TEAL Academy Program of Study

Intro to Teaching: This course is designed to focus on the profession of teaching and related careers – history, purposes, issues, ethics, laws and regulations, roles, and qualifications.

Human Growth & Development: This course prepares students to understand the nature of human development from conception through adolescence and the connection of the students' development and plans for working with students.

Curriculum & Instruction: This course is designed for students to develop the knowledge and skills of curriculum delivery models in response to the developmental needs of all children.

Principles of Teaching Internship: The course is designed for students to apply their knowledge in real world education settings. Students must complete an internship in an approved setting based on students' area of interests.

All students in TEAL Academy intern with our VPK (Shark Pups) on campus.
