December 30, 2020

North Clackamas School District No.12 Board of Directors 12400 SE Freeman Way Milwaukie, Oregon 97222

The comprehensive Annual Financial Report of North Clackamas School District ("District") for the fiscal year ended June 30, 2020 is hereby submitted. Oregon Municipal Audit Law requires that an independent audit be made of all District funds within six months following the close of the fiscal year. This report is published to fulfill the requirement for the fiscal year ended June 30, 2020 and consists of management's representations concerning the finances of the District together with the opinions of our auditor.

This report was prepared by the District's Fiscal Services Department. The responsibility for the completeness, fairness, and accuracy of the data presented and all accompanying disclosures rests with the District. To provide a reasonable basis for making these representations, the District's management has established a comprehensive internal control framework that is designed both to protect assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP). Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Wilcox Arredondo & Co., Certified Public Accountants, have issued an unmodified opinion on the North Clackamas School District's financial statements for the year ended June 30, 2020. The independent auditor's report is located at the front of the financial section of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

PROFILE OF THE DISTRICT

The North Clackamas School District is a kindergarten through twelfth grade district serving approximately 16,458 students. The District is a financially independent, special-purpose municipal corporation exercising financial accountability for all public education within its boundaries. As required by accounting principles generally accepted in the United States of America, all significant activities and organizations have been included in the financial statements.

The District is located in Clackamas County and is located approximately 12 miles southeast of Portland, Oregon along Interstate 205. The District covers approximately 40 square miles in Northern Clackamas County and encompasses the cities of Milwaukie, Happy Valley, Johnson City, and part of Damascus as well as unincorporated neighborhoods of Oak Grove, Concord, Clackamas, Sunnyside, Mount Scott, Southgate and Carver. It is the seventh largest school district in Oregon. The North Clackamas School District, elected by a majority of the voting electorate, is the governing body responsible for the District's public decisions. The seven-member Board has the oversight, responsibility and control over all activities related to the District.

ECONOMIC CONDITION AND OUTLOOK

Located in northwestern Oregon, Clackamas County is one of the six counties that comprise the Portland-Vancouver Primary Metropolitan Statistical Area (PMSA). The six counties are Clackamas, Washington, Multnomah, Yamhill and Columbia in Oregon, and Clark in Washington. Because the District lies within the PMSA, economic and demographic data is not available specifically for the District. Data is generally available for Clackamas County and for the PMSA.

Currently, manufacturing accounts for 17 percent of the total non-farm employment in the PVH-PMSA, while trade, transportation and utilities also account for 17 percent, government jobs 8 percent, professional and business services 19 percent, education and health services 12 percent, and leisure and hospitality 9 percent. Housing prices continue to increase, although at a slower rate, and the median income has also increased. Property tax collection has increased around 5.2% year over year.

Clackamas County, in particular, has had increasing home prices and building activity throughout the area. Clackamas Town Center, the largest shopping center in Clackamas County, with 1.2 million square feet of space, has 174 stores. Major commercial business centers are located in the Clackamas Town Center and along McLoughlin Boulevard. Industrial sites include the Clackamas Industrial area along Highway 212, with roughly 500 businesses, and the Milwaukie Industrial area along Highway 224, with 300 businesses. Community business centers are located in Milwaukie, Gladstone and Damascus.

The PVH-PMSA relies heavily on the manufacturing, high technology industries, wholesale trade and financial activities. According to the Oregon Employment Department, at the end of June 2020, the PVH_PMSA unemployment rate was 11.6 percent, as compared to the Oregon unemployment rate of 11.6 percent and the nation's rate of 11.1 percent. These rates were almost three times higher than a year prior due to the COVID-19 pandemic.

