CARROLLTON-FARMERS BRANCH ISD ORGANIZATIONAL CHART

January 12, 2023

Formal Transmittal of the Annual Comprehensive Financial Report (ACFR)

To the Citizens and Board of Trustees of the Carrollton-Farmers Branch Independent School District:

The ACFR of the Carrollton-Farmers Branch Independent School District (the District) for the fiscal year ended August 31, 2022, is hereby submitted. The report includes the unmodified opinion of our independent auditors, Whitley Penn, LLP. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed data are accurate in all material respects; that it is presented in a manner designed to fairly set forth the financial position and the results of operations of the District as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included. This report includes all funds of the District. The ACFR for the year ended August 31, 2022, is presented in conformance with the reporting model adopted by the Governmental Accounting Standards Board ("GASB") in their Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis– for State and Local Governments*, issued in June 1999. The ACFR also adheres to guidelines recommended by the Government Finance Officers Association of the United States and Canada (GFOA) and the Association of School Business Officials International (ASBO).

Generally Accepted Accounting Principles (GAAP) requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). MD&A is intended to give the reader an easy-to-understand overview of the school district's financial position and results of operations for the year. This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

The remainder of this transmittal highlights the governance structure, the mission, the accomplishments and initiatives, the economic conditions and outlook, and the financial activities of the District.

Copies of this report will be provided to Moody's Investment Service, Fitch Investor Service, Standard and Poors and any other interested parties.

Profile of the District

GENERAL EDUCATION

As its mission states, together with families we commit all district resources to empower scholars to acquire life-long knowledge, skills, and values that prepare them to compete in the world marketplace while contributing to their community. Based on the philosophy that every child can learn; the District provides educational opportunities for students regardless of their needs and their abilities.

Towards that end, the District provides a fully comprehensive instructional program in grades K-12 with a pre-kindergarten program. The District is committed to quality learning environments for all students offering a diversified curriculum that advocates the tailoring of instruction to individual student needs.

The Carrollton-Farmers Branch Independent School District (CFBISD) embraces character values and ethics as fundamental to both educating and equipping our students to be productive, contributing members of society.

In addition to the regular curriculum, the District provides a comprehensive Career and Technology Education (CTE) program, including 16 career clusters which are organized around broad career fields. There are 79 individual career pathways in the 16 career clusters as show below:

Agriculture, Food & Natural Resources	Hospitality & Tourism
Architecture & Construction	Human Services
Arts, Audio Visual Tech & Communications	Information Technology
Business, Management, & Administration	Law, Public Safety, Corrections & Security
Education & Training	Manufacturing
Finance	Marketing, Sales & Service
Government & Public Administration	Science, Technology, Engineering & Mathematics
Health, Science	Transportation, Distribution & Logistics

In addition to numerous CTE courses, high schools provide in-depth career pathway study through eight academies. These academies are open to all incoming 9th grade high school students through an application process:

- 1. Media Arts and Technology
- 2. Biomedical Professions
- 3. International Business
- 4. Law and Criminal Justice
- 5. Math, Engineering, Technology, & Sciences
- 6. Information Technology
- 7. Academy of Future Teachers
- 8. NAF Academy of Innovation

Additionally, STEM (Science, Technology, Engineering, and Mathematics) is embedded in curriculum for every student in CFBISD. Five STELLAR STEM Academies provide further enrichment in STEM, including digital learning, robotics, and technology for elementary students.

The fine arts program includes drama, speech, debate, choir, band, orchestra, theatre, elementary music, elementary art, secondary art, dance, and drill team. Over 22,000 students are involved district-wide in the fine arts program at various levels. Fine Arts Academies are offered at five elementary campuses.

The Carrollton-Farmers Branch Independent School District demonstrates its commitment to educational excellence through the comprehensive programs developed for gifted and talented students in kindergarten through twelfth grade. Over 3,000 students were identified as gifted and talented. Having a child-centered education program as its primary goal, the Carrollton-Farmers Branch ISD offers a two-tiered multifaceted program. These services are offered through the Academic Creative Education (ACE) program and the Leading Exceptional Academic Producers (LEAP) program. The structure of the District's programs forms an inverted pyramid model beginning as a broad base designed to discover and nurture the intellectual talents of the young child and gradually move into specific specialized course offerings. Classroom teachers who work with gifted students are required to receive at least thirty hours of gifted education training.

Bus transportation is available to those children who live more than two miles from the school that they would normally attend. Additionally, students who attend more than one school to participate in career and technology or bilingual programs receive transportation between schools during school hours. Special education students are eligible for transportation services when need is established.

DESCRIPTION OF THE ENTITY

The Carrollton-Farmers Branch ISD is an independent public educational agency operating under applicable laws and regulations of the State of Texas. A seven-member Board of Trustees elected to staggered three-year terms by the District's residents autonomously governs the District. The Carrollton-Farmers Branch ISD Board of Education ("Board") is the level of government, which has oversight responsibility and control over all activities related to public school education within the District. The District receives funding from local, state and federal government sources and must comply with all the requirements of these funding source entities. However, the District is not included in any other governmental "reporting entity" as defined in generally accepted accounting principles. The public elects board members who have decision-making authority, the power to designate management, the ability to significantly influence operations and primary accountability for fiscal matters.

The Texas Education Agency and Southern Association of Colleges and Schools provide the District's K-12 education accreditation. Enrollment in the District's 5 high, 6 middle, and 24 elementary, and alternative or special program centers was 24,939 for the 2021-2022 fiscal year.

The District encompasses 53.42 square miles in northwest Dallas County with a smaller portion in southeast Denton County. The District provides instructional services to children who live in portions of Carrollton, Farmers Branch, Addison, Coppell, Dallas, and Irving. Demographic information for the largest of these cities is included below. The source of the information includes various U.S. Census Bureau data gathered by Claritas.

Carrollton-Farmers Branch ISD – Demographics:

Population – 198,282; Male 49.3%, Female 50.7%

Population by Ethnicity:

- Hispanic/Latino 34.4%
- Not Hispanic/Latino 65.6%

Population by Race by Hispanic/Latino:

- American Indian and Alaska Native Alone 0.9%
- Asian Alone 0.2%
- Native Hawaiian & Other Pacific Islander Alone 0.0%
- Some Other Race Alone 37.7%
- Two or More Races 4.5%

Population by Race not Hispanic/Latino:

- White Alone 45.0%
- Black or African American Alone 21.5%
- American Indian and Alaska Native Alone 0.4%
- Asian Alone 29.2%
- Native Hawaiian & Other Pacific Islander Alone 0.1%
- Some Other Race Alone 0.3%
- Two or More Races 3.5%

Median age - 36.3

- Persons under 5 years old 6.1%
- Persons 18 and over 77.4%
- Persons 65 and over 11.32%

Economic Characteristics:

- Average household income \$107,610
- Median household income \$81,263

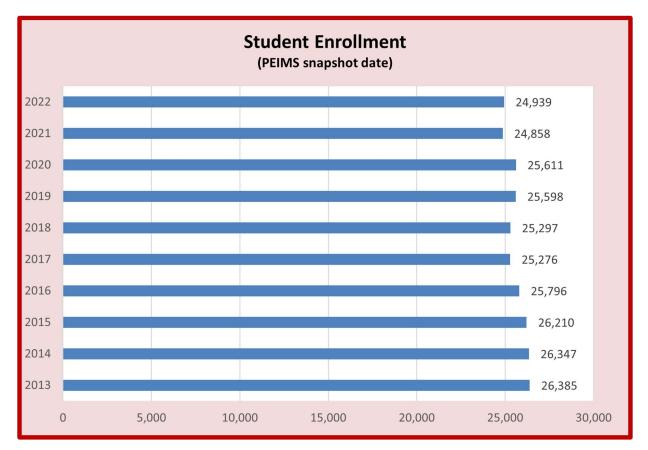

Housing Characteristics:

- Owner-occupied housing units 40.3%
- Renter-occupied housing units 59.7%

Source: Claritas Pop-Facts, 2022

The District offers a comprehensive instructional program from pre-kindergarten through grade 12. The Texas Education Agency accredits all schools in the District. Along with the regular curriculum, the District offers programs for gifted and talented students, advanced placement courses, career and technology education, services for children with disabilities from birth through 22 years of age, and bilingual education programs. The District has one of the leading technology programs in the state. All campuses are connected to a wide-area network and have direct Internet access. The broad range of elective courses and extracurricular activities includes athletics, fine arts, internship work experience, and special-interest activities. Other programs include drug awareness, research skills, environmental topics, advanced technology, and after-school enrichment. During the summer, students participate in a variety of summer recreation programs and summer school academic and enrichment courses. A large community education program provides academic and enrichment opportunities for adults and youngsters.

The District has an extensive Internet website with individual home pages for all departments and campuses. At <u>www.cfbisd.edu</u>, families can locate a wealth of information including a school locator package that identifies the schools which serve residential addresses.

FINANCIAL POLICIES

<u>Internal Controls</u> - The management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft, and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived from its implementation; and (2) the valuation of cost and benefits requires estimates and judgments by management. Management believes the District's internal controls provide reasonable assurance errors or irregularities that could be material to the financial statements would be detected within a timely period by employees in the normal course of performing their assigned functions.

<u>Budgetary Controls</u> - In addition, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual budget approved by the Board of Trustees. Activities in the General Fund, Food Service Special Revenue Fund and Debt Service Fund are included in the District's formally adopted budget. Budgets for Special Revenue Fund (other than Food Service Fund) and Capital Projects Fund are prepared on a project basis, based on grant regulations or applicable bond ordinances. Budgetary control (the level at which expenditures cannot legally exceed the appropriated amount) is maintained at the fund- function level as required by the Texas Education Agency. The Board of Trustees has delegated authority for functional changes to the Accounting Department. Budget transfers from one functional category to another functional category are reviewed and approved/disapproved by Accounting Department personnel. However, budget changes that would increase/decrease the overall fund are taken to the Board of Trustees for their approval before any action regarding the proposed change is made.

The District's interactive, on-line budgetary accounting and control system provides many useful reports to assist District personnel in administering, monitoring and controlling the implementation of the budget. The system provides many checks on account balances to ensure that funds are not over-expended at the budgetary control account level. If sufficient funds are not available at the budgetary control account level, purchase orders and checks requisitions cannot be generated.

INDEPENDENT AUDIT

The Texas Education Code requires an annual audit of all public schools. This audit must be on an organization-wide basis and include all fund types and account groups that are the accounting responsibility of the District. The audit is performed by an independent certified public accountant firm selected by the District's Board of Trustees. The auditor's report has been included in this report.

ORGANIZATION OF THE DISTRICT

The Board of Trustees of the Carrollton-Farmers Branch ISD (the Board) is a seven-member body. The Board serves as the taxing authority, contracting body, policy maker, and ensures that all other general compliance laws and rules applicable to the District are followed in the expenditure of the District's funds, and approves the annual budget resolution and tax rate adoption.

MAJOR INITIATIVES

<u>Capital Projects</u> - Since 1990, in five separate elections, the voters of the Carrollton-Farmers Branch Independent School District have authorized over \$950 million in general obligation bonds. The most recent election in 2018 was for \$350.935 million alone and passed by more than 65 percent of the votes. The District has issued all \$350.935 million of the outstanding bonds from the 2018 bond election. The scheduled projects include renovations and improvements to all campuses, safety and security, Career and Technical Education (CTE) improvements, fine arts improvements, athletic improvements, and technology infrastructure improvements.

Our citizens have always put the education of children first because there is a realization that children are the leaders of tomorrow. With the exploding usage of technology and the need to update aging facilities, all previous bond referendums in the District have been approved by the citizens who reside within the District boundaries.

MAJOR INITIATIVES – continued

In addition to renovations, repairs and new construction, there are technology projects ongoing within the District. The technology initiatives include improvements to the network infrastructure, computer hardware and software. The District maintains a fiber optic network to provide connectivity for over 28,000 computers. The focus is on integrating wireless, mobile handheld devices into the classroom to enable students and staff flexible, wireless access to online instructional applications.

<u>Educational Services</u> - The Educational Services division of CFBISD has organized several significant documents and research studies into a framework that guides our work. The foundation of this framework is our district vision statement, value statements, and the Standards Based Instructional System.

The motto of the Carrollton-Farmers Branch Independent School District is High Expectations for ALL.

The mission of CFBISD, a diverse community of global learners, is to empower scholars to acquire life-long knowledge, skills, and values that prepare them to compete in the world marketplace while contributing to their community.

The vision of the Carrollton-Farmers Branch ISD is that CFBISD will be an exceptional learning community where all graduates impact and excel in a complex, interconnected, and ever-changing world.

To achieve this vision, CFBISD believes in the following value statements:

- 1. Excellence in ALL learning opportunities.
- 2. Respecting difference by embracing diversity.
- 3. A growth mindset for students, faculty, and staff.
- 4. Ongoing partnerships with the community.
- 5. Support & love of the whole student.

In CFBISD, we value the Principles of Teaching, Learning, and Curriculum and the Principles of Best Practice. The principles of teaching include the following:

- The teacher matters.
- Focused teaching promotes accelerated learning.
- Clear expectations and continuous feedback activate learning.
- Good teaching builds on students' strengths and respects individuals' differences.
- Good teaching involves modeling what students should learn.

The principles of learning include the following:

- Effort produces achievement.
- Learning is about making connections.
- We learn with and through others.
- Learning takes time.
- Motivation matters.

The principles of curriculum include the following:

- The curriculum should focus on powerful knowledge.
- All students should experience a "Thinking Curriculum".
- The best results come from having an aligned instructional system.

