Rochester Community Schools Executive Summary Section

ROCHESTER COMMUNITY SCHOOLS
52585 DEQUINDRE ROAD
ROCHESTER, MICHIGAN 48307

Board of Education

Kevin Beers, President

Kevin was selected to serve on the Board of Education in August 2015. Kevin earned a Bachelor of Science degree in Education from Central Michigan University, with a concentration in English and Broadcast Arts. Kevin is an eleven-year resident of the Rochester area and currently has four children enrolled in the Rochester Community Schools district.

Term 2022

Kristin Bull, Vice President

Kristin earned a Bachelor of Arts degree from Alma College and attended Michigan State University graduate program for Journalism. Kristin serves as an editor for Crain's Detroit Business and teaches in the journalism department at Oakland University. Kristin and her husband have been residents of Rochester Hills for more than nine years.

Term 2026

Michelle Bueltel, Treasurer

Michelle earned a Bachelor of Arts degree in Statistics and Communications, and a Masters degree in Business Administration from the University of Michigan. Michelle has served for 14 years on various school and district PTA boards as well as chairing the Rochester PTA Council STEAM Career Exploration Fair and Committee. Michelle and her husband have been residents of Rochester Hills for more than 20 years.

Term 2024

Joseph Pittel, Secretary

Joe was appointed to the Board of Education in 2021. He earned a Juris Doctor degree from the University of Detroit Mercy School of Law, a Master of Business Administration degree from University of Detroit Mercy, and a Bachelor of Arts from Michigan State University. Joe is a practicing attorney in the government and private sectors. Joe is currently general counsel of Samsung SDI America. He and his wife have three children.

Term 2022

Barb Anness, Trustee

Barb was selected to serve on the Board of Education in July 2017. Barb earned a Bachelor of Science degree in Graphic Design, graduation cum laude from the College of Design, Architecture, Art and Planning at the University of Cincinnati. She is also currently serving as the Federal Legislative Chair for the Michigan PTA and is a member of their Board of Directors. Barb, along with her husband and two children, is a 21 year resident of Rochester Hills.

Term 2024

Jessica Gupta, Trustee

Jessica is a licensed clinical social worker and mental health practitioner. She and her husband, Shishir, are 11-year residents of Rochester and parents of a 2020 Rochester High School graduate. In appointing Jessica, Board members cited her longtime involvement with RCS, including her leadership in FIRST Robotics districtwide, and her professional background in mental health.

Term 2024

Scott Muska, Trustee Scott earned a Bachelor of Science degree in Finance from Central Michigan University and is a business owner and investor who has spent most of his career in business development and operations. Additionally, Scott is a professional speaker and a former college and professional basketball assistant coach. Scott and his wife, Barbara, live in Rochester with their 3-year-old daughter.

June 27, 2022

Dear Members of the Board of Education of Rochester Community Schools:

This document contains the fiscal year 2022-23 recommended budgets for adoption and a final revision of the budget for fiscal year 2021-22. The following Executive Summary provides an overview of the Rochester Community Schools (the District) and summarizes financial information included in the document.

Budget Overview

The budgets contained in this document include all governmental funds for which the Board has legal responsibility. The budgets presented in this document are organized by fund as follows:

- General Fund
- Debt retirement Fund
- Capital Projects Funds
- Special revenue Funds
 - Food Service
 - Book Store
 - Early Learning
 - Student/School Activities

Budget Presentation

The budgets for governmental funds are presented on the modified accrual basis of accounting, which is consistent with Generally Accepted Accounting Principles (GAAP). Appropriations lapse at year-end, and therefore cancel all encumbrances. These appropriations are reestablished at the beginning of the following year.

The budgets are designed to promote efficiency and provide accountability for the management of public funds. All building principals, directors and other District administrators have electronic access to live financial data and are required to monitor their budgets to ensure that expenditures do not exceed budgeted amounts. Additionally, the District maintains a purchase order policy that requires a purchase order for any expenditure over \$500. The Business Office monitors budget-to-actual expenditure detail and results are reported to the Board on a monthly basis.

The information contained in this document has been structured to meet the Association of School Business Officials International (ASBO) certification

requirements for the Meritorious Budget Award (MBA). It is the primary vehicle to present the financial plan of the District. The Meritorious Budget Award is the most prestigious form of recognition in public school district budgeting. Its attainment represents a significant accomplishment by a school district. This budget document is the fifth submission for Rochester Community Schools.

District Mission

The mission of Rochester Community Schools is “to provide a quality education in a caring atmosphere for students to attain the necessary skills and knowledge to become lifelong learners and contribute to a diverse, interdependent, and changing world.”

District Goals and Objectives

The District utilizes a strategic plan to identify and set goals in five-year increments. The last plan was adopted in March 2015, and normally the District would have completed a new five-year plan to be implemented with the 2020-21 school year. The global pandemic of 2020 necessitated a delay in the development of the next iteration of the strategic plan; therefore, the district continues to be guided by the plan the Board adopted in 2015 entitled *Pride in Excellence: Strategic Planning 2020*, which includes the following objectives:

Goal Area: Curriculum, Instruction & Assessment

Rochester Community Schools will develop innovative, self-directed learners who think critically, communicate effectively and persevere to positively impact the world.

- *Strategy 1:* Investigate options for potential implementation of International Baccalaureate Programs in Rochester Community Schools (shared with Global Awareness).
- *Strategy 2:* Assess progress with Cultures of Thinking and develop a plan to expand at all levels K-12.
- *Strategy 3:* Ensure rigorous and consistent content in all curricular areas.
- *Strategy 4:* Investigate and implement assessment practices that inform instruction and deepen student learning.
- *Strategy 5:* Investigate innovative instructional practices which provide choice and increase relevance.
- *Strategy 6:* Ensure the development and implementation of Multi-Tiered Systems of Supports (MTSS).

Goal Area: Global Awareness

Rochester Community Schools will challenge students through dynamic cultural experiences, to be empowered global stewards, and inspire them to have a positive impact on their community, country, and world.

- *Strategy 1:* Investigate options for potential implementation of an International Baccalaureate Programs in Rochester Community Schools (shared with Curriculum, Instruction & Assessment).
- *Strategy 2:* Develop and expand local partnerships with business and higher education.
- *Strategy 3:* Expand world languages to K-12 for all students.
- *Strategy 4:* Investigate, develop, and implement programs which ensure that students have a high degree of cultural awareness.
- *Strategy 5:* Investigate the feasibility of service learning for all students.
- *Strategy 6:* Expand international exchanges and school partnerships.

Goal Area: Technology and Infrastructure

Rochester Community Schools will ensure a world-class education by focusing resources on developing and enhancing assets which include people, innovative partnerships, state-of-the-art technology and facilities.

- *Strategy 1:* Develop a comprehensive infrastructure plan including technology, facilities, safety and security.
- *Strategy 2:* Develop a model for configuration of District learning spaces to support flexible and collaborative learning environments.
- *Strategy 3:* Investigate and implement integrated instructional technology to support and enhance instruction.
- *Strategy 4:* Create and maintain a sustainable business model to ensure long-term financial stability of the District.
- *Strategy 5:* Investigate and implement comprehensive information systems for business and student data.
- *Strategy 6:* Investigate systems and processes that ensure that the Rochester Community Schools recruits, hires, develops, and retains a highly qualified and diverse workforce.

The objectives illustrate the Board's highest priorities and establish direction for district and school efforts. The District is in the process of organizing the strategic planning committee which has been delayed by the 2020 global pandemic.

Budget Process and Timeline

The budget cycle is a continuous process:

- In the spring of each year, the State of Michigan (the State) conducts a revenue consensus meeting and sets the budget for its General and School Aid Funds. Per-pupil foundation allowance levels are based on district-level State Aid projections.
- The District engages experts to project enrollment growth. Enrollment, along with per-pupil foundation allowance, is the starting point for revenue projections.
- The District projects the anticipated increase (or decrease) in expenditures. Salaries, payroll taxes and employee benefits comprise approximately 80% of the District's expenditure budget. Substantially all of the District's employees work under collective bargaining agreements. Building budgets are based on a per-pupil allocation set by the District. Other non-payroll related budgets are based on previous year expenditures adjusted for inflation, or are based on planned project cost estimates.
- Based on the latest information obtainable at the time legal deadlines approach, expenditures are prioritized and a preliminary budget is completed. Meetings are set with building administrators and labor leaders. Reductions, if required, are discussed at these meetings and consensus is reached on a functional level.
- Cabinet members meet with the Board of Education to present the preliminary budget. The Board votes to adopt the proposed budget prior to June 30, which officially establishes the budget as the operating plan.
- Once adopted, the budget will be amended throughout the fiscal year, as necessary, by the Board of Education. Typically, the budget is amended three times during the year, in November, March, and June.
- After the fiscal year is complete, the budget-to-actual information is published in the District's Audited Financial Report for the General Fund.

The calendar below illustrates the budget cycle for 2022-23:

2022-23 BUDGET CALENDAR				
Superintendent & Deputy Supt. for Business Affairs	Superintendent's Cabinet	Superintendent's Business & Operations Advisory Committee	Board of Education	
			Review	Adoption & Amendments
Monday, April 30, 2022	Tuesday, March 8, 2022	Monday, May 9, 2022	Monday, May 16, 2022	Adoption Monday, June 27, 2022
	Tuesday, March 15, 2022		*June TBD	Amendment November 2022 Regular Meeting
				Amendment February 2023 Regular Meeting
				Amendment June 2023 Special Meeting
Adopt 2023-24 Budget at June 2023 Board Meeting				

* If needed

Summary of Significant Changes

There were no significant changes from the current year in the budget process or in budget policies used in the development of the 2022-23 budget.

Allocation of Human and Financial Resources

Pride in Excellence: Strategic Planning 2020 addresses academics, global awareness, and infrastructure – three critical areas that must be addressed to ensure that the District is able to achieve its mission. The District provides a rigorous instructional program with appropriate curriculum and assessments, which is essential in the development of innovative, self-directed learners who think critically, communicate effectively, and are able to positively impact the world around them.

Though paused with the onset of the global pandemic of 2020, the District is in the process of expanding its world languages program to all grade levels, and as recently as 2019, trips to China, Costa Rica, and Germany have provided global experiences for middle and high school students and their teachers. Safe and secure learning, teaching, and office environments have been created with the deployment of cameras and secured entrances. These improvements are crucial in promoting individual wellbeing, and providing positive, respectful, and caring environments where students, staff, and the community are collectively engaged in the success of every school.

Clear, timely, honest, transparent, and accessible communication engages every stakeholder in building a culture of trust through action. The RCS *Talk to Us* online portal is available to provide families with timely response to concerns and questions. RCS is maximizing efficiency and effectiveness through the implementation of rigorous, relevant, and reasonable performance standards that provide for all employees' professional growth and shared accountability for student, school, and organizational

performance. Sustaining excellence requires thoughtful deployment of available resources, and the 2022-23 adopted budget reflects the Board’s commitment to its mission and objectives.

Summary of Revenues – All Funds

General Fund

The District’s operating costs are predominately funded by State Aid which has increased on a per-pupil basis at a modest rate since 2013. The 2022-23 per-pupil foundation allowance amount is \$9,150, an increase of \$450 from the prior year. The full long-term economic impact of the global pandemic on school funding is unknown. The following graph illustrates per-pupil foundation allowance net of permanent reductions over the past ten years:

General Fund 2022-23 budgeted revenue by source is illustrated as follows:

Over the past three years, the District has received substantial one-time federal funding on a reimbursement basis as a result of the 2020 global pandemic. The one-time funds received as a result of the global pandemic are expected to be expended by September 2024. Federal funds by year are illustrated as follows:

	Budget 2022-23	Final Budget 2021-22	Actual 2020-21	Actual 2019-20	Actual 2018-19
Federal sources					
Grants - restricted					
Special education - I.D.E.A.	\$ 3,463,233	\$ 3,463,233	\$3,274,409	\$3,283,834	3,259,066
COVID-19 Grants*	6,326,483	7,243,795	3,567,005	-	-
Title I	373,839	373,839	246,307	347,762	298,058
Medicaid Outreach	50,000	50,000	41,823	67,971	451
Title II A	383,632	383,632	157,795	296,946	269,542
Title III	311,189	311,189	214,882	135,933	179,588
Title IV	31,583	31,583	13,096	24,729	33,665
Adult education	178,947	178,947	169,512	170,413	146,705
Total revenues from federal sources	<u>\$ 11,118,906</u>	<u>\$ 12,036,218</u>	<u>\$ 7,684,829</u>	<u>\$ 4,327,588</u>	<u>\$ 4,187,075</u>

*One-time funds

Capital Projects Funds

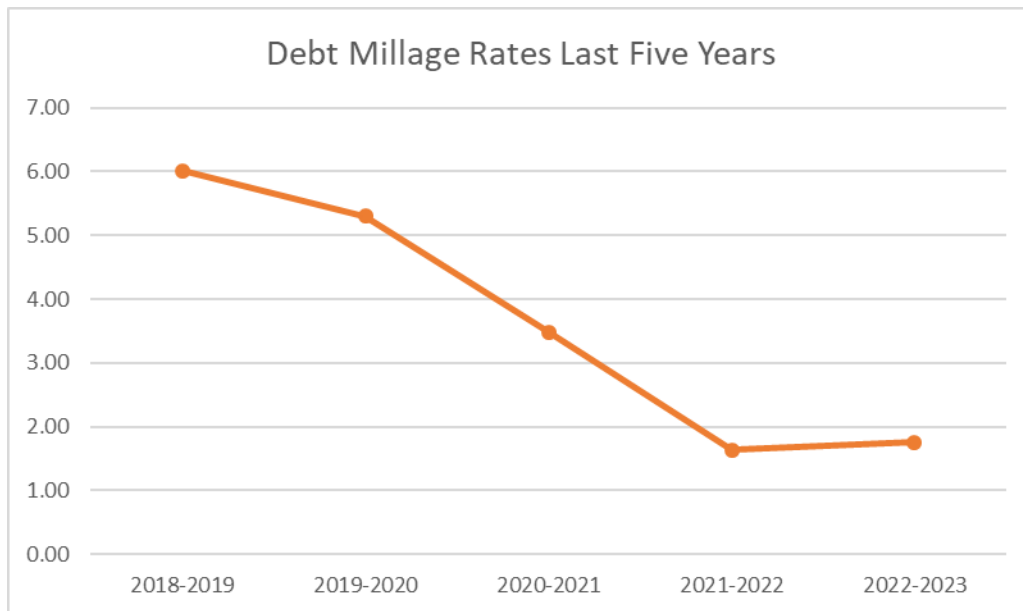

The Capital Projects Fund includes School Building and Site Bonds issued in February 2016 and March 2019 and a ten-year, 1.5 mill Sinking Fund that voters approved in November 2019. The bond proceeds will fund construction projects through 2023 and include the addition of security vestibules, replacement of heating and cooling equipment, building additions and improvements, site improvements, furniture, buses, and technology infrastructure and equipment. The Sinking Fund provides an additional source of revenue to fund facility repairs and replacement. The following chart illustrates Sinking Fund millage rates over the last five years:

Debt retirement Fund

Revenues in the Debt retirement Fund are generated by a property tax millage levied on all classes of taxable property and are used to retire the District's bonded debt. The District issued general obligation Building and Site bonds in two series for a total of \$185 million. The District currently

levies 1.76 mills to service bonded debt. The following chart illustrates debt millage rates over the last five years:

Special revenue Funds

The Special revenue Funds include Book Store, Food Service, Early Learning, and Student/School Activity. The Book Store and Food Service Funds generate revenue from goods and food sales respectively. The Book Stores are student-run, with teacher oversight as practical application of high school business class curriculum. Food services are managed by a third-party company highly experienced in the area of K-12 food service operations. Revenue in the Early Learning fund is generated from participant tuition. The Early Learning program serves the District's earliest learners from 0 to 5 years of age.

