Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of Alum Rock Union Elementary School District, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise Alum Rock Union Elementary School District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the aggregate remaining fund information of Alum Rock Union Elementary School District, as of June 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards (Government Auditing Standards)*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Alum Rock Union Elementary School District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 1 to the financial statements, the District implemented Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*. As a result of this implementation, there was no impact to the beginning governmental activities net position or fund balance. Our opinions are not modified with respect to this matter.

(Continued)

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Alum Rock Union Elementary School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Alum Rock Union Elementary School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Alum Rock Union Elementary School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 4 to 14 and the General Fund Budgetary Comparison Schedule, the Schedule of the District's Proportionate Share of the Net Pension Liability, and the Schedule of the District's Contributions on pages 48 to 52 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the basic financial statements that collectively comprise the Alum Rock Union Elementary School District's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and other supplementary information listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and, except for that portion marked "unaudited," was derived from, and relates directly to, the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, that information is fairly stated in all material respects in relation to the basic financial statements as a whole. The information marked "unaudited" has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 14, 2022 on our consideration of Alum Rock Union Elementary School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Alum Rock Union Elementary School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Alum Rock Union Elementary School District's internal control over financial reporting and compliance.

This Management's Discussion and Analysis section of Alum Rock Union Elementary School District's 2021-22 annual financial report presents management's view of the District's financial performance during the fiscal year that ended on June 30, 2022. Please read it in conjunction with the District's financial statements, which immediately follows this section.

DISTRICT PROFILE

The District was organized in 1930 under the laws of the State of California. The district is currently operating thirteen elementary TK-5, one TK-7, two TK-8, five middle schools, and one TK-8 locally funded charter school, serving a student population of about eight thousand students. The District occupies eleven square miles in the eastern part of the City of San Jose. It operates under a locally elected five-member board form of government. The financials are a reflection of how the Board of Trustees prioritizes the use of the dollars that are received for education. As policy makers, the Trustees have translated educational dollars into educational programs that will serve to enhance the learning opportunities for the children of the Alum Rock Union Elementary School District. In December of 2019, a novel strain of coronavirus (COVID -19) surfaced and spread around the world, with resulting business and social interruption.

On March 13, 2020, California Governor Gavin Newsom issued Executive Order N-26-20, proclaiming a State of Emergency to exist in California as a result of the threat of the COVID-19 virus, and providing that if any California school districts, county offices of education, and charter schools (each a "Local Educational Agency" or "LEA") close its schools to address COVID-19, the LEA will continue to receive state funding during the period of closure. In response to the pandemic and in compliance with various state and local ordinances, the District closed schools effective Monday, March 16, 2020, with school scheduled to resume April 6, 2020. On March 14, 2020, the Superintendent organized a group of administrators to plan and address distance learning, services, and resources to the District's most vulnerable students and families, meal services, sanitation, and staff safety.

On March 17, 2020, the District announced that beginning March 18, 2020, through April 3, 2020, all of the District's school sites and offices would close with minimal site staff, and on March 19, 2020; the Governor issued Executive Order N-33-20, a State-wide stay at home order to protect the health and well-being of all Californians and to establish consistency across the State to slow the spread of COVID-19. Such order went into effect immediately.

On June 25, 2020, staff shared a presentation titled "2020-2021 School Year Opening School Scenarios" with the Board of Education. The scenarios included several return to school options that took into consideration current state and county health recommendations to develop safe and viable instructional models. Scenarios were developed in collaboration with teams comprised of district and staff administrators, elementary and middle school teachers, and support staff, along with parent and community voice. Through this process staff was able to take into account health and safety guidelines, financial considerations, and instructional implications to develop equitable learning models to support the diverse needs of students and teachers. Scenarios included distance learning models, hybrid instructional models that incorporated a blend of in-person and distance learning, along with a blend of synchronous and asynchronous instruction.

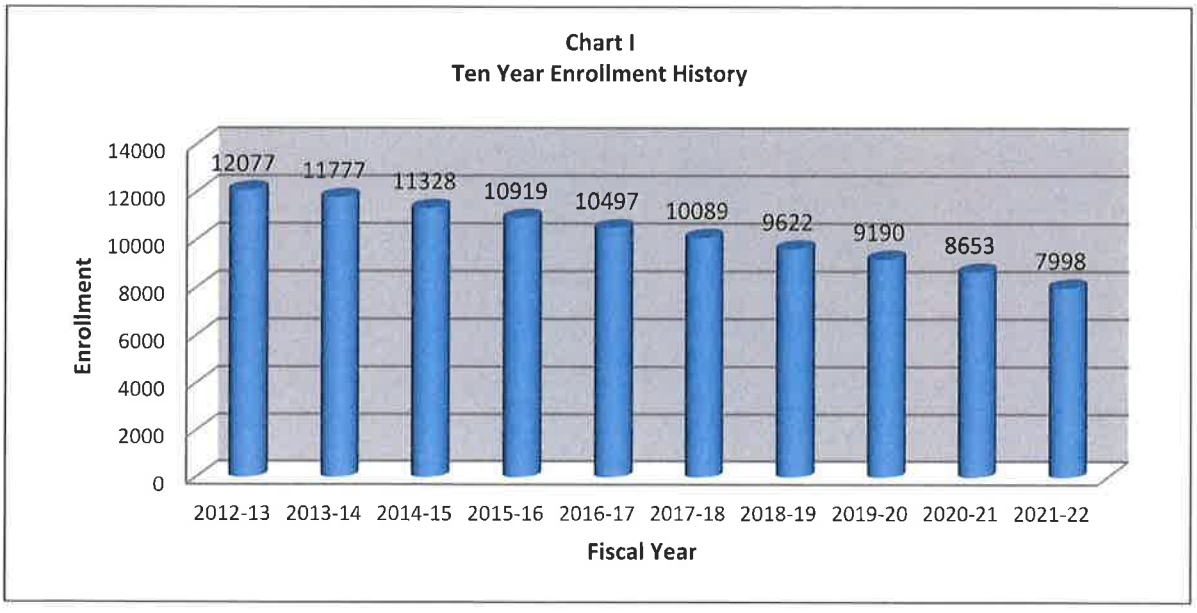

For the 2021-22 school year, we returned to full in person instruction. We implemented COVID safety protocols in order to provide a safe educational environment for teachers, students and staff. Rooms were equipped with masks, sanitizer and partitions. With support from our partners, targeted school day supports were in place. We continued to provide virtual meetings following health guidelines. In-person instruction

allowed students to begin to get accustomed to being back in person, learning with their peers and having collaborations. Teachers continued to provide SEL lessons and class meetings on a daily basis in order to support students' transition back to in person instruction as well as addressing some trauma and social emotional stresses they were facing.

In order to support their learning, we continued to provide devices, Wi-Fi access and support online platforms for students to be able to use in class and at home. The ELO-P and ELO-G funds allowed sites to have homework centers, interventions and enrichment programs after school. We hired additional counselors to support our elementary schools and brought in trauma informed training for staff. To support our young students with foundational skills, all TK- grade 2 students had access to the Imagine Learning platform to use in class and at home. Providing enrichment and expanded learning opportunities was important. We provided intersessions programs during spring break, summer programs as well as enrichment after school.

During the 2021-2022 school year we also provided independent study option to our families. We had virtual classes grades K-Grade 8. We served approximately 200 students throughout the year. Students attended a zoom class in the morning with a focus on SEL and core standards. Students independently worked on a standards aligned platform (Edgenuity) in all subject areas. Teachers connected with students during the day, gave feedback on work and pulled small groups for support.

In addition to the coronavirus pandemic, the District has been experiencing declining enrollment since prior to 2000. This decline has resulted in a loss of average daily attendance (ADA), which translates into a loss in revenue. Since approximately 75% of district's revenue is based on ADA and Local Control Funding Formula (LCFF), it is essential that the District monitor its ADA. Chart 1 below provides the District's ten-year enrollment comparison, per California Basic Educational Data System (CBEDS).