Best practice principles remind us to keep our work student-centered while addressing students' cognitive and social domains.

Planning structures help focus our work. These are: Understanding by Design, Professional Learning Communities and the Driven by Data Protocol. Classroom strategies that support the successful implementation of the curriculum are Marzano's Nine, Content Literacy, AVID, and GLAD strategies for English Language Learners.

Information Useful in Assessing the District's Economic Condition

ECONOMIC CONDITIONS AND OUTLOOK

Carrollton-Farmers Branch Independent School District is located in north central Texas on the northern edge of Dallas. The District overlaps a small area of the City of Dallas and includes most of the City of Carrollton and about 70 percent of the City of Farmers Branch as well as portions of the cities of Irving, Addison, and Coppell. The average age of school buildings in the District is 33 years.

The local economy remains strong in the Dallas-Fort Worth area. The diversity of the businesses located here and the range of housing available combined with the transportation grid and proximity to Dallas-Fort Worth and Alliance airports provide a degree of protection from the economic cycles that is not available to most school districts.

The Dallas-Fort Worth area is an important center of trade, finance and other major services. It is also a critical point in the national transportation complex. The District itself is a primary warehousing and distribution center. Due in part to the transportation infrastructure, cost of doing business, and workplace, the Metroplex draws many new corporations and individuals to the area each year. Major businesses have located their corporate headquarters here.

The district's largest taxpayer is only 1.42% of the taxable value of the district. This lack of dependence on a single employer or business segment means that the loss of even a large business will not have a significant negative impact on the education of children or imperil the future payment of obligations.

The location of the District along Interstate 35, Interstate 635, Bush Tollway and the Dallas North Tollway together with its proximity to the Dallas-Fort Worth International Airport (approximately eight miles from the District), has provided a major impetus for growth in the northwest quadrant of Dallas County and the school district. The upgrading of the road system within the metroplex continues to be a plus for the District. A combination of interstate highways, state highways, a light rail system and toll roads ensures that residents can easily commute to jobs anywhere in the metroplex and serves as a magnet for the location of new businesses coming into the area. The Dallas Area Rapid Transit (DART) light rail system has major stops in the District. The cities of Carrollton and Farmers Branch have initiated plans in these transit areas for high-density housing, retail, restaurants and offices in a quality urban environment. These projects are underway in various areas of the cities. A major highway widening project was completed for Interstate 35, which will further encourage growth and development.

The Valwood Improvement Authority was created in 1974 as the Farmers Branch-Carrollton Flood Control District, thus extending the development of industrial land along the Trinity River flood plain as the largest planned industrial/business park in Dallas County. Wholly contained within the cities of Carrollton and Farmers Branch, the Authority has major freeway access, rail and motor line services.

Valley Ranch, a mixed-use development of 2,400 acres, is located south of Beltline Road and north of the LBJ Freeway. Approximately 1,800 acres of the development are located within the District and approximately 1,200 of those acres are devoted to residential property.

Las Colinas, a mixed-use development of some 12,000 acres, lies immediately east of the Dallas-Fort Worth International Airport. This master-planned community contains quality residential areas, business parks, shopping centers, green-belt areas, several country clubs, an equestrian center, office parks, luxury hotels, a complete recording and sound studio for motion picture production, hospital facilities, and a community college. Some 4,300 acres of Las Colinas lie within the District. While construction has been sporadic, there has been significant new activity in both commercial and residential projects.

ECONOMIC CONDITIONS AND OUTLOOK – continued

La Villita, a unique community in Las Colinas, is an upscale 200-acre development containing multi-family, small office buildings, single-family and town home development. The District opened an elementary school in La Villita in 2008 and has secured a site for a middle school. The District recently completed a multi-purpose facility in the La Villita area that houses the network operating center along with other facility capabilities. La Villita's site is rich in water features, particularly the 30- acre Lake Royal and its two canals. Small parks and plazas are scattered throughout the community, giving residents places to gather. There is also a system of hiking and biking trails, both paved and natural surface along the Elm Fork of the Trinity River. While enrollment is stagnant or declining in most areas of the District, Las Colinas and specifically the La Villita community continues to grow.

A major redevelopment project was initiated in Addison in 2007 where 2,400 older apartments were torn down and replaced with a complete new urban environment. This development includes a 12-acre waterfront park with open spaces, an amphitheater, a neighborhood park, 500,000 sq. ft. of office space, 6,000 housing units and retail businesses. Additional redevelopment projects are also underway on a smaller scale in both the cities of Carrollton and Farmers Branch.

Construction has commenced in the last remaining large area of undeveloped land known as Mercer Crossing in the city of Farmers Branch. Mercer Crossing is a mixed-use development that will include two main areas: urban commerce and residential. These areas plan to have 656 single-family and 1,750 multi-family units as well as an amenity center, amphitheater, senior living, hotel, and commercial buildings. The Mercer Crossing residential area will consist of six separate neighborhoods. Construction is expected to continue over the coming years. Several other multi-family projects have been completed along with one commercial project.

<u>Long-Term Financial Planning</u> - the District has maintained its fund balance to ensure that the needed resources are available to provide for current operations and unexpected situations. Trends identified in budgeting for subsequent fiscal years include:

- If the future follows recent trends, our taxable values will increase. We are projecting a steady increase since the District had a taxable value increase in the 2012-13 through 2021-22 budget years.
- Federal revenue sources are not expected to increase over current levels.
- Voters residing in the District passed a Tax Ratification election back in November 2016 which increased the District's maintenance and operations tax rate from \$1.04 per \$100 of taxable property to \$1.17 per \$100 of taxable value. Based on past history, collection percentages will remain 99% or more.
- The passage of HB 3 back in June 2019 significantly changed school finance for Texas school districts. The legislation focused on increasing teacher pay, reducing property taxes, and school finance reform. The bill compresses the General Fund tax rate from \$1.17 to \$1.054, increases the basic allotment from \$5,140 to \$6,160, switches the state funding calculation from using prior year property values to current year property values, and allows only a 2.5% growth in property tax revenue.

HIGHER EDUCATION

Several major universities and colleges are located within a 40-mile radius of the District. Among these universities are:

Institution Austin College Collin County Community College District (2 campuses) Dallas Baptist University Dallas County Community College District (8 campuses) Texas A&M at Commerce Southern Methodist University Texas Christian University Texas Christian University Texas Wesleyan College Texas Woman's University University of North Texas University of Texas at Arlington University of Texas at Dallas Location Sherman, Texas Collin County, Texas Dallas, Texas Dallas County, Texas Commerce, Texas Dallas, Texas Fort Worth, Texas Fort Worth, Texas Denton, Texas Denton, Texas Arlington, Texas Richardson, Texas

Accountability Ratings

The 2022 A-F Ratings released on August 15, 2022 measures the performance of districts and campuses in three areas: Student Achievement, School Progress, and Closing the Gaps. Senate Bill (SB) 1385 requires a Not Rated (NR) label for 2022 unless the district or campus earns an A, B, or C. Scaled numeric scores are published even if an Overall Rating of NR is applied.

Overall rating for CFBISD was B (88). Seven campuses earned an A rating and 25 campuses earned B ratings.

At 93.7%, the 4-year graduation rate for the class of 2021 exceeds the State of Texas rate of 90.0%.

College Readiness Indicators

PSAT/NMSQT:

The PSAT/NMSQT measures knowledge and skills that research shows are most essential for college and career readiness and success. The score range for Evidence-based Reading and Writing (EBRW) and Mathematics is 160-760. For students in their junior year of high school, the National Merit Semifinalists and National Merit Commended Recipients are selected from the highest scores on the PSAT/NMSQT. During the 2021-22 school year, PSAT/NMSQT was administered free of charge to grade 11 students on October 13, 2021.

2021-22 PSAT/NMSQT Results	Average PSAT Scores

SERVICE EFFORTS AND ACCOMPLISHMENTS (continued)

College Readiness Indicators (continued)

Advanced Placement:

Advanced Placement (AP) is an accelerated level of instruction. AP courses provide college level coursework in a high school setting and are open to all CFB students at each high school. Enrolling in an AP class provides a powerful opportunity for students to acquire the knowledge, sophisticated concepts, and skills needed for college success. AP scores range from 1-5.

During the 2021-22 school year, the cost of an AP exam was \$95 per exam. For students who receive free and reduced lunch, College Board offers a \$33.00 fee reduction. Additionally, the state of Texas offers a \$32.00 fee reduction for students receiving free and reduced lunch.

To lower the cost of exams to families, CFBISD subsidizes \$10.00 per free and reduced exam and \$55.00 for full pay exams. This brings the cost of exams to students to \$20.00 per exam for free and reduced students and \$40.00 per exam for students who do not receive free and reduced lunch.

OTHER INFORMATION

- The District has been awarded the Certificate of Excellence in Financial Reporting by the Association of School Business Officials (ASBO) for forty-five consecutive years. This award is for school districts whose annual comprehensive financial reports substantially conform to the recommended principles and standards of financial reporting adopted by that organization. We believe that our current report continues to conform to the Certificate of Excellence Program requirements, and we will again submit it to ASBO for review.
- The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its annual comprehensive financial report for the year ended August 31, 2021. The District has achieved this prestigious award forty-four consecutive years. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy generally accepted accounting principles and applicable legal requirements.
- A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements, and we will submit it to the GFOA to determine its eligibility for another certificate.
- In 1999, the 76th Texas Legislature approved legislation requiring the commissioner of education in consultation with the comptroller of public accounts to develop a rating system for school district financial accountability. The 77th Texas Legislature in 2001 subsequently adopted rules for the implementation and administration of the financial accountability rating system known as School FIRST, Financial Integrity Rating System of Texas. The financial accountability rating system benefits the public by having in place a system to ensure that school districts will be held accountable for the quality of their financial management practices and achieve improved performance in the management of their financial resources. The Carrollton-Farmers Branch Independent School District has received a Superior Achievement rating since the implementation of the rating system in the 2002-03 fiscal year.
- The Carrollton-Farmers Branch ISD was named one of the Best Communities for Music Education through a nationwide survey sponsored by the National Association of Music Merchants (NAMM) Foundation, its American Music Conference (AMC) division and a partnership of leading national associations working to promote the benefits of active participation in music and music education. It is the 14th time that CFBISD made the list.

ACKNOWLEDGMENTS

The preparation of this report on a timely basis could not be accomplished without the efficient and dedicated services of the entire staff of the business office and tax office. Special thanks to Nikki Pendlay, CPA, Director of Financial Reporting; Monica Marquez, Assistant Director of Finance; Gisselle Rivera-Franco, Executive Director of Budget & Financial Services; Patti Espinoza, Director of Finance; and Larry Guerra, Associate Superintendent/Chief Financial Officer; for their assistance in the preparation of this document. In addition, thanks to the Board of Trustees for their continued commitment to the students and staff of the District and for their excellent leadership.

INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees Carrollton-Farmers Branch ISD Carrollton, Texas

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Carrollton-Farmers Branch Independent School District (the "District"), as of and for the year ended August 31, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District, as of August 31, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, budgetary comparison information, pension information, and other-post employment benefit information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual nonmajor fund financial statements, required Texas Education Agency (TEA) schedules, and schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements.

To the Board of Trustees Carrollton-Farmers Branch Independent School District

The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, required TEA schedules, and schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory section, statistical section, and Schedule L-1 but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 12, 2023 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Whitley FENN LLP

Dallas, Texas January 12, 2023

CARROLLTON-FARMERS BRANCH ISD MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of Carrollton-Farmers Branch Independent School District (CFBISD or the District), we offer this narrative overview of the District's financial performance for the year ended August 31, 2022. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our transmittal letter located in the front of this report, the independent auditors' report, and the District's Basic Financial Statements which follow this section.

Financial Highlights

The assets and deferred outflows of resources of the District exceeded liabilities and deferred inflows of resources at August 31, 2022, by \$415,090,939 on the government-wide financial statements. Of this amount, unrestricted net position represents a deficit net position of \$19,728,703. This deficit is mainly due to effects of the net pension and other post-employment benefits ("OPEB) and related deferred inflows and outflows. These amounts do not affect the financial stability of the District nor does it change how the District conducts its financial decision-making. Rather, the District is reflecting its portion of the liability that the State of Texas manages and operates.

The District's governmental funds financial statements reported combined ending fund balances of \$277,598,337 at August 31, 2022, which is a decrease of \$145,002,394 in comparison to the prior year. The decrease in governmental fund balances was primarily due to a decrease of \$984,551 in the debt service fund, a decrease of \$140,562,769 in the capital projects fund and a decrease of \$5,849,114 in the nonmajor governmental funds, primarily the City of Irving TIF #1.

At the end of the current fiscal year, total unassigned fund balance for the General Fund was \$97,413,227 or 31.3 percent of the total General Fund expenditures of \$310,858,572. In addition, the General Fund has a committed fund balance of \$41,500,000 for state revenue stabilization, campus activity funds and various equipment upgrades and improvements. This amount represents 13.4 percent of total General Fund expenditures.

Overview of the Financial Statements

The Annual Comprehensive Financial Report is composed of three main sections - (A) Introductory Section, (B) Financial Section, and (C) the Statistical Section. The Financial Section of this Annual Comprehensive Financial Report consists of four parts: (1) *management's discussion and analysis* (this section), (2) the *basic financial statements*, (3) *required supplementary information*, and (4) *other supplementary information*, which is an optional section that presents additional information such as *combining and individual fund statements and schedules* for non-major and major governmental funds, internal service funds, fiduciary funds, and required compliance information.

