Is virtual learning right for your family?

- Do you want to take an active role in your child's education?
- Do you want your child to learn in a nurturing environment?
- Are you seeking a rigorous, flexible education?
- Do you want to take advantage of the latest learning technology?

If you answered "yes" to any of these questions, Oak Grove School District VLA may be the right choice for you and your child.

*Chromebooks are
Provided to Families at
No-Cost.*

This learn-at-home option for Kindergarten through 8th grade blends traditional textbooks with online assessments, lessons, and games that reinforce learning. Students achieve curriculum objectives in a setting other than the traditional classroom. Virtual Learning gives parents the opportunity to teach their children at home or on the road with the support from a supervising, credentialed teacher.

Students develop study habits and independent thinking skills through the virtual learning experience that make them more academically prepared for college and careers in the 21st Century.

What Parents are Saying...

"My kids are getting high quality academics, support from a teacher, and we have more time for life. As their coach, I am less stressed keeping up with their lessons than with the take home homework from previous classrooms."

D.W., Parent of three in VLA

"The program has worked for us. It's modern, engaging and allows us to explore other means to learn from. It's interactive and speaks to students in a way they're more familiar with in today's world.."

M.E., Third Grade Learning Coach
