7/10 – 7/13: Upcycle Couture Sewing Camp

7/17 – 7/20: Fashion Design and Sewing Camp

7/24 – 7/27: Fiber Art and Sewing Camp

7/31 – 8/3: Fashion Design and Sewing Camp

8/7 – 8/10: Upcycle Couture Sewing Camp

❖ **FASHION DESIGN AND SEWING MINI-CAMP at SUMMER@SEM**

Our ***Fashion Design and Sewing Camp*** combines the best parts of fashion and design. Our one-of-a-kind camp teaches students how to sew, design and style their own garments and accessories in one week. Small camp size allows each camper to get the attention and tools they need to design and create. If possible, camp will end with a Fashion Runway Show for parents and friends! Our fashionistas will show off their garments, and fabulous accessories on last day of camp. No sewing experience needed.

Fashion Lab to source and shop for fabric, trim and white tees prior to camp.

FLNY Fee will include all materials, machines and additional supplies/tools necessary for projects, as well as Counselors.

❖ **UPCYCLED COUTURE SEWING MINI-CAMP at SUMMER@SEM**

Are you interested in recycling and reusing? Our ***Upcycled Couture Sewing Camp*** will encourage children to think outside of the box. Design your very own clothing and accessories using treasures that others might call trash. In this camp, we take creative action to reduce our carbon footprint by exploring ways of restyling, reusing, or upcycling found fashion. Simple techniques explored include hand and machine sewing, surface embellishment and hand embroidery. No sewing skills or previous textile experience required.

Field Trip on Tuesday to Goodwill on Delaware to source upcycled clothing.

FLNY Fee will include all materials, machines and additional supplies/tools necessary for projects, as well as Counselors.

❖ **FIBER ARTS AND SEWING MINI-CAMP at SUMMER@SEM**

In our ***Fiber Arts and Sewing Camp*** campers will design and create their own unique fabric and sew them into on-trend accessories and fashion. Campers will explore Resist Dyeing techniques including Shibori Indigo, Tie-dye, Block Printing and Hand Embroidery. If possible, the week will end in a showcase of the students' creations for family and friends. No sewing skills or previous textile experience required.

Fashion Lab to source and shop for fabric, trim and white tees prior to camp.

FLNY Fee will include all materials, machines and additional supplies/tools necessary for projects, as well as Counselors.