A variety of transportation alternatives are available in this area. Tri-Met service is available to Portland and the metropolitan area. Transfer stations are located in downtown Milwaukie and Clackamas Town Center. Portland International Airport offers easy access to domestic and international markets with 14 scheduled passenger airlines and 11 cargo carriers serving customers both internationally and domestically. Several railroads operate in the District. The Southern Pacific Mainline runs through the Clackamas and Milwaukie Industrial areas. Two other transcontinental railroads serving Portland include Burlington Northern and Union Pacific. Amtrak provides passenger service. The Port of Portland has five Marine terminals, four dry docks and excellent ship repair facilities. Container handling and dockside rail service are readily available. An extensive rail, air, barge and highway transportation network serves the harbor. I-205 is a circumferential freeway bypassing downtown Portland. It connects with I-5 and I-84 for destinations north, south and east. The I-205 beltline serves about 100,000 vehicles daily. Highway 212 connects North Clackamas to U.S. Highway 26 and serves the Mount Hood corridor and Central Oregon. Highway 99E connects the North Clackamas area to the Willamette Valley, Salem and Eugene.

The spread of COVID-19 has altered the behavior of businesses and people in a manner that has a negative effect on local, state, national, and global economic activity, and therefore could adversely affect the financial condition of the State and the District, either directly or indirectly, depending on the length of the pandemic and subsequent economic recovery.

MAJOR INITIATIVES

The School Board, for the 2019-20 school year, approved the following goals:

- 1. <u>Student Success</u>: Advance student learning by focusing on each student's experience, well-being and potential
- 2. Equity: Cultivate belonging and inclusion with the expectation of success for each student
- 3. Quality: Ensure consistent, high quality in each program and service
- 4. Stewardship: Develop and manage the resources and assets entrusted to the district

Key performance indictors used to measure achievement of Major Initiatives include the following:

- Strong School District Climate Ratings
- Third Graders Reading at or Above Grade Level
- Eighth Grade Algebra Ready Students
- Tenth Graders on Track with Six Credits
- All Students Graduate High School
- Post-Secondary Enrollment Rates Increase

Some recent results related to our District's key performance indictors include:

- · North Clackamas students outpace the state at nearly every grade level on state assessments
- Sustained progress on delivering all the commitments in a six-year, \$433 million capital construction bond project with scheduled improvements at all district facilities
- Maintained success in student attendance; On average over the past five years, NCSD ranks 1st out of the 15 largest school districts in Oregon
- The historic naming of a new elementary school for Beatrice Morrow Cannady, a local, female African-American civil rights leader and a future high school for Adrienne C. Nelson, the first woman of color on the Oregon supreme court and Happy Valley resident
- Strong community support that formed behind the five-year local option levy that passed in the fall of 2018
- 85.5 percent of our students graduating in four years up nearly 20 percentage points since 2011. Of particular note, there has been tremendous growth in the number of students graduating from each student group. The greatest gains have been with students with disabilities, African-American/Black students, and Hispanic/Latino students

FINANCIAL INFORMATION

Management of the District is responsible for establishing and maintaining an internal control structure designed to protect the assets of the District from loss, theft, or misuse, and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles.

Single Audit. As a recipient of federal, state, and county financial assistance, the District is also responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs.

This internal control structure is subject to periodic evaluation by management and the internal audit staff of the District. As part of the District's single audit tests have been made to determine the adequacy of the internal control structure, including that portion related to federal financial award programs, as well as to determine that the District has compiled with applicable laws and regulations. The results of the District's single audit for the fiscal year ended June 30, 2020, provided no instances of material weaknesses in the internal control structure or significant violations of applicable laws and regulations.

Budgetary Controls. In addition, the District maintains budgetary controls. The objective of such budgetary control is to ensure compliance with legal provisions embodied in the annual appropriated budget adopted by the District's Board of Directors. Activities of the General Fund, Special Revenue Funds, Debt Service Funds, Capital Projects Funds, Proprietary Funds, Internal Service Funds, and Fiduciary Funds, are included in the annual appropriated budget. The level of budgetary control (the level at which expenditures cannot legally exceed the appropriated amount) is established by function within an individual fund. As demonstrated by the statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management.