The Governmental Accounting Standards Board (GASB) issued Statement No. 84 *Fiduciary Activities*, which established criteria for identifying and reporting fiduciary activities for all state and local governments. In compliance with GASB Statement No. 84, effective for fiscal years beginning after Dec. 15, 2018, student and school activity revenue and expenditures will be reported in the special revenue fund. The Student/School Activity Fund generates revenue from fundraisers and staff contributions.

The Early Learning and Food Service Funds receive financial support via interfund transfers from the District's General Fund. The Early Learning program began in September of 2018 to provide daycare and early learning opportunities for children. The global pandemic that began in March 2020 necessitated the closing of the program when K-12 districts were mandated by the State to close. The program reopened on a limited basis to serve the families of essential workers. The program reopened to all families in the fall of 2020. District projections indicate that the Early Learning Fund will be self-sustained by the 2023-24 school year.

Following is a three-year comparison of revenue by fund and source:

<u>Governmental Funds</u>	Budget 2022-23	Final Budget 2021-22	Actual 2020-21
General Fund			
Property Taxes	\$ 19,921,325	\$ 20,337,089	\$ 20,227,862

Total Revenue	<u>\$ 225,080,134</u>	<u>\$ 226,064,738</u>	<u>\$ 216,148,115</u>

Summary of Expenditures – All Funds

General Fund

The District's expenditures in the General Fund are expected to increase due primarily to employee benefit costs, the introduction of the middle and high school orchestra program, and inflationary pressures. The District supplements its permanent staff through privatization of custodial, food service, transportation, clerical and substitute teaching staff.

The following graphs illustrate 2022-23 General Fund budgeted expenditures by function and object:

Debt retirement Fund

The two outstanding bond issues at June 30, 2022 are as follows:

\$108,725,000 2016 Building and Site Bonds, due in annual installments ranging from \$1,150,000 to \$14,600,000 through May 2036; interest from 4.00% to 5.00%. \$ 70,250,000

\$56,025,000 2016 Building and Site Bonds, due in annual installments ranging from \$1,995,000 to \$3,680,000 through May 2039; interest from 3.00% to 3.125%. 49,815,000

Total Bonds Payable \$ 120,065,000

The following table illustrates future principal and interest payments to maturity:

Capital Projects Funds

Expenditures from the 2016 Series I and II Building and Site Fund include facility, site, furniture, and equipment improvements on a district-wide basis. District priorities regarding capital projects include safety and security, facility and site infrastructure, and technology. Capital Projects are expected to continue through 2024.

Expenditures from the Capital Projects Sinking Fund will be prioritized each year to address critical facility, infrastructure, and safety needs first. Some projects may be budgeted over multiple fiscal years (such as roof and/or HVAC system replacements).

The following schedule illustrates the planned Capital Project Funds budget by Location:

<u>Location</u>	<u>Forecast Budget 2025-26</u>	<u>Forecast Budget 2024-25</u>	<u>Forecast Budget 2023-24</u>	<u>Budget 2022-23</u>

Special revenue Funds

The district purchased a school building in early 2018 and began operating an Early Learning program in the fall of that year. This program serves children aged 0 – 5 and receives tuition revenue from participating families.

The Book Store program is operated by high school students under the direction of a teacher and the store charges its customers the cost of supplies plus a modest markup.

The Food Service program receives state and federal funding as well as revenue from food sales. Excess revenue is used to improve kitchen equipment and the food service program.

GASB Statement No. 84 established criteria for identifying and reporting fiduciary activities for all state and local governments. The Student/School Activity Fund generates revenue from fundraisers and staff contributions.

The following chart illustrates a three-year comparison of expenditures by fund and object:

Summary of Fund Balances – All Funds

Fund balance classifications are categorized according to a hierarchy based on the extent to which a district must observe constraints upon the use of its resources. These classifications include non-spendable, restricted, committed, assigned, and unassigned.

First, a distinction is made for amounts that are considered non-spendable, such as fund balance associated with inventories. After non-spendable amounts have been identified, a distinction is made based on the relative strength of the constraint that controls how an amount can be spent.

Restricted fund balance includes amounts that can be spent only for specific purposes stipulated by constitution, external resource providers, or through legislation. Debt retirement on installment loans is an example of this.

Committed fund balance includes amounts that can be used only for specific purposes determined by formal action of the Board. Early retirement incentive payments could be classified as committed fund balance.

Amounts in the Assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. Examples are amounts designated for the cost of compliance with ADA requirements, insurance deductibles, contingencies for the outcomes of lawsuits, and others.

Unassigned fund balance includes all spendable amounts not contained in other classifications.

The following chart illustrates a three-year comparison of fund balances by fund. The budgeted General Fund balance is stable. This is due primarily to the District's efforts to maintain a balance between expenditures and available revenues. Fund balance is primarily used to stabilize funding for programs in the event of a reduction in revenue during the school year. The Capital Projects fund balance decreases as capital projects are completed. Food Service and Book Store fund balances will remain stable or slightly decrease as excess revenues are invested in various ways to improve the programs. Fund balances are illustrated as follows:

Governmental Funds	2022-23 Budget	2021-22 Final Budget	2020-21 Actual
Fund Balances			
General Fund	\$ 36,714,628	\$ 37,807,292	\$ 38,610,298
Debt Service	1,066,977	1,191,842	2,554,477
Capital Projects	1,323,146	11,248,062	19,015,789
School Service	3,078,127	3,216,744	2,655,361
Total	<u>\$ 42,182,878</u>	<u>\$ 53,463,940</u>	<u>\$ 62,835,925</u>

Significant Trends

Enrollment and State Aid are two of the most significant trends that impact the district. State-wide K-12 fall student enrollment declined approximately 8.6% between 2012-13 and 2021-22, while District enrollment declined less than 1% during the same period. The full economic impact of the global pandemic on school funding and student enrollment is unknown at this time.

Financial and Demographic Changes

Since 2010, the city of Rochester Hills has experienced an increase in households earning greater than \$125,000 annually, while households earning less than \$75,000 have declined. The district has also experienced an increase in expatriates and English language learners.

The district, which covers an approximately 66-square-mile area in the southeastern portion of Michigan's Lower Peninsula, serves an estimated population of 93,000 and is located primarily in Oakland County with a small portion in western Macomb County. District residents have access to jobs in Oakland County, the corporate headquarters of FCA US LLC (Fiat Chrysler) as well as several General Motors facilities. Investment in automotive-related research and development of new technologies (such as autonomous driving) has led to new business in the area.

Budget Forecasts

Three-year budget forecasts for all governmental funds are summarized as follows:

	Forecast Budget 2025-26	Forecast Budget 2024-25	Forecast Budget 2023-24	Budget 2022-23
<u>General Fund</u>				
Revenue	\$ 194,445,157	\$ 192,966,090	\$ 191,479,949	\$ 184,872,962

Fund balance - June 30	\$ <u>1,939,025</u>	\$ <u>1,961,636</u>	\$ <u>2,190,400</u>	\$ <u>2,424,524</u>

Student Enrollment

Blended enrollment in the district declined by 338 full-time-equivalent (FTE) students between the 2020-21 and 2021-22 school years based on the pre-pandemic blended rate of 90% of the fall and 10% of the previous spring student counts. The district expects minimal change in enrollment for the 2022-23 school year. Third-party projections indicate flat enrollment through 2025-26. Rochester Community Schools is a Michigan public school district geographically located on the northern outskirts of Metro Detroit, in northeast Oakland County.

Actual and projected District fall student enrollment is illustrated as follows:

*Projected

State-wide student enrollment decreased between 2003-04 and 2021-22 by approximately 264,902 students. The State Fiscal Agency projects a state-wide decline of approximately 149,000 each year through 2022-23 illustrated as follows:

Source: Senate Fiscal Agency

Enrollment is important to the financial health of the district because state funding is based on a per-pupil formula.

Tax Base & Rates

Michigan school districts are funded for General Fund operations according to the following basic formula:

$\text{Foundation Allowance} \times \text{student count} - \text{local non-homestead property taxes} = \text{State Aid}$
--

The foundation allowance is determined annually according to the level of funding available in the State School Aid Fund budget. The School Aid Fund is financed by restricted taxes including a 6% property tax, lottery revenue, and a grant from the State’s General Fund. The student count is a blended count and is determined by blending the number of students in attendance on the February count date with the number of students in attendance on the October count date in the same calendar year.

Districts are authorized by the State to levy up to 18 mills on non-homestead property located within their boundaries, which includes apartment buildings, rental homes, vacation property, vacant land, and commercial and industrial property; however, the Headlee amendment of 1978 included a provision that a community’s total property tax base should not increase faster than the inflation rate. This legislation rolls back the maximum authorized millage rate for each taxing unit to the extent that the total tax base increases more than the rate of inflation. The Headlee amendment occurs in high-growth areas, is triggered when non-homestead property is sold and re-valued at a growth rate higher than inflation, and permanently reduces the amount that can be levied on non-homestead property. The State of Michigan assumes that all districts are levying 18 mills for its calculation of State Aid. When the

Headlee amendment occurs, Michigan public school districts could receive less than the allocated Foundation Allowance by the amount of the Headlee rollback.

The district’s 10-year operating millage renewal was approved by the voters of the community in May of 2014. The current authorized millage is 18.5431 mills, which provides a cushion in the event that the Headlee Amendment is triggered by economic conditions. The operating millage authorization expires with the summer 2024 levy.

The following chart illustrates the district local tax base and rates for the past five years:

School Year	Local Tax Base		Operating (Non-Homestead Property)	Debt Service	Sinking Fund	Total Millage
	Assessed Value (All Property)	Assessed Value (Non-Homestead Property)				
2018	4,964,786,455	1,009,833,377	18.0000	6.0100	-	24.0100
2019	5,254,544,858	1,077,167,274	18.0000	5.3000	-	23.3000
2020	5,510,847,109	1,131,976,851	18.0000	3.4800	1.4874	22.9674
2021	5,753,618,092	1,267,773,507	18.0000	1.6400	1.4732	21.1132
2022	6,032,757,783	1,269,632,332	18.0000	1.7600	1.4630	21.2230

The current homeowner millage rate totals 9.2230 mills which includes a state education tax of 6 mills, a debt levy of 1.76 mills, and a sinking fund levy of 1.4630 mills. District millage rates for the last five years can be illustrated as follows:

Personnel Resources

Staffing levels are determined by a variety of factors including enrollment size, available classroom space and budget constraints. The district strives to maintain a pupil/teacher ratio of 26/1 in Kindergarten through second grade, 27/1 in grades 3 - 5, and 28/1 in grades 6 – 12. Pupil/teacher ratios have been at or near targeted levels during the past several years while the district has achieved or maintained many of its Strategic Plan goals.

The following charts illustrate the District’s actual and projected staffing levels:

Full-Time Equivalent (FTE)

Position	Actual*			
	2018-19	2019-20	2020-21	2021-22

**Based on student enrollment projection

Long-Term Debt

The district levies property taxes on all classes of property (not subject to rollback) for the specific purpose of retiring debt. The collection of these taxes and the resultant repayment of debt decrease the district’s long-term principal obligations and, as a result, the net assets of the district increase. The district currently levies 1.7600 mills for debt retirement.

The following is a summary of bonded debt transactions for the year ended June 30, 2022:

Balance July, 1, 2021	\$ 125,640,000
Retirements and Payments	<u>5,575,000</u>
Balance June 30, 2022	<u>\$ 120,065,000</u>

Performance Measures

The district monitors progress toward its strategic plan objectives in each of the following three goal areas: Curriculum, Instruction, and Assessment; Global Awareness; and Technology and Infrastructure.

Current progress in the area of Curriculum, Instruction, and Assessment includes the research and analysis of international baccalaureate programs, professional development of instructional staff in the Cultures of Learning program, and the implementation of summative and formative student assessments to inform instruction.

