PRE-CAREER TRAINING AVAILABLE

WORK ESSENTIALS: BUSINESS COMMUNICATION

Start your career by learning fundamental skills in business communication and customer service! You will learn business standards for written, oral and nonverbal communication. You will also learn customer service skills. It will give you practice and confidence to communicate with customers, employers and co-workers.

You can complete this 7 month course before applying for the TRAC Scholarship Program. This course is recommended, but not required for the TRAC Scholarship Program. When possible, scholarship preference will be given to students who have completed the TRAC Work Essentials: Business Communication class.

Length of Course: October-April

Time Commitment: 2 hour in-person course per week, weekly at-home online videos and assignments, bi-weekly ESL course

Eligibility Requirement: enrollment in a Troy Continuing Education course

WORK ESSENTIALS: COMPUTERS

Start your career by learning fundamental skills in technology! Gain confidence navigating the digital world. You will learn basic computer concepts, computer hardware, operating systems, the Internet, online safety and security, email, computer applications including Microsoft Office Suite and the impact of technology on society.

You can complete this 7 month course before applying for the TRAC Scholarship Program. This course is recommended, but not required for the TRAC Scholarship Program. When possible, scholarship preference will be given to students who have completed the TRAC Work Essentials: Computers class.

Length of Course: October-April

Time Commitment: 3 hour in-person course per week, weekly at-home online videos and assignments, bi-weekly ESL course

Eligibility Requirement: enrollment in a Troy Continuing Education course