FINANCIAL HIGHLIGHTS

The financial highlights section will focus on the "governmental funds" presentation of the Audited Financial Statements and, more specifically, on the general fund of the District. The District-wide Financial Statements provide financial information on the District as a whole, but we believe the critical financial aspects of the District's operations are best presented in the governmental funds section.

COVID-19, ADA and Funding

Due to stabilize, school funding that Governor's budget package provided in 2020-21 for a hold-harmless clause for calculating LCFF in 2020-21, there was no ADA reported in 2020-21. This allowed 2020–21 funding to be based on 2019–20 ADA rather than 2020–21 ADA which was expected to decline as a result of COVID-19. This decision had a trickledown effect for 2021-22 since funding for LCFF is based on the greater of current year or prior year. Since there was no ADA count for 2020-21, the 2019-20 ADA was used in calculating the 2021-22 LCFF funding. In addition, the District received additional Federal & State funds related to COVID – 19.

School District Local Control Funding Formula (LCFF)

The 2013-14 State's adopted budget entails the most dramatic change in school financing since the implementation of Senate Bill (SB) 90 and the implementation of revenue limits in 1972. After considerable negotiations between the Legislature and Governor Brown, state policy makers enacted the Local Control Funding Formula (LCFF) to replace revenue limits and most categorical programs, commencing 2013-14.

LCFF is designed to improve student outcomes by giving local flexibility to meet student needs, transparency, equity through student focus formula, and performance through aligned programs and budget plans. LCFF creates the opportunity to implement a performance based budget instead of a compliance based budget. It was estimated to take eight years to fully implement starting in fiscal year 2013-14. However, the State fully implemented LCFF during the fiscal year ended June 30, 2019.

The District receives the majority of its funding from LCFF. The District's LCFF is a direct function of the District's ADA. The actual funding of the LCFF comes from a combination of local property taxes, Education Protection Account (EPA), and state aid. Chart 2 provides a breakout of the sources of revenue for the District.

Chart 2
2021-22 Combined General Fund Revenue Sources

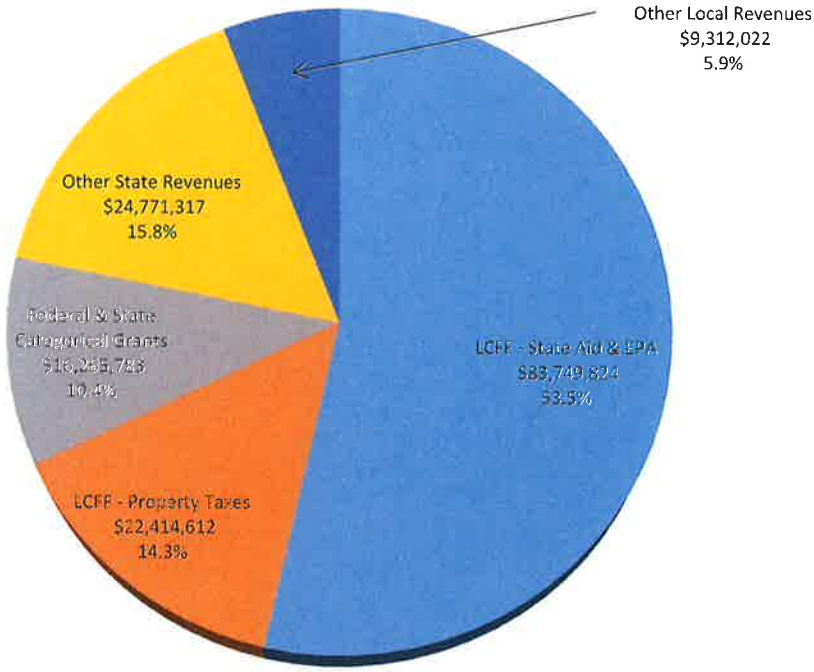

Table 1
General Fund Revenues and Expenditures
(in thousands of dollars except for ADA amount)

	June 30, 2022	June 30, 2021	Increases (Decreases)
Beginning Fund Balance	$ 28,891	$ 14,710	$ 14,181
Total Revenues and Other Sources	$ 153,686	149,486	4,200
Total Expenditures and Other Uses	$ (141,409)	$ (135,305)	(6,104)
Ending Fund Balance	$ 41,168	$ 28,891	$ 12,277
Ending Available Reserves (Unappropriated)	$ 22,003	$ 21,310	$ 693
Funded LCFF ADA - ARUESD	$8,433.61	8,898.99	(465)
Funded LCFF ADA - Aptitud	$400.23	398.28	2

Revenues and Expenditures

Total revenues increased by approximately $4 million. Funded ADA decreased by a net of 463 ADA. Although there was a loss of revenue due to a drop in ADA, there was a COLA increase of 5.07% in LCFF. In addition, there was an increase in State revenues due to State grants and an increase in lottery. There was also a slight increase in STRS on behalf from 2020-21 to 2021-22.

The increase of expenditures in the amount of $5.8 million is a result of several factors. One of the main factors was that negotiations were settled for the 2021-22 school year for all bargaining units. Settlements included a 3.25% increase to all salary schedules and a one-time payment of 3% to all bargaining units. It also included an increase to teacher substitute pay and extra duty pay. There was also a slight increase in STRS on Behalf from 2020-21 to 2021-22.

Available Reserves

It is important to note that the Unrestricted General Fund accounts for all of the District's instructional and operational activities, plus contributions to the restricted programs when costs of the mandated activities exceed resources. In addition, the required 3% reserve for economic uncertainties comes from unrestricted fund balance.

The unrestricted portion of the District's general fund balance is referred to as the District's available reserves. The unrestricted balance on June 30, 2022, was $26,232,229, which includes the required 3% economic uncertainties reserve of $4,228,572.

General Fund Budgetary Highlights

The District's 2021-22 adopted budget projected an ending balance, unrestricted and restricted of $18,801,243. The actual ending balance at year-end was $41,167,683, of which $459,514 was non-spendable items, and $14,455,940 was restricted – a positive variance overall from the adopted budget projection. The favorable expenditure variance results from vacant positions unable to fill, unexpended restricted program funds reflected in the legally restricted ending balance not accounted for in the final adopted budget, additional Federal and State funds and an increase in LCFF of 5.07%.

CAPITAL ASSET & DEBT ADMINISTRATION

Capital Assets

At June 30, 2022, the District had $99,951,794 in a broad range of capital assets, including land, buildings, and furniture and equipment, net of accumulated depreciation. See Table 2 below. This amount represents a net decrease (including additions, deductions and depreciation) of $4,498,948 from 2020-21. The District's school sites have relatively low values when compared to today's market because the District acquired the land many decades ago. School buildings and site improvements are valued at their historical construction cost less accumulated depreciation.

Table 2	2022	2021
Land	$ 2,408,678	$ 2,408,678
Construction in Progress	$ 3,080,540	$ 2,877,722
Land Improvements	$ 10,166,687	$ 10,551,772

Governmental Act. Cap. Asset, Net of depreciation	**$ 99,951,794**	**$ 104,450,742**

Long Term Liabilities

At year-end, the District had $173,462,578 of outstanding long-term liabilities. The long-term obligations of the District include the following:

State limits the amount of general obligation debt (bonding capacity) that districts can issue to 1.25% of the assessed value of all taxable property within the district's boundaries for a union school district and 2.50% for a unified school district.

Other obligations include Certificates of Participation. The District does not have other post-employment benefits (OPEB) plan. More detailed information regarding the District's long-term liabilities are presented in Note 6 of the audited financial statements, which follow this section.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts – management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *district-wide financial statements* that provide both *short-term* and *long-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District's operations in *more detail* than the district-wide statements.
- *Governmental funds* statements tell how basic services like regular and special education were financed in the short-term as well as what remains for future spending.
- *Proprietary funds* statements account for any activity for which services are provided to other funds on a cost-reimbursement basis.

The financial statements also include notes explaining some of the statements' information and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's general fund budget, both the adopted and final version, with year-end actuals.

Government-Wide Statements

The Government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources. Current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two district-wide statements report the District's net position and how they have changed. Net position – the difference between the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources – is one way to measure the District's financial health or position.