In the goal area of Global Awareness, current progress includes implementing opportunities for students to gain first-hand experience in other countries around the world. For example, since April of 2016, each year the district has provided fifteen eighth and ninth-grade students and six staff members with the opportunity to travel to China for ten days. While there, the students are immersed in the language and culture of the world's second largest economy. Additionally, the district offers international students the opportunity to study and earn credits at three of the high schools. The district has 15 international students representing six different countries, including Spain, Brazil, Germany, China, Vietnam, and Japan.

Expanding world languages through the RCS K-12 curriculum is also part of the Global Awareness initiative. In 2014-2015, the district introduced Chinese language and culture exposure in all of its elementary schools, as well as middle schools at the seventh-grade level. All first, second, third and fourth graders receive 30 minutes of instruction per week, and seventh graders receive a two-week block as part of the Introduction to World Language course. High school students are also provided the opportunity to study international languages in Chinese, Spanish, French, and German.

Current progress in the area of Technology and Infrastructure includes community support of \$185 million in bonded debt to enhance security, build classroom additions, renovate aging buildings, and purchase buses. These capital projects will be completed over the next five years. Tax revenue generated by the sinking fund levy approved by voters in November of 2019 will provide for critical facility repair and replacements. The ten-year, 1.5 mil sinking fund levy will enable the district to keep its physical plant in good repair and reallocate General Fund dollars for instructional programs and other operating costs.

Conclusion

The full impact of the global pandemic that began in early 2020 and continues through the date of this report is currently unknown. It is currently not possible to estimate the duration or severity of the potential impact of the pandemic on the district. The proposed balanced budget is based upon estimated available resources. We thank the members of the Board of Education for their continued guidance and support. Copies of this document are available for public distribution upon request and are available through the transparency link on the District's web site at www.rochesterschools.k12.mi.us.

Respectfully Submitted,

Robert Shaner

Rochester Community Schools Organizational Section

Administration Organizational Chart

School Building Administrative Staff

One school principal is assigned to each of the thirteen elementary school buildings. One school principal and one assistant principal is assigned to each of the four middle schools. One school principal, two assistant principals, and one athletic supervisor are assigned to each of the three high schools.

Governance and Fiscal Independence

The District is governed by a Board of Education comprised of seven board members. Each board member is elected. Board members serve for a period of six years at which time they may choose to run for re-election. School Board members at June 30, 2022 are as follows:

<u>Name</u>	<u>Position</u>	<u>Term Expires December 31</u>
Kevin Beers	President	2026
Kristin Bull	Vice President	2022
Michelle Bueltel	Treasurer	2022
Joseph Pittel	Secretary	2024
Barb Anness	Trustee	2024
Jessica Gupta	Trustee	2024
Scott Muska	Trustee	2026

The Michigan Budgeting and Accounting Act (Act 2 of 1968) established a uniform budgeting and accounting system for local units of government. In accordance with this Act, the Board of Education directly appoints one principal officer, the Superintendent (MCL 141.434). Other administrative employees are recommended by the Superintendent for approval by the Board.

The adopted budget of the Board of Education represents the legal authority for the school district to spend money. The budget is formally adopted at a public budget hearing by July 1 each year. The budget is based on the board's appropriation priorities and resources.

The District is fiscally independent. The laws of the State of Michigan give the District power to levy taxes, determine fees, approve and modify budgets, and issue debt without approval from any other government. The District is also subject to the general oversight of the Michigan State Board of Education.

History, Location and Demographics

Rochester Community Schools provides public education to students in kindergarten through twelfth grades. Additional services include programs for children ages 0-3 years, preschool programs, before and after school care for school age children, adult education, and community enrichment classes for all ages.

The District is the eighth largest public school in the State of Michigan and includes all or part of seven Michigan South Eastern municipalities:

Rochester, Rochester Hills, Oakland Township, Auburn Hills, Lake Orion, Washington Township and Shelby Township. This large suburban district operates four high schools, four middle schools, thirteen elementary schools, an early childhood education center, and an adult education center.

Student Enrollment by Building

Fall 2021 general education student enrollment totaled 14,985 Full-Time Equivalent (FTE) students. Student enrollment by building is as follows:

Total	4,846
Special Populations	<u>422</u>
Grand Total	<u><u>14,985</u></u>

Prior to the onset of the COVID-19 global health pandemic, district enrollment had remained steady with growth of approximately 266 student FTE since the fall of 2013. Due to the COVID-19 pandemic, District enrollment declined by 420 students between the fall of 2019 and the following fall. Since then, District enrollment has remained flat and the District's most recent enrollment projection shows stable enrollment through the fall of 2025.

The primarily residential community is ranked in the Niche top 25 Best Places to live in Michigan. Assessed property values increased approximately 16% between 2017 and 2020.

Mission and Vision of the District

The mission of Rochester Community Schools is to provide a quality education in a caring atmosphere for students to attain the necessary skills and knowledge to become lifelong learners and contribute to a diverse, interdependent, and changing world.

The vision statements adopted June of 2010 are as follows:

COLLEGE READY: In preparation for the academic and intellectual challenges of a college education, Rochester Community Schools' students will pursue the most rigorous course of study, according to their ability. Students will explore, recognize and refine their academic interests and individual talents. Students will meet college readiness standards in the core academic subjects of language arts, math, science, social studies and demonstrate proficiency in world language. Students will develop the tools of critical and creative thinking, self-reliance and motivation.

CAREER READY: Rochester Community Schools recognizes that most careers demand that students have some level of college education. Regardless of their individual academic pursuits, students will have the skills needed to seek and maintain employment. Students will develop the self-discipline and work ethic necessary to be successful in both an independent and a collaborative work environment. Students will also develop creative problem solving, verbal communications and human interaction skills in order to meet the challenges of a global, dynamic economy.

LIFE READY: Rochester Community Schools' graduates will recognize that both the individual and society benefit from an informed and involved citizenry. A firm understanding of our core democratic values is necessary in order to promote and strengthen our democratic way of life. Students will become aware of cultural differences and learn to express and respect diversity of opinion in order to be successful in the world at large. To be successful in their daily lives students will be provided opportunities to develop financial, technical, healthy lifestyle and interpersonal skills.

Strategic Plan Goals and Objectives

The District continues to follow objectives that were developed in 2014 by district staff and community members as part of the District's strategic planning process. The next iteration of the strategic plan was postponed due to the COVID-19 global health pandemic. The District is in the process of planning to hold a series of strategic planning committee meetings to identify and define objectives and goals for the next five years. The objectives identified in 2014 are as follows:

Global Awareness

Rochester Community Schools will challenge students through dynamic cultural experiences, to be empowered global stewards, and inspire them to have a positive impact on their community, country, and world.

Curriculum/Instruction/Assessment

Rochester Community Schools will develop innovative, self-directed learners who think critically, communicate effectively and persevere to positively impact the world.

Infrastructure & Technology

Rochester Community Schools will ensure a world-class education by focusing resources on developing and enhancing assets which include people, innovative partnerships, state-of-the-art technologies and facilities.

Strategies have been developed and action plans implemented to help the District reach each of its Strategic Plan objectives. Progress toward the objectives is monitored on an on-going basis and presented to the Board of Education at regular intervals.

Estimated Costs of Goals and Objectives

Action plans must be measurable and are budgeted prior to implementation. The following action plans are included in the General Fund budget:

Global Awareness - World Languages. The District expanded its world language program with the addition of Chinese language instruction and the development of sister schools located in China. Additionally, several field trips to China have expanded student cultural awareness of that nation and many students and their chaperones have developed life-long friendships with their host families. The district invests approximately \$5.5 million each year in foreign language instruction.

Curriculum/Instruction/Assessment – Professional Learning. Teachers engage in regular professional development training through a variety of classes, workshops, and seminars. The knowledge gained from professional training is used to improve instruction in the classroom. The district invests approximately \$458,000 in professional development training each year.

Infrastructure and Technology - 2016 Bond Issue. The District facilitated a detailed needs study to determine infrastructure and technology needs. As a result of that study, the community approved up to \$185 million in bonded debt. The District issued the bonds in two series: Series one for \$128 million, and Series two for \$57,000,000. These issues were to fund the construction of security vestibules at all buildings, the construction of building additions and renovations, site work, and technology infrastructure, buses, and furniture and equipment. The District expects all projects to be substantially complete by September 30, 2023.

Voters residing within district boundaries approved a ten-year, 1.5 mil sinking fund levy on all classes of property in 2019. The sinking fund levy is expected to provide approximately \$8 million per year to fund critical facility repair and replacements.

Budgetary Goals

The District completes its budget with a detailed and exhaustive review of each revenue and expenditure account within the framework of the District's

mission, goals and financial policies. Budget information for each fund is included in this document.

Michigan School Improvement Framework

On March 11, 2014, the Michigan State Board of Education approved both the School Improvement Framework 2.0 and the District Improvement Framework 2.0. The revised frameworks are designed to ensure schools and school districts operate in a continuous improvement environment.

School District Improvement Plan

The school district improvement plan is aligned with its strategic plan. The school district improvement plan is comprised of four strands as follows:

1. Teaching and Learning
2. Leadership and Learning
3. Professional Learning Culture
4. School, Family, and Community Relations.

Coordination is the responsibility of the Superintendent and his/her designee. The extensive plan as well as the objectives and status are posted on the District website at www.rochester.k12.mi.us.

School Building Improvement Plan

The building-level school improvement plans are aligned with both the District improvement plan and the District strategic plan. Building level plans are also comprised of the following four strands: Teaching and Learning, Leadership and Learning, Professional Learning Culture, and School, Family, and Community Relations.

The building-level school improvement plan is developed, reviewed, and revised by a committee comprised of building staff as well as parents and/or other district residents who are not school employees. Secondary schools also include students on their building-level school improvement teams.

Fund Types

Governmental Funds

- The General Fund – This is the operating fund of the District and accounts for all revenue and expenditures except those legally required for sound financial management to be accounted for in another fund.
- Special Revenue Funds – Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than fiduciary or capital projects) that are legally restricted to expenditures for specific purposes. The District’s principal special revenue fund is the Food Service Fund, which receives the majority of its revenues from state and federal sources and is legally restricted to using such revenues to provide food services to students.

- Debt retirement Fund – The Debt retirement Fund is used to account for the accumulation of resources for and payment of, principal, interest and related costs on general obligation bonds.
- Capital Projects Fund –The Capital Projects Fund is used to account for the resources for the acquisition or construction of capital facilities or equipment held by the school district.

Budget Basis and Regulations

Budgets are legally required by the Uniform Budgeting and Accounting Act (Act) and have been adopted for all governmental funds. These budgets are presented on the modified accrual basis of accounting and are adopted on a basis consistent with generally accepted accounting principles (GAAP). Unencumbered appropriations lapse at fiscal year-end. Currently, the most significant budgeted funds are the General Fund and the Capital Projects Funds.

Budget Policy

In all stages of the budget process, the Rochester Board of Education’s policy states that it will adhere to all statutes and regulations imposed by the Act. The Board of Education adopts appropriations utilizing the modified accrual basis of accounting for all governmental funds. The appropriation level adopted by the Board is the level of control authorized by the Act. The Act requires expenditures to be budgeted on a functional basis. A district is not considered to be in violation of the Act if reasonable procedures are in use by the District to detect violations.

Financial Accounting Standards

The District’s financial and accounting structure complies with Generally Accepted Accounting Principles (GAAP) for revenue and expenditure recognition. Financial statements and reports exhibiting the current conditions of budgetary and proprietary accounts are prepared on a monthly basis during the fiscal period to control financial operations. At the close of each fiscal year, a comprehensive annual financial report covering the financial position of the school system is prepared and published following an independent audit which includes statements of scope and opinion as to the compliance with GAAP.

Fund Balance Policy

Fund balance may be used to supplement possible shortfalls in revenues, as a reserve for contractual obligations, for emergency expenditures or for other expenditures designated by the Board. In 2015, the Rochester Board of Education established a fund balance target of 10% of the General Fund operating budget. The District’s unassigned fund balance as a percentage of its operating budget is illustrated in the following table:

Percentage of Unassigned Fund Balance to Expenditures
General Fund

Fiscal Year	Estimated		Actual		
	2022-23	2021-22	2020-21	2019-20	2018-19
Unassigned Fund Balance	36,714,628	37,807,292	38,610,298	38,528,790	36,334,264
Expenditures & Transfers	197,336,012	199,595,418	181,991,887	175,976,986	172,865,014
% Unassigned	18.61%	18.94%	21.22%	21.89%	21.02%

Budget Process

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

1. The District's Superintendent submits to the Board of Education a proposed budget before July 1 of each year. The budget includes proposed expenditures and the means of financing them.
2. A public hearing is conducted to obtain taxpayer comments.
3. The Superintendent is authorized to transfer budgeted amounts between functions within any fund up to \$100,000 for purposes of meeting emergency needs of the District. Transfers between functions are included in the following regularly scheduled budget amendment.
4. Budgets for the General, Debt retirement, Capital Projects, and Special Revenue Funds are adopted on an annual basis consistent with generally accepted accounting principles.

Encumbrance and Expenditure Control

The District utilizes an electronic purchase order system for all purchases in excess of \$500. When a purchase order is placed, funds are encumbered (or formally recognized as committed for expenditures) in the finance system. Purchase order encumbrances are released when an item is received and the invoice is paid. Budget cards are set with total spending caps and are used for high volume, low dollar amount purchases. Purchases in amounts below the \$500 threshold do not require a purchase order prior to making the purchase.

Budget Calendar

February: The State of Michigan holds its revenue consensus meeting. Assumptions are made regarding the economy, revenue and costs for both the General and School Aid funds. State revenue consensus data is used in the development of assumptions for the subsequent year budget.

The Superintendent and Cabinet level administrators meet to discuss new-year assumptions regarding enrollment, foundation allowance, staffing levels, programs and other items that affect the budget for the following year.

