Mindy Wade, Camp Nurse 508-416-2263

Care of Mildly III Children

All ill children are brought to the health office where they are assessed by the nurse. Parents are called to make final judgement as to whether they need to take their child home.

Emergency Procedures

The nurse is called with the location of injury to child/staff. Information obtained by the nurse includes condition of injury, level of consciousness, any severe bleeding. Call 911 if appropriate. Send appropriate personnel to injury site. Put in place to direct any emergency vehicle. Summer Discover Director will accompany the injured person and will take any health information to hospital. The nurse will call parents to meet their child at hospital.

Administrating Medications

In order for the nurse to administer any over the counter medications the parent must sign our medication permission form. Prescription drugs must be accompanied by a doctor's order and in a pharmacy labeled container. All prescribed medicines need to be delivered to the camp office prior to the start of camp by a parent/legal guardian. All medication is stored in the nurse's office in a locked cabinet. Refrigerated medication is kept in the health office refrigerator. All medication must be picked up by a parent/legal guardian at the end of each session.
