1. **West Hartford Center Infrastructure Master Plan** – Joint meeting with the Design Review Advisory Committee, part of the broader community stakeholder engagement for the Center Infrastructure Master Plan study. Given the continued growth and expansion of the Center over the past 30 years, this study seeks to evaluate and make recommendations on the existing street infrastructure, such as traffic lanes, sidewalk widths, bus stop accommodations, and landscaping in the area is necessary to ensure that the area remains a great place for residents, visitors, and businesses. Many of the lessons learned from this process will be applicable to other parts of town as well. Presentation and meeting facilitation by project consultant Stantec.