March: A review of the operating budget is completed and the second of three budget amendments is created. The March amended budget is the basis for the subsequent year budget.

Projections are compiled and outcomes discussed with the Superintendent and members of the Cabinet. Any new information is incorporated into the projections. Budget reductions, if necessary, are identified and discussed. Preliminary projections are presented to the board finance committee for discussion. Projected data is presented to school administrators and labor union leadership.

April: The most current budget projections are presented to the Board Finance Committee.

May: The final budget projection is presented to the Board of Education for discussion.

June: The Truth in Taxation Budget hearing is held and the Board of Education adopts the budgets for the following year.

Budget Recognition

This document presents the financial plan of the District and is structured to meet or exceed the requirements of the Meritorious Budget Award (MBA) of the Association of School Business Officials International (ASBO). To receive this award, the District must publish the budget as a policy document, operations guide, and financial plan and communications device.

The attainment of the MBA represents a significant accomplishment by a school district and is the highest form of recognition in budgeting. The award is made only after comprehensive review by a panel of independent budget professionals. The reviewers not only evaluate the effectiveness of the budget, but also provide commentary and feedback to the submitting district as a basis for improvement in the presentation of the budget as a financial and operating plan. The District received the MBA for its 2021-22 budget document submission.

Amendments to the Budget

The State of Michigan adopted a Uniform Budgeting and Accounting Act (Act) applicable to all local governmental entities in the State. The law requires appropriation acts to be adopted for all major funds. The school district's budgets are prepared according to Michigan law and are initially adopted prior to July 1 of each year, before student enrollment counts are known. Therefore, it is expected that there will be changes between the initial budget and subsequent budgets, as actual enrollments and resultant staffing requirements are known. The Board of Education approves budget amendments throughout the year, as necessary. The State of Michigan requires that final expenditures do not exceed the final budget.

Budget Administration and Management Process

All school principals and program directors are required to monitor their budgets and keep within the budget constraints. Those staff members with budget responsibility have real-time access to budget detail for revenue and expenditures. The Business Office Staff monitors budgeted expenditures on

a daily basis. Financial information is communicated to the Board on a monthly basis and includes the following:

- | | |
|---|---------------------------|
| *Expenditures by Fund | *Detail of disbursements |
| *Payroll and electronic funds transfers | *Property tax collections |
| *Activity (student) accounts detail | *Detail of receipts |

Key Revenues and Expenditures

Revenues and expenditures for each fund are shown in detail in the financial section of this document. Key revenues and expenditures are summarized below.

Revenues:

Unrestricted State Aid

The total amount of state aid and property tax revenue that school districts can use for general fund operating purposes was limited with the adoption of Proposal A in 1994. Basically, the gross revenue allowed by the State is the foundation allowance multiplied by the number of students in the District. This includes both state aid AND property taxes.

Categorical State Aid

Examples of Categorical State Aid include funding for "at risk" pupils (defined on the basis of how many students in school qualify for free school lunches on the basis of family income), for "school readiness" programs for educationally disadvantaged four-year-olds, and for funding for special education. The retirement system rate stabilization and cost offset is another categorical funding source. Categorical State Aid contributed approximately \$39.9 and \$30.4 million in 2021-22 and 2020-21 respectively. The additional categorical revenue received in 2021-22 is primarily one-time funding related to the COVID-19 pandemic.

Property Taxes

The District levies 18 mills of property taxes on all Non-Homestead property located within the District for General Fund operations. The levy is assessed on the taxable value of the property. The increase in taxable value is limited to the lesser of the inflation rate of the prior year or 5%. When a property is sold, the taxable valuation of the sold property is readjusted to the State Equalized Value, which is approximately 50% of market value. Property values have recovered in recent years from the 2008 housing bubble. The Non-Homestead property tax levy totaled approximately \$20.23 and \$20.34 million in 2021-22 and 2020-21 respectively.

Federal Revenue – The federal government provides restricted funding (passed through the Michigan Department of Education and the Oakland School District) for specific programs. The primary areas of support are Special Education, School Lunch and Consolidated (Title) grants. The district received approximately \$7.5 and \$3.6 million in 2021-22 and 2020-21 respectively in one-time grants related to the COVID-19 global pandemic. As of the date of this report, the one-time federal funding related to the global pandemic is required to be expended by September 2023.

The following graph illustrates the District’s 2022-23 budgeted revenue by source for all funds:

Functional Classifications of Expenditures

Bulletin 1022, issued by the Michigan Department of Education, serves as a mandatory guide to the uniform classification and recording of accounting transactions for Michigan school districts. The District classifies its expenditures into functions set forth in Bulletin 1022.

The expenditure functions and corresponding definitions are as follows:

- **Instruction** – Activities that deal directly with the teaching of pupils or the interaction between teachers and students, whether in a classroom or in another location such as a home or hospital. Instruction may also be provided through some other approved medium such as television, radio, telephone and correspondence. Included are the activities of teachers, substitutes, aides or assistants, who assist in the instructional process.
- **Pupil Services** – Activities that are designed to assess and improve the wellbeing of students and to supplement the teaching process. Included are activities related to promoting school attendance as well as counseling, health, speech and other services.
- **Instructional Staff Services** – Activities associated with assisting the instructional staff with the content and process of providing learning experiences for pupils. It includes district-wide activities designed to manage, direct, and supervise the instructional program

and improve the quality of instruction and curriculum. Library and media costs used to support instruction are also included in this category.

- **General Administration** – Activities concerned with establishing and administering policy for the entire school system. It includes such areas as the Board of Education and the Office of the Superintendent.
- **School Administration** – Activities associated with the overall administrative responsibility for a single school or group of schools including the principal, assistant principal, and other administrative and clerical staff.
- **Business Services** – These activities include business functions (accounting, budgeting, purchasing and payroll).
- **Operations and Maintenance** – Activities associated with keeping the physical plant open, comfortable, and safe for use, and keeping grounds, buildings, and equipment in good working condition.
- **Transportation** – The cost of providing management and operation of regular bus routes used to transport students to and from school.
- **Central Services** – Activities other than district administration that support each of the other instructional and supporting services programs. Communications, personnel and technology are included in this function.
- **Community Services** – Activities concerned with providing community services to students, staff or other community participants.

The following table illustrates a three-year comparison of per-pupil expenditures (including capital outlay) for the General Fund by function:

General Fund Per Pupil Expenditures			
	Budget 2022-23	Final Budget 2021-22	Actual 2020-21
Basic Instruction	\$ 7,529	\$ 7,791	\$ 7,207
Pupil	1,171	1,197	1,111
Instructional Staff	685	695	654
General Administration	144	144	109
School Administration	628	631	604
Business Services	163	163	136
Operations & Maintenance	1,149	1,129	998
Transportation	536	524	370
Central Services	499	499	406
Other Support	202	202	190
Community Education	209	215	130
Debt Service & Capital Outlay	252	131	226
	<u>\$ 13,167</u>	<u>\$ 13,321</u>	<u>\$ 12,141</u>

Key Expenditures:

Salaries and employee benefits account for approximately 80% of the total General Fund budget. The District negotiates with bargaining units for instructional and support staff as illustrated in the following table:

Employees	Bargaining Unit	Contract Expiration Date
Teachers	Rochester Education Association, MEA/NEA	6/30/2024
Administrators	RCS Administrators Association	6/30/2023
Secretaries	Rochester Support Personnel, MEA/NEA	6/20/2024
Maintenance/Grounds/Technicians	Local 202, Council 25, AFSCME	6/30/2023
Paraprofessionals	Rochester Para Educator Association MEA/NEA	6/30/2025
Executive Staff/Directors	Local Contracts	6/30/2023

The following support services are contracted through a third party: Food Services, Custodial and Grounds Support, Student Transportation Services, guest teachers.

During the past ten years, the School District has not experienced a strike by any of its bargaining units.

The costliest benefits provided to employees by the District include health insurance and retirement system contributions. The District is self-insured for all health, dental and vision benefits. All health plans are provided by Blue Cross Blue Shield of Michigan (BCBSM). The District contributes 80% toward employee health insurance premiums. The remaining 20% of the health insurance premium is withheld from employee pay on a pre-tax basis. Benefit payments and administrative charges are made directly to, and all claims are approved and processed through, BCBSM. The District contribution to health insurance premiums totaled approximately \$14.4 million for the year ended June 30, 2022.

The Michigan Public School Employees' Retirement System (MPSERS) is a cost-sharing, multiple employer, state-wide, defined benefit public employee retirement plan governed by the State of Michigan (State) originally created under Public Act 136 of 1945, re-codified and currently operating under the provisions of Public Act 300 of 1980, as amended. Pension reform in 2010 created the Pension Plus plan for anyone who became a member of MPSERS after June 30, 2010. The Pension Plus plan is a hybrid plan that contains a pension component with an employee contribution and a flexible and transferable defined contribution tax-deferred investment account. Pension reform in 2012 granted all active members who first became a member before July 1, 2010 a voluntary election regarding their pension. Under the 2012 reform, members voluntarily chose to increase, maintain, or stop their contributions to the pension fund. Pension reform in 2017 created the Pension Plus 2 Plan for anyone who became a member after February 1, 2018. This plan splits the contributions 50/50 between employee and employer and can be closed to new employees if the actuarial funded ration falls below 85% for two consecutive years without additional funds being appropriated.

The District's estimated contribution to MPSERS under all pension plans for the year ended June 30, 2022 totaled \$34.2 million.

Purchased services include professional services such as legal representation, police services and auditing services. Also included in this expenditure category are conferences, water and sewer charges, postage fees, mileage and travel reimbursements, telephone charges, property and liability insurances and other expenditures.

Supplies and materials include expenditures for textbooks and other instructional supplies, library books and audio-visual materials. Also included in this category are department and program supplies, as well as building utilities and supplies for custodial and maintenance.

Capital outlay includes purchases of furniture and equipment, school buses and other vehicles, and the cost of improvements to school buildings such as remodeling, re-roofing, construction and upgrades to electrical and mechanical systems.

Expenditures not classified in any of the previous categories listed are included in an "other" category and include principal and interest payments, association dues and fees, and legal settlements.

The following table illustrates that general fund comprises 81% of all the expenditures within the governmental funds of the school district compared to 72% in the prior year. This variance is a result of the 2016 bond issue and related capital projects spending. As of June 30, 2021, expenditures totaled an estimated \$232.8 million for all district programs. The ending fund balance for all funds totaled \$62.5 million of which \$2.5 million was reserved for debt retirement.

	Expenditures (in millions)					
	June 30, 2023	%	June 30, 2022	%	June 30, 2021	%
	(Estimated)	of Total	(Estimated)	of Total	(Actual)	of Total

School Service Funds	3,078,127	7%	3,216,744	6%	2,655,361	5%
Total	\$ 42,182,878		\$ 53,463,940		\$ 62,835,925	

Capital Projects

The District's Capital Projects Fund is used to account for the proceeds of the 2016 Building and Site bond issues Series I and II, and the 2019 Sinking Fund levy. The 2016 bond issue projects include repair and replacement of buildings and equipment, site improvement, building additions and buses.