The Management's Discussion and Analysis section is intended to serve as an introduction to the District's Basic Financial Statements. The District's Basic Financial Statements comprise three components: (1) Government-Wide Financial Statements, (2) Fund Financial Statements, and (3) Notes to the Basic Financial Statements.

The basic financial statements include two kinds of statements that present different views of the District:

The first two statements are *government-wide financial statements* that provide both *long-term* and *short-term* information about the District's *overall* financial status.

The remaining statements are *fund financial statements* that focus on *individual parts* of the government, reporting the District's operations in *more detail* than the government-wide statements.

Governmental fund statements tell how general government services were financed in the short term as well as what remains for future spending.

Proprietary fund statements offer *short* and *long-term* financial information about the activities the government operates like businesses, such as the District's After the Bell programs and self-insurance programs.

CARROLLTON-FARMERS BRANCH ISD MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Fiduciary fund statements provide information about the financial relationships in which the District acts solely as a *trustee or agent* for the benefit of others, to whom the resources in question belong.

The financial statements also include *notes* that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

Basic Financial Statements

Government-Wide Statements

All of the District's services are reported in the government-wide financial statements, including instructional, instructional leadership, student support services, general administration, support services, and debt service. Property taxes, state foundation funds, and grants finance most of these activities.

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies.

The Statement of Net Position presents information on all of the District's assets, deferred outflows and inflows of resources, and liabilities, with the difference between the four reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. To fully assess the overall health of the District, however, non-financial factors need to be considered as well, such as changes in the District's average daily attendance, its property tax base, and the condition of the District's facilities.

The Statement of Activities presents information for all of the current year's revenues and expenses regardless of when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*).

The government-wide financial statements include the District's extended learning program and facility rental program. The extended learning program provides K-6th grade students homework help and enrichment activities, while the facility rental program provides rental space for participants. The costs associated with these programs are accounted for as business-type activities.

Fund Financial Statements

A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance related requirements. The fund financial statements provide more detailed information about the District's most significant funds, not the District as a whole.

Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes. Some funds are required by State law and by bond covenants.

The Board of Trustees (the "Board") establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

CARROLLTON-FARMERS BRANCH ISD MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

The District has three fund types:

Governmental funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year.

Most of the District's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, it is useful to compare the information presented for governmental funds, with similar information presented for governmental activities in the government-wide financial statements. In doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains 27 governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, Debt Service Fund, and Capital Projects Fund, which are considered to be major funds. Data from the other governmental funds are combined in a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in the financial statements. The District adopts an annual appropriated budget for its General Fund, National School Breakfast and Lunch Program Fund, and Debt Service Fund. A budgetary comparison schedule has been provided to demonstrate compliance with these budgets.

Proprietary funds: Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. There are two proprietary fund types - enterprise and internal service funds. The District's enterprise funds are used to account for its business-type activities, an extended learning program. The internal service funds are an accounting device used to accumulate and allocate costs internally among the various functions. The District uses the internal service fund to report activities for its self-funded worker's compensation program and to fund technology replacement.

Fiduciary funds: Fiduciary funds are used to account for resources held for the benefit of parties outside the government. The District is the trustee, or *fiduciary*, for certain funds. It is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. The fiduciary funds are excluded from the activities of the District's government-wide financial statements because the District cannot use these assets to finance its operations.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a complete understanding of the data provided in the government-wide and fund financial statements.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information that further explains and supports the information in the financial statements. The Required Supplementary Information relates to General Fund budgetary comparison information and required pension system and OPEB information.

Other Supplementary Information

The Other Supplementary Information section contains information for the purpose of additional analysis and is not a required part of the basic financial statements. The other supplementary information includes combining and individual fund statements for non-major governmental funds, and internal service funds as well as budgetary comparisons for funds required to be reported, which does not meet the criteria for Required Supplementary Information. This section also includes certain compliance schedules required by State Regulatory agencies.

Government-Wide Financial Analysis

Presented in the following pages, Tables I and II are summarized Statement of Net Position and Statement of Changes in Net Position for both current and prior-year data. Our analysis focuses on the current year and the comparison of prior-year amounts on the net position (Table I) and changes in net position (Table II) of the District's governmental and business-type activities.

Net Position

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. For the year ended August 31, 2022, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources of the District by \$415,090,939.

	Governmen	tal Activities	Business-Ty	pe Activities	То	tal

Restricted	39,997,985	47,376,097	-	-	39,997,985	47,376,097
Unrestricted	(24,525,272)	(33,048,199)	4,796,569	5,847,988	(19,728,703)	(27,200,211)
Total Net Position	\$ 410,294,370	\$ 376,990,206	\$ 4,796,569	\$ 5,847,988	\$ 415,090,939	\$ 382,838,194

Table I - Net Position Summary

Unrestricted net position for governmental activities, the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements, amounted to a deficit of \$19,728,703 at August 31, 2022.

Government-wide net investment in capital assets (e.g. land, buildings and improvements, furniture and equipment, right-to use assets and construction in progress), less any related debt used to acquire those assets that is still outstanding, amounted to \$394,821,657 as of August 31, 2022. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. The calculation of net investment in capital assets excludes certain debt amounts that funded repair work that was not capitalized due to existing assets already being depreciated.

Restricted net position of the District amounted to \$39,997,985. Amounts are restricted for tax increment financing (\$19,625,909), debt service (\$16,592,959) and federal grants – child nutrition (\$3,687,621). This was a total decrease in restricted due to the normal payment of debt service principal and interest and use of the tax increment financing.

Changes in Net Position

The Net Position of the District increased by \$32,252,745 for the year ended August 31, 2022. The total revenues from taxpayers, user service fees, grants, and other sources for the District was \$399,157,947, a \$12,350,914 decrease from fiscal year 2021. The overall decrease in revenues was met with an even larger decrease in overall expenses in the amount of \$24,451,274. This is related to the negative pension and OPEB expense and to the additional COVID-19 expenses in the prior fiscal year preparing for the return and safety of students and staff.

Table II - Change in Net Position

Governmental Activities

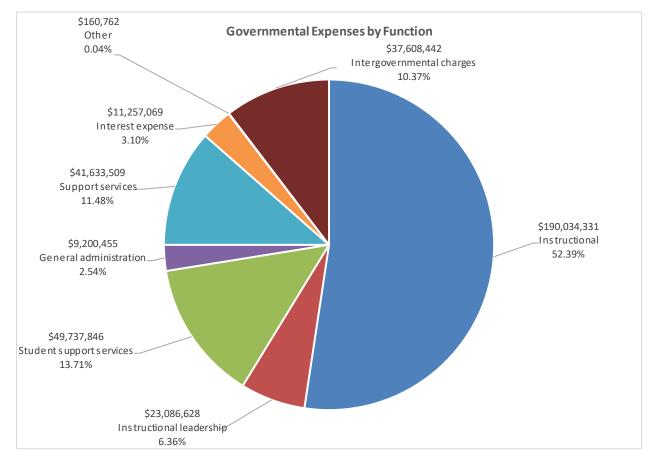

Revenues for the District's governmental activities decreased year over year by \$12,856,952 for the year ended August 31, 2022 compared to prior year. The primary decreases related to State aid (\$7,210,823) or 17.8 percent, and operating grants (\$7,051,619) or 12.4 percent. The decrease in State aid is directly related to the increase in taxable values and an increase in the instructional materials allotment. Operating grants decreased overall due to ESSER funding that was utilized in fiscal year 2021 for the additional COVID-19 expenses. The decrease in grants and state aid were offset by increases in investment earnings (\$1,370,665) due to a shift from pools and deposit accounts to long-term investments, and miscellaneous and local revenue (\$3,019,942) as students returned to a full year of activity.

Approximately 77.21 percent of the District's revenues derived from property taxes, with an additional 12.62 percent derived from operating grants and contributions and 8.39 percent from state aid formula grants. These percentages are consistent with prior year ratios.

Total governmental activities expenses per pupil totaled \$13,491 for the fiscal year 2021 compared to \$12,585 for fiscal year 2022 based on average daily attendance (ADA). This decrease is primarily due to the additional cost in operating expenses related to safety precautions and ensuring students and teachers were equipped for both in person and remote learning during fiscal year 2021. These costs were reduced in fiscal year 2022.

Net Expenses for the District's governmental activities were \$311,202,563 in fiscal year 2022 versus \$328,579,286 in fiscal year 2021 which is a net change of \$17,376,723. Instructional activities amounted to 52.39 percent of the District's expenses. When combined with student and other support services such as transportation, counseling and nursing, 77.58 percent of the District's expenses were spent on direct student services.

The graph below illustrates the governmental expenses by function (summarized):

Business-Type Activities

Revenues for the District's business-type activities were \$3,134,741 and expenses were \$4,186,160 for the year ended August 31, 2022 compared to \$2,628,703 of revenue and \$4,192,849 of expenses for the year ended August 31, 2021. The increase in revenue is attributable to the After the Bell program operating at full capacity during fiscal year 2022.

Financial Analysis of the District's Funds

Governmental Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements, bond covenants, and segregation for particular purposes.

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of a fiscal year.

As of August 31, 2022, the District's governmental funds (shown on Exhibit C-1) reported a combined ending fund balance of \$277,598,337, a decrease of \$145,002,394 from last year. The Capital Projects fund balance decreased \$140,562,769 due to the progress of capital projects . The General fund balance increased \$2,394,040 due to an increase in federal program revenues. Decrease in expenditures related to a decrease in Chapter 41 payments and all other expenditures coming in under budget.

A recap of total fund balance for all governmental funds follows:

Nonspendable:		
Inventories	\$	1,402,573
Prepaid items		22,691
Restricted:		
Food service		3,687,621
Capital acquisition and contractual obligations		93,989,333

Tax increment financing		19,625,909
Committed:		
Campus activity funds		3,481,413
Building construction, repairs and renovations		3,032,277
Technology capital replacements		4,000,000
Transportation upgrades		3,000,000
State revenue stabilization		27,000,000
Safety and security enhancements		3,000,000
Assigned:		
Education, technology and operational funds		1,349,163
Assigned Fund Balance - Other		1,227
Unassigned:		
Unassigned		97,413,171
Total Fund Balances	\$2	277,598,337

General Fund

The General Fund is the primary operating fund of the District. At the end of the year ended August 31, 2022, unassigned fund balance of the General Fund was \$97,413,227. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 31.3 percent of the total General Fund actual expenditures for fiscal year 2022, while total fund balance represents 45.4 percent of that same amount.

Debt Service Fund

The Debt Service Fund realized revenues of \$51,020,861 and expenditures of \$52,183,138 for the year ended August 31, 2022. Expenditures include \$38,430,000 of retirement of principal and \$13,753,138 of interest expense and other debt service costs. The fund balance of the Debt Service Fund, restricted for the payment of the District's debt, decreased by \$984,551 and totaled \$16,592,959 at August 31, 2022.

Capital Projects Fund

The Capital Projects fund balance decreased by \$140,562,769 primarily due to the progress of capital projects in the amount of \$141,237,494. This resulted in a fund balance of \$93,989,333 as of August 31, 2022.

General Fund Budgetary Highlights

The District revised the General Fund budget several times during the year ended August 31, 2022. Budget revenue amendments totaling \$14 million were approved by the Board resulting in revenue increases. The increase constituted a \$14 million increase in tax revenue.

Budgeted appropriations for expenditures for the General Fund increased \$8.2 million due to \$6.5 million in Chapter 49 costs, \$800k in student transportation, \$300k in security, \$300k in counseling, and an overall increase of \$300k across instruction, curriculum, staff development, and data processing services.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2022, the District's investment in capital assets was \$676,517,233, net of accumulated depreciation. The investments in capital assets include a broad range of capital assets, including land, buildings, and improvements (includes infrastructure), furniture and equipment, and construction in progress. This amount represents a net increase (including additions and deletions) of \$132,424,124. Major additions for 2022 include renovations for 4 middle schools and 6 elementary schools.

Table III - Capital Asset Summary

	Governmental Activities			
	2022 2021			
Land	\$ 60,877,236	\$ 60,877,236		
Construction in progress	165,281,649	98,291,482		
Land improvements	24,531,426	20,291,259		
Building and improvement	410,801,986	348,365,767		
Furniture and equipment	14,599,108	16,267,365		
Right-to-use assets	425,828			
Total Capital Assets,				
Net of Depreciation/Amortization	\$ 676,517,233	\$ 544,093,109		

Additional information on the District's capital assets can be found in Note 7 of the financial statements.

Debt Administration

At August 31, 2022, the District had total long-term liabilities \$500,445,179. Of this amount, \$375,306,928 (net) comprises debt backed by the full faith of the State of Texas Permanent School Fund. The District's net Bonds Payable decreased by \$43,018,882 due to the payment of bond principal and premium amortization as well as the issuance of refunding bonds. The

District experienced a decrease of \$43,565,699 in its proportional share of the TRS net pension liability and an increase of \$1,532,694 in its proportional share of the TRS-Care post-employment benefit liability during the measurement year ended August 31, 2021 due to the actuarial expected results compared to actual.

The District's current underlying credit rating is "AA+" by Fitch Ratings (Fitch) and "AAA/AA+" by Standard & Poor's and is given without consideration of credit enhancement. In addition, the Texas Permanent School Fund is rated "AAA" by Fitch.