The District is required by the State of Oregon to adopt an annual budget for all funds subject to the requirements of Local Budget Law as outlined in the Oregon Revised Statutes 294.305 through 294.565, inclusive. The budget for each individual fund is a plan for the financial operation to be conducted during the coming fiscal year and is adopted annually, prior to July 1, by the Board of Directors. After adoption, the budget may be revised through procedures specified in state statute and Board policy.

Oregon Local Budget law requires the appointment of a Budget Committee to review and approve the budget. The Budget Committee consists of the seven members of the Board of Directors and seven members appointed by the Board. The administration proposes a budget to the Budget Committee, which the Budget Committee may revise or approve. A summary of the approved budget, together with a notice of public hearing, is published in a newspaper with general circulation in the District. A public hearing is held to receive comments concerning the approved budget. The Board of Directors adopts the budget, makes appropriations, and levies taxes after the public hearing and before the beginning of the year for which the budget has been prepared.

Fund Summary. The results of operations and other financial data for the year ended June 30, 2020, are presented by the following non-governmental individual funds. Governmental funds are discussed in more detail in the Management's Discussion and Analysis section.

The financial statements for the non-governmental funds reflect the financial activity of the Internal Service Fund (Self-Insurance Fund), Proprietary Fund (Community Services Fund), and the Fiduciary Funds (Charter School/Scholarship Funds).

Internal Service Fund

This fund accounts for costs incurred for employees' general health insurance, worker's compensation, property and liability claims. Principal revenue sources are charges to other funds for service and earnings on investments. The fund balance at June 30, 2020, was \$9,972,713.

Proprietary Fund

This fund accounts for the rental of District buildings to the general public, child care facilities operated in District facilities, and tuition for after-school programs through the District. The balance in the Community Services Fund at June 30, 2020, was \$1,026,581.

Fiduciary Funds

The District has a private purpose trust fund. This private purpose trust fund, accounts for charter school and scholarship transactions. The fund balance at June 30, 2020 was \$197,760.

Long-term Financial Planning: In January 2014, the Board of Directors readopted Policy **DBDB Fund Balance**, which directs the superintendent or designee to ensure a minimum fund balance of five (5) percent of total adopted revenues. The District's unassigned fund balance in the General Fund, at 6/30/2020, is \$23,554,298 well above the minimum targeted level of five (5) percent.

During the 2019 legislative session, \$9B in funding was approved for kindergarten through high school education. This was a 10% increase over the previous biennium. In addition, a bill passed that added a business tax to provide \$2B in new school funding each two-year budget cycle. This was an historic increase in funding. Much of this new revenue, however, will be offset by increases in Oregon Public Employee's Retirement (PERS) costs along with smaller percentage increases in employee salaries.

During the spring of 2020 the District first experienced the impact of the COVID-19 pandemic and shifted to distance learning. The District implemented active reduction of expenditures and cost containment measures during the 2019-20 school year. The District is making appropriate reductions and adjustments as the impacts of the COVID-19 pandemic continue into the 2020-21 school year and beyond with comprehensive distance learning and the possible shift to hybrid learning in the spring of 2021.

In May 2019, voters approved a local option levy for schools at \$1.63 per \$1,000 of assessed value. The levy provided \$18.3 million in 2019-2020 which impacted classrooms across the district. Specifically, the additional revenue allowed NCSD to restore a full school year without furlough days, add 22 new teaching positions which will reduce class sizes, and provide full-time counselors at every elementary school.

INDEPENDENT AUDIT

As required by Oregon revised Statutes, sections 297.405 to 297.555 (known as the "Municipal Audit Law") an annual audit by independent certified public accountants has been performed. Wilcox Arredondo & Co... a firm of licensed certified public accountants, has audited the North Clackamas School District's financial statements. The goal of the independent audit was to provide reasonable assurance that the basic financial statements of the District for the fiscal year ended June 30, 2020, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall basic financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's basic financial statements for the fiscal year ended June 30, 2020, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the Financial Section of this report. The independent audit of the District's basic financial statements was part of the broader federally mandated "Single Audit" designed to meet the special requirements of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the basic financial statements, but also on the District's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the Single Audit Section of this report.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in financial Reporting to North Clackamas School district for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2019. This was the first year that the district has achieved this prestigious award. In order to be awarded a Certificate of Achievement, the District must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current Comprehensive annual Financial Report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