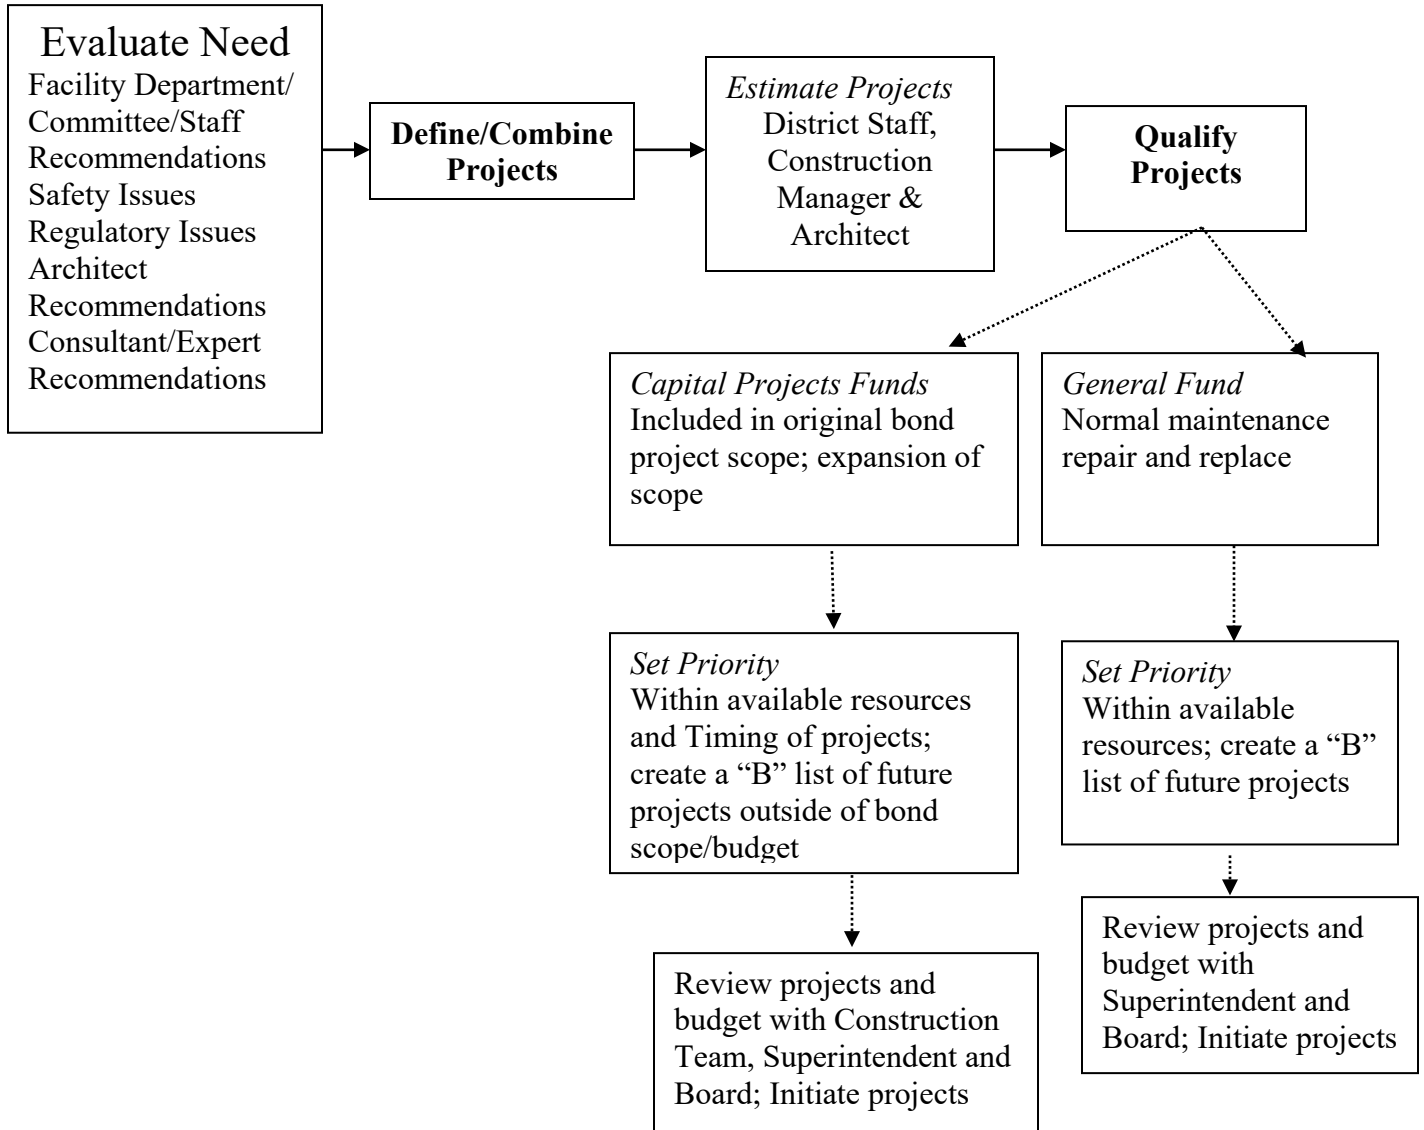

The following table illustrates the planned Capital Projects Funds expenditures by object for 2022-23:

Project	Budget		Total
	Building & Site	Sinking Fund	
Buildings & Additions	\$ 1,919,115	\$6,613,636	\$ 8,532,751
Furniture & Equipmen	6,725,225	-	6,725,225
Site Improvements	1,287,076	2,182,500	3,469,576
Other	-	35,700	35,700
Total	\$ 9,931,416	\$8,831,836	\$ 18,763,252

The budget for capital projects is developed according to the following flowchart:

Budget Development Flowchart

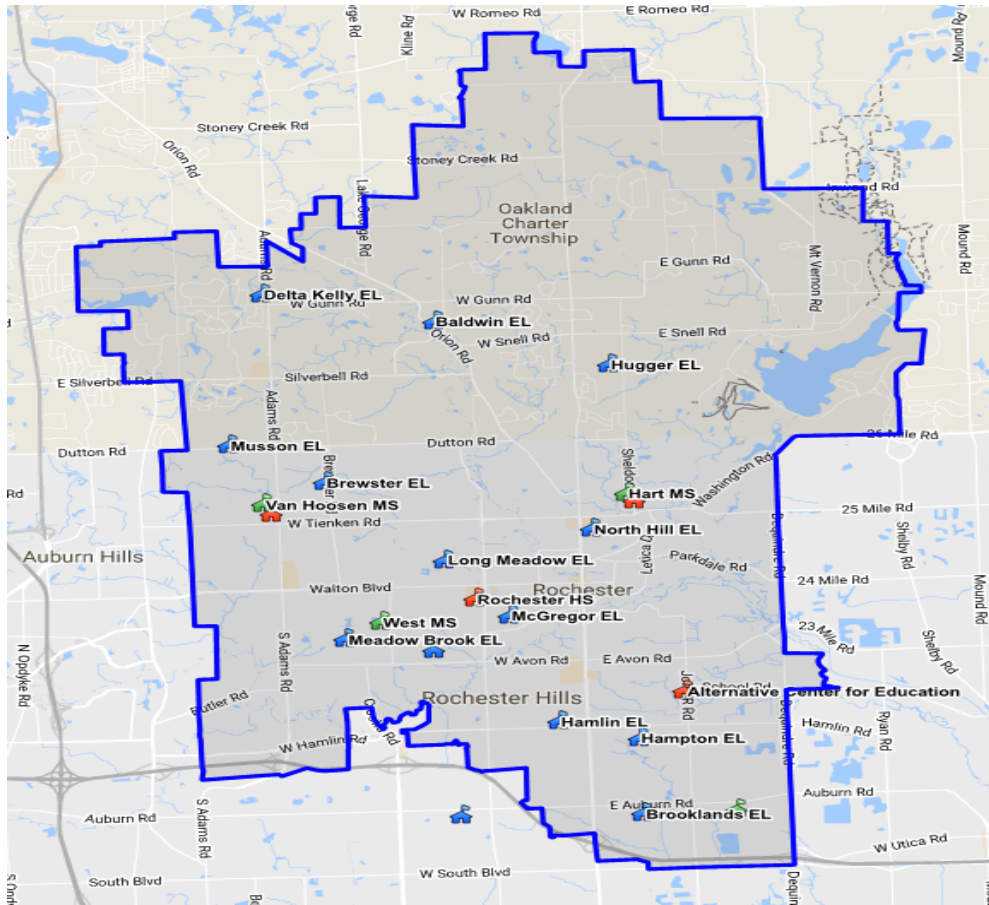

Other Sustaining Local Revenue Sources

The District currently leases cell tower space at Adams High School. There is one cell tower located on the roof of the building and one cell tower located in the football stadium.

Following is a schedule of lease revenue over the life of the lease for each of the cell towers:

Cell Tower Lease Schedule					
Location:	Adams Rooftop		Adams Light Pole		
Date:	2008		2012		
<u>Fiscal Year</u>	<u>Year</u>	<u>Amount</u>	<u>Year</u>	<u>Amount</u>	<u>Totals</u>
Initial Payment		\$50,000		\$50,000	\$100,000
FY2009	1	26,400		-	26,400

Rochester Community Schools Financial Section

Description of Governmental Funds

The district accounts for its financial operations in the following governmental funds:

General Fund – the operating fund of the District is used to record all revenue and expenditures except those legally required for sound financial management to be accounted for in another fund. General Fund revenues include local funds (primarily property tax revenue); inter-district sources (primarily special education tax passed through to the District from the Intermediate School District); state funds (the District's primary funding source); and federal funds (reimbursement-based funds). General fund expenditures include instruction (both general and special education). Support services include pupil (speech therapists, psychologists, social workers, etc.); instructional staff services (professional development, library services); general (Board of Education and Superintendent offices); and others. Other supporting services include Athletics and the RCS Foundation office.

Debt Retirement Fund – used to account for the accumulation of resources for and payment of, principal, interest and related costs on general obligation bonds. Community-approved debt issues provide the revenue for the debt retirement fund.

Capital Projects Funds – used to account for the resources for the acquisition or construction of capital facilities or equipment held by the school district and include the Building & Site Fund and the Sinking Fund. The primary source of revenue for the Building & Site Fund is bond issue proceeds. Revenue in the sinking fund is provided by a ten-year community approved property tax levy.

Special Revenue Funds – used to account for the proceeds of specific revenue sources (other than fiduciary or capital projects) that are legally restricted to expenditures for specific purposes. The District's special revenue funds include the Food Service Fund, the Bookstore Fund, the Early Learning Center Fund, and the Student Activity Fund. Revenue in the bookstore, and student activity funds is primarily product sales, tuition is the primary funding source for the early learning center fund, and federal revenue and student food sales provide the primary funding for the Food Service Fund.

Declining Fund Balances

The overall decline in fund balances budgeted for the 2022-23 fiscal year reflect the additional costs of COVID-19 (general fund), the completion of construction projects related to the 2016 bond issue (capital projects fund), and measures taken to use fund balance in the food service fund to bring the district into compliance with federal regulations that restrict fund balance levels in that fund.

2022-23 Summary Budget – All Governmental Fund Types

REVENUES BY SOURCE AND EXPENDITURES BY FUNCTION FOR FISCAL YEAR 2022-23

	General Fund	Debt Service Fund	Capital Projects Funds	Special Revenue Funds	Total
Revenues:

Significant Changes in Fund Balance

The fund balance in General Fund is expected to decrease by approximately \$1.1 million at June 30, 2023, compared to a decrease of \$803,006 at June 30, 2022. This is due primarily to additional costs related to the COVID-19 global health pandemic that began in early 2020.

Three Year Budget Forecast Assumptions

General Fund

The District develops certain revenue and cost assumptions for its forecasted operating budget from a variety of external sources. Revenue estimates are typically based on third-party enrollment projections and estimated foundation allowance amounts included in the State budget. At the time of

this report, foundation allowance has not been estimated by the State and the impact of the global pandemic on student enrollment is unknown. Expenditure assumptions include employee compensation costs based on salary schedules, staffing levels, expected health insurance premium changes, state pension fund rates, and estimated costs related to the global pandemic. 2022-23 general fund assumptions are as follows:

	<u>2022-23</u>
Revenue:	
Foundation	\$ 9,150
Enrollment	14,693
Foundation increase	\$ 4,123,650
Increase (decrease) in enrollment	<u>(2,616,900)</u>
Estimated revenue increase (decrease)	1,506,750
Less: Property tax increase	<u>415,764</u>
Net state aid	1,090,986
Net change in federal grants	(917,312)
Change in COVID grants	(1,169,957)
Miscellaneous	<u>(1,968,545)</u>
Total change in revenues:	<u>\$ (2,549,064)</u>
Expenditures:	
Custodial contracts	\$ 308,822
Transportation contracts	229,337
Expand Strings program	315,050
Health Insurances	521,100
Retirement contributions	533,666
Grant related reductions	(4,260,241)
Miscellaneous	<u>92,860</u>
Total change in expenditures	<u>\$ (2,259,406)</u>
Total Revenue increase (decrease)	\$ (2,549,064)
Total Expenditure increase (decrease)	(2,259,406)
Net Change in Other Financing Sources (Uses)	<u>(96,937)</u>
Net change in excess (deficiency)	<u>\$ (386,595)</u>

Three-year general fund assumptions are as follows:

Significant Revenue Sources

Michigan's method for funding public education changed significantly in 1994 with Proposal A. Prior to Proposal A, public schools were primarily funded with local property taxes (approximately 69%), with the remaining 31% from state funding. All property owners paid on average 33 mills for school operations assessed on the State Equalized Value of property (roughly 50% of market value). Proposal A changed the public-school funding mechanism to a per-student foundation allowance.

In order to fund this change, the state increased a variety of taxes including sales tax, which increased from 4% to 6% with the additional 2% dedicated to the School Aid Fund. All property (including homestead property) was assessed a 6% State Education Tax. Local taxation for school operations became capped at 18 mills levied on the *taxable value* of non-homestead property, with no levy on homesteads for school operations. Non-homestead property includes all property except a taxpayer's primary residence including non-commercial agricultural property. Increases in the taxable value of property is capped at the lesser of the rate of inflation or 5%. State equalized value is not subject to a cap, and taxable value is adjusted to equal the State Equalized Value when a property transfers ownership.

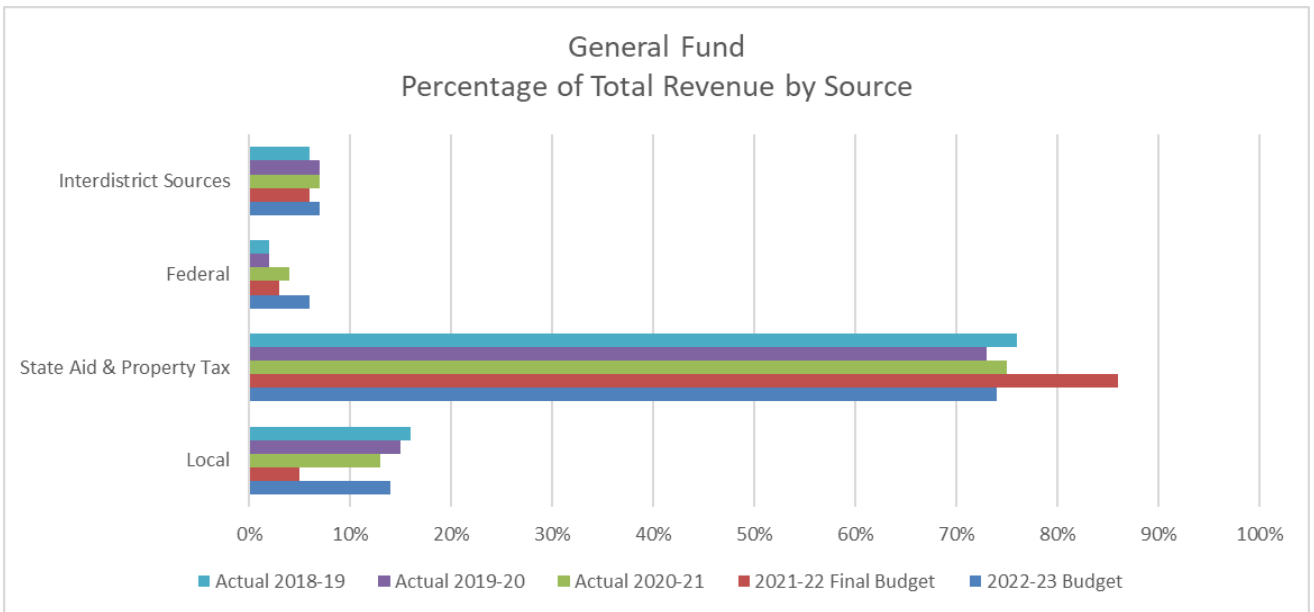

The following graph illustrates the School Aid Fund (SAF) revenue sources for Fiscal Year 2020 (the most recent data available):

Source: State Budget Office

The Foundation Allowance is received by the District from two sources. In order to receive the full Foundation Allowance, the District is required to levy 18 mills on business (non-homestead) property. The State pays the remaining portion to the District in eleven equal installments beginning in October. If the District does not levy the full 18 mills, the State will not reimburse the District for uncollected funds.

