

### Week 1 - G'Day Mate

"G'day Mate!"...let's head to the land down under and explore some Aussie traditions. Australia is a land in which traditions abound. During Week 1, our campers are sure to grab their mates and share in some fun activities.

### Week 2 - More than a Safari

Africa, it's more than just a safari! Crisscross the continent exploring the culture of the region. Whether juggling while learning about the Circus Baobab, or thinking strategically on a quest to capture gems from Sierra Leone, students will discover that Africa is known for far more than just lions, giraffes, and zebras.

### Week 3 - Our Amazing World

Let's let our minds wonder at our amazing world! This week we'll be studying the Rainbow Mountains, murmurations of starlings as they create their own patterns, tree-climbing goats, the crooked trees of Poland, and the Giant's Causeway!

### Week 4 - Calling all Storytellers

Calling all Storytellers! Week 4 campers will learn about the art of storytelling as they play storytelling games, discover tall tales and perform in reader's theater, discuss legends as they create their own to tell, and study myths before creating their own mythical creatures!

### Week 5 - Gross Destinations

Join us to see some of the disgusting things this world has to offer! Visit a spa where fish eat the skin from your feet, or walk through a temple filled with 25,000 rats... barefoot! Will any of these locations be your next vacation destination?

### Week 6 - It's a Dirty Job

It's a dirty job, but someone has to do it! From scientists who explore diseases to professional odor sniffers, explore a variety of different jobs with one thing in common.... they are totally GROSS!

### Week 7 - Math or Art? That is the question.

This week our campers will use logical reasoning as they create works of art based on the math concept of lines, use decision making and imagination as they create works of art using symmetry, and manipulate art materials to create two-and/or three dimensional works of art.

### Week 8 - You won't want to "Myth" this week.

In week 8 our campers will learn how myths originate and create their own, discuss the meaning of cryptid as they learn about Bigfoot, discuss different forms of communication as they send a letter to a Yeti, learn about the Loch Ness Monster as they create detection kits, and learn about informational text as they create "wanted" posters for cryptids.