Over time, increases or decreases in the District's net position can be an indicator of whether its financial position is improving or deteriorating, respectively. To assess the District's overall health, one needs to consider additional factors such as the economy of the State, the State's fiscal health, the local economy, and the condition of the property and equipment of the District.

The following table summarizes the District's net position as of June 30, 2022 and 2021.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by State law and by bond covenants. The District establishes other funds to control and manage money for particular purposes (like repaying its long-term debt) or to show that it is appropriately using certain revenues (like federal grants).

The District has two kinds of funds:

Governmental funds. Most of the District's basic services are included in governmental funds, generally focus on (1) how cash and other financial assets which can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps one determine whether more or fewer financial resources can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, we provide reconciliations between the governmental funds statements and the district-wide financial statements that explain the relationships (or differences) between them.

Proprietary funds. When the District charges users for the services it provides, whether to outside customers or other departments within the District, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way activities are reported in the Statement of Net Position and the Statement of Change in Net Position.

We use internal service funds to report activities that provide supplies and services for the District's other program and activities, such as the District's Self-Insurance Fund. The internal service fund is reported with government activities in the government-wide financial statements.

General Fund Activities

Charts 3 and 4 provide a breakdown of the 2021-22 General Fund expenditures by Object Code and Function Code, respectively. As is common with virtually all school districts, the majority of expenditures in the General Fund are used for salaries and benefits (approximately 80.9%). From a functional cost standpoint, Chart 4 shows that approximately 62% of total general fund expenditures go for instruction related activities. Pursuant to Education Code 41372, elementary school districts must spend at least 60% of its current expense of education for the payment of salaries of classroom teachers. However, this calculation excludes Federal, State, Categorical and other resources, such as Lottery, from the calculation. As such, it reduces classroom compensation to 60.43%. This is .43% above the required 60%.

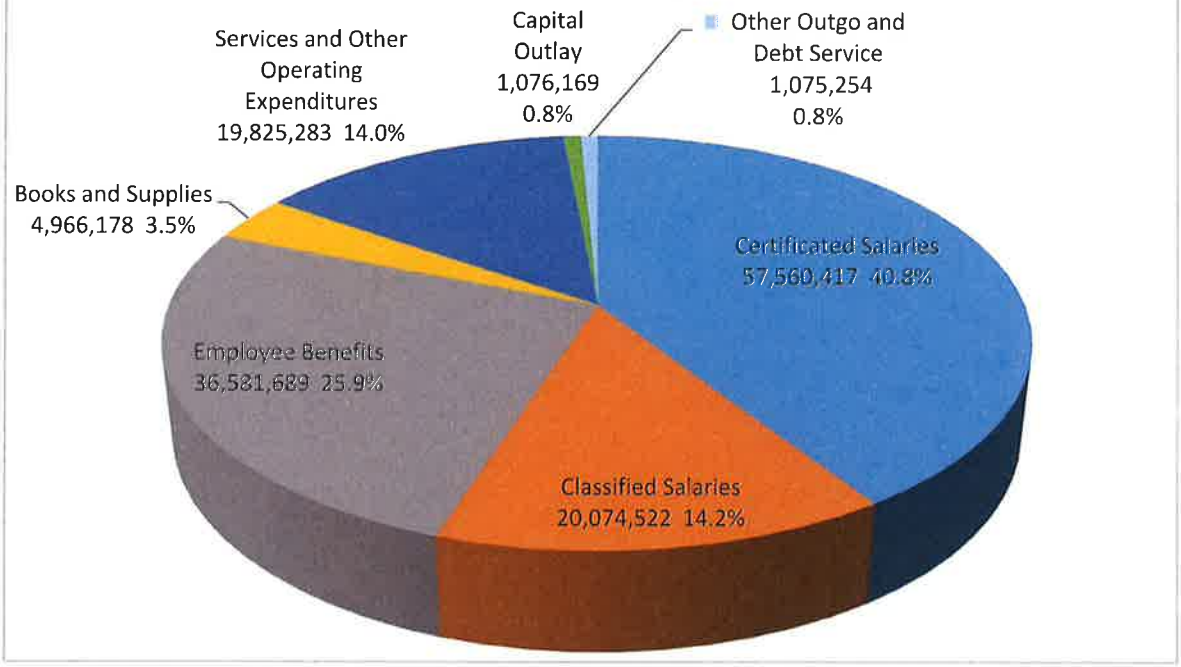

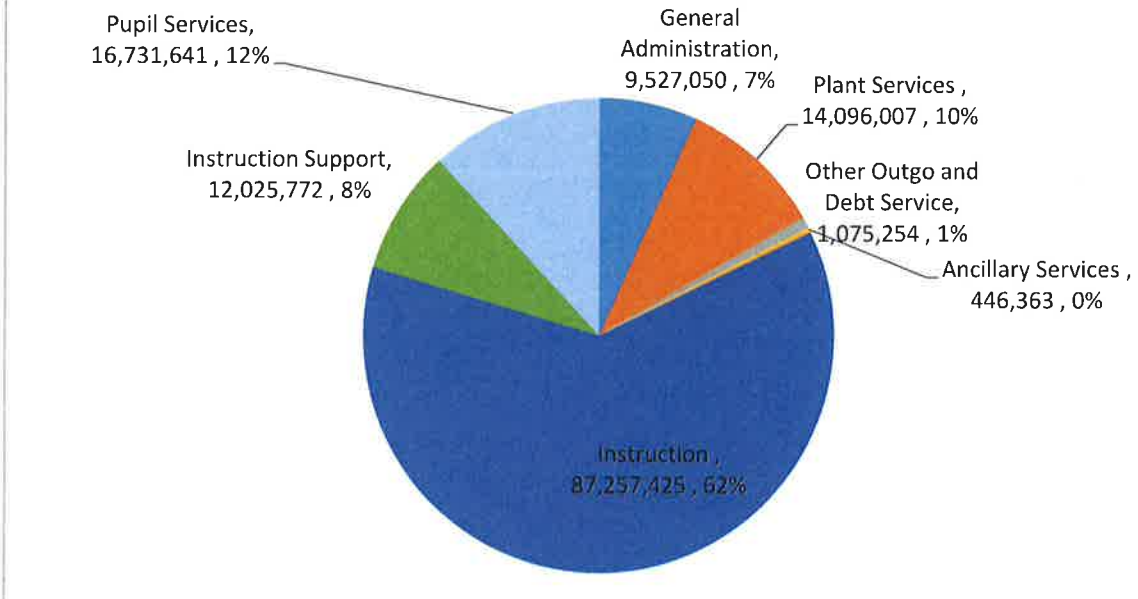

Chart 4
2021-22 Combined General Fund Expenditures by Function

FACTORS BEARING ON THE DISTRICT'S FUTURE

Since approximately 68% of the District's funding is provided by LCFF, the two factors – unduplicated pupil percentage and ADA in future years, used to calculate LCFF funding for the District, are key factors to watch.

As with many districts across the Nation, the COVID pandemic continues to have some bearing on our educational decision making. Planning is key, but difficult to do with accuracy. We must plan using information that changes constantly and base our educational decisions on ever-changing factors including changing revenues and the lingering effects of COVID and its variants.

Alum Rock, with declining enrollment, has benefited from having our ADA held harmless for 2020–21 and 2021–22. In addition, the State of California has increased the LCFF Funding for current and future years and funding is based on a three-year average starting in 2022-23. However, Alum Rock will have to address the cumulative impact of declining enrollment. Despite the additional funding, Alum Rock needs to take the necessary steps to align staffing and expenditures to the number of students served during the in future fiscal years.