The District has elected to collect property taxes twice a year; 50% in the summer collection and 50% in the winter collection. Property taxes collected in the summer help fund expenditures from September (when the school year begins) through mid-October (when the first State Aid payment for the year is received). The following graph illustrates General Fund budgeted funding by source. Note that state aid and property tax accounts for over 80% of the District's General Fund revenue.

Major Revenue Shifts

Major shifts in revenue sources from the previous year include one-time restricted federal funding due to the COVID-19 global health pandemic. These federal grants include the COVID-19 Elementary and Secondary School Emergency Relief Fund (ESSER), Coronavirus Relief Funds, Covid-19 Childcare and Development Grant, and Covid-19 Unanticipated School Closure cash assistance. These one-time funds will enable the District to fund expenditures related to the COVID-19 pandemic response.

Revenue Assumptions and Significant Trends

General Fund

Michigan school districts are funded for operating purposes primarily with a per-pupil foundation allowance allocation comprised of State Aid payments and property tax collections. Fiscal year 2022-23 property tax revenue is based on preliminary values published in the Oakland and Macomb County *FORM L-4028 COUNTY AND VILLAGES 2023 MILLAGE REDUCTION FRACTION COMPUTATIONS*. Forecasted state aid revenue is based on current year levels and will be adjusted when the State adopts its SAF budget. Long-range foundation allowance projections are calculated by multiplying projected enrollment by estimated per-pupil funding levels.

The following chart illustrates the District’s foundation allowance over the past 10 years:

Significant Expenditure Categories

Employee salaries and benefits comprise approximately 80% of general fund expenditures. Employee benefits include medical insurances, employer payroll taxes and insurances, and retirement system contributions.

Salaries and wages:

Salaries and benefits are negotiated with the following employee groups:

Employees	Bargaining Unit	Contract Expiration Date
Teachers	Rochester Education Association, MEA/NEA	6/30/2024
Administrators	RCS Administrators Association	6/30/2023
Secretaries	Rochester Support Personnel, MEA/NEA	6/20/2024
Maintenance/Grounds/Technicians	Local 202, Council 25, AFSCME	6/30/2023
Paraprofessionals	Rochester Para Educator Association MEA/NEA	6/30/2025
Executive Staff/Directors	Local Contracts	6/30/2023

The difference between retiring teacher salaries at the top of the scale and salaries for beginning teachers offset the increase in teacher salary steps when at least 25 teachers retire in any given year. Classrooms are staffed conservatively until the number of students in each grade are known.

Retirement System Contributions

The District is required by Public Act 300 of 1980, as amended, to contribute amounts necessary to finance the retirement coverage of members and retiree Other Post-Employment Benefits (OPEB). Contribution provisions are specified by State statute and may be amended only by action of the State Legislature. Employer contributions to the System are determined on an actuarial basis using the entry age normal actuarial cost method. Under this

method, the actuarial present value of the projected benefits of each individual included in the actuarial valuation is allocated on a level basis over the service of the individual between entry age and assumed exit age. The portion of this cost allocated to the current valuation year is called the normal cost. The remainder is called the actuarial accrued liability. Normal cost is funded on a current basis. The unfunded (overfunded) actuarial accrued liability as of September 30, 2021 valuation will be amortized over a 20-year period for fiscal year 2021. The District's portion of the unfunded liability at September 30, 2021 totaled \$235,228,964.

Required school district contributions are determined based on employee retirement plan elections. There are several different benefit options included in the plan available to employees based on date of hire. Contribution rates are adjusted annually by the ORS. Following is a summary of retirement contribution rates for the past five years:

From:		Contribution Period To:		Contribution Rates Range	
Month	Year	Month	Year	Low	High
February 1,	2018	August 31,	2018	13.54%	19.74%
September 1,	2019	September 30,	2019	20.96%	27.16%
October 1,	2019	September 30,	2020	20.96%	27.50%
October 1,	2020	September 30,	2021	20.96%	28.21%
October 1,	2021	September 30,	2022	20.96%	28.23%
October 1,	2022	September 30,	2023	20.96%	28.23%

Self-funded Health Insurances

The District maintains a self-funded health insurance plan through Blue Cross Blue Shield of Michigan. Current year premiums are calculated based on the previous year health care costs. Plan years begin on January 1 and end on December 31. The District pays 80% of the premium for health coverage, and 20% of the premium is collected via payroll deduction over a ten-month period beginning in September. Health insurance premiums totaled approximately \$14.4 million in 2021-22. Premiums are expected to increase by 3.5% beginning January 1, 2023.

Major Expenditure Shifts

The District purchased an office building during the 2020-21 school year to house district-wide administrative offices for \$7 million. To fund the purchase, the district transferred \$2 million from its general fund budget and entered into an installment purchase agreement for \$3 million, with the remaining \$2 million funded from its **sinking fund**. Debt service on the loan will be made over the next five years from the general fund.

Current Year Budgeted Expenditures by Function and Object and Three Years Actual – General Fund:

Negative Trends

The District's general fund forecast shows a negative trend in fund balance through June 30, 2023; primarily related to the purchase of a new administration building and costs related to the COVID-19 global health pandemic. The District will make necessary adjustments to bring expenditures in line with revenues and student enrollment levels.

Debt Retirement Fund

Public school districts may also propose millage levies for debt (to build buildings and/or additions, renovate facilities, purchase buses and/or technology and other equipment, purchase land, etc.). The district is authorized to levy any amount necessary to service debt. Debt levies are assessed on all classes of taxable property and may increase or decrease as taxable property values fluctuate. The District currently levies 3.48 mills (\$3.48 for every \$1,000 of taxable property) to fund the debt retirement on its bonded debt. Amortization schedules for bonded debt can be found in the informational section of this report. Bonded debt is comprised of the following issues:

\$108,725,000 2016 Building and Site Bonds, due in annual installments ranging from \$1,150,000 to \$14,600,000 through May 2036; interest from 4.00% to 5.00%.	\$ 70,250,000
\$56,025,000 2016 Building and Site Bonds, due in annual installments ranging from \$1,995,000 to \$3,680,000 through May 2039; interest from 3.00% to 3.125%.	49,815,000
Total Bonds Payable	<u><u>\$ 120,065,000</u></u>

The projected Debt Retirement Fund revenue assumes a 2% increase in property values in 2022-23 and is projected to increase at a nominal rate through 2026. The 2022-23 debt levy is 3.48 mills on all classes of property. All bonds are scheduled to be retired by May 2039. This debt does not impact general fund, which entered into a \$3 million, 5-year installment purchase agreement in 2021.

The District's current unused legal debt capacity is \$786,040,509. The general bonded debt of the District is limited to 15% of the state equalized value of the total taxable property in the District.

The computation of the legal debt margin is as follows:

2022 Assessed value	<u>\$ 6,032,757,783</u>
Statutory bonding limit (15% of state equalized value)	904,913,667
Debt outstanding	\$ 120,065,000
Less: Amount available in debt service funds	1,191,842
Total debt applicable to debt limit	<u>118,873,158</u>
Legal debt margin	<u>\$ 786,040,509</u>

Debt Retirement Requirements

The following chart illustrates principal and interest requirements over the next five years:

Capital Projects Fund

The capital projects funds include proceeds from the 2016 bond issue and a voter-approved ten-year sinking fund. The capital projects funds relieve the general operating fund because without these funds, the cost of capital projects (major facility repair, replacement, or new construction) would have to be paid from the general operating fund.

The proceeds of \$185 million from the 2016 Building and Site Bonds will be used to fund capital projects through 2022. The District issued the first series of Building and Site Bonds in the spring of 2016. The amount of the first series totaled \$128 million. The second series of Building and Site bonds was issued in the spring of 2019 in the amount of \$57 million. The purchase of technology equipment in 2022-23 will complete the bond-funded projects.

On November 5, 2019, the Rochester community approved a ten-year, 1.5 mill levy on all classes of property for the purpose of a sinking fund. Tax levies began with the 2020 summer tax collection. Proceeds from the fund will be used to repair and replace district critical district infrastructure. Planned 2022-23 projects include the replacement of heating/cooling mechanical equipment and the purchase of a generator and flooring.

Negative Trends

Fund balance in the capital projects Building and Site fund will diminish over the next two years as each project has been completed.

Fund balance in the sinking fund will depend on the timing of projects to address future critical facility needs.

Long-Range Capital Improvement Plan

The District is in the process of developing a long-range capital improvement plan for its facilities, as well as capital equipment such as buses, computer infrastructure, copiers, and maintenance and grounds equipment. Experts have been engaged to analyze the current state of air handling equipment, roofs, parking lot surfaces, electrical and plumbing systems, flooring, and other finishes.

Special revenue Funds

Special revenue Funds cover program operational costs by charging a fee for the service that is provided. Revenue projections are based on historical sales in the Bookstore Fund, and on projected enrollment and lunch prices in the Food Service Fund.

The District began a new early learning program at the start of the 2018-19 school year to better serve the needs of families and to improve its capture rate of students entering kindergarten. The program will be housed in a facility designed for up to 170 early learners aged 0-6 years. The Early Learning program is conducted on a stand-alone platform and will be self-supported with tuition revenue when enrollment reaches 80% of capacity on a consistent basis. Revenue projections are based on area market tuition rates.

The Governmental Accounting Standards Board (GASB) issued Statement No. 84 Fiduciary Activities, which established criteria for identifying and reporting fiduciary activities for all state and local governments. The Student/School Activity Fund generates revenue from fundraisers and staff contributions. Expenditures are made to fulfil a fundraiser purpose, or for initiatives identified by each activity group.

Expenditure projections in the Food Service Fund reflect price adjustments prescribed in the food service management contract and planned capital improvements. The Bookstore Fund projections assume no increase in purchased service or supply costs.

Early Learning Fund expenditure projections are categorized by the following six object categories: salaries, employee benefits, purchased services, materials and supplies, capital outlay, and other costs. Building administration, clerical support, and preschool teachers and para-educator wages and benefits are reported in the salaries and employee benefit categories. Employee benefits include 80% of employee health insurance premiums, social security and Medicaid payments (FICA) and State retirement system (MPSERS) contributions.

Purchased services include contracted caregiver services, bank fees, staff training, contracted grounds keeping and custodial support, and marketing costs. Caregiver service costs are based on step 5 of the current caregiver wage scale plus a 17% markup. Contracted custodial services are based on current provider rates. Supplies and materials include teaching and custodial

supplies, building utilities, and student snacks. Other costs include business licenses and staff membership costs.

The following schedules include consolidated actual and projected revenues and expenditures for the Special revenue Funds. The schedules include the new early learning program implemented at the beginning of the 2018-19 school year as well as the Student/School Activity Fund beginning with 2019-20.

The global pandemic that began in early 2020 necessitated that the District pivot from its normal USDA National School Lunch and Breakfast food service program to a Summer Food Service Program (SFSP). Under the SFSP, every child up to the age of 18 (up to 26 if special needs) is eligible to receive free breakfast and lunch meals. The District began preparing and distributing meals to children from each of its sites in late March, 2020. All ala carte sales were suspended with the State-mandated school shutdown. The suspension of ala carte sales had a negative impact on food service revenue. The District qualified to continue the SFSP through June 2022.

Early Learning Center

The District began operating an early learning center in the fall of 2018. Forecasted revenue levels are based on current actual enrollment with a small increase in tuition rates each year. Projected expenditures include staffing at levels that meet regulatory requirements at each age level.

In response to the global pandemic that began in early 2020, the State of Michigan suspended all child care services except to children of workers considered to be “essential” (health care workers, grocery stores, first responders). The District analyzed and adapted its child care services business model to accommodate the childcare needs of essential workers and applied for special State licensing for its learning center site. It is unknown at this time the full economic impact of the global pandemic early learning center operations. An interfund transfer in an amount equal to excess expenditures is made from the General Fund to maintain a zero fund balance in Early Learning Center Fund. The District anticipates that the fund will be self-sufficient by the 2024-25 fiscal year.

Student/School Activity

Governmental Accounting Standards Board (GASB) statement number 84 established criteria for identifying what is considered a fiduciary activity and provides guidance on reporting these activities. For Rochester Community Schools, the statement changes the recording of student activity accounts, which were previously considered fiduciary activities because the District determined that it maintained administrative control. As a result, the District created a new special revenue fund as outlined by the guidance issued by the Michigan School Accounting Manual in March 2019. The new student/school activity fund requires a board approved budget and follow district purchasing guidelines.

The Student/School Activity Fund generates revenue from fundraisers and staff contributions. Expenditures are made to fulfil a fundraiser purpose, or for initiatives identified by each activity group. Formerly recorded in a fiduciary fund, the cash position of each group is included in the transfer of funds and any excess revenue will be recorded as fund balance in the special revenue fund.

Classification of Fund Balance History

Governmental funds report non-spendable fund balance for amounts that cannot be spent because they are either not in a spendable form or legally or contractually required to be maintained intact. Restricted fund balance is reported when externally imposed constraints are placed on the use of the resources by grantors, contributors, or laws or regulations of other governments. Committed fund balance is reported for amounts that can be used for specific purposes pursuant to constraints imposed by formal action of the Board of education. A formal resolution of the Board is required to establish, modify, or rescind a fund balance commitment.

