15. and vocational education

The Curriculum development and-revision process will be conducted by the certified staff having the responsibility to recommend, develop, review, and approve all curriculum for the District and said curriculum shall be subject to the approval of the Board of Education. Curriculum development and revision shall be guided by such factors as the following:

1. Actual studies, needs assessments, state and district student achievement results and information concerning the needs of students in the school district.
2. The range of abilities, aptitudes and interests of the students.
3. Aspirations of residents of the school district for the students.
4. The mobility of the population, making it necessary to provide education for the students useful anywhere in the world.

5. Avoidance of discrimination.
6. Reduction of duplication of effort and repetitive curricula among various school levels and coordination of courses of study and syllabi.
7. Provisions of negotiated agreements.

The Board of Education reserves the responsibility for establishing and approving curricula for the school district. Teachers shall teach within the approved curricula and programs.

The Board of Education in establishing and approving curricula for the school district will give due consideration to the possible adoption and use of the model curriculum for grades K-8 developed by the Connecticut State Department of Education in collaboration with the State Education Resource Center (SERC) upon its availability. Such consideration shall be based upon the recommendation of the administration responsible for the related content area.
