Student Name

Signed: _____
Student

Signed: _____
Parent or Guardian

Date: _____

~~~~~

### ***Financial Need Release:***

The Guidance Office is able to share fee waivers for standardized testing and college applications as well as need-based scholarships with families based on financial need. Due to the personal nature of this information, familiar financial information is not always known to the guidance office; therefore we may not be aware of our students who qualify for this support.

The majority of families who qualify for this level of support take part in the [National School Lunch Program](#). If you are a family in need, please visit this program online to apply as you could qualify for free and reduced school lunches.

We are asking parents/guardians who would like to be considered for fee waivers and need-based scholarships to either check below and your child's counselor will follow up with a phone call or reach out directly to your child's counselor for more information.

\_\_\_\_\_ Yes, please contact me directly
