

St. Mary's Academy iPad Opt-Out Contract

Although St. Mary's Academy has offered to provide an iPad for instructional use, we are choosing to opt-out of the St. Mary's Academy (the School) iPad Program, and instead supply our own Apple iPad Generation 5 (or newer) with at least 64GB storage. We understand that the 1:1 iPad program is an integral part of the School's overall academic and instructional program; our choice to supply our own iPad does not impact our tuition obligation.

Rights

- The family retains all ownership rights of the iPad.
- Students may customize the appearance of their iPad.
- **If the student's iPad is lost or broken**, the student may borrow one of the School-owned iPads for a maximum of two weeks; during this time, the family assumes all financial responsibility for the loaned iPad under the terms of the SMA iPad Contract.
- Students may expect software support from the School's Technology Department. As part of this support students must install the SMA mobile device management software on their iPad. This will assist our technology department in app distribution, troubleshooting, wireless network connectivity and onsite content filtering. This software is not to be removed for the duration of being a student at St. Mary's.

Responsibilities

- Students are expected to bring their privately-owned iPad to school every day, fully charged, and within a protective case. The school cannot provide a loaner iPad or case should a student forget to bring their privately owned device.
- The family is responsible for hardware support and maintenance of the iPad.
- The family is responsible for ensuring the iPad can back up each night successfully either using iCloud storage or a home computer with iTunes.
- Students must have all apps and accessories required by their teachers which may be in addition to the school-wide distributed Apps.
- All contents and use of the student's iPad are to conform to the mission and vision of St. Mary's Academy and its Responsible Use Policy located in the handbook (<http://www.stmaryspdx.org/handbook>).
- **Access during the day will be restricted to St. Mary's wireless network and the school filtering software. If the iPad has cellular capability this must be disabled during the school day and must never be used as a "hot spot" for students to share while on site at St. Mary's.**
- St. Mary's Academy reserves the right to inspect the content of all iPads, laptops and other devices brought onto campus by students.