At the time these financial statements were prepared and audited, the District was aware of the following conditions that could significantly affect its financial health in the future:

- Enrollment continues to decline due to economic hardship which causes families to move out of the area.
- The uncertainty and impact that the COVID pandemic and variants will continue to have on Districts.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET POSITION
June 30, 2022

Total fund balances - Governmental Funds		$ 60,938,196
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets used for governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds. The cost of the assets is $261,955,850 and the accumulated depreciation is $162,004,056 (Note 4).		99,951,794
Unmatured interest on long-term liabilities is not recognized until the debt series matures and is paid. In the government-wide statement of activities, it is recognized in the period that it is incurred.		(1,812,191)
In governmental funds, deferred outflows of resources resulting from defeasance of debt are not recorded. In governmental activities, for advance refundings in defeasance of debt, the difference between reacquisition price and the net carrying amount of the retired debt are reported as deferred outflows of resources.		2,785,072
In governmental funds, deferred outflows and inflows of resources relating to pensions are not reported because they are applicable to future periods. In the statement of net position, deferred outflows and inflows of resources relating to pensions are reported (Notes 8 and 9).		
Deferred outflows of resources relating to pensions	$ 20,388,626	
Deferred inflows of resources relating to pensions	(65,006,000)	
		(44,617,374)
Internal service funds are used to conduct certain activities for which costs are charged to other funds on a full cost- recovery basis. Net position for the Self-Insurance Fund:		3,071,558
Long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the government funds. Long-term liabilities at June 30, 2022 consisted of (Note 6):		
General Obligation Bonds	$ (90,225,000)	
Unamortized premiums	(3,952,534)	
Certificates of Participation	(11,375,000)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Alum Rock Union Elementary School District (the "District") accounts for its financial transactions in accordance with the policies and procedures of the California Department of Education's *California School Accounting Manual*. The accounting policies of the District conform to accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board and the American Institute of Certified Public Accountants. The following is a summary of the more significant policies.

Reporting Entity: The Board of Trustees is the level of government which has governance responsibilities over all activities related to public elementary school education in the District. The Board is not included in any other governmental "reporting entity" as defined by the Governmental Accounting Standards Board since Board members have decision-making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters. The District receives funding from local, state and federal governmental sources and must comply with all the requirements of these funding source entities.

Basis of Presentation - Financial Statements: The basic financial statements include a Management's Discussion and Analysis (MD & A) section providing an analysis of the District's overall financial position and results of operations, financial statements prepared using full accrual accounting for all of the District's activities, including infrastructure, and a focus on the major funds.

Basis of Presentation - Government-Wide Financial Statements: The Statement of Net Position and the Statement of Activities displays information about the reporting government as a whole.

The Statement of Net Position and the Statement of Activities are prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of Governmental Accounting Standards Board Codification Section (GASB Cod. Sec.) N50.118-.121.

Program revenues - Program revenues included in the Statement of Activities derive directly from the program itself or from parties outside the District's taxpayers or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the District's general revenues.

Allocation of indirect expenses - The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Depreciation expense is specifically identified by function and is included in the direct expense of each function. Interest on long-term liabilities is considered an indirect expense and is reported separately on the Statement of Activities.

Basis of Presentation - Fund Accounting: The accounts of the District are organized on the basis of funds or account groups, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balances, revenues, and expenditures. District resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled.

(Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A - Major Funds

General Fund - The General Fund is the general operating fund of the District and accounts for all revenues and expenditures of the District not encompassed within other funds. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures and the capital improvement costs that are not paid through other funds are paid from the General Fund.

B - Other Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes. This includes the Student Activity, Child Development, Cafeteria and Deferred Maintenance Funds.

Capital Projects Funds are used to account for resources used for the acquisition of capital facilities by the District. This includes the Building, Capital Facilities, County School Facilities and Special Reserve for Capital Outlay Funds.

Bond Interest and Redemption Fund: The Bond Interest and Redemption Fund is a debt service fund used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

The Self-Insurance Fund is an internal service fund which is used to account for the District's employee medical, dental and vision benefits.

Basis of Accounting: Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

Accrual: Governmental activities in the government-wide financial statements and proprietary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Modified Accrual: The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible in the current period or within one year after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term liabilities, if any, is recognized when due.

Budgets and Budgetary Accounting: By state law, the Board of Trustees must adopt a final budget by July 1. A public hearing is conducted to receive comments prior to adoption. The Board of Trustees complied with these requirements.

Receivables: Receivables are made up principally of amounts due from the State of California and Categorical programs. The District has determined that no allowance for doubtful accounts was needed as of June 30, 2022.

(Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Inventory: Inventory consists primarily of consumable supplies held for future use and are valued at actual cost. Inventories are recorded as expenditures at the time individual inventory items are transferred from the warehouse to schools and offices.

Capital Assets: Capital assets purchased or acquired, with an original cost of $5,000 or more, are recorded at historical cost or estimated historical cost. Contributed assets are reported at acquisition value for the contributed asset. Additions, improvements and other capital outlay that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Capital assets are depreciated using the straight-line method over 4 - 30 years depending on asset types.

Interfund Activity: Interfund activity is reported as either loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

Deferred Outflows/Inflows of Resources: In addition to assets, the Statement of Net Position includes a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to future periods, and as such will not be recognized as an outflow of resources (expense/expenditures) until then. The District has recognized a deferred loss on refunding of debt resulting from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter life of the refunded or refunding debt. Additionally, the District has recognized a deferred outflow of resources related to the recognition of the net pension liability.

In addition to liabilities, the Statement of Net Position includes a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to future periods and as such, will not be recognized as an inflow of resources (revenue) until that time. The District has recognized a deferred inflow of resources related to the recognition of leases and the net pension liability.

Pensions: For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the State Teachers' Retirement Plan (STRP) and Public Employers Retirement Fund B (PERF B) and additions to/deductions from STRP's and PERF B's fiduciary net position have been determined on the same basis as they are reported by STRP an PERF B. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Certain investments are reported at fair value. The following is a summary of pension amounts in aggregate:

	STRP	PERF B	Total
Deferred outflows of resources	$ 14,391,611	$ 5,997,015	$ 20,388,626
Deferred inflows of resources	$ 51,559,000	$ 13,447,000	$ 65,006,000
Net pension liability	$ 37,185,000	$ 29,393,000	$ 66,578,000
Pension expense	$ 2,350,846	$ 2,444,349	$ 4,795,195

(Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Accumulated Sick Leave: Sick leave benefits are accumulated for each employee. The employees do not gain a vested right to accumulated sick leave. Accumulated sick leave benefits are not recognized as liabilities of the District since cash payment of such benefits is not probable. Therefore, sick leave benefits are recorded as expenditures in the period that sick leave is taken.

Unearned Revenue: Revenues from federal, state, and local special projects and programs are recognized when qualified expenditures have been incurred. Funds received but not earned are recorded as unearned revenue until earned.

Net Position: Net position is displayed in three components:

1 - Net Investment in Capital Assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances (excluding unspent bond proceeds) of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

2 - Restricted Net Position - Restrictions of the ending net position indicate the portions of net position not appropriate for expenditure or amounts legally segregated for a specific future use. The restriction for legally restricted programs represents the portion of net position restricted to specific program expenditures. The restriction for capital projects represents the portion of net position restricted for capital projects. The restriction for debt service represents the portion of net position available for the retirement of debt. It is the District's policy to use restricted net position first when allowable expenditures are incurred.

3 - Unrestricted Net Position - All other net position that does not meet the definitions of "restricted" or "net investment in capital assets".

Fund Balance Classifications: Governmental Accounting Standards Board Codification Sections 1300 and 1800, Fund Balance Reporting and Governmental Fund Type Definitions (GASB Cod. Sec. 1300 and 1800) implements a five-tier fund balance classification hierarchy that depicts the extent to which a government is bound by spending constraints imposed on the use of its resources. The five classifications, discussed in more detail below, are nonspendable, restricted, committed, assigned and unassigned.

A - *Nonspendable Fund Balance* - The nonspendable fund balance classification reflects amounts that are not in spendable form, such as revolving fund cash, prepaid expenditures and inventory.

B - *Restricted Fund Balance* - The restricted fund balance classification reflects amounts subject to externally imposed and legally enforceable constraints. Such constraints may be imposed by creditors, grantors, contributors, or laws or regulations of other governments, or may be imposed by law through constitutional provisions or enabling legislation. These are the same restrictions used to determine restricted net position as reported in the government-wide statements.