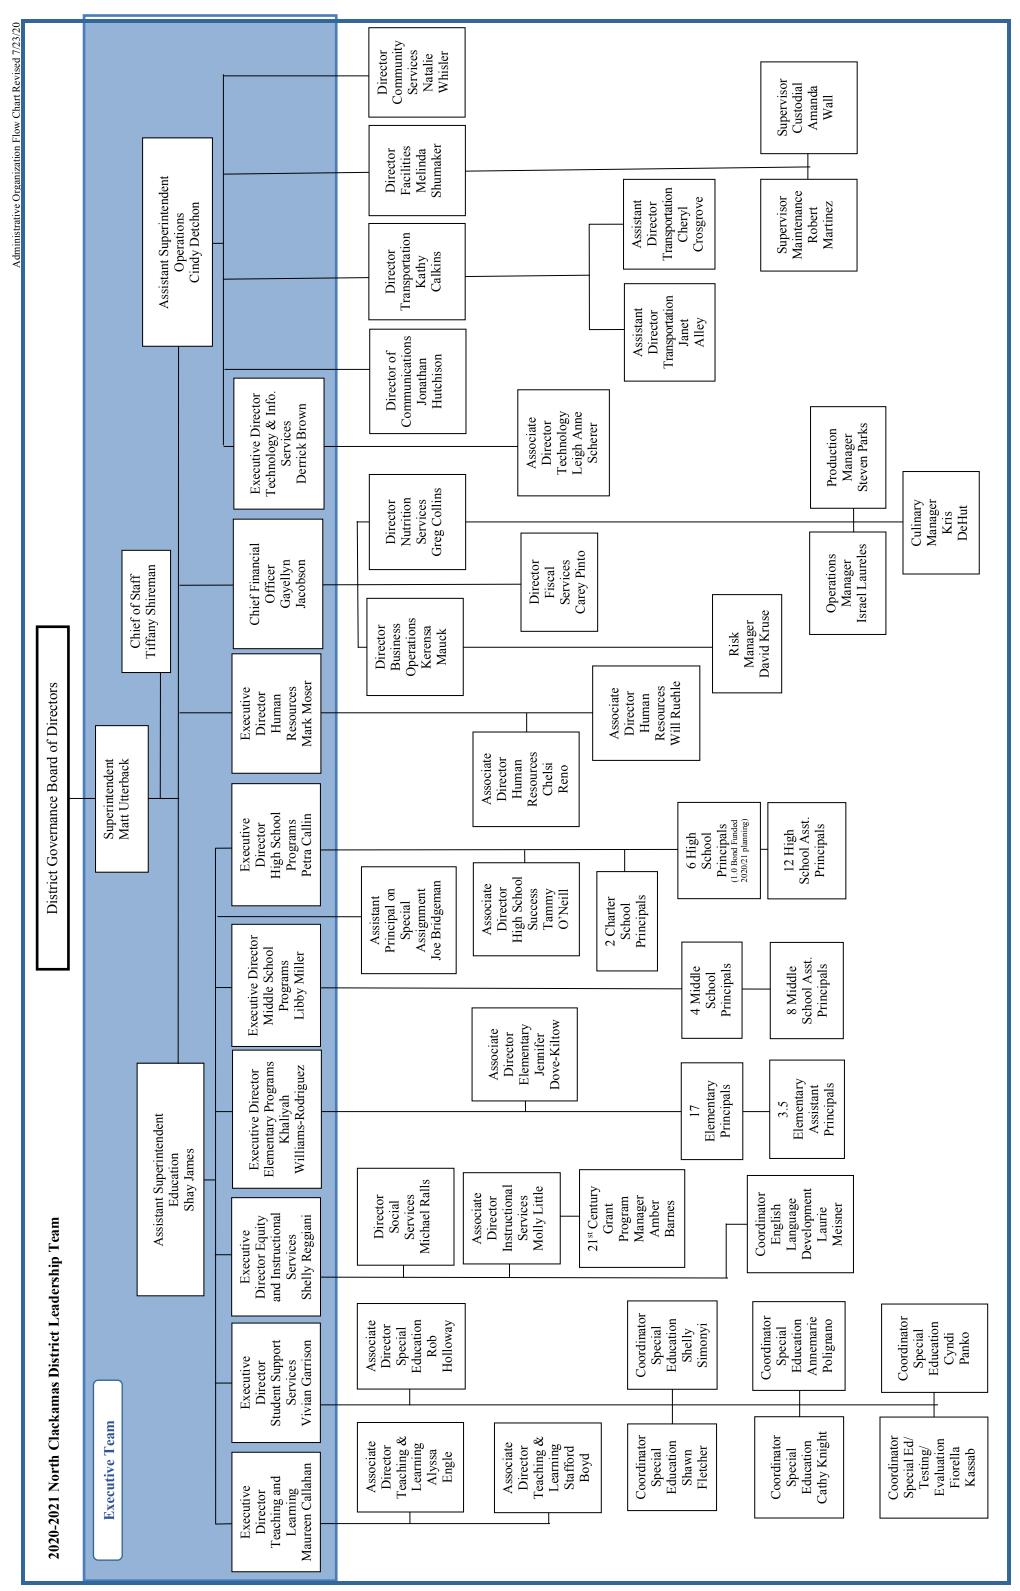

In addition, the Association of School Business Officials International (ASBO) awarded its Certificate of Excellence in Financial Reporting to North Clackamas School District for its Comprehensive annual Financial Report for the fiscal year ended June 30, 2019. The District has achieved this prestigious award for two consecutive years.

The Certificate of Excellence is recognition that the District has met the highest standards for financial reporting and accountability as adopted by ASBO. The District believes that the current Comprehensive Annual Financial Report continues to conform to these standards and will be submitting it to ASBO for review.

We wish to express our appreciation to the entire Fiscal Services staff for their efforts and contributions to this annual financial report. We would also like to thank the members of the Board of Directors for their continued support and dedication to the effective financial operation of the District.

Respectfully submitted,

Hayellyn H Jacobson

INDEPENDENT AUDITORS' REPORT

To the School Board North Clackamas School District No. 12 Clackamas County, Oregon

INDEPENDENT AUDITORS' REPORT

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of North Clackamas School District No. 12, (District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the District, as of June 30, 2020, and, the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Schedule of Changes in Total Other Postemployment Benefits and Related Ratios and Oregon Public Employee Retirement System for the RHIA and Pension information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Government Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Additionally, accounting principles generally accepted in the United States of America require that the General Fund and Special Revenue Fund budgetary comparison be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Government Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the General Fund and Special Revenue Fund budgetary comparison are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, the other supplementary information, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

The supplementary information, as listed in the table of contents, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally

accepted in the United States of America. In our opinion, the supplementary information, as defined in the table of contents, and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on then.

Other Reporting Required by Governmental Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 30, 2020, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Reports on Other Legal and Regulatory Requirements

In accordance with Minimum Standards for Audits of Oregon Municipal Corporations, we have issued our report dated December 30, 2020, on our consideration of the District's internal control over financial reporting and compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance.

Wilcox Arredondo & Co.

Certified Public Accountants Canby, Oregon December 30, 2020

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the North Clackamas School District (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities for the fiscal year ended June 30, 2020. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our Transmittal Letter, which can be found on pages i-v of this report.

FINANCIAL HIGHLIGHTS

In the government-wide statements, the liabilities and deferred inflows of resources of the District exceeded its assets and deferred outflows of resources at June 30, 2020, by \$23.7 million (net position). Of this amount, \$136.1 million represents the District's investment in capital assets net of related debt, \$13.9 million is restricted, and the remainder is an unrestricted net deficit of \$173.7 million.