Table IV - District's Outstanding Debt

	Governmental Activities			
	2022	2021		
Bonds payable	\$ 375,306,928	\$ 418,325,810		
Lease payable	411,136	-		
Net pension liability	41,942,224	85,507,923		
Net OPEB liability	79,650,995	78,118,301		
Other long-term debt payable	3,133,896	3,449,720		
Subtotal	500,445,179	585,401,754		
Less current portion	(43,966,624)	(36,866,118)		
Total due in more than one year	\$ 456,478,555	\$ 548,535,636		

More detailed information about the District's debt, net pension liability, and net OPEB liability is presented in Note 10, Note 13, Note 14 and Note 15, respectively, of the financial statements.

Economic Factors and Next Year's Budgets and Rates

The Dallas-area economy has not been negatively impacted by COVID-19. Employment in the area remains stable, while the housing market remains extremely competitive. Real estate inventories remain extremely tight, which fueled higher than anticipated property valuation growth. The District worked with the Dallas and Denton Central Appraisal Districts and property value increased by 11% throughout the pandemic for fiscal year 2022-23.

The District budgeted General fund revenue for fiscal year 2022-23 of \$314.075 million compared to actual revenues for fiscal year 2021-22 of \$313.187 million.

Fiscal year 2022-23 budgeted expenditures of \$314.075 million includes a salary increase for teachers and other professional positions and addresses learning loss of students due to the impact COVID-19 by introducing innovative scheduling at the secondary level and itinerant interventionists at the elementary level.

The Debt Service Budget for 2022-23 maintains the tax rate of \$0.20 due to the 2018 bond program implementation. The total tax rate, based on HB 3 compression of the M&O rate of \$.9429, is \$1.143 and was approved by the Board on August 18, 2022. The District's M&O rate decreased from \$1.0012 to \$.9429 from the prior year.

Requests for Information

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District's financial services office.

TO STATEMENT OF NET POSITION

Data Control Codes		
	Total Fund Balance, Governmental Funds	\$ 277,598,337
	Amounts reported for governmental activities in the statement of Net position are different because:	
1	The District uses internal service funds to charge the costs of certain activities, such as self- insurance and technology, to appropriate functions in other funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position. The net effect of this consolidation is to increase net position.	14,221,020
		14,221,020
2	Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds.	1,142,732,493
3	Accumulated depreciation/amortization has not been included in the governmental fund financial statements.	(466,215,260)
4	Deferred inflows reported as unavailable revenue in the governmental fund financial statements were recorded as revenue in the government-wide financial statements.	3,959,885
5	Deferred loss on refunding	33,155
6	Deferred inflows and outflows related to pension activities	(24,849,150)
7	Deferred inflows and outflows related to OPEB activities	(37,523,948)
	Long-term liabilities, including bonds payable, are not due and payable in the current period, and therefore are not reported as liabilities in the funds. Long-term liabilities at year end consist of:	
8	General obligation bonds	(336,185,000)
9	Premiums on issuance	(39,121,928)
10	Leases payable	(411,136)
11	Accrued interest payable	(560,409)
12	Accrued compensated absences	(1,790,470)
13	Net pension liability	(41,942,224)
14	Net OPEB liability	(79,650,995)
19	Total Net Position-Governmental Activities	\$ 410,294,370

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

For the Year Ended August 31, 2022

	Net change in fund balances - total governmental funds (from C-3)	\$ (145,002,39
1	The District uses internal service funds to charge the costs of certain activities, such as self- insurance and technology, to appropriate functions in other funds. The net income (loss) of internal service funds are reported with governmental activities. The net effect of this consolidation is to decrease net position.	(2,610,46
2	Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long- term debt in the government-wide financial statements. The net effect of removing the current year capital outlays is to increase net position.	156,021,54
3	Depreciation and amortization is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The net effect of the current year's depreciation and amortization is to decrease net position.	(24,293,6
4	The net affect of other retirements and adjustments to capital assets	(119,9
5	Revenue from property taxes is unavailable in the fund financial statements until they are considered available to finance current expenditures, but such revenues are recognized when assessed net of allowance for uncollectible accounts in the government-wide statements.	674,2
	Proceeds from issuance of long-term debt is reported as an other financing source in the governmental funds. In the government-wide financial statements, proceeds are treated as an increase in long-term liabilities and amounts paid to refunding agents are treated as a decrease in long-term liabilities.	
6	Proceeds from issuance of refunding bonds	(13,370,0
7	Premium on refunding bonds	(1,163,7
8	Payment to escrow agent for refunded bonds	14,386,8
	Some expenses reported in the statement of activities do not require the use of current financial resources and these are not reported as expenditures in governmental funds:	
9	Current year long-term debt principal payments on bonds payable are expenditures in the fund financial statements but are shown as reductions in long-term debt in the government-wide financial statements.	38,430,0
10	Current year long-term debt principal payments on lease payable are expenditures in the fund financial statements but are shown as reductions in long-term debt in the government-wide financial statements.	405,0
11	Interest is accrued on outstanding debt in the government-wide financial statements whereas in the fund financial statements, interest expenditures are reported when due.	79,9
12	Premiums on bonds issued are recognized in the fund financial statements as other financing sources but they are amortized over the term of the bonds in the government-wide financial statements.	2,242,4
13	Amortization of deferred charges on bond refundings is not recognized in the governmental funds. The effect of recording current year's amortization is to increase net position.	
14	The liability for accrued compensated absences is not recognized in the governmental funds. The effect of recording the current year's liability is to increase net position.	183,6 166,7
15	Changes in net pension liabilities and related deferred outflows and inflows of resources	3,536,0
	Changes in net OPEB liabilities and related deferred outflows and inflows of resources

CARROLLTON-FARMERS BRANCH ISD NOTES TO THE FINANCIAL STATEMENTS

Note 1 - Summary of Significant Accounting Policies

Carrollton-Farmers Branch Independent School District (the "District") is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven-member Board of Trustees (the "Board") elected by registered voters of the District. The District prepares its basic financial statements in conformity with generally accepted accounting principles promulgated by the Governmental Accounting Standards Board (GASB) and other authoritative sources identified in the Statement on Auditing Standards No. 69 of the American Institute of Certified Public Accountants; and it complies with the requirements of the appropriate version of Texas Education Agency's Financial Accountability System Resource Guide (the "Resource Guide") and the requirements of contracts and grants of agencies from which it receives funds.

Reporting Entity

The Board of Trustees (the "Board") is elected by the public and it has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the accountability for fiscal matters. Therefore, the District is a financial reporting entity as defined by the Governmental Accounting Standards Board ("GASB") in its Statement No. 14, "The Financial Reporting Entity," as amended by GASB 39 "Determining Whether Certain Organizations Are Component Units." There are no component units included within the reporting entity.

Government-Wide and Fund Financial Statements

The statement of net position and the statement of activities are government-wide financial statements. They report information on all of the Carrollton-Farmers Branch Independent School District's nonfiduciary activities. Internal service fund activity is eliminated to avoid overstatement of revenues and expenses. Interfund services provided and used are not eliminated in the process of consolidation. *Governmental activities* include programs supported primarily by taxes, State Foundation funds, grants and other intergovernmental revenues. Business-type activities include operations that rely to a significant extent on fees and charges for support.

The statement of activities demonstrates how other people or entities that participate in programs the District operates have shared in the payment of the direct costs. The "charges for services" column includes payments made by parties that purchase, use, or directly benefit from goods or services provided by a given function or segment of the District. Examples include tuition paid by students not residing in the district, school lunch charges, etc. The "grants and contributions" column includes amounts paid by organizations outside the District to help meet the operational or capital requirements of a given function. Examples include grants under Elementary and Secondary Act. If a revenue is not a program revenue, it is a general revenue used to support all of the District's functions. Taxes are always general revenues.

Interfund activities between governmental funds and proprietary funds appear as due to/due from on the governmental fund balance sheet and proprietary fund statement of net position. All interfund transactions between governmental funds and internal service funds are eliminated on the government-wide statements. Interfund activities between governmental and fiduciary funds are included in the statement of net position as receivable or payable to external parties (consistent with the nature of the fiduciary fund).

The fund financial statements provide information on the financial condition and results of operations for three fund categories – governmental, proprietary, and fiduciary. Since the resources in the fiduciary funds cannot be used for District operations, they are not included in the government-wide statements. The District considers some governmental funds major and reports their financial condition and results of operation in a separate column.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues result from providing goods and services in connections with a proprietary fund's principal ongoing operations; they usually come from exchange or exchange-like transactions. All other revenues are nonoperating. Operating expenses can be tied specifically to the production of goods and services, such as materials and labor and direct overhead. All other expenses are nonoperating.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 1 - Summary of Significant Accounting Policies (continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting, as do the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. The effect of interfund activity has been eliminated from the government-wide financial statements. Custodial funds use the economic resources measurement focus.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, deferred outflows of resources, current liabilities, deferred inflows of resources and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are due and payable. The District considers all revenues available if they are collectible within 60 days after year end.

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefits terms. Investments are reported at fair value. The general fund and special revenue funds are used to liquidate net pension/OPEB liabilities.

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS-Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources, and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS-Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as unearned revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 1 - Summary of Significant Accounting Policies (continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

The Proprietary Fund Types are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the Statement of Net Position. The fund equity is segregated into net investment in capital assets, restricted net position, and unrestricted net position.

Fund Accounting

The District reports the following major governmental funds:

- 1. **General Fund** The General fund is the District's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.
- 2. **Debt Service Fund** The District accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds in a debt service fund.
- 3. **Capital Projects Fund** The proceeds from long-term financing and revenues and expenditures related to authorized construction and other capital asset acquisitions are accounted for in a capital projects fund.

Additionally, the District reports the following fund type(s):

Governmental Funds:

Nonmajor Special Revenue Funds – The District accounts for resources restricted to, or designated for, a specific
purpose by the District or a grantor in a special revenue fund. Federal, State, and Local financial assistance is
accounted for in a Federal, State, or Local Revenue Fund, and sometimes unused balances must be returned to the
grantor at the close of specified project periods.

Proprietary Funds:

- 2. Enterprise Fund (After the Bell) Utilized by the District to account for activities for which outside users are charged a fee roughly equal to the cost of providing the goods or services of those activities. The District's sole enterprise fund accounts for the After the Bell program.
- 3. Internal Service Funds Revenues and expenses related to services provided to organizations inside the District on a cost reimbursement basis are accounted for an internal service fund. The District's internal service funds account for the Worker's Compensation Fund and the Technology Fund.

Fiduciary Funds:

4. **Custodial Funds** – The custodial fund is used to account for resources, not in a trust, that are held by the District for parties outside of the District's reporting entity.. The District's two custodial funds are the Student Activity Fund and the Educational Purchasing Cooperative of North Texas (EPCNT) fund.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 1 - Summary of Significant Accounting Policies (continued)

Cash and Cash Equivalents

For purpose of the statement of cash flows for proprietary and similar fund-types, the District considers highly liquid investments to be cash equivalents if they have a maturity of three months or less when purchased.

Interfund Receivables and Payables

Activities between funds that are representative of lending or borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

Property Taxes

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which they are imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the school fiscal year. The assessed value of the certified roll, upon which the levy for the 2022 fiscal year was based upon, was \$25,573,456,083.

Taxes are due on October 1 and become delinquent by February 1 following the October 1 levy date. Current tax collections for the year ended August 31, 2022 were 99.06% of the tax levy.

The tax rates assessed for the year ended August 31, 2022 to finance general fund operations and the payment of principal and interest on general obligation long-term debt were \$1.0013 and \$0.2000 per \$100 valuation, respectively, for a total of \$1.2013 per \$100 valuation.

Investments

The District's general policy is to report money market investments and short-term participating interest-earning investments contracts at amortized cost and to report nonparticipating interest-earning contracts using a cost-based measure. However, if the fair value of an investment is significantly affected by the impairment of the credit standing of the issuer or by other factors, it is reported at fair value. All other investments are reported at fair value unless a legal contract exists which guarantees a higher value. The term "short-term" refers to investments, which have a remaining term of one year or less at time of purchase. The term "nonparticipating" means that the investment's value does not vary with market interest rate changes.

Inventories

The consumption method is used to account for inventories of instructional, technology, maintenance, and other operating supplies. Under this method, these items are carried in an inventory account of the respective fund at average cost and are subsequently charged to expenditures when consumed. Although food commodities are received at no cost, their fair market value is supplied by the Texas Department of Agriculture and recorded as inventory. In the governmental funds, a non-spendable fund balance indicates that inventories are unavailable as current expendable financial resources.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 1 - Summary of Significant Accounting Policies (continued)

Prepayments

Certain payments to vendors reflect cost applicable to future accounting periods and are recorded using the consumption method in both government-wide and fund financial statements. The prepaid items have been identified as a non-spendable fund balance since it is not available for other subsequent expenditures.

Capital Assets

Capital assets, which include land, buildings, furniture, equipment, and right-to-use assets are reported in the applicable governmental activities' column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements with total project cost of \$100,000 or greater are capitalized as projects when constructed.

Land improvements, buildings, furniture and equipment and right-to-use assets of the District are depreciated or amortized using the straight-line method over the following estimated useful lives:

Assets	Years
Land improvements	20
Buildings and improvements	20 - 50
Furniture and equipment	5 - 10
Right-to-use assets	5

Liability for Compensated Absences

Employees are allowed to accrue five days of state personal leave and five days of local sick leave each year without limit. The District pays a portion of accrued sick leave to retiring personnel meeting state eligibility requirements for retirement. The payment is limited to state and local leave days accumulated while employed in the District at the approved substitute teacher pay rate up to a ceiling of \$5,000.