C - *Committed Fund Balance* - The committed fund balance classification reflects amounts subject to internal constraints self-imposed by formal action of the Board of Trustees. The constraints giving rise to committed fund balance must be imposed no later than the end of the reporting period. The actual amounts may be determined subsequent to that date but prior to the issuance of the financial statements. The District had no committed fund balance as of June 30, 2022.

(Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D - *Assigned Fund Balance* - The assigned fund balance classification reflects amounts that the District's Board of Trustees has approved to be used for specific purposes, based on the District's intent related to those specific purposes. While the Board of Trustees has empowered members of management to suggest individual amounts to be assigned, as of June 30, 2022, no formal designation of assignment authority has occurred and the Board of Trustees retains ultimate authority for assigning fund balance. The District had no assigned fund balance as of June 30, 2022.

E - *Unassigned Fund Balance* - In the General Fund only, the unassigned fund balance classification reflects the residual balance that has not been assigned to other funds and that is not restricted, committed, or assigned to specific purposes.

In any fund other than the General Fund, a positive unassigned fund balance is never reported because amounts in any other fund are assumed to have been assigned, at least, to the purpose of that fund. However, deficits in any fund, including the General Fund that cannot be eliminated by reducing or eliminating amounts assigned to other purposes are reported as negative unassigned fund balance.

Fund Balance Policy: The District has an expenditure policy relating to fund balances. For purposes of fund balance classifications, expenditures are to be spent from restricted fund balances first, followed in order by committed fund balances (if any), assigned fund balances and lastly unassigned fund balances.

While GASB Cod. Sec. 1300 and 1800 do not require districts to establish a minimum fund balance policy or a stabilization arrangement, GASB Cod. Sec. 1300 and 1800 do require the disclosure of a minimum fund balance policy and stabilization arrangements, if they have been adopted by the Board of Trustees. At June 30, 2022, the District has not established a minimum fund balance policy nor has it established a stabilization arrangement.

Property Taxes: Secured property taxes are attached as an enforceable lien on property as of March 1. Taxes are due in two installments on December 10 and April 10. Unsecured property taxes are due in one installment on or before August 31. The County of Santa Clara bills and collects taxes for the District. Tax revenues are recognized by the District when received.

Eliminations and Reclassifications: In the process of aggregating data for the Statement of Net Position and the Statement of Activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities within the governmental activities column.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Accordingly, actual results may differ from those estimates.

New Accounting Pronouncements: In June 2017, the GASB issued GASB Statement No. 87, *Leases*. GASB 87 requires the recognition of certain assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. Under this statement a lease is required to be recognized as a lease liability and an intangible right to use lease asset and the lessor is required to recognize a lease receivable and deferred inflow of resources. This statement was originally effective for fiscal year beginning after December 15, 2019, but due to the adoption of GASB 95, the implementation date was extended to reporting periods beginning after June 15, 2021. Based on the implementation of GASB Statement No. 87, the District's July 1, 2021 net position, capital assets, net and long-term liabilities was not restated.

NOTE 2 - CASH AND INVESTMENTS

Cash and investments at June 30, 2022 consisted of the following:

	Governmental Activities
Pooled Funds:	
Cash in County Treasury	$ 59,450,876
Deposits:	
Cash in revolving fund	21,000
Cash with Fiscal Agent	2,800,095
Total	$ 62,271,971

Pooled Funds: In accordance with Education Code Section 41001, the District maintains substantially all of its cash in the interest bearing Santa Clara Treasurer's Pooled Investment Fund. The District is considered to be an involuntary participant in an external investment pool. The fair value of the District's investment in the pool is reported in the financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

Deposits - Custodial Credit Risk: The District limits custodial credit risk by ensuring uninsured balances are collateralized by the respective financial institution. Cash balances held in banks are insured up to $250,000 by the Federal Deposit Insurance Corporation (FDIC) and are collateralized by the respective financial institution. At June 30, 2022, the carrying amount of the District's accounts was $21,000 and the bank balance was $20,004, all of which was insured.

Cash with Fiscal Agent: Cash with Fiscal Agent represents funds held by Fiscal Agents which are restricted for capital projects.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Cash with Fiscal Agent balances consist of money market funds of $2,800,095 and are considered Level 1.

Interest Rate Risk: The District does not have a formal investment policy that limits cash and investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. At June 30, 2022, the District had no significant interest rate risk related to cash and investments held.

Credit Risk: The District does not have a formal investment policy that limits its investment choices other than the limitations of state law.

Concentration of Credit Risk: The District does not place limits on the amount it may invest in any one issuer. At June 30, 2022, the District had no concentration of credit risk.

NOTE 3 - INTERFUND TRANSACTIONS

Interfund Activity: Transactions between funds of the District are recorded as interfund transfers, except for the Self-Insurance Fund activity which is recorded as income and expenditures of the Self-Insurance Fund and the General Fund, respectively. The unpaid balances at year end, as a result of such transactions, are shown as due to and due from other funds.

Interfund Receivables/Payables: Individual fund interfund receivable and payable balances at June 30, 2022 were as follows:

	Interfund Receivables	Interfund Payables
Major Fund:		
General	$ 208,947	$ 374,915
Non-Major Funds:		
Child Development	-	8,336

Deferred Maintenance	250,000	-
County School Facilities	-	1,506
Building	43,114	-
Totals	$ 583,862	$ 583,862

Transfers: Transfers consist of operating transfers from funds receiving revenue to funds through which the resources are to be expended.

Transfers for the 2021-2022 fiscal year were as follows:

Transfer from the Child Development Fund to the General Fund for indirect costs.	$ 8,004
Transfer from the Cafeteria Fund to the General Fund for indirect costs.	199,106
Transfer from the General Fund to the Deferred Maintenance Fund for contributions towards maintenance costs.	250,000
	$ 457,110

NOTE 5 – LEASE RECEIVABLES

The District leases out its buildings and land. Lease terms vary, and may contain one or more renewal options. We have generally included these renewal periods in the lease term when it is reasonably certain that the lessee will exercise the renewal option. The District's lease arrangements do not contain any material residual value guarantees. As an interest rate implicit in the District's leases is not readily determinable, the District utilizes its incremental borrowing rate to report the lease payments at their net present value.

NOTE 8 - NET PENSION LIABILITY - STATE TEACHERS' RETIREMENT PLAN

General Information about the State Teachers' Retirement Plan

Plan Description: Teaching-certified employees of the District are provided with pensions through the State Teachers' Retirement Plan (STRP) - a cost-sharing multiple-employer defined benefit pension plan administered by the California State Teachers' Retirement System (CalSTRS). The Teachers' Retirement Law (California Education Code Section 22000 et seq.), as enacted and amended by the California Legislature, established this plan and CalSTRS as the administrator. The benefit terms of the plans may be amended through legislation. CalSTRS issues a publicly available financial report that can be obtained at http://www.calstrs.com.

Benefits Provided: The STRP Defined Benefit Program has two benefit formulas:

- CalSTRS 2% at 60: Members first hired on or before December 31, 2012, to perform service that could be creditable to CalSTRS.
- CalSTRS 2% at 62: Members first hired on or after January 1, 2013, to perform service that could be creditable to CalSTRS.

The Defined Benefit Program provides retirement benefits based on members' final compensation, age and years of service credit. In addition, the retirement program provides benefits to members upon disability and to survivors/beneficiaries upon the death of eligible members. There are several differences between the two benefit formulas which are noted below.

CalSTRS 2% at 60 - CalSTRS 2% at 60 members are eligible for normal retirement at age 60, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. Early retirement options are available at age 55 with five years of credited service or as early as age 50 with 30 years of credited service. The age factor for retirements after age 60 increases with each quarter year of age to 2.4 percent at age 63 or older. Members who have 30 years or more of credited service receive an additional increase of up to 0.2 percent to the age factor, known as the career factor. The maximum benefit with the career factor, up to the 2.4 percent maximum.

