

### **Welcome to the Bellevue Middle School**

We offer a challenging core curriculum to our students, along with a variety of “elective courses” that students can choose to take during their 3 years at the middle school. A variety of extra-curricular and co-curricular activities is also offered at the middle school.

The grade level teaming concept is used at the middle school and provides staff members with valuable planning time to help meet the individual needs of our students. The school districts instructional model stresses the importance of formative assessments and using student performance data to help teachers develop instruction that focuses on student’s growth and achievement.
