If the label has multiple countries listed on it, vendor must provide an attestation statement (see **Attachment E**) to show the country of origin with a percentage of the ingredients by nation by product. The attestation statement would justify the definition of "substantially" which means over 51% of the final processed product consists of agricultural commodities which were grown domestically. The statement must be on company letterhead, dated, and signed.

The District will work with selected vendor(s) to collect such attestation statements as needed.

33. **Geographic Preference:** Contractors purchasing on behalf of a Sponsor may use geographic preference when purchasing unprocessed locally grown and locally raised agricultural products.

DO NOT call the individual schools regarding the recall.

The selected vendor(s) must provide the Director of Food Service (or other designated District staff) with the specifics of the recall, which item is affected,

- which lot number is affected and the purchase history of the recalled product to identify the school(s) that received the product and any other pertinent information.
- 35. <u>Toll Free Number:</u> The selected vendor(s) shall provide a toll- free telephone number for the district to use in contacting the successful bidder's personnel.