Teachers and administrative personnel do not receive paid vacations but are paid only for the number of days they are required to work each year (187 days for teachers and 230 days for administrative personnel).

Maintenance employees are granted vacation leave in varying amounts. In the event of termination an employee is reimbursed for unused accumulated leave. The District has no liability for unused vacation pay since all vacation is used or lost if not taken each year. Vacation pay is charged to operations when taken by the employees of the District. The general fund and special revenue funds are used to liquidate accrued compensated absences balances.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 1 - Summary of Significant Accounting Policies (continued)

Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Gains or losses on bond refundings are recorded as deferred outflows of resources and amortized over the lesser of the remaining life of the old debt or the life of the new debt using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed as incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs are reported as debt service expenditures. Gains or losses on refunding are not recognized in these financial statements.

Leases

The District is a lessee for noncancellable leases of copiers. The District recognizes a lease liability and an intangible right-touse lease asset (lease asset) in the government-wide financial statements. The District recognizes lease liabilities with an initial, individual value of \$5,000 or more.

At the commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the District determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The District uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the District is reasonably certain to exercise.

The District monitors changes in circumstances that would require remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 1 - Summary of Significant Accounting Policies (continued)

Deferred Outflows and Inflows of Resources

A deferred outflow of resources represent a consumption of net assets that applies to future periods. The District has three items that qualify for reporting in this category:

- Deferred outflows of resources for pension Reported in the government-wide financial statement of net position, this deferred outflow results from pension plan contributions made after the measurement date of the net pension liability and the results 1) changes in actuarial assumptions; 2) differences between expected and actual actuarial experiences, and 3) changes in the District's proportional share of pension liabilities. The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the next fiscal year. The remaining pension related deferred outflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with pensions through the pension plan.
- Deferred outflows of resources for post-employment benefits Reported in the government-wide financial statement
 of net position, this deferred outflow results from Other Post Employment Benefit (OPEB) plan contributions made
 after the measurement date of the net OPEB liability and the results of 1) differences between projected and actual
 earnings on OPEB plan investments and 2) changes in the District's proportional share of OPEB liabilities. The deferred
 outflows of resources related to other post-employment benefits resulting from District contributions subsequent to
 the measurement date will be recognized as a reduction of the net other postemployment benefit liability in the next
 fiscal year. The deferred outflows resulting from differences between projected and actual earnings on OPEB plan
 investments will be amortized over a closed five-year period. The remaining deferred outflows will be amortized over
 the expected remaining service lives of all employees (active and inactive employees) that are provided with other
 post-employment benefits through the other postemployment benefit plan.
- Deferred outflows of resources for refunding Reported in the government-wide statement of net position, this deferred gain on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

A deferred inflow of resources represents an acquisition of net assets that applies to future periods. The District has three items that qualify for reporting in this category:

- Deferred inflows of resources for unavailable revenues Reported only in the governmental funds balance sheet, unavailable revenues from property taxes arise under the modified accrual basis of accounting. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.
- Deferred inflows of resources for pension Reported in the government-wide financial statement of net position, these deferred inflows result primarily from 1) differences between projected and actual earnings on pension plan investments, 2) changes in actuarial assumptions, 3) differences between expected and actual actuarial experiences, and 4) changes in the District's proportional share of pension liabilities. The deferred inflows resulting from differences between projected and actual earnings on pension plan investments will be amortized over a closed five year period. The remaining pension related deferred inflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with pensions through the pension plan.

Note 1 - Summary of Significant Accounting Policies (continued)

Deferred Outflows and Inflows of Resources (continued)

Deferred inflows of resources for other post-employment benefits – Reported in the government wide financial statement of net position, these deferred inflows result primarily from 1) changes in actuarial assumptions and 2) differences between expected and actual actuarial experiences. These other post-employment benefit related deferred inflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with other post-employment benefits through the other post-employment benefit plan.

Pensions

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes, for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities, and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Post-Employment Benefits

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes, for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities, and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as you-go plan and all cash is held in a cash account.

Fund Balance Classification

Beginning with the fiscal year ended August 31, 2011, the District implemented GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions." This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balances more transparent.

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

Non-spendable – This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. The District has classified inventories as being non-spendable as these items are not expected to be converted to cash.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 1 - Summary of Significant Accounting Policies (continued)

Fund Balance Classification (continued)

Restricted – This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. TIF funds are to be used to fund capital projects within the TIF zones. Debt service resources are to be used for future servicing of the District's bonded debt and are restricted through debt covenants. Capital projects fund resources are to be used for future construction and renovation projects and are restricted through bond orders and constitutional law. Food service and other Federal and State grant resources are restricted because their use is restricted pursuant to the mandates of the National School Lunch and Breakfast Program or other grant requirements.

Committed – This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action to the District's Board of Trustees. The Board of Trustees establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This can also be done through adoption and amendment of the budget. These amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The Board of Trustees has committed resources as of August 31, 2022 for campus activities, construction, maintenance, safety and security enhancements, transportation upgrades, technology projects, state revenue stabilization, and state spending requirements.

Assigned – This classification includes amounts that are constrained by the District's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board of Trustees delegating this responsibility to other individuals in the District. Under the District's adopted policy, only Board of Trustees may assign amounts for specific purposes.

Unassigned – This classification includes all amounts not included in other spendable classifications, including the residual fund balance of the General Fund. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those specific purposes.

Net Position

Net position represents the differences between assets, deferred outflows, liabilities, and deferred inflows. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings, used for the acquisition, construction, or improvement of those assets. Net investment in capital assets excludes unspent bond proceeds. Net position is reported as restricted when there are limitations imposed on its use through external grantors, laws, or regulations of other governments.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board of Trustees has provided otherwise in its commitment or assignment actions.

Encumbrance Accounting

Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas Law, appropriations lapse at August 31, and encumbrances outstanding at that time are to either be canceled or appropriately provided for in the subsequent year's budget.

Note 1 - Summary of Significant Accounting Policies (continued)

Data Codes

The Data Control Codes refer to the account code structure prescribed by TEA in the *Financial Accountability System Resource Guide*. Texas Education Agency requires school districts to display these codes in the financial statements filed with the Agency in order to ensure accuracy in building a statewide database for policy development and funding plans.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

The amount of state foundation revenue a school district earns for a year can and does vary until the time when final values for each of the factors in the formula become available. Availability can be as late as midway into the next fiscal year. It is at least reasonably possible that the foundation revenue estimates as of August 31, 2022 will change.

Implementation of New Accounting Standards

GASB No. 87, *Leases*, was issued to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The District has incorporated such leases into its capital assets and long-term liabilities on both the face of the financial statements and the note disclosures.

No. 97 Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans – An Amendment of GASB Statements No. 14 and No. 84, and a Supersession of GASB Statement No. 32 was issued in June 2020. This Statement provides guidance regarding the financial reporting of defined contribution pension plans, defined contribution OPEB plans, and other employee benefit plans. The Statement will also enhance (1) information related to Section 457 plans that meet the definition of a pension plan and the benefits provided through those plans and (2) investment information for all Section 457 plans. Paragraphs 4 and 5 of the Statement were effective immediately whereas the remaining requirements of this Statement are effective for periods beginning after June 15, 2021. The District has evaluated the effects of this standard and has determined that this Statement does not impact the financial statements.

CARROLLTON-FARMERS BRANCH ISD NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 2 - Cash and Investments

Authorization for deposits and investments

The Texas Education Code (TEC) and the Texas Public Funds Investment Act (PFIA), as prescribed in Chapter 2256 of the Texas Government Code and the District Investment Strategy, regulate deposits and investment transactions of the District.

The TEC authorizes the District to invest any of its funds in direct debt securities of the United States or other types of bonds, securities, and warrants in accordance with applicable provisions.

The TEC authorizes the District to place the proceeds from debt issues in properly secured or collateralized interest-bearing time deposits with any Texas state or national bank having federal depository insurance coverage (FDIC) for depositors or directly in bonds or other obligations of the United States or U.S. Agency securities. TEC requirements prohibit the District from investing debt issue proceeds in interest-bearing time deposits that have any chance of original invested principal loss.

In accordance with applicable statutes, the District has a depository contract with a local bank (depository) providing interest rates to be earned on deposited funds and fixed fees for banking services received. The District may place funds with the depository in interest and non-interest-bearing accounts. Statutes and the depository contract require full security for all funds in the depository institution through federal depository insurance or a combination of federal depository insurance and acceptable collateral securities and/or an acceptable surety bond. The depository must deliver the collateral securities to the District or place them with an independent trustee institution. The depository is required to deliver the safekeeping receipts to the District. In accordance with Texas statutes, the safekeeping receipts are in the name of the depository with proper indication of pledge of the collateral securities by the depository to secure funds of the District. The District must approve all collateral securities pledged and also must approve in writing any changes to the pledged collateral securities.

The District has adopted a written investment policy [CDA (LEGAL) and CDA (LOCAL)] regarding the investment of its funds as defined by the PFIA. The PFIA also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act. The District complies with the requirements of the Act and with local policies.

The District's investment policy permits investment of District funds in only the following investment types, consistent with the strategies and maturities defined in the policy:

- Obligations of, or guaranteed by, governmental entities as permitted by Government Code 2256.009.
- Obligations of states, agencies, counties, cities, and other political subdivisions as permitted by Government Code 2256.009.
- Certificates of deposit and share certificates as permitted by Government Code 2256.010.
- Fully collateralized repurchase agreements permitted by Government Code 2256.011.
- A securities lending program as permitted by Government Code 2256.0115.
- Banker's acceptances as permitted by Government Code 2256.012.
- Commercial paper as permitted by Government Code 2256.013.
- No-load mutual funds, except for bond proceeds, and no-load money market mutual funds, as permitted by Government Code 2256.014.
- A guaranteed investment contract as an investment vehicle for bond proceeds, provided it meets the criteria and eligibility requirements established by Government Code 2256.015.
- Public funds investment pools as permitted by Government Code 2256.016.

At August 31, 2022, the carrying amount of the District's deposits including CD's and money market accounts was \$58,641,556 and the bank balance was \$93,808,753. The District's deposits at the various institutions were covered in part by FDIC, SIPC, letters of credit or pledged collateral held by the District's agent in the name of the District in accordance with Texas Government Code, Chapter 2257, Public Funds Collateral Act and the District's Investment Policy.

Note 2 - Cash and Investments (continued)

Authorization for deposits and investments (continued)

Statutes and the District's investment policy authorized the District to invest in the following investments as summarized in the following table:

	 Cash and Deposits	Investment Pools	 nvestments	 Total
General fund	\$ 37,462,910	\$ 62,265,616	\$ 54,169,192	\$ 153,897,718
Debt service fund	192,210	16,430,350	-	16,622,560
Capital projects fund	1,069,006	27,138,834	96,966,997	125,174,837
Non-major governmental funds	 6,993,027	 21,921,989	 -	 28,915,016
Total Governmental Funds	 45,717,153	 127,756,789	 151,136,189	 324,610,131
Internal service funds	 12,256,844	 3,433,543	 -	 15,690,387
Total Governmental Activities	 57,973,997	 131,190,332	 151,136,189	 340,300,518
Enterprise Funds	361,755	4,701,541	-	5,063,296
Fiduciary Funds	 305,804	 -	 -	 305,804
Total Investments	\$ 58,641,556	\$ 135,891,873	\$ 151,136,189	\$ 345,669,618

For reporting purposes, cash deposits, money markets and investment pools are considered cash equivalents.

The following table includes the portfolio balance, credit rating, and percentage of the portfolio balance by investment type and weighted average days to maturity of investments held by the District as of August 31, 2022:

		Fair Value/	Percentage of	Weighted Avg. Maturity	S & P/Moody's Credit Quality
Governmental Activities	Ar	nortized Cost	Investments	Days	Rating
Certificates of Deposit					
Gulf Coast Educators FCU	\$	15,186,407	5.3%	9	n/a
Gulf Coast Educators FCU		15,212,572	5.3%	18	n/a
Commercial Paper					
Toyota Motors		9,995,459	3.5%		A-1+

Nashville, TN		2,240,479	0.8%	2	AA
Total Governmental Activities	\$	287,028,062	100%	260	

*Per GASB 79, valued at amortized cost

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 2 - Cash and Investments (continued)

Authorization for deposits and investments (continued)

Investments' fair value measurements are as follows at August 31, 2022:

	 Fair Value		Level 1 Inputs	Level 2 Inputs	 Level 3 Inputs
Certificates of Deposit	\$ 30,398,979	\$	-	\$ 30,398,979	\$ -
Debt Securities:					
U.S. Agency Securities	4,967,753		-	4,967,753	-
Commercial Paper	9,995,459		-	9,995,459	-
Municipal Bonds	8,807,001		-	8,807,001	-
Repurchase Agreement	 96,966,997	_		96,966,997	 -
Total	\$ 151,136,189	\$		\$151,136,189	\$

As of August 31, 2022, the District's investments included the Texas Local Government Investment Pool (TexPool), MBIA Texas CLASS Investment Pool, and the Texas Fixed Income Trust (TX-FIT).

TexPool policies require that local government deposits be used to purchase investments authorized by the Public Funds Investment Act of 1987, as amended. The Texas State Comptroller of Public Accounts exercises oversight responsibility over TexPool. Federated Investors manages the daily operations of the pool under a contract with the Comptroller.