The District reports assigned fund balance for amounts that are constrained by the District's intent to be used for specific purposes, but are neither restricted nor committed. Unassigned fund balance is the residual classification for the General Fund.

When the District incurs an expenditure for purposes for which various fund balance classifications can be used, it is the District's policy to use restricted fund balance first. Then committed fund balance, assigned fund balance, and finally unassigned fund balance.

Funding of Future Goals and Objectives

The District began implementing a new orchestra program at the middle and high school levels, beginning with the middle schools in the 2018-19 school year. High school classes will be offered beginning with the 2022-23 school year. This program is funded with current general fund operating revenue.

Actual and estimated costs for the orchestra program are illustrated as follows:

	Orchestra Program Implementation Cost Estimate				
	Middle School			High School

Post-employment Benefits

District employees are members of the Michigan Public School Employees' Retirement System (MPERS), a cost-sharing, multiple employer, state-wide, defined benefit public employee retirement plan governed by the State of Michigan (State) originally created under Public Act 136 of 1945, recodified and currently operating under the provisions of Public Act 300 of 1980, as amended. Section 25 of this act establishes the board's authority to promulgate or amend the provisions of the System. The board consists of twelve members - eleven appointed by the Governor and the State Superintendent of Instruction, who serves as an ex-officio member.

The System is administered by the Office of Retirement Services within the Michigan Department of Technology, Management & Budget. The Department Director appoints the Office Director, with whom the general oversight of the System resides. The State Treasurer serves as the investment officer and custodian for the System.

Benefit provisions of the defined benefit pension plan are established by State statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions for the defined benefit (DB)

pension plan. Depending on the plan option selected, member retirement benefits are determined by final average compensation, years of service, and a pension factor ranging from 1.25 percent to 1.50 percent. DB members are eligible to receive a monthly benefit when they meet certain age and service requirements. The System also provides disability and survivor benefits to DB plan members.

A DB member or Pension Plus plan member who leaves Michigan public school employment may request a refund of his or her member contributions to the retirement system account. A refund cancels a former member's rights to future benefits. However, returning members who previously received a refund of their contributions may reinstate their service through repayment of the refund upon satisfaction of certain requirements.

The majority of the members currently participate on a contributory basis, as described above under "Benefits Provided." The Districts are required by Public Act 300 of 1980, as amended, to contribute amounts necessary to finance the coverage of members and retiree Other Post-Employment Benefits (OPEB). Contribution provisions are specified by State statute and may be amended only by action of the State Legislature.

Employer contributions to the System are determined on an actuarial basis using the entry age normal actuarial cost method. Under this method, the actuarial present value of the projected benefits of each individual included in the actuarial valuation is allocated on a level basis over the service of the individual between entry age and assumed exit age. The portion of this cost allocated to the current valuation year is called the normal cost. The remainder is called the actuarial accrued liability. Normal cost is funded on a current basis. The District's portion of the unfunded liability at September 30, 2021 totaled \$235,228,964.

In addition to the state retirement system, the District established an Early Retirement Incentive plan payable for a limited time to a specific group of retiring employees. The liability for this plan totaled \$105,900 at June 30, 2022. Following is a schedule of the early retirement incentive liability:

Year Ended <u>June 30,</u>	Amount <u>Due</u>
2023	\$ 46,820
2024	26,880
2025	16,600.00
2026	14,400.00
2027	1,200.00
Total	<u>\$ 105,900</u>

How Tax Rates Are Calculated

Districts are authorized by the State to levy up to 18 mills on non-homestead property located within their boundaries, which includes apartment buildings, rental homes, vacation property, vacant land, and commercial and industrial property; however, the Headlee amendment of 1978 included a provision that a community's total property tax base should not increase faster than the inflation rate. This legislation rolls back the maximum authorized millage rate for each taxing unit to the extent that the total tax base increases more than the rate of inflation.

Enrollment

Enrollment is important to the financial health of the District because state funding is based on a per-pupil formula. Prior to the onset of the COVID-19 global health pandemic, district enrollment had remained steady with growth of approximately 266 student FTE since the fall of 2013. Due to the COVID-19 pandemic, District enrollment declined by 420 students between the fall of 2019 and the following fall. Since then, District enrollment has remained flat and the District's most recent enrollment projection shows stable enrollment through the fall of 2025.

Enrollment estimates are based on projections obtained from third party forecasters and the District's enrollment office. Third party forecasters use the *Cohort Survival Method* of forecasting enrollment growth. While the forecasting of future events is an uncertain process, school district enrollment forecasting has a stable characteristic that makes it possible to forecast data with reasonable accuracy. The base projection is accomplished by moving the number of students in each grade (students already in school) to the next higher grade each year. This is described as "cohort survival."

Uncertainties in the cohort survival rate include migration and kindergarten enrollment. Migration (the influx or outflow of students) can be the result of changes in the number of households in a district or a different student population within the existing households. Enrollment forecasters typically use a historical average to project migration ratios. A weighted average was used in the District's migration projections to provide a larger weight to the

most recent data. This weighted average calculation has proven to be more reliable where changes occur in the migration over time. When calculated individually for each grade transition, a forecast more sensitive to change is obtained.

Future kindergarten enrollments were developed through a technique of projecting averages and trends from recent kindergarten enrollments. While kindergarten enrollment is commonly forecasted by looking at regional (county-wide) birth numbers five years prior to the enrollment date, substantial errors occur in the enrollment forecasting of districts with large or unstable migration, or where individual schools have significantly different trends. The following table illustrates actual October enrollment counts through September 2021, and projected enrollment through 2025 using the cohort survival method.

The following schedules illustrate the District's actual and projected fall student enrollment:

Personnel Resources

Salaries, payroll taxes and employee benefits comprise approximately 80% of the District's general fund expenditure budget. Certified staff include classroom teachers and other student support professionals such as speech therapists, social workers, psychologists, etc. Paraprofessionals include both general and special education support. Actual and projected personnel resources are as follows:

Full-Time Equivalent (FTE)

Outstanding Bond Issues and Amortization

On November 3, 2015 the qualified electors of the School District approved a proposal authorizing the issuance of bonds in an aggregate amount of not to exceed \$185,000,000 to be issued in one or more series. The bonds in the amount of \$108,725,000 representing the first series of bonds authorized, were issued for the purpose of erecting, furnishing and equipping additions to and partially remodeling, furnishing and refurnishing, equipping and re-equipping school facilities; acquiring, installing, and equipping instructional technology for school facilities; constructing, equipping, developing and improving athletic and physical education facilities, playfields and playgrounds; purchasing school buses; developing and improving sites; and paying the costs of issuing the Bonds.

On November 3, 2015 the qualified electors of the School District approved a proposal authorizing the issuance of bonds in an aggregate amount of not to exceed \$185,000,000 to be issued in one or more series. The bonds in the amount of \$108,725,000 representing the first series of bonds authorized, were issued in 2016. The remaining bonded debt was issued in 2019 for the purpose of erecting, furnishing and equipping additions to and partially remodeling, furnishing and refurnishing, equipping and re-equipping school facilities; acquiring, installing, and equipping instructional technology for school facilities; constructing, equipping, developing and improving athletic and physical education facilities, playfields and playgrounds; purchasing school buses; developing and improving sites; and paying the costs of issuing the Bonds.

The schedules on the following pages detail bonded debt retirement for the 2016 Building and Site bonds which were issued in two series (2016 Series I, and 2019 Series II).

On November 3, 2015 the qualified electors of the School District approved a proposal authorizing the issuance of bonds in an aggregate amount of not to exceed \$185,000,000 to be issued in one or more series. The bonds in the amount of \$108,725,000 representing the first series of bonds authorized, were issued for the purpose of erecting, furnishing and equipping additions to and partially remodeling, furnishing and refurbishing, equipping and re-equipping school facilities; acquiring, installing, and equipping instructional technology for school facilities; constructing, equipping, developing and improving athletic and physical education facilities, playfields and playgrounds; purchasing school buses; developing and improving sites; and paying the costs of issuing the Bonds.

Performance Measures

The District reviews its mission and objectives on an annual basis. The District strives to improve each year as measured by the State of Michigan criteria for public school districts, district performance compared to other districts within the boundaries of Oakland Schools Intermediate School District, and using the District's own performance measures over time.

Graduation, Dropout, and Attendance Rates

The District's four-year graduation and attendance rates remained steady when compared to the prior year, maintaining a stellar rating of more than 96% for both. For reference, the State of Michigan's graduation rate target is 80%. Graduation and attendance rates over the last five years are illustrated as follows:

	<u>2020-21*</u>	<u>2019-20</u>	<u>2018-19</u>	<u>2017-18</u>	<u>2016-17</u>
4 Year Graduation Rate	96.26%	96.75%	96.45%	96.81%	96.00%
Attendance Rate	98.03%	96.11%	95.82%	95.97%	96.51%
Drop Out Rate	0.90%	1.75%	1.74%	1.36%	2.00%

Source: Meal counts based on data collected at the District level, as reported to the Michigan Department of Education

*Note: The Governor of the State of Michigan closed schools on March 16, 2020 in response to the global COVID-19 pandemic. The USDA granted a waiver to the District under the Summer Food Service Program grant which

qualified the District to be reimbursed for meals prepared and distributed to children free of charge. All meals distributed after March 16, 2020 were provided through the USDA Summer Food Service Program grant.

Educator Effectiveness

Educator Evaluations are based on State law. The component is comprised of two sections that are related to data reporting requirements for schools and districts: Effectiveness Labels and Teacher Student Data Link (TSDL) completion. All of Michigan's public educators are evaluated using measures of student growth. State law requires that all educators have a reported effectiveness label; therefore, the Scorecard target for the reporting of Effectiveness Labels is 100%.

In order to tie student growth on state assessments to specific educators, students must be linked to courses and teachers through the TSDL. The TSDL is a data collection submitted to Center for Educational Performance and Information (CEPI) by schools and districts on an annual basis. The TSDL completion rate target is 95.00%. This means that at least 95.00% of a school or district's enrolled students are included in the TSDL collection.

Student Achievement

Michigan Educational Assessment and Accountability Grades K-12 State assessments measure student progress with content standards and career/college readiness goals. In grades 3-7, students are given the on-line Michigan Student Test of Educational Progress (M-STEP) test, to measure knowledge of state standards in English language arts (ELA) and mathematics. Science and social studies student knowledge is measured by the M-STEP in grades 5 and 8.

Students in grades 9 and 10 take the Preliminary Student Aptitude Test (PSAT) to measure student knowledge of ELA and mathematics, and to help prepare students for the Student Aptitude Test (SAT) college entrance exam. Every high school junior is given the SAT as part of the mandated Michigan Merit Examination (MME). The MME includes an SAT with essay to measure students' ELA and mathematic knowledge on state standards, and includes M-STEP science and social studies components as well as a work skills assessment (ACT Work Keys).

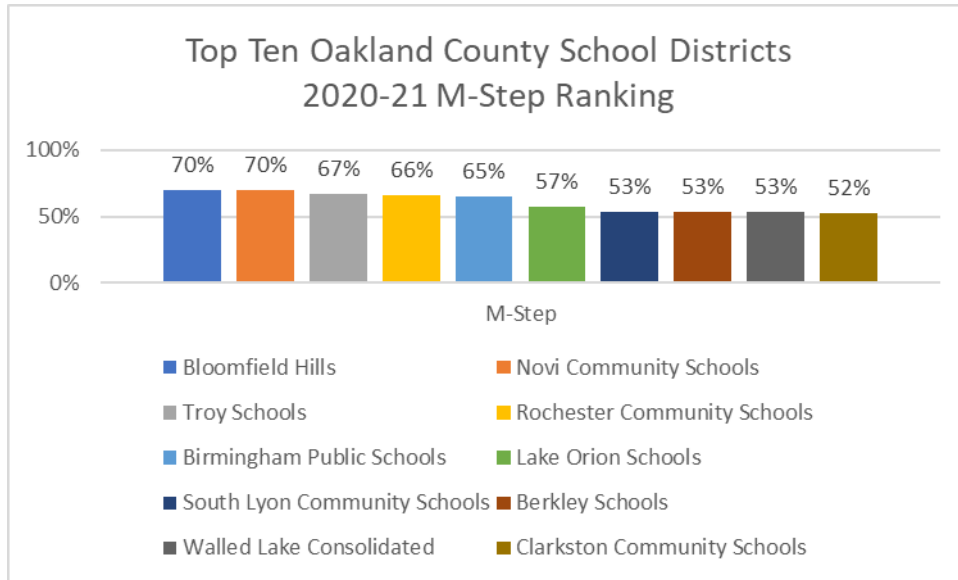

Data shows that Rochester Community Schools' students consistently score higher on the M-STEP assessments than both the county and state averages. Additionally, Rochester students often score higher than peer districts and rank in the top three schools on the PSAT and SAT.