CalSTRS calculates retirement benefits based on a one-year final compensation for members who retired on or after January 1, 2001, with 25 or more years of credited service, or for classroom teachers with less than 25 years of credited service if the employer elected to pay the additional benefit cost prior to January 1, 2014. One-year final compensation means a member's highest average annual compensation earnable for 12 consecutive months calculated by taking the creditable compensation that a member could earn in a school year while employed on a fulltime basis, for a position in which the person worked. For members with less than 25 years of credited service, final compensation is the highest average annual compensation earnable for any 36 consecutive months of credited service.

CalSTRS 2% at 62 - CalSTRS 2% at 62 members are eligible for normal retirement at age 62, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. An early retirement option is available at age 55. The age factor for retirement after age 62 increases with each quarter year of age to 2.4 percent at age 65 or older.

All CalSTRS 2% at 62 members have their final compensation based on their highest average annual compensation earnable for 36 consecutive months of credited service.

NOTE 8 - NET PENSION LIABILITY - STATE TEACHERS' RETIREMENT PLAN (Continued)

Contributions: Required member, employer and state contribution rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. Current contribution rates were established by California Assembly Bill 1469 (CalSTRS Funding Plan), which was passed into law in June 2014, and various subsequent legislation.

The CalSTRS Funding Plan established a schedule of contribution rate increases shared among members, employers, and the State of California to bring CalSTRS toward full funding by fiscal year 2046. California Senate Bill 90 and California Assembly Bill 84 (collectively the "Special Legislation") were signed into law in June 2019 and June 2020, respectively, and provided supplemental contributions to the DB Program along with supplemental contribution rate relief to employers through fiscal year 2021-2022.

A summary of statutory contribution rates and other sources of contributions to the DB Program pursuant to the CalSTRS Funding Plan, and the Special Legislation, are as follows:

Members - Under CalSTRS 2% at 60, the member contribution rate was 10.250 percent of applicable member earnings for fiscal year 2021-2022.

Under CalSTRS 2% at 62, members contribute 50 percent of the normal cost of their retirement plan, which resulted in a contribution rate of 10.205 percent of applicable member earnings for fiscal year 2021-2022. According to current law, the contribution rate for CalSTRS 2% at 62 members is adjusted if the normal cost increases or decreases by more than 1 percent since the last time the member contribution rate was set. Based on the June 30, 2020, valuation adopted by the board in June 2021, the increase in normal cost was less than 1 percent. Therefore, the contribution rate for CalSTRS 2% at 62 members did not change effective July 1, 2021.

Employers – 16.920 percent of applicable member earnings. This rate reflects the original employer contribution rate of 19.10 percent resulting from the CalSTRS Funding Plan, and subsequently reduced for the 2.18 percent, to be paid on behalf of employers pursuant to the Special Legislation.

Beginning in fiscal year 2021–22, the CalSTRS Funding Plan authorizes the board to adjust the employer supplemental contribution rate up or down by a maximum of 1% for a total rate of no higher than 20.25% and no lower than 8.25%. In June 2021, the CalSTRS board voted to keep the employer supplemental contribution rate the same for fiscal year 2021–22; it remained at 10.85% effective July 1, 2021.

Through the Special Legislation approved in June 2019 and June 2020, the State made supplemental contributions of approximately $2.2 billion to CalSTRS on behalf of employers to supplant the amounts submitted by employers for fiscal years 2019–20 through 2021–22. Specifically, employers will remit 1.03%, 2.95% and 2.18% less than is required by the CalSTRS Funding Plan for fiscal years 2019–20, 2020–21 and 2021–22, respectively.

Beginning in fiscal year 2021–22, the CalSTRS Funding Plan authorizes the board to adjust the employer supplemental contribution rate up or down by a maximum of 1% for a total rate of no higher than 20.25% and no lower than 8.25%. In June 2021, the CalSTRS board voted to keep the employer supplemental contribution rate the same for fiscal year 2021–22; it remained at 10.85% effective July 1, 2021.

Through the Special Legislation approved in June 2019 and June 2020, the State made supplemental contributions of approximately $2.2 billion to CalSTRS on behalf of employers to supplant the amounts submitted by employers for fiscal years 2019–20 through 2021–22. Specifically, employers will remit 1.03%, 2.95% and 2.18% less than is required by the CalSTRS Funding Plan for fiscal years 2019–20, 2020–21 and 2021–22, respectively.

The CalSTRS employer contribution rates effective for fiscal year 2021-2022 through fiscal year 2046-47 are summarized in the table below:

Effective Date	Base Rate	Supplemental Rate Per CalSTRS Funding Plan	Rate Adjustment Per Special Legislation	Total
July 1, 2021	8.250%	10.850%	(2.180%)	16.920%
July 1, 2022 to June 30, 2046	8.250%	(1)	N/A	(1)
July 1, 2046	8.250%	Increase from AB 1469 rate ends in 2046-47		

(1) The CalSTRS Funding Plan authorizes the board to adjust the employer contribution rate up or down by up to 1% each year, but no higher than 20.250% total and no lower than 8.250%.

The District contributed $8,981,611 to the plan for the fiscal year ended June 30, 2022.

State – 10.828 percent of the members' calculated based on creditable compensation from two fiscal years prior.

The state is required to contribute a base contribution rate set in statute at 2.017%. Pursuant to the CalSTRS Funding Plan, the state also has a supplemental contribution rate, which the board can increase by up to 0.5% each fiscal year to help eliminate the state's share of the CalSTRS unfunded actuarial obligation by 2046. In June 2021, the board approved an increase of 0.5% for fiscal year 2021–22, which will increase the state supplemental contribution rate to 6.311% effective July 1, 2021.

Special legislation appropriated supplemental state contributions to reduce the state's portion of the unfunded actuarial obligation of the DB Program in fiscal years 2019-20 through 2022-23. These contributions are funded from future excess General Fund revenues, pursuant to the requirements of California Proposition 2, Rainy-Day Budget Stabilization Fund Act, which passed in 2014. Accordingly, the contribution amounts are subject to change each year based on the availability of funding. For fiscal year 2020–21, CalSTRS received $297.0 million in supplemental state contributions from Proposition 2 funds. Of this total, approximately $170.0 million is designated to cover forgone contributions due to the suspension of the 0.5% increase to the state supplemental contribution rate in fiscal year 2020–21. The remaining $127.0 million is designated to reduce the state's share of CalSTRS' unfunded actuarial obligation.

NOTE 8 - NET PENSION LIABILITY - STATE TEACHERS' RETIREMENT PLAN (Continued)

The CalSTRS state contribution rates effective for fiscal year 2021-2022 and beyond are summarized in the table below.

Effective Date	Base Rate	Supplemental Rate Per CalSTRS Funding Plan	SBMA Funding[1]	Total
July 01, 2021	2.017%	6.311%	2.50%	10.828%
July 01, 2022 to June 30, 2046	2.017%	(2)	2.50%	(2)
July 01, 2046	2.017%	(3)	2.50%	(3)

(1) The SBMA contribution rate excludes the $72 million that is reduced from the required contribution in accordance with Education Code section 22954. .
(2) The board has limited authority to adjust the state contribution rate annually through June 2046 in order to eliminate the remaining unfunded actuarial obligation. The board cannot increase the supplemental rate by more than 0.5% in a fiscal year, and if there is no unfunded actuarial obligation, the supplemental contribution rate imposed would be reduced to 0%.
(3) From July 1, 2046, and thereafter, the rates in effect prior to July 1, 2014, are reinstated, if necessary, to address any remaining unfunded actuarial obligation.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions - At June 30, 2022, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	$ 37,185,000
State's proportionate share of the net pension liability associated with the District	22,124,000
Total	$ 59,309,000

The net pension liability was measured as of June 30, 2021 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2020. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating school districts and the State. At June 30, 2021, the District's proportion was 0.082 percent, which was a decrease of 0.016 percent from its proportion measured as of June 30, 2020.