MBIA Texas Class Pool is duly chartered by the State of Texas Interlocal Cooperation Act, is administered and managed by MBIA Municipal Investors Service Corporation. Wells Fargo Bank N.A. is the custodial bank. The primary objectives of MBIA Texas Class Pool, is to maintain safety of principal while providing participating government entities (Participants) with the highest possible rate of return for invested funds. The District's amortized cost in the MBIA Texas Class Pool is the same as the value of the pool shares.

The TX-FIT Cash Pool is a money market alternative for local government investors that is managed to a dollar in/dollar out strategy. Offering same day liquidity, the Cash Pool is a short-term investment product designed to add diversification with multiple asset classes while seeking to preserve principal and maximize yield.

The value of District portions in the pools are the same as the value of the shares. TexPool and Texas Class use amortized cost rather than fair value to report net position to compute share price. Accordingly, the fair value of the positions of the pooled funds is the same as the value of the external pool shares. The funds are structured similar to a money market mutual fund which allows shareholders the ability to deposit or withdraw funds on a daily basis. Interest rates are also adjusted on a daily basis. Such funds seek to maintain a constant net asset value of \$1, although this cannot be fully guaranteed. TexPool and TexSTAR pooled funds have a weighted average maturity of 36 and 33 days respectively. However, the District can redeem its share position within one day when necessary. TX-FIT does not meet all of the specific criteria outlines in GASB 70 paragraph 4, therefore value in the TX-FIT pool is measured at fair value rather than amortized cost.

The District's investment in a repurchase agreement is collateralized by Eligible Securities, (a) Cash and (b) Obligation, including letters of credit, of the United States of America or its agencies and instrumentalities, at a ratio of 102% as required per the Master Repurchase Agreement. The final repurchase date is March 1, 2024. At August 31, 2022 the fair value of the pledged securities was \$96,966,997.

Note 2 - Cash and Investments (continued)

Authorization for deposits and investments (continued)

If the rating assigned to the long-term senior unsecured debt obligation of the counterparty to the District's repurchase agreement fails to have a rating of or higher than "Baa3" by Moody's and "BBB- "by S&P and "BBB-" by Fitch, the counterparty must notify the District with 10 business days. The counterparty shall (a) increase the margin ratio to 104% (b) assign its rights and obligations to an entity reasonably acceptable to the District which meets the rating requirements or (c) obtain a guarantee of it obligations from an entity reasonable acceptable to the District and which meetings the ratings requirements. If the counterparty does not take one of the preceding actions within 10 business days, the District shall have the right, but not the obligation to terminate the Agreement and may cause the repurchase of all purchased securities. At August 31, 2022 the credit rating assigned to the counterparty is "Baa1" by Moody's, "BBB+" by S&P and "A- "by Fitch.

The District invests in various types of investment securities at August 31, 2022. These include U.S. Government Agencies, Treasury Notes, certificates of deposit, commercial paper, and municipal bonds in which the carrying value reflect the fair value of the investments. The District estimates the fair value of the investments using inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Investment risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. All investments in certificates of deposit are fully covered by federal depository insurance. Presented below is the minimum rating required by (where applicable) the Public Funds Investment Act, the District's investment policy, or debt agreements, and the actual rating as of year-end for each investment in public funds investment pools.

The risk exposure for governmental and business-type activities, major funds, the internal service fund, and fiduciary fund types of the District are not significantly greater than the deposit and investment risk of the overall primary government. The District's Investment Policy segregates the portfolios into strategic categories including:

- 1. General Fund
- 2. Debt Service Fund
- 3. Capital Projects Fund
- 4. Special Revenue and Other Special-Purpose Funds

The District's Investment Policy seeks to control credit risk. Such risk is controlled by investing only in instruments of the highest credit quality; pre-qualifying the brokers and financial institutions with whom the District conducts business; obtaining sufficient collateral when required; diversifying investments among security types, issuers, and maturity dates; limiting final and weighted average maturities; and closely monitoring credit ratings.

In accordance with GASB 79, the LGIP's do not have any limitations and restrictions on withdrawals such as notice periods or maximum transaction amounts. Both pools do not impose any liquidity fees or redemption gates.

Interest rate risk is the risk that changes in interest rates may adversely affect the value of the investments. The District monitors interest rate risk utilizing weighted average maturity analysis. In accordance with the Investment Policy, the District reduces its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to no more than 365 days, with the exception of debt service and capital projects funds which are matched to a specific cash flow for liquidity. In addition, the District shall not directly invest in an individual security maturing more than five years from the date of purchase. All investments at year-end complied with the Investment Policy in regard to maximum maturity dates and weighted average maturity limitations.

CARROLLTON-FARMERS BRANCH ISD NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 2 - Cash and Investments (continued)

Concentration of credit risk

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer. As of August 31, 2022, the District had 33.8% of its investments in a repurchase agreement.

Custodial credit risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The Public Funds Investment Act and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: The Public Funds Investment Act requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least the bank balance less FDIC insurance at all times.

As of August 31, 2022, the District deposits with financial institutions in excess of federal depository insurance limits were fully collateralized. All certificates of deposits are fully covered by Letters of Credit.

The District is a voluntary participant in the local government investment pools.

Note 3 - Delinquent Taxes Receivable

Delinquent taxes are prorated between maintenance and debt service on rates adopted for the year of the levy. Allowances for uncollectible tax receivables within the General and Debt Service Funds are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

At August 31, 2022, the components of delinquent taxes receivables are as follows:

	General	Debt Service	
	Fund	Fund	Totals
Delinquent Taxes:			
Current year levy	\$ 2,409,202	\$ 481,239	\$ 2,890,441
Prior years' levies	1,752,590	352,569	2,105,159
Total Delinquent Taxes	4,161,792	833,808	4,995,600
Penalty and interest on delinquent taxes	1,521,815	299,913	1,821,728
Total Delinquent Taxes and Penalty and Interest	5,683,607	1,133,721	6,817,328
Less allowance for uncollectible taxes	(2,052,958)	(410,079)	(2,463,037)
Net Property Taxes Receivable	3,630,649	723,642	4,354,291

CARROLLTON-FARMERS BRANCH ISD NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 4 - Receivables from Other Governments

The District participates in a variety of federal and state programs from which it receives grants to partially or fully finance certain activities. In addition, the District receives entitlements from the State through the School Foundation and Per Capita Programs. Amounts due from federal and state governments as of August 31, 2022, are summarized below. All federal grants shown below are passed through the TEA and are reported on the combined financial statements as Receivables from Other Governments. Furthermore, there are times whenever overpayment is received from a State Agency and money may be due to other governments.

	Nonmajor Governmental									
	Ge	eneral Fund		Funds		Total				
Due From Other Governments										
Federal	\$	2,400,956	\$	-	\$	2,400,956				
State:										
Texas Education Agency	\$	3,875,963	\$	8,591,487	\$	12,467,450				
Total Due From Other Governments	\$	6,276,919	\$	8,591,487	\$	14,868,406				

Note 5 - Other Receivables

Other receivables as of August 31, 2022, for the District's individual major funds, nonmajor, and internal service funds in the aggregate are as follows:

		Nonmajor

Resources that have been received, but not yet earned are recorded as unearned revenue.

Note 9 - Defeased Debt

On August 31, 2022, \$12,280,000 of defeased bonds remain outstanding due to the December 2017 refunding.

Note 10 - Long-Term Obligations

Unlimited Tax Bonds

The District issues unlimited tax bonds for the governmental activities to provide for the acquisition and construction of major capital facilities. Unlimited tax bonds are direct obligations and pledge the full faith and credit of the District. Bonded indebtedness of the District is reflected in the Statement of Net Position.

Current requirements for principal and interest expenditures are payable solely from future revenues of the Debt Service Fund which consists principally of property taxes collected by the District and interest earnings.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 10 - Long-Term Obligations (continued)

Total

Unlimited tax bonds outstanding as of August 31, 2022 are as follows:

	Series	Original Amount	Interest Rate (%)	Matures	Amount Outstanding 09/01/21	Issued	Retired/ Refunded	Amount Outstanding 08/31/22

The accrued liabilities of the workers' compensation self-insurance plan and the accrued compensated absences are reflected in the long-term liabilities as part of the governmental activities. The internal service funds are used to liquidate the claims payable.

CARROLLTON-FARMERS BRANCH ISD NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 10 - Long-Term Obligations (continued)

On November 10, 2021, the District issued \$13,370,000 in Unlimited Tax Refunding Bonds. The bonds were issued at a premium of \$1,163,763 and with an interest rate of 5.00%. Proceeds from the sale of the Bonds were used to refund the Unlimited Tax Refunding Bonds, Series 2012. The reacquisition price of the bonds was less than the net carrying amount of the old debt by \$1,871,328 and will be amortized over the life of the bond. The refunding resulted in an economic gain (difference between present values of the old and new debt service payment) of \$2,380,666.

Note 11 - General Fund Federal Source Revenues

Note 13 - Defined Benefit Pension Plan

Plan Description

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). TRS's defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard workload and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position

Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately issued Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained on the internet at <u>https://www.trs.texas.gov/TRS%20Documents/acfr-2021.pdf</u>, or by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698, or by calling (512) 542-6592.

Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes, including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

Texas Government Code section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in the manner are determined by the System's actuary.

Exhibit F-1

Note 13 - Defined Benefit Pension Plan (continued)

Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2020 thru 2025.

	Contribution Rates			
	Pla	n Fiscal Year		
	2022	2021		
Member (Employee)	8.00%	7.70%		
Non-Employer contributing entity (State)	7.75%	7.50%		
Employers	7.75%	7.50%		
	I	Fiscal Year (2022)		
		TRS		
	Cc	ontributions		
Employer (District) contributions	\$	8,633,684		
Members (Employee) contributions		16,897,161		
Non-employer (State) on-behalf contributions		10,450,313		

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate, times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year, reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities, or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there is an additional surcharge an employer is subject to.

- All public schools, charter schools, and regional educational service centers must contribute 1.5 percent of the member's salary beginning in fiscal year 2020, gradually increasing to 2 percent in fiscal year 2025.
- When employing a retiree of the Teacher Retirement System, the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

Note 13 - Defined Benefit Pension Plan (continued)

Actuarial Assumptions

Actuarial Assumptions:

The actuarial valuation was performed as of August 31, 2020. Update procedures were used to roll forward the total pension liability to August 31, 2021.

The total pension liability, net pension liability, and certain sensitivity information are based on the actuarial valuation performed as of August 31, 2020 and rolled forward to August 31, 2021. The actuarial valuation was determined using the following actuarial assumptions:

Valuation Date August 31, 2020 rolled forward to August 31, 2021	
Actuarial Cost Method Individual Entry Age Normal	
Asset Valuation Method Fair Value	
Single Discount Rate 7.25%	
Long-term expected rate 7.25%	
1.95%. Source for the rate is the Fixed Income Market	et
Data/Yield Curve/Data Municipal Bonds with 20 years to	to
Municipal Bond Rate maturity that include only federally tax-exempt municipal	al
bonds as reported in Fidelity Index's "20-Year Municipal	al
GO AA Index."	
Last year ending August 31 in projection period	
(100 years) 2120	
Inflation 2.30%	
Salary Increases 3.05% to 9.05% including inflation	
Benefit changes during the year None	
Ad hoc post-employment benefit changes None	

The actuarial assumptions used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2020. The actuarial methods and assumption were primarily based on a study of actual experience for the three-year ending August 31, 2017 and were adopted in July 2018. For a full description of these ns see the actuarial valuation report described the 2021 TRS ACFR, which includes actuarial valuation report dated November 9, 2020.

Discount Rate

A single discount rate of 7.25 percent was used to measure the total pension liability. The single discount rate was based on the expected rate of return on pension plan investments of 7.25 percent. The projection of flows used to determine this single discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the legislature during the 2019 session. It is assumed that future employer and state contributions will be 8.50 percent of payroll in fiscal year 2020 gradually increasing to 9.55 percent of payroll over the next several years. This includes all employer and state contributions for active and rehired retirees.

CARROLLTON-FARMERS BRANCH ISD NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 13 - Defined Benefit Pension Plan (continued)

Discount Rate (continued)

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payment of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term rate of return on pension plan investments is 7.25%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of geometric real rates of return for each major asset class included in the System's target asset allocation as of August 31, 2021 are summarized below:

Asset Class ¹	FY2021 Target Allocation ²	Long-term Expected Geometric Real Rate of Return ³	Expected Contribution to Long-Term Portfolio Returns		
Global Equity	10.00%	2.00/	0.04%		
U.S.	18.00%	3.60%	0.94%		
Non-U.S. Developed	13.00%	4.40%	0.83%

⁴ The volatility drag results from the conversion between arithmetic and geometric mean returns

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 13 - Defined Benefit Pension Plan (continued)

Discount Rate Sensitivity Analysis

The following table presents the Net Pension Liability of the plan using the discount rate of 7.25 percent, and what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.25 percent) or one percentage point higher (8.25 percent) than the current rate.

	Current Discount						
	1% Decrease 6.25%			Rate 7.25%		1% Increase 8.25%	
District's proportional share of the net pension							
liability	\$	91,650,416	\$	41,942,224	\$	1,613,792	

Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions

At August 31, 2022 the District reported a liability of \$41,942,224 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$ 41,942,224
State's proportionate share that is associated with District	 54,757,996
Total	\$ 96,700,220

The net pension liability was measured as of August 31, 2020 and rolled forward to August 31, 2021 and the total pension lability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2020 thru August 31, 2021.

At August 31, 2021, the District's proportion of the collective net pension liability was 0.1647% which was an increase of 0.0050% from its proportion measured as of August 31, 2020.

The General Fund and Special Revenue Funds are used to liquidate pension liabilities.

Note 13 - Defined Benefit Pension Plan (continued)

Changes Since the Prior Actuarial Valuation

There were no changes in assumptions since the prior measurement date.

For the year ended August 31, 2022, the District recognized pension expense of \$5,098,798. The District also recognized an additional on-behalf revenue and expense of \$218,916 representing for support provided by the State.

At August 31, 2022, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources			
Differences between expected and actual experience	\$ 70,189	\$ (2,952,766)			
Changes of assumptions	14,825,757	(6,462,758)			
Difference between projected and actual earnings on pension plan investments	-	(35,168,010)			
Changes in proportion and differences between District contributions and proportionate share of contributions	13,238,108	(17,033,354)			
District contributions subsequent to the measurement date Total	8,633,684 \$ 36,767,738	- \$ (61,616,888)			

Deferred outflows of resources resulting from District contributions subsequent to the measurement date in the amount of \$8,633,684 will be recognized as a reduction of the net pension liability in the year ended August 31, 2023. The net amounts of the District's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended	Pension Expense				
August 31	Amount				
2023	\$ (4,0	00,197)			
2024	(6,4	67,257)			
2025	(11,9	87,641)			
2026	(10,9	26,020)			
2027	(1	36,204)			
2028		34,485			
	\$ (33,4	82,834)			

Note 14 - Defined Other Post-Employment Benefit Plan

Plan Description

The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS- Care). It is a multipleemployer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The TRS-Care program was established in 1986 by the Texas Legislature.

The TRS Board of Trustees administers the TRS-Care program and the related fund in accordance with Texas Insurance Code Chapter 1575. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. The Board may adopt rules, plans, procedures, and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

OPEB Plan Fiduciary Net Position

Detail information about the TRS-Care's fiduciary net position is available in the separately issued TRS Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained on the internet at <u>https://www.trs.texas.gov/TRS Documents/acfr-2021.pdf</u>, or by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698, or by calling (512) 542-6592.

Benefits Provided

TRS-Care provides health insurance coverage to retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic post-employment benefit changes, including automatic COLAs.

The premium rates for retirees are reflected in the following table.

TKS-Cale Wontiny Fremulin Rates							
Medicare		Non-Medicare					
\$	135	\$	200				
	529		689				
	468		408				
	1,020		999				
		Medicare \$ 135 529 468	Medicare No \$ 135 \$ 529 468 468				

TRS-Care Monthly Premium Rates

Note 14 - Defined Other Post-Employment Benefit Plan (continued)

Contributions

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.25 percent of the employee's salary. Section 1575.203 establishes the active employee's rate which is .65 percent of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25 percent or not more than 0.75 percent of the salary of each active employee of the public or charter school. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

	Contribution Rates		
	2022	2021	
Active employee	0.65%	0.65%	
Non-employer contributing entity (State)	1.25%	1.25%	
Employers	0.75%	0.75%	
Federal/private funding remitted by employers	1.25%	1.25%	

	Fiscal Year (2022)		
	Co	TRS Care	
Employer (District)	\$	1,872,348	
Employee (Member)		1,372,189	
Non-employer Contributing Entity			
On-behalf Contributions (State)		3,229,830	

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS Care OPEB program). When employers hire a TRS retiree, they are required to pay to TRS Care, a monthly surcharge of \$535 per retiree.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 14 - Defined Other Post-Employment Benefit Plan (continued)

Actuarial Assumptions

The actuarial valuation was performed as of August 31, 2020. Update procedures were used to roll forward the Total OPEB Liability to August 31, 2021. The actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2020, rolled forward to August 31, 2021
Actuarial Cost Method	Individual Entry Age Normal
Inflation	2.30%
Single Discount Rate	1.95% as of August 31, 2021.
Aging Factors	Based on plan specific experience
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs.
Salary Increases	3.05% to 9.05% including inflation
Healthcare Trend Rates	The initial medical trwend rates were 8.50 percent for Medicare retirees and 7.10 percent for non-Medicare retirees. There was an initial prescription drug trend rate of 8.50 percent for all retirees. The initial trend rates decrease to an ultimate trend rate of 4.25 percent over a period of 12 years.
Election Rates	Normal retirement: 65% participation prior to age 65 and 40% after age 65.25% of pre-65 retirees are assumed to discontinue coverage at age 65
Ad hoc post-employment benefit changes	None

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. All the demographic assumptions, including rates of retirement, termination, and disability, and most of the economic assumptions, including general inflation and salary increases, used in the OPEB valuation were identical to those used in the respective TRS pension valuation. The demographic assumptions were developed in the experience study performed for TRS for the period ending August 31, 2017.

The following assumptions and other inputs used for members of TRS-Care are based on an established pattern of practice and are identical to the assumptions used in the August 31, 2019 TRS pension actuarial valuation that was rolled forward to August 31, 2020: (a) Rates of Mortality, (b) Rates of Retirement, (c) Rates of Termination, (d) Rates of Disability, (e) General Inflation, (f) Wage Inflation, and (g) Expected Payroll Growth.

The active mortality rates were based on 90 percent of the RP-2014 Employee Mortality Tables for males and females, with full generational mortality using Scale BB. The post-retirement mortality rates for healthy lives were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables, with full generational projection using the ultimate improvement rates from the most recently published scale (U-MP).

Note 14 - Defined Other Post-Employment Benefit Plan (continued)

Discount Rate

A single discount rate of 1.95 percent was used to measure the Total OPEB Liability. There was a decrease of .35 percent in the discount rate since the previous year. Because the plan is essentially a "pay-as-you-go" plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, the municipal bond rate was used for the long-term rate of return and was applied to all periods of projected benefit payments to determine the total OPEB liability. The source of the municipal bond rate is the Fidelity "20-year Municipal GO AA Index" as of August 31, 2021 using the fixed-income municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds.

Discount Rate Sensitivity Analysis

Discount Rate – The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (1.95%) in measuring the Net OPEB Liability:

19	6 Decrease in			1%	6 Increase in
D	iscount Rate	Cur	rent Discount	Di	scount Rate
	(0.95%)		Rate (1.95%)		(2.95%)
\$	96,077,453	\$	79,650,995	\$	66,722,837

The following schedule shows the impact of the Net OPEB liability if a healthcare trend rate that is 1% less than and 1% greater than the assumed healthcare cost trend rate:

Current Healthcare Cost					
1	1% Decrease		Trend Rate		% Increase
\$	64,514,666	\$	79,650,995	\$	99,960,188

OPEB Liabilities, OPEB Expense, and Deferred Outflows/Inflows of Resources Related to OPEBs

At August 31, 2022, the District reported a liability of \$79,650,995 for its proportionate share of the TRS's Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the collective net OPEB liability	Ś	79.650.995
State's proportionate share that is associated with	Ŧ	
District		106,714,582
Total	\$	186,365,577

The Net OPEB Liability was measured as of August 31, 2020 and rolled forward to August 31, 2021 and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The District's proportion of the Net OPEB Liability was based on the District's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2020 through August 31, 2021.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 14 - Defined Other Post-Employment Benefit Plan (continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows/Inflows of Resources Related to OPEBs (continued)

At August 31, 2021, the District's proportion of the collective Net OPEB Liability was 0.2065% which was an increase of 0.0010% from its proportion measured as of August 31, 2020.

The General and Special Revenue Funds are used to liquidate OPEB liabilities.

Changes Since the Prior Actuarial Valuation

The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability (TOL) since the prior measurement period:

• The discount rate changed from 2.33 percent as of August 31, 2020 to 1.95 percent as of August 31, 2021. This change increased the Total OPEB Liability.

Changes of Benefit Terms Since the Prior Measurement Date – There were no changes in benefit terms since the prior measurement date.

For the fiscal year ended August 31, 2022, the District recognized negative OPEB expense of \$1,865,363. The District also recognized negative on-behalf expense and revenue of \$3,938,583 for support provided by the State.

At August 31, 2022, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources		
Differences between expected and actual economic experience	\$	3,429,352	\$	(38,556,654)	
Changes in actuarial assumptions		8,822,283		(16,844,711)	
Difference between projected and actual investment earnings		86,475		-	
Changes in proportion and difference between the employer's					
contributions and the proportionate share of contributions		6,532,465		(2,865,506)	
Contributions paid to TRS subsequent to the measurement date		1,872,348		-	
Total	\$	20,742,923	\$	(58,266,871)	

NOTES TO THE FINANCIAL STATEMENTS (continued)

Note 14 - Defined Other Post-Employment Benefit Plan (continued)

Changes Since the Prior Actuarial Valuation (continued)

The \$1,872,348 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending August 31, 2023. The net amounts of the District's balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ended August 31:	OPEB Expense Amount
2023	\$ (7,598,029)
2024	(7,599,979)
2025	(7,599,445)
2026	(5,502,817)
2027	(2,664,352)
Thereafter	(8,431,674)
	\$ (39,396,296)

Medicare Part D

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, effective. January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. For the fiscal years ended August 31, 2022, 2021, and 2020, the subsidy payments received by TRS-Care on-behalf of the District were \$865,365, \$871,945, and \$820,964, respectively. The information for the year ended August 31, 2022 is an estimate provided by the Teacher Retirement System. These payments are recorded as equal revenues and expenditures in the governmental funds financial statements of the District.

Note 15 - Risk Management

The District is exposed to various risks of loss related to limited torts; theft of, damage to and destruction of assets; errors and omissions and natural disasters for which the District carries commercial insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

Health Care Coverage

The employees of the District were covered by TRS Active Care. TRS Active Care is a statewide health coverage program for public education employees established by the 77th Texas Legislature. The District contributed \$278 per month per employee to the plan, and employees, at their option, authorized payroll withholdings to pay employee contributions and additional premiums for dependents.

Workers' Compensation Coverage

Beginning September 1, 1993, the District established a self-insurance plan for workers' compensation benefits. Prior to this time, the District was a member of the Texas Association of School Boards Workers' Compensation Self-Insurance Fund ("Fund"). The Fund will continue to be liable for all claims before September 1, 1993.

Claims are paid by a third-party administrator acting on behalf of the District under the terms of a contractual agreement. Administrative fees are included within the provisions of that agreement. According to state statute, the District is protected against unanticipated catastrophic claims and aggregate loss by coverage carried through Midwest Employers Casualty Company, a commercial insurer licensed or eligible to do business in Texas in accordance with the Texas Insurance Code.

Coverage was in effect for specific occurrences exceeding \$600,000 with an annual aggregate retention amount of \$3,355,851. Payments exceeding the aggregate retention are reimbursable up to the aggregate limit of liability amount of \$1,000,000.

The costs associated with these self-insurance plans are reported as interfund transaction to the extent of amounts actuarially determined. Accordingly, they are treated as operating revenues of the Internal Service Funds and operating expenditures of the General Fund and the Special Revenue Funds. The accrued liabilities of the workers' compensation self-insurance plan of \$ 1,343,426 include incurred but not reported claims. The liability reported in the Fund at August 31, 2022 is based on the requirements of GASB No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. The liability includes an amount for claims that have been incurred but not reported. Because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines and damage awards, the process used in computing claims liability does not necessarily result in an exact amount. Claims liabilities are re-evaluated periodically to take into consideration recently settled claims, the frequency of claims and other economic and social factors. Workers' compensation liabilities for incurred losses to be settled by fixed or reasonably determinable payments over a long period of time were computed by an actuary and are reported at their present value using expected future investment yield assumption of 1%. Changes in the workers' compensation claims liability amounts in fiscal 2021 and 2022 were:

Self-insurance liability	Beginning of Fiscal Year Liability	Claims and Changes in Estimates	Claim Payments	Balance at Fiscal Year- End
2021-Workers' compensation 2022-Workers' compensation	\$1,611,085	\$ 646,388	\$932,621	\$ 1,324,852
	\$1,324,852	\$ 943,744	\$925,170	\$ 1,343,426

Note 16 - Commitments and Contingencies

Litigation

The District is the defendant in a number of lawsuits arising principally in the normal course of operations. In the opinion of the administration, the outcome of these lawsuits will not have a materially adverse effect on the accompanying combined financial statements and accordingly, no provision for losses has been recorded.

Grants Programs

The District participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable at August 31, 2022 may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

Future Construction

The funds in the Capital Projects Fund will be used for future school construction and renovation. Commitments on outstanding construction contracts for future school and renovations totaled approximately \$165,281,649 at August 31, 2022.

Arbitrage Rebate Liability

The Federal Tax Reform Act of 1986 requires issuers of tax-exempt debt to make payments to the United States Treasury of investment income received at yields that exceed the issuer's tax-exempt borrowing rates. The U.S. Treasury requires payment for each issue every five years. The estimated liability is updated annually for any tax-exempt issuances or changes in yields until such time payment of the calculated liability is due. As of August 31, 2022, the District has no arbitrage liability.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION – BUDGETARY INFORMATION

Stewardship, Compliance, and Accountability

Budgetary Information

The Board of Education adopts an "appropriated budget" on a basis consistent with GAAP for the General Fund, Debt Service Fund and the Food Service Fund, a non-major Special Revenue Fund. The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds.

