

Courses offered are:

Agriscience 18001G0710
PreAgriscience 18001G0810
Fundamentals of Agriscience 18003G1001

Mr. Brian Heck
Lynn High School
531 E Main Street, Lynn, AL 35553
205-893-5471

The Program Goals of Agriscience Education at WCHS is to:

1. Provide education in and about agriculture from the perspective of science and technology
2. Prepare students for employment in an agriculture career
3. Prepare students for entry into postsecondary programs in Agriscience fields
4. Provide education about the role of Agriscience in the conservation of the Earth's natural resources
5. Develop life and employability skills essential for successful employment
6. To develop skills needed to fulfill occupational skills, social, and civic responsibilities

The Lynn High School FFA chapter will also take field trips and attend the state FFA convention, along with the national convention, held in Indiana, each Fall. To be eligible to join, you must be enrolled in Agriscience Education and pay the \$20 class fee.

MR. HECK'S AG DEPARTMENT

Students receive a hands-on approach to learning. They are able to use power equipment in woodshop, welders, cnc plasma cam, and cnc router.

There is a class for all student interests.

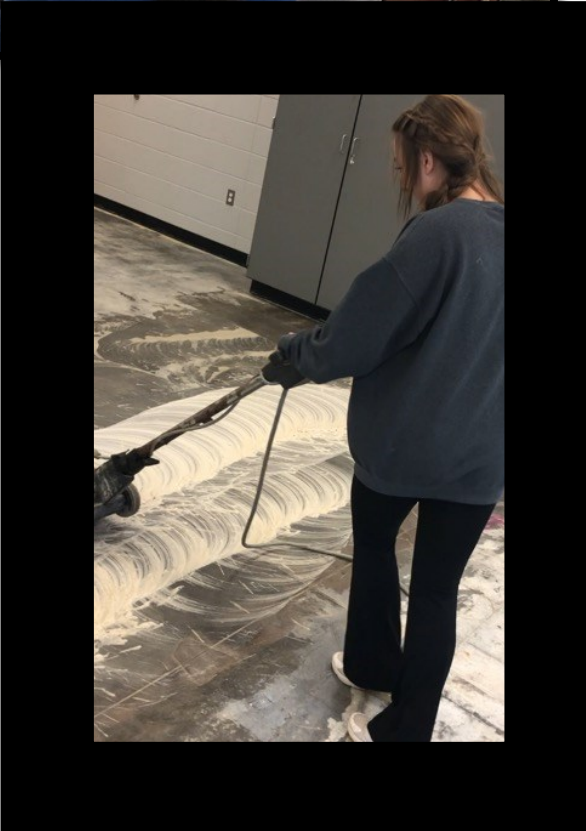

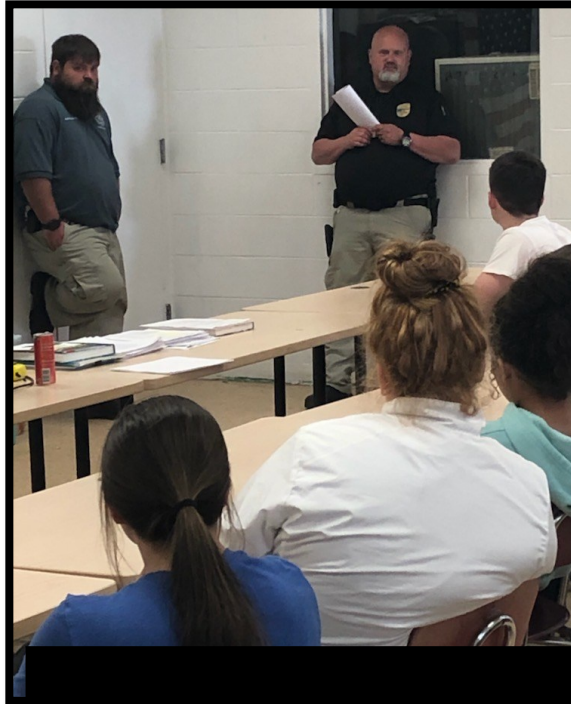

Learning to do
Doing to learn
Earning to live
Living to serve

Lynn High School Agriscience Department

Agriculture is the largest employment sector in America and the basis for everyday life. There are many different job opportunities in today's market. Ranging from welding, building construction, landscaping, forestry, floriculture, plumbing, electrical, aquaculture, cattle farming, gardening, and the green industry. It is the goal of Lynn Ag Department to give each student as many tools as possible to gain the much needed employability skills that are required for entrance level positions.

Future Farmers of America is an integral part of the program of Agriscience Education at Lynn. Every student is encouraged to join each year, and there is a place for everyone. Students will be able to practice their skills learned in class by competing in many Career Development events such as Floriculture, Nursery Landscape, Forestry, Soil Science, Ag Mechanics, Small engines, and Live-stock. In addition, FFA officers will be selected to represent our chapter across the state and nation, developing skills helping confidence and employability.

FFA Mission

FFA makes a positive difference in the lives of students by developing their potential for premier leadership, personal growth and career success through agricultural education.

The Winston County Board of Education does not discriminate on the basis of race, color, national origin, sex, disability, or age in its programs and activities and provides equal access to the Boy Scouts and other designated youth groups.

The following person has been designated to handle inquiries regarding the non-discrimination policies:
