Service Orientation          Critical Thinking Skills          Good judgement and decision making skills          Ability to work independently and with medical professionals          Good oral and written communication skills</p>
<b>Grading Scale</b>	<p>Knowledge (texts, quizzes, projects, assignments) 80%          Skills (Program of Study Competency Task List) 10%          Work Ethic (Professional Expectations, Employability Skills) 10%</p>
<b>Grade Level of Textbook:</b>	<p>Flesch-Kincaid Grade Level 13.8 (<a href="#">sample text</a>)</p> <p>Read grade level text independently and proficiently</p>

<b>Uniform and other costs</b>	Uniform Watch with a 2nd hand CPR/FA cards
<b>Career Pathways</b>	<b>Median Wages for Related Occupations</b> Healthcare Technologists & Technicians, all other \$43,120 Healthcare Practitioners & Technical Workers, all other \$82,870 Healthcare support worker \$38,850 Nurse, Other Specialist \$69,170
<b>Transition Activities Completed in Program - Can be added to Transition Plan</b>	Opportunity to complete a career portfolio in compliance with the PA Future Ready Index and Career Readiness Standards Opportunity to complete the competency task list for the Medical Careers Program Opportunity to Interview an expert in the Medical Careers field Opportunity to earn a safety certification Opportunity to participate in college and career presentations

**Delaware County Technical High Schools**  
**Skill Alignment Chart for: Welding**  
**CIP Code: 48.0508**

Educational & Physical Attributes and Program Requirements	Recommended for Success
<b>Program Description</b>	<p>The welding industry can be extremely rewarding due to the fact that employers have a constant need for skilled welders. Welding is used in manufacturing, construction and many other industries. In the Welding Technology program, students are taught oxy-fuel gas cutting principles and practices, arc cutting principles and practices, and welding inspection and testing principles. Welding Technology students research careers in the welding field and learn how to weld in all positions. Further, they learn how to interpret blueprints and layout projects from cutting to tacking to full completion of projects. Students learn about precision cuts in steel plates using superheated gases and learn how steel is formed from a liquid to solid. Students also gain hands-on training in a variety of welding procedures including shielded metal arc welding (STICK), gas metal arc welding (MIG), flux cored arc welding (FCAW) and gas tungsten arc welding (TIG). In this program, students learn how to use the proper equipment for testing welds, destruction, and hardness testing. They gain experience in reading and understanding manuals and specification charts for the welding process. The students learn how to use grinders and chemical baths for surface cleaning, proper clamping techniques, and welding standards established by the American Welding Society. Visit the program webpage at <a href="https://www.dciu.org/Page/3523">https://www.dciu.org/Page/3523</a></p>
<b>Program Safety &amp; Physical/Environmental Considerations</b>	<p>A focus on safety around welding equipment, hand tools, power tools and other equipment found in the industry          Ability to work independently, read and follow directions          Able to lift 50lbs          Good eye hand coordination          Stamina to stand for long periods of time</p>
<b>Essential skills</b>	<p>Finger and manual dexterity          Form perception          Motor coordination          Spatial          Critical Thinking          Troubleshooting          Active Learning and Listening          Math Skills          Ability to work independently &amp; in teams          Judgement &amp; decision making</p>
<b>Grading Scale</b>	<p>Knowledge (texts, quizzes, projects, assignments) 40%          Skills (Program of Study Competency Task List) 40%          Work Ethic (Professional Expectations, Employability Skills) 20%</p>