(Continued)

NOTE 8 - NET PENSION LIABILITY - STATE TEACHERS' RETIREMENT PLAN (Continued)

For the year ended June 30, 2022, the District recognized pension expense of $2,350,846 and revenue of $6,215,051 for support provided by the State. At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	$ 93,000	$ 3,957,000
Changes of assumptions	5,269,000	-
Net differences between projected and actual earnings on investments	-	29,414,000
Changes in proportion and differences between District contributions and proportionate share of contributions	48,000	18,188,000
Contributions made subsequent to measurement date	8,981,611	-
Total	$ 14,391,611	$ 51,559,000

$8,981,611 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	
2023	$ (9,193,500)
2024	$ (8,461,500)
2025	$ (10,997,000)
2026	$ (11,833,000)
2027	$ (3,234,000)
2028	$ (2,430,000)

Differences between expected and actual experience and changes in assumptions are amortized over a closed period equal to the average remaining service life of plan members, which is 7 years as of the June 30, 2021 measurement date. Deferred outflows and inflows related to differences between projected and actual earnings on plan investments are netted and amortized over a closed 5-year period.

Actuarial Methods and Assumptions: The total pension liability for the STRP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2020, and rolling forward the total pension liability to June 30, 2021. The financial reporting actuarial valuation as of June 30, 2020, used the following actuarial methods and assumptions, applied to all prior periods included in the measurement:

Valuation Date	June 30, 2020
Experience Study	July 1, 2015 through June 30, 2018
Actuarial Cost Method	Entry age normal
Investment Rate of Return	7.10%
Consumer Price Inflation	2.75%
Wage Growth	3.50%
Post-retirement Benefit Increases	2.00% simple for DB, maintain 85% Purchasing power level for DB, not applicable for DBS/CBB

Discount Rate: The discount rate used to measure the total pension liability was 7.10 percent, which was unchanged from the prior fiscal year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at statutory contribution rates in accordance with the rate increase per AB 1469. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10 percent) and assuming that contributions, benefit payments, and administrative expense occur midyear. Based on those assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Mortality: CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among its members. The projection scale was set equal to 110 percent of the ultimate improvement factor from the Mortality Improvement Scale (MP-2016) table, issued by the Society of Actuaries.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best estimate ranges were developed using capital market assumptions from CalSTRS investment staff and investment consultants as inputs to the process.

(Continued)

NOTE 8 - NET PENSION LIABILITY - STATE TEACHERS' RETIREMENT PLAN (Continued)

The actuarial investment rate of return assumption was adopted by the CalSTRS board in January 2020 in conjunction with the most recent experience study. For each current and future valuation, CalSTRS consulting actuary reviews the return assumption for reasonableness based on the most current capital market assumptions. Best estimates of 20-year geometric real rates of return and the assumed asset allocation for each major asset class used as input to develop the actuarial investment rate of return are summarized in the following table:

Asset Class	Assumed Asset Allocation	Long-Term* Expected Real Rate of Return
Global Equity	47%	4.8%
Fixed Income	12	1.3
Real Estate	13	3.6
Private Equity	13	6.3
Absolute Return / Risk Mitigating Strategies	9	1.8
Inflation Sensitive	4	3.3
Cash / Liquidity	2	(0.4)

* 20-year geometric average

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate: The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.10 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.10 percent) or 1-percentage-point higher (8.10 percent) than the current rate:

	1% Decrease (6.10%)	Current Discount Rate (7.10%)	1% Increase (8.10%)
District's proportionate share of the net pension liability	$ 75,695,000	$ 37,185,000	$ 5,222,000

NOTE 9 - NET PENSION LIABILITY - PUBLIC EMPLOYER'S RETIREMENT FUND B

General Information about the Public Employer's Retirement Fund B

Plan Description: The schools cost-sharing multiple-employer defined benefit pension plan Public Employer's Retirement Fund B (PERF B) is administered by the California Public Employees' Retirement System (CalPERS). Plan membership consists of non-teaching and non-certified employees of public schools (K-12), community college districts, offices of education, charter and private schools (elective) in the State of California.

The Plan was established to provide retirement, death and disability benefits to non-teaching and noncertified employees in schools. The benefit provisions for Plan employees are established by statute. CalPERS issues a publicly available financial report that can be obtained at:

https://www.calpers.ca.gov/docs/forms-publications/acfr- 2021.pdf.

Benefits Provided: The benefits for the defined benefit plans are based on members' years of service, age, final compensation, and benefit formula. Benefits are provided for disability, death, and survivors of eligible members or beneficiaries. Members become fully vested in their retirement benefits earned to date after five years (10 years for State Second Tier members) of credited service.

Contributions: The benefits for the defined benefit pension plans are funded by contributions from members and employers, and earnings from investments. Member and employer contributions are a percentage of applicable member compensation. Member contribution rates are defined by law and depend on the respective employer's benefit formulas. Employer contribution rates are determined by periodic actuarial valuations or by state statute. Actuarial valuations are based on the benefit formulas and employee groups of each employer. Employer contributions, including lump sum contributions made when agencies first join the PERF, are credited with a market value adjustment in determining contribution rates.

The required contribution rates of most active plan members are based on a percentage of salary in excess of a base compensation amount ranging from zero dollars to $863 monthly.

Required contribution rates for active plan members and employers as a percentage of payroll for the year ended June 30, 2022 were as follows:

Members - The member contribution rate was 7.0 percent of applicable member earnings for fiscal year 2021-22.

Employers - The employer contribution rate was 22.91 percent of applicable member earnings.

The District contributed $4,920,015 to the plan for the fiscal year ended June 30, 2022.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions - At June 30, 2021, the District reported a liability of $29,393,000 or its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2020 The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating school districts. At June 30, 2021 the District's proportion was 0.145 percent, which was a decrease of 0.001 percent from its proportion measured as of June 30, 2020.

NOTE 9 - NET PENSION LIABILITY - PUBLIC EMPLOYER'S RETIREMENT FUND B (Continued)

For the year ended June 30, 2022, the District recognized pension expense of $2,444,349. At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	$ 877,000	$ 69,000
Changes of assumptions	-	-
Net differences between projected and actual earnings on investments	-	11,280,000
Changes in proportion and differences between District contributions and proportionate share of contributions	200,000	2,098,000
Contributions made subsequent to measurement date	4,920,015	-
Total	$ 5,997,015	$ 13,447,000

$4,920,015 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	
2023	$ (3,238,583)
2024	$ (3,326,583)
2025	$ (2,668,084)
2026	$ (3,136,750)

Differences between expected and actual experience, changes in assumptions and changes in proportion and differences between District contributions and proportionate share of contributions are amortized over a closed period equal to the average remaining service life of plan members, which is 4 years as of the June 30, 2021 measurement date. Deferred outflows and inflows related to differences between projected and actual earnings on plan investments are netted and amortized over a closed 5-year period.

NOTE 9 - NET PENSION LIABILITY - PUBLIC EMPLOYER'S RETIREMENT FUND B (Continued)

Actuarial Methods and Assumptions: The total pension liability for the Plan was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2020, and rolling forward the total pension liability to June 30, 2021. The financial reporting actuarial valuation as of June 30, 2020, used the following actuarial methods and assumptions, applied to all prior periods included in the measurement:

Valuation Date	June 30, 2020
Experience Study	June 30, 1997 through June 30, 2015
Actuarial Cost Method	Entry age normal
Investment Rate of Return	7.15%
Consumer Price Inflation	2.50%
Wage Growth	Varies by entry age and service
Post-retirement Benefit Increases	Contract COLA up to 2.00% until Purchasing Power Protection Allowance Floor on Purchasing Power applies 2.50% thereafter

The mortality table used was developed based on CalPERS specific data. The table includes 15 years of mortality improvements using Society of Actuaries 90% of Scale MP 2016. For more details on this table, please refer to the 2017 experience study report.

All other actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period from 1997 to 2015, including updates to salary increase, mortality and retirement rates. Further details of the Experience Study can be found at CalPERS' website.

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation.

Asset Class	Long-Term* Assumed Asset Allocation	Expected Real Rate of Return Years 1 - 10[1]	Expected Real Rate of Return Years 11+[2]
Global Equity	50%	4.80%	5.98%
Fixed Income	28	1.00	2.62
Inflation Assets	-	0.77	1.81
Private Equity	8	6.30	7.23
Real Estate Assets	13	3.75	4.93
Liquidity	1	-	(0.92)

* 10-year geometric average
[1] An expected inflation rate of 2.00% used for this period.
[2] An expected inflation rate of 2.92% used for this period.