Comparison of District Results to Other Oakland County Districts

State assessments were not administered to students during the 2019-20 school year. In 2020-21, the state of Michigan required districts to offer students the opportunity to take the state assessments; however, remote-only students were not required to participate. As a result, 32% fewer Oakland County students participated compared to the 2018-19 school year. The proportion of students participating in 2020-21 was **not** evenly distributed across districts, buildings, report categories, or grade levels. In

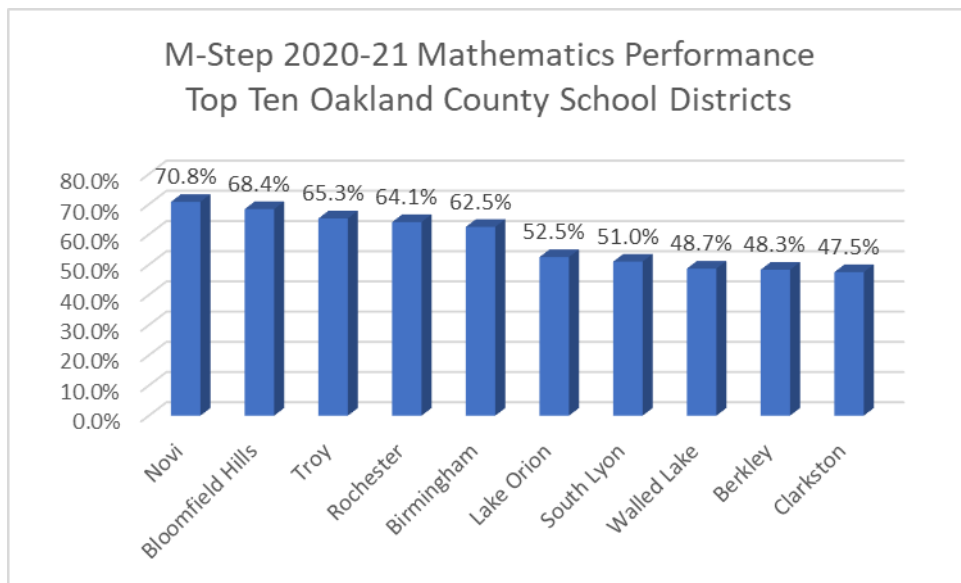

2020-21, the District was the 4th highest achieving district out of 27 districts in Oakland County on M-Step performance, while ranking 21st in revenue per student.

The following chart illustrates the M-Step Ranking and Revenues per student for Oakland County school districts:

Source: MDE 2020-21 Bulletin 1014

The District ranked fifth in overall M-Step English Language Arts performance, and fourth in overall M-Step Mathematics performance as illustrated below:

The District ranked third out of 27 districts in PSAT ELA Performance, and fourth in PSAT Mathematics Performance as illustrated below:

Oakland Schools advises against the comparison or ranking of individual district state assessment performance. Specific factors outside of a district’s control such as, but not limited to, student population, community and family resources, district finances, school funding, and other factors can affect the services a district is able to provide and the level of support students receive in and outside of school.

Michigan Public Act 306 (Read by Third Grade Law) was enacted in 2016. Simply stated, the law requires that in the spring of 2020, 3rd grade children not proficient on the state reading assessment should be retained.

Rochester’s i-Ready Benchmark & Diagnostic Assessments enable the district to conduct a deeper diagnostic with sub scores to achieve school improvement goals through a multi-tiered system of support to meet Michigan’s Read by Third Grade law. The district began the benchmark and diagnostic assessments process 2014 with students in kindergarten through second grade for the 2014-15 school year. In 2017, that process expanded to all students in grades kindergarten through fifth grade for the 2017-18 school year. Finally, in 2020 the process was expanded to all students in grades kindergarten through eighth grades. Three testing windows are conducted per year at the Elementary grade levels; 2 testing windows are conducted at the middle school level. Testing includes a K-5 math instruction individualized intervention on-line component and reading and math licenses were available to all K-5 students during the COVID-19 health pandemic. Assessments are aligned to state standards in English language arts and mathematics.

The district administers i-READY Benchmark assessments to students within the first 30 days of school, along with a diagnostic assessment (Fountas and Pinnell running record). Within 30 days of the assessment, using assessment data, the district creates an Individualized Reading Improvement Plan (IRIP) for each student. The IRIP describes the reading intervention services to be provided and include an at-home reading plan.

The following chart illustrate District fall 2021 and spring 2022 comparison diagnostic results:

The i-Ready placements are an indication of the material students are expected to know at each grade level. The mid on-grade placement refers to students who may be considered proficient for their grade. Diagnostic results show a high level of student growth and achievement at every level, regardless of the COVID-19 challenges to the learning environment. This is a longitudinal analysis.

The District is committed to establishing and maintaining fidelity of K-12 curriculum and strengthening the pedagogy and best practices in ELA and Math instruction.

Glossary of Terms

Accounting System – The total structure of records and procedures which discover, record, classify, and report information on the financial position of a school district or any of its funds, balanced account groups and organizational components.

Accrual Basis – The basis of accounting under which revenues are recorded in the accounting period in which they are earned and become measurable and expenses are recorded in the period incurred, if measurable, notwithstanding that the receipt of the revenue or the payment of the expense may take place, in whole or in part, in another accounting period.

Accrued Expenses – Expenses incurred during the current accounting period but which are not paid until a subsequent accounting period.

Accrued Revenue - Revenue measurable and available or earned during the current accounting period but which is not collected until a subsequent accounting period.

Allocation – An amount (usually money or staff) designated for a specific purpose or program.

Appropriation – An authorization granted by a legislative body to make expenditures and to incur obligations for specific purposes. An appropriation usually is limited in amount and time it may be expended.

Assessed Valuation – An estimate of the dollar value of property within a political division upon which taxes may be assessed.

Assigned Fund Balance – Balances that are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. Examples are amounts designated for the cost of compliance with ADA requirements, insurance deductibles, contingencies for the outcomes of lawsuits, and others.

Asset – A probable future economic benefit obtained or controlled by a particular entity as a result of past transactions or events.

Basic Programs – The programs that currently make up the total basic programs are: Regular K-12 and preschool programs.

Bond – A written promise to pay a specified sum of money, called the face value, at a fixed time in the future, called the maturity date, together with periodic interest at a specified rate.

Budget – A plan of financial operation consisting of an estimate of proposed expenditures for a given period and the proposed means to finance them.

Business Services – Activities concerned with purchasing, paying, transporting, exchanging and maintaining goods and services for the school district. This includes activities concerned with the fiscal operations of the school system including budgeting, receiving and disbursing, financial accounting, payroll, purchasing, inventory control and internal auditing. Also included are activities with storing and distributing supplies, furniture and equipment.

Central Services – The function classification assigned to those activities, other than district administration, that support the other instructional and supporting service programs. These activities include personnel services, information services and public information services.

Certified Tax Rate – The property tax rate that will provide the same tax revenue for the school district as was received the prior year, excluding growth. Law will set the certified tax rate for the minimum school program. Therefore, increases in the basic levy do not cause a school district to exceed its certified tax rate.

Committed Fund Balance – The portion of fund balance that includes amounts that can be used only for specific purposes determined by formal action of the Board. Early retirement incentive payments could be classified as committed fund balance.

Debt – An obligation resulting from the borrowing of money or from the purchase of goods and services. Debts of local education agencies include bonds, warrants and notes, etc.

Deferred Revenues – Amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable but not available.

Depreciation – Expiration in the service life of fixed assets, other than wasting assets, attributable to wear and tear, deterioration, action of the physical elements, inadequacy, and obsolescence. Depreciation is appropriate for funds accounted for on the accrual basis.

Designated Fund Balance – A portion of fund balance that is set aside for a specific purpose to be used in future years.

District Administration – The function classification assigned to those activities concerned with establishing and administering policy in connection with operating the District. These include the Board of Education, superintendent, auditor services, legal services, team leaders, and their necessary secretarial support.

Encumbrances – Obligations in the form of purchase orders, contracts, or salary commitments, that are chargeable to an appropriation and for which a part of the appropriation is reserved. They cease to be encumbrances when paid or when the actual liability is set up. They represent commitments related to unperformed contracts for goods or services.

Expendable Trust Funds – Funds established to account for and provide stewardship over expendable assets held in trust by the government.

Fair Market Value – The amount at which property would change hands between a willing buyer and a willing seller, neither under any compulsion to buy or sell and both having a reasonable knowledge of the relevant facts, and includes the adjustment for any intangible values. For purposes of taxation, “fair market value” shall be determined using the current zoning laws affecting that property in the tax year in question and the change would have an appreciable influence upon the value.

Fiduciary Funds – Funds established to hold or manage financial resources in an agent or fiduciary capacity.

Fiscal Year – A 12 month period to which the annual operating budget applies and at the end of which a government determines its financial position and the results of its operations. Grand Blanc Community Schools' fiscal year begins on July 1 and ends on June 30.

Fixed Assets – Land, buildings, machinery, furniture, and other equipment which the school system intends to continue to use or possess, and does not indicate immobility of an asset.

FTE (Full Time Equivalent) – An employee that is hired to fill a normal contract day is equivalent to FTE, i.e., a classroom teacher that teaches a full day for the full school year equals 1 FTE.

Function – A group of related activities aimed at accomplishing a major service or regulator program for which a government is responsible. The activities of the District are classified into broad areas or functions as follows: instruction, support services and non-instructional services.

Fund – A fiscal and accounting entity with a self-balancing set of accounts that comprise its assets, liabilities, fund, balance, revenue and expenditures.

Fund Balance – The difference between fund assets and fund liabilities of governmental and similar trust funds.

GAAP (Generally Accepted Accounting Principles) – Uniform minimum standards and guidelines for financial accounting and reporting. They govern the form and content of the financial statements of an entity.

GASB (Governmental Accounting Standards Board) – The authoritative accounting and financial reporting standard-setting body for government entities.

Governmental Fund Types – Funds used to account for the acquisition, use and balances of expendable financial resources and the related current liabilities – except those that are accounted for in proprietary funds and fiduciary funds. In essence, these funds are accounting segregation of financial resources. The maintenance and operation fund, special revenue funds and capital outlay fund are classified as Governmental Fund Types.

Indirect Costs – Those elements of costs necessary in the production of a good or service which are not directly traceable to the product or service.

Instruction – The function assigned to activities dealing directly with the interaction between teachers and students. Teaching may be provided for pupils in a school classroom, in another location such as a home or hospital, and in other learning situations such as those involving other medium such as television, radio, telephone, and correspondence. Included here are the activities of aides or assistants of any type, (clerk, graders, teaching machines, etc.) which assist in the instructional process.

Ilovetom996^%

Inventory – A detailed list or record showing quantities, descriptions and values. Frequently the units of measure and unit prices of property on hand at a given time, and the cost of supplies and equipment on hand not yet distributed to requisitioning units are also listed.

Liabilities – Probable future sacrifices of economic benefits, arising from present obligations of a particular entity to transfer assets or provide services to other entities in the future as a result of past transactions or events.

Location – Group activities and operations that take place at a specific site or area, such as an elementary school.

Modified Accrual Basis – The basis of accounting under which revenues are recorded in the accounting period in which they become available and measurable and expenditures are recorded in the accounting period in which the liability is incurred, if measurable, notwithstanding that the receipt of the revenue or the payment, of the expenditure may take place, in whole or in part, in another accounting period. The modified accrual basis of accounting is appropriate for governmental funds and expendable trust funds.

Non-Instructional Services – The function assigned to activities concerned with providing non-instructional service to students, staff or the community including community and adult education.

Non-spendable Fund Balance – A fund balance category for amounts that are considered non-spendable, such as fund balance associated with inventories.

Object – The accounting classification assigned to transactions that applies to the article itself (item purchased, the service obtained, the revenue collected, etc.) rather than to the purpose for which the article or service was purchased or collected.

Operation of Plant – The function classification assigned to those activities concerned with keeping the physical plant open, comfortable, and safe for use, and keeping the grounds, buildings, and equipment in an effective working condition and state of repair. These activities include maintenance,

custodians, utilities, grounds, equipment and vehicle services and property insurance.

Program – Group activities, operations, or organizational units directed to attaining specific purposes or objectives.

Property – Any property which is subject to assessment and taxation according to its value, but does not include moneys, credits, bonds, stocks, representative property, franchises, goodwill, copyrights, patents, or other intangibles.

Residential Property – Any property used for residential purposes as a primary residence. It does not include property used for transient residential use or condominiums used in rental pools.

Restricted Assets – Monies or other resources, the use of which is restricted by legal or contractual requirements.

Restricted Fund Balance – A portion of fund balance that includes amounts that can be spent only for specific purposes stipulated by constitution, external resource providers, or through legislation. Debt retirement on installment loans is an example of this.

Revenues – Increases in the net current assets of a governmental fund type from other than expenditure refunds, residual equity transfers, general long-term debt proceeds and operating transfers in.

School Lunch Fund – The special revenue fund used by the District to account for the food service activities of the District as required by state and federal law.

School Administration – The function classification assigned to those activities concerned with overall administrative responsibility for a single school or a group of schools. These include principals, assistant principals, and secretarial help.

Self-Insured – A term often used to describe the retention of an entity of a risk of loss arising out of ownership or from some other cause, instead of transferring that risk to an independent third party through the purchase of an insurance policy.

Staff Support Services – The function classification assigned to those activities associated with assisting the instructional staff with the content and process of providing learning experiences for pupils. These activities include in-service, curriculum development, libraries and media centers.

Special Revenue Fund – A fund used to account for the proceeds of specific revenue sources (other than expendable trusts of major capital projects) that are legally restricted to expenditures for specified purposes.

Student Support Services – The function classification assigned to those activities which are designed to assess and improve the well-being of students and to supplement the teaching process. These include guidance counselors, attendance personnel, psychologists, social workers, health service workers, and the attendant officer personnel who assist with the delivery of these services.

Student Transportation – The function classification assigned to those activities concerned with the conveyance of students to and from school, as provided by State law. These include the transportation director, route and transportation coordinators, the attendant secretarial help, bus drivers, bus maintenance and other bus operations.

Support Services - The function classification assigned to those services, which provide administrative, technical, personal and logistical support to facilitate and enhance instruction. Subcategories of support services include business services, central services, district administration, staff support, and operation of plant, school administration, student support, and student transportation.

Tax Rate – A rate of levy on each dollar of taxable value of taxable property except fee-in-lieu properties.

Taxable Value – The fair market value less any applicable reduction allowed for residential property.

Taxes – Compulsory charges levied by a governmental unit to finance services performed for the common benefit.

Truth-in-Taxation – The section of the law that governs the adoption of property tax rates. A stipulation of the law requires an entity to advertise and hold a hearing if it intends to exceed the certified tax rate.

Unassigned Fund Balance - The portion of fund balance that includes all spendable amounts not contained in other classifications.