The following procedures are followed in establishing the budgetary data:

- 1. Prior to August 20 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. A meeting of the Board of Education is then called for the purpose of adopting the proposed budget after ten days public notice of the meeting has been given.
- 3. Prior to September 1, the budget is legally enacted through passage of a resolution by the Board of Education. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. Because the District has a policy of careful budgetary control, several amendments were necessary during the year. Significant amendments were made to the following functional areas:

		Increase
Function	Description	(Decrease)
21	Instructional leadership	401,927
91	Contracted instructional services	6,500,000

- 4. Each budget is prepared and controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board of Education. All budget appropriations lapse at year-end.
- 5. The Texas Education Agency requires these budgets to be filed with the Texas Education Agency on a designated date through the Public Education Information Management System ("PEIMS"). The budget should not exceed in any functional expenditure category under the TEA requirements. The original and final amended versions of these budgets are used in this report.

In function 31, actual expenditures exceeded budgeted by \$44,029 due to invoices received after the period end. This occurred after year-end when final budget amendments are required, but within the timeframe to report on a modified accrual basis. In functions 71 and 72, expenditures exceeded budget by \$405,038 and \$9,916 respectively. This was due to the implementation of GASB No. 87 and the reclassification of lease principal and interest from the original functions.

CARROLLTON-FARMERS BRANCH ISD NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION – PENSION

Changes of Assumptions

The single discount rate as of August 31, 2021 was 7.25 percent, which was the same rate as of August 31, 2020.

Changes in Benefit Terms

There were no changes of benefit terms that affect measurement of the total pension liability during the measurement period.

Other Information

Effective September 1, 2014, employers who did not contribute to Social Security for TRS-eligible employees were required to contribute an additional 1.5% of TRS-eligible compensation which nearly doubled the District's contributions into the Plan. Because the District's proportional share of the plan is determined by its proportional share of contributions. The District recognized a corresponding increase in its share of net pension liability.

CARROLLTON-FARMERS BRANCH ISD NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION – OPEB

Changes of Assumptions

The following were changes to the actuarial assumptions or other inputs that have affected measurement of the Total OPEB liability (TOL):

- The discount rate was 1.95 percent, 2.33 percent, and 2.63 percent as of August 31, 2021, August 31, 2020, and August 31, 2019, respectively.
- During measurement year 2020, the participation rate for post-65 retirees was lowered from 50% to 40%. This change lowered the Total OPEB Liability.
- During measurement year 2020, the ultimate health care trend rate assumption was lowered from 4.50% to 4.25% as a result of Congress' repeal of the excise (Cadillac) tax on high-cost employer health plans in December 2019. This change lowered the Total OPEB Liability.
- During measurement year 2019, the health care trend rates were reset to better reflect the plan's anticipated experience. This change increased the TOL.
- During measurement year 2019, the participation rate for pre-65 retirees was lowered from 70 percent to 65 percent. The participation rate for post-65 retirees was lowered from 75 percent to 50 percent. 25 percent of pre-65 retirees are assumed to discontinue their coverage at age 65. There was no lapse assumption in the prior valuation. These changes decreased the TOL.
- During measurement year 2019, the percentage of retirees who are assumed to have two-person coverage was lowered from 20 percent to 15 percent. In addition, the participation assumption for the surviving spouses of employees that die while actively employed was lowered from 20 percent to 10 percent. These changes decreased the TOL.

Changes of Benefit Terms

There were no changes in benefit terms in the 2020 measurement year.

The 85th Legislature, Regular Session, passed the following statutory changes in House Bill 3976 which became effective on September 1, 2017:

- Created a high-deductible health plan that provides a zero cost for generic prescriptions for certain preventive drugs and provides a zero premium for disability retirees who retired as a disability retiree on or before January 1, 2017 and are not eligible to enroll in Medicare.
- Created a single Medicare Advantage plan and Medicare prescription drug plan for all Medicare-eligible participants.
- Allowed the System to provide other, appropriate health benefit plans to address the needs of enrollees eligible for Medicare.
- Allowed eligible retirees and their eligible dependents to enroll in TRS-Care when the retiree reaches 65 years of age, rather than waiting for the next enrollment period.
- Eliminated free coverage under TRS-Care, except for certain disability retirees enrolled during Plan Years 2018 through 2021, requiring members to contribute \$200 per month toward their health insurance premiums.

COMBINING AND OTHER STATEMENTS

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

- **ESEA, Title I, Part A Improving Basic Programs** Provide opportunities for children served to acquire knowledge and skills to meet the challenging state performance standards developed for all children.
- IDEA Part B, Formula Operate educational programs for children with disabilities.
- IDEA Part B, Preschool Support Programs for preschool children with disabilities.
- **Child Nutrition Program** Supports programs using federal reimbursement revenues from the United States department of Agriculture (USDA).
- **Career and Technical Basic Grant** Provide career and technical education to develop new and/or improved marketable skills for paid and unpaid employment.
- **ESEA, Title II, Part A, Supporting Effective Instruction** Provide financial assistance to increase student academic achievement through improving teacher and principal quality and increasing the number of highly qualified teachers in classrooms and highly qualified principals and assistant principals.
- Title III, Part A English Language Acquisition and Language Enhancement Fund granted to improve the education of limited English proficient children by assisting the children to learn English and meet challenging State academic content and student academic achievement standards.
- **ESSER I** Elementary and Secondary School Emergency Relief-provides funds to address the impact of COVID-19 under the Coronavirus Aid, Relief, and Economic Security Act (CARES Act).
- **ESSER II**-Elementary and Secondary School Emergency Relief-provides funds to address the impact of COVID-19 under the Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA).
- **ESSER III-**Elementary and Secondary School Emergency Relief-provides funds to address the impact of COVID-19 under the American Rescue Plan (ARPA).
- IDEA Part B, Formula ARP ARP funds to operate educational programs for children with disabilities.
- IDEA Part B, Preschool ARP ARP support Programs for preschool children with disabilities.
- Title IV, Part A Student Support-Academic Enrichment Provide all students access to a well-rounded education, improve academic outcomes by maintaining safe and healthy students, and improve the use of technology to advance student academic achievement.
- **Visually Impaired SSVI** Provides funds to improve achievement of students who have a visual impairment and to ensure that comprehensive services are available to those students.

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

- Advanced Placement Test Fee Program A program designed to increase the number of low-income students who take advanced placement tests and receive scores for which college academic credit is awarded. The funds enable schools to pay all or a portion of advanced placement test fees on behalf of eligible low-income students who (1) are enrolled in an advanced placement course and (2) plan to take an advanced placement test.
- **State Textbook Fund** State funds awarded to school districts under the textbook allotment.
- **State Special Revenue Fund** Includes: Read to Succeed Funds, SPED fiscal support funding and Safety and Security Grant.
- Campus Activity Funds Accounts for transactions related to a principal's activity fund.
- Project Lead the Way Grants awarded by Project Lead the Way, Inc. (PLTW). The grant awarded to the high school is to be used to offset the costs associated with the PLTW Engineering program. The grant awarded to the middle school is to be used to offset the costs associated with the PLTW Gateway program.
- **CFB Giving House -** CFB Giving House-Donations support students with basic needs such as clothing and supplies.
- Metrocrest Hospital Authority Supports our certification programs to further student preparation for college and/or career.
- **Student Nutrition Grants** Local funding provided to increase access to schools' meals during COVID-19. Funds to be used for cold holding equipment and small wares.
- Special Revenue & Local Programs Combined Combined local grants that include Toyota Connected, Fine Arts and the Blockchain Innovation Challenge grants and Education Foundation grants which will help disadvantaged learners digitize their transcripts to make them more accessible.
- **Digital Promise** –A Technology and Learning Coaching Fellowship Program launched, with the support from Google, to support middle schools with a full-time technology and learning coach. The one-year fellowship program includes engagement with a national cohort and additional support that will enable teachers in each fellow's school to more powerfully use technology for learning.
- **City of Irving TIF #1** Reports property taxes collected for the City of Irving TIF #1 to pay for District projects identified in the project plan to be constructed in the zone for education facilities and maintenance for operating such facilities.
- **City of Farmers Branch TIF #1** Reports property taxes collected for the City of Farmers Branch TIF #1 to pay for District projects identified in the project plan to be constructed in the zone for education facilities and maintenance for operating such facilities.
- **City of Farmers Branch TIF #2** Reports property taxes collected for the City of Farmers Branch TIF #2 to pay for District projects identified in the project plan to be constructed in the zone for education facilities and maintenance for operating such facilities.

STATISTICAL SECTION (UNAUDITED)

This part of the Carrollton-Farmers Branch Independent School District's annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, notes disclosures, and required supplementary information says about the government's overall financial health.

Contents	<u>Page</u>
Financial Trends These schedules contain trend information to help understand how the government's financial performance and well-being have changed over time.	112
Revenue Capacity These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.	127
Debt Capacity These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.	133
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.	136
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.	140

Source: Unless otherwise noted, the information in these schedules is derived from the annual comprehensive financial reports for the relevant year.

Source: All information provided by Municipal Advisory Council of Texas except for information regarding CFB-ISD debt, total assessed taxable valuation, and population which were provided by the District. Please refer to Table 12 for source of population data. Carrollton-Farmers Branch ISD - Direct Debt equals GO Bonds Payable plus Bond Premium.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the district. This schedule estimates the portion of the outstanding debt of these overlapping governments that is borne by the residents and businesses of the district.

The percentage of overlapping debt applicable is estimated using taxable property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the district's boundaries and dividing it by each unit's total taxable value.

CARROLLTON-FARMERS BRANCH ISD REQUIRED RESPONSES TO SELECTED SCHOOL FIRST INDICATORS For the Year Ended August 31, 2022

SF1	Was there an unmodified opinion in the Annual Financial Report on the financial statements as a whole?	Yes
SF2	Were there any disclosures in the Annual Financial Report and/or other sources of information concerning nonpayment of any terms of any debt agreement at fiscal year end?	No
SF3	Did the school district make timely payments to the Teacher Retirement System (TRS), Texas Workforce Commission (TWC), Internal Revenue Service (IRS), and other government agencies?	
	(If the school district was issued a warrant hold and the warrant hold was not cleared within 30 days from the date the warrant hold was issued, the school district is considered to not have made timely payments.) Payments to the TRS and TWC are considered timely if a warrant hold that was issued in connection to the untimely payment was cleared within 30 days from the date the warrant hold was issued.	
	Payments to the IRS are considered timely if a penalty or delinquent payment notice was cleared within 30 days from the date the notice was issued.	Yes
SF4	Was the school district issued a warrant hold? Even if the issue surrounding the initial warrant hold was resolved and cleared within 30 days, the school district is considered to have been issued a warrant hold.	No
SF5	Did the Annual Financial Report disclose any instances of material weaknesses in internal controls over financial reporting and compliance for local, state, or federal funds?	No
SF6	Was there any disclosure in the Annual Financial Report of material noncompliance for grants, contracts, and laws related to local, state, or federal funds?	No
SF7	Did the school district post the required financial information on its website in accordance with Government Code, Local Government Code, Texas Education Code, Texas Administrative Code and other statutes, laws and rules that were in effect at the school district's fiscal year end?	Yes
SF8	Did the school board members discuss the school district's property values at a board	
-	meeting within 120 days before the school district adopted its budget?	Yes
SF9	Total accumulated accretion on CABs included in government-wide financial statements at fiscal year-end.	\$ -0-

NOTE: This schedule is to be included as part of the annual financial audit report (AFR) submission on the required due date and published as a part of the school district's AFR. This schedule should be submitted in the data feed file and submitted as an Adobe Acrobat portable document file (pdf).

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Trustees Carrollton-Farmers Branch Independent School District Carrollton, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Carrollton-Farmers Branch Independent School District (the "District"), as of and for the year ended August 31, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated January 12, 2023.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Board of Trustees Carrollton-Farmers Branch ISD

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Trustees Carrollton-Farmers Branch Independent School District Carrollton, Texas

Report on Compliance for Each Major Federal Program

Opinion on Each Major Program

We have audited Carrollton-Farmers Branch Independent School District's (the "District") compliance with the types of compliance requirements described in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended August 31, 2022. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District's complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, Government Auditing Standards, and the Uniform Guidance, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiencies, in internal control over compliance over compliance over compliance over compliance with a type of compliance program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiencies, in internal control over compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

To the Board of Trustees Carrollton-Farmers Branch ISD

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Whitley FENN LLP

Dallas, Texas January 12, 2023

SCHEDULE OF FINDINGS AND QUESTIONED COSTS

For the Year Ended August 31, 2022

I. Summary of Auditors' Results

CARROLLTON-FARMERS BRANCH ISD NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS For the Year Ended August 31, 2022

Note 1 - Basis of Accounting

The District accounts for all awards under federal programs in the General and Certain Special Revenue Funds in accordance with the Texas Education Agency's *Financial Accountability System Resource Guide*. These programs are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e. revenues and other financing sources) and decreases (i.e. expenditures and other financing uses) in net current assets.

The modified accrual basis of accounting is used for these funds. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the liability is incurred, if measurable, except for certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources. Expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited to reimbursement. Pass-through entity identifying numbers are presented where available.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and accordingly, when such funds are received, they are recorded as unearned revenues until earned. Generally, unused balances are returned to the grantor at the close of specified project periods. The District has elected not to use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance.

Note 2 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of the District under programs of the federal government for the year ended August 31, 2022. The information in this schedule is presented in accordance with the requirements of the Uniform Guidance. Because the schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.

Note 3 - Reconciliation to Basic Financial Statements

The following is a reconciliation of expenditures of federal awards per Exhibit K-1 and federal revenues reported on Exhibit C-3 of the District's Annual Comprehensive Financial Report:

Federal Program Revenues	\$51,203,310
SHARS	(4,055,162)
Total Expenditures of Federal Awards per SEFA	\$47,148,148

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS For the Year Ended August 31, 2022