Discount Rate: The discount rate used to measure the total pension liability was 7.15 percent. A projection of the expected benefit payments and contributions was performed to determine if assets would run out. The test revealed the assets would not run out. Therefore the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability for the Plan. The results of the crossover testing for the Plan are presented in a detailed report that can be obtained at CalPERS' website.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

(Continued)

NOTE 9 - NET PENSION LIABILITY - PUBLIC EMPLOYER'S RETIREMENT FUND B (Continued)

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical and forecasted information for all the funds' asset classes, expected compound (geometric) returns were calculated over the short term (first 10 years) and the long term (11+ years) using a building-block approach. Using the expected nominal returns for both short term and long term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long- term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate: The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.15 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.15 percent) or 1-percentage-point higher (8.15 percent) than the current rate:

	1% Decrease (6.15%)	Current Discount Rate (7.15%)	1% Increase (8.15%)
District's proportionate share of the net pension liability	$ 49,560,000	$ 29,393,000	$ 12,649,000

Pension Plan Fiduciary Net Position: Detailed information about the pension plan's fiduciary net position is available in the separately issued CalPERS financial report.

NOTE 10 - JOINT POWERS AUTHORITIES

Self-Insured Schools of California Health and Welfare Benefits Program (SISC III): SISC III provides transportation for special education students for its members. The membership includes various school districts in the county. SISC III is governed by an Executive Board consisting of representatives from member districts. The Executive Board controls the operations of SISC III, including selections of management and approval of operating budgets.

The following is a summary of the financial information for SISC III at September 30, 2021 (the latest information available) (in thousands):

Total assets	$ 1,021,448,838
Total liabilities	$ 231,863,981
Total net position	$ 789,584,857
Total revenues	$ 2,725,489,512
Total expenditures	$ 2,620,106,815

NOTE 11 - COMMITMENTS AND CONTINGENCIES

The District is subject to legal proceedings and claims which arise in the ordinary course of business. In the opinion of management, the amount of ultimate liability with respect to these actions will not materially affect the financial position or results of operations of the District.

The District has received federal and state funds for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could result in expenditure disallowances under terms of the grants, it is management's opinion that any required reimbursements or future revenue offsets subsequently determined will not be material.

NOTE 12 – SUBSEQUENT EVENT

On July 19, 2022 the District issued 2016 Election, Series A General Obligation Bonds totaling $40,000,000. The proceeds from the bond issuance will be used to finance school facility improvements and to repay outstanding 2010 Certificates of Participation. The bonds bear an interest rate ranging from 4.0% to 5.25% and mature through August 1, 2047.

NOTE 1 - PURPOSE OF SCHEDULES

Budgetary Comparison Schedule: The District employs budget control by object codes and by individual appropriation accounts. Budgets are prepared on the modified accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. The budgets are revised during the year by the Board of Education to provide for revised priorities. Expenditures cannot legally exceed appropriations by major object code. The originally adopted and final revised budgets for the General Fund are presented as Required Supplementary Information. The basis of budgeting is the same as GAAP.

Schedule of the District's Proportionate Share of the Net Pension Liability: The Schedule of the District's Proportionate Share of the Net Pension Liability is presented to illustrate the elements of the District's Net Pension Liability. There is a requirement to show information for 10 years. However, until a full 10-year trend is compiled, governments should present information for those years for which information is available.

Schedule of the District's Contributions: The Schedule of the District's Contributions is presented to illustrate the District's required contributions relating to the pensions. There is a requirement to show information for 10 years. However, until a full 10-year trend is compiled, governments should present information for those years for which information is available.

Changes of Benefit Terms: There are no changes in benefit terms reported in the Required Supplementary Information.

Changes of Assumptions: The discount rates used for the Public Employer's Retirement Fund B (PERF B) was 7.50, 7.65, 7.65, 7.15, 7.15, 7.15, 7.15 and 7.15 percent in the June 30, 2013, 2014, 2015, 2016, 2017, 2018, 2019 and 2020 actuarial reports, respectively.

The following are the assumptions for the State Teachers' Retirement Plan:

The fund balance of the General Fund has increased by $25,427,162 over the last three years. The fiscal year 2022-23 budget, as originally adopted, projects an increase of $12,079,816. For a district this size, the State of California recommends available reserves of at least 3% of total General Fund expenditures, transfers out, and other uses. The District is in compliance with this requirement.

The District incurred operating surpluses in two of the past three years; and anticipates an operating surplus in fiscal year 2022-23.

Total long-term liabilities have decreased by $88,343,748 over the past two years.

Average daily attendance has decreased by 1,129 over the past two years. A decrease of 206 ADA is projected for the 2022-23 fiscal year.

NOTE 1 - PURPOSE OF SCHEDULES

Schedule of Average Daily Attendance: Average daily attendance is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of state funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

Schedule of Instructional Time: The District has received incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day. This schedule presents information on the amount of instructional time offered by the District, and whether the District complied with the provisions of Education Code Sections 46201 through 46206.

Schedule of Expenditures of Federal Awards: The Schedule of Expenditures of Federal Awards includes the federal award activity of Alum Rock Union Elementary School District, and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. (Uniform Guidance). Expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The District has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

Reconciliation of Unaudited Actual Financial Report with Audited Financial Statements: This schedule provides the information necessary to reconcile the fund balances of all funds as reported on the Unaudited Actual Financial Report to the audited financial statements.

Schedule of Financial Trends and Analysis – Unaudited: This schedule provides trend information on District's financial condition over the past three years and its anticipated condition for the 2022-23 fiscal year, as required by the State Controller's Office. The information in this schedule has been derived from audited information.

Schedule of Charter Schools: This schedule provides information for the California Department of Education to monitor financial reporting by Charter Schools.

NOTE 2 - EARLY RETIREMENT INCENTIVE PROGRAM

Education Code Section 14502 requires certain disclosures in the financial statements of districts which adopt Early Retirement Incentive Programs pursuant to Education Code Sections 22714 and 44929. For the fiscal year ended June 30, 2022, the District did not adopt this program.

In our opinion, Alum Rock Union Elementary School District complied, in all material respects, with the compliance requirements referred to above that are applicable to the state laws and regulations referred to above for the year ended June 30, 2022.

Basis for Opinion on Compliance with State Laws and Regulations

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of the *2021-2022 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* (Audit Guide). Our responsibilities under those standards and the Audit Guide are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

(Continued)

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's government programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Audit Guide will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of the government program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Audit Guide, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Audit Guide, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Purpose of this Report

The purpose of this report on compliance is solely to describe the scope of our testing of compliance and the results of that testing based on the requirements of the *2021-2022 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Board of Trustees
Alum Rock Union Elementary School District
San Jose, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of Alum Rock Union Elementary School District as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise Alum Rock Union Elementary School District's basic financial statements, and have issued our report thereon dated December 14, 2022.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Alum Rock Union Elementary School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Alum Rock Union Elementary School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Alum Rock Union Elementary School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

(Continued)

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Alum Rock Union Elementary School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

Board of Trustees
Alum Rock Union Elementary School District
San Jose, California

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Alum Rock Union Elementary School District's compliance with the types of compliance requirements identified as subject to audit in the OMB Compliance Supplement that could have a direct and material effect on each of Alum Rock Union Elementary School District's major federal programs for the year ended June 30, 2022. Alum Rock Union Elementary School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Alum Rock Union Elementary School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Alum Rock Union Elementary School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Alum Rock Union Elementary School District's compliance with the compliance requirements referred to above.

(Continued)

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Alum Rock Union Elementary School District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Alum Rock Union Elementary School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Alum Rock Union Elementary School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Alum Rock Union Elementary School District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.

- Obtain an understanding of Alum Rock Union Elementary School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Alum Rock Union Elementary School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

(Continued)

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
