

RELATIVE CAREGIVER

This policy affords a relative of a student without legal guardianship within the Indian River School District the opportunity to register at a district school. The relative caregiver also has the responsibility to make educational decisions in place of the parent/parents.

The caregiver must submit a completed and notarized Relative Caregivers' School Authorization Affidavit developed for this purpose by the Department of Health and Social Services. The relative caregiver school authorization affidavit must be approved within the office of the assistant superintendent. The form and procedures are located on Delaware's Health and Social Services website.