- The District's government-wide net position decreased \$2.9 million for the fiscal year.
- The District had \$643.6 million invested in capital assets, net of depreciation.
- At the end of the fiscal year, unassigned fund balance for the General Fund was \$23.6 million or about 11.3 percent of total general fund revenues.
- Total cost of the District's Governmental Funds programs was \$416.4 million for the fiscal year, an increase of \$25.7 million (6.6 percent) from the prior year.
- The District's outstanding obligations (bonds payable, notes payable, accrued compensated absences, other post-employment benefits, and net pension liability) increased by 6.9 million, Bonds payable decreased by \$3.2 million due to the issuance of \$11.0 million in full faith and credit obligations and \$14.2 million in payments on principal of bonds during the 2019-20 fiscal year. The Proportionate Share of Net Pension Liability increased by \$8.8 million and the remainder of these liabilities increased by \$1.3 million due primarily to Other Postemployment Benefits, Implicit Rate Subsidy. The Pension Liability and Other Postemployment Benefits are discussed at greater detail in the notes to the financial statements.
- On November 8, 2016, North Clackamas School District voters approved a \$433M Construction Bond Measure. During 2019-20, construction at multiple sites was occurring. The bond allowed the District to: renovate/remodel schools, address security, safety, and seismic needs, address unfunded maintenance, modernize classrooms, increase access to technology, and relieve school overcrowding. Major ongoing projects include replacing/renovating 90-year-old Milwaukie High School, converting Clackamas High East Campus to a middle school, converting Rock Creek Middle School to a fourth comprehensive high school and building a new elementary school at S.E. Vogel Road named Beatrice Morrow Cannady Elementary which opened September 2019.

In December 2018, NCSD sold the remaining \$110.4 million of the voter-approved \$433 million in bonds. The tax-free bonds were extremely popular among investors resulting in \$16.1 million in premium over the issuing amount. Premium funds will be held in contingency and could be used to cover unanticipated costs or cost increases during the numerous bond projects. Implementation of the bond is overseen by the NCSD School Board and a Community Bond Oversight Committee.

 The District added a local option levy to the November 2018 ballot. The amount of the levy is \$1.63 per \$1000 of assessed value. The cost to each property owner varies based on a property's assessed value and real market value as determined by the county assessor. The 2019-20 proceeds of \$18.3 million were used to fund teaching positions and restore days to the school calendar.

OVERVIEW OF THE FINANCIAL STATEMENTS

This Management's Discussion and Analysis is intended to serve as an introduction to the basic financial statements of the District. The District's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains supplementary information in addition to the basic financial statements themselves.

1) **Government-wide Financial Statements**: The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. These statements can be found on pages 16 to 17 and include:

The Statement of Net Position: The Statement of Net Position focuses on resources available for future operations. In simple terms, this statement presents a snapshot view of what the District owns (assets plus deferred outflows), what it owes (liabilities plus deferred inflows), and the net difference (net position).

Net position may be further separated into amounts restricted for specific purposes and unrestricted amounts. Over time, increases or decreases in net position may serve as an indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Activities: The Statement of Activities presents information showing how the net position of the District changed over the year by tracking revenues, expenses and other transactions that increase or reduce net position. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

In the government-wide financial statements, the District's activities are shown in two categories:

Governmental activities: The District's basic functions are shown here, such as regular and special education, child nutrition services, transportation, administration, and facilities acquisition and construction. These activities are primarily financed through property taxes, Oregon's State School Fund and other intergovernmental revenues.

Business-type activities: Business-type activities are intended to recover all or a significant part of their activities through user fees and charges, and include building rentals and daycare provided by the District.

2) Fund financial statements: The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The North Clackamas School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Reports by fund are shown in the Financial Section of the report beginning on page 18. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds: The governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances are reconciled to the government-wide Statements of Net Position and Activities. The District maintains several individual governmental funds. Information is presented separately in the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances for the General, Special Revenue, Debt Service, and Capital Projects Funds, all of which are considered to be major funds. The basic governmental fund financial statements can be found on pages 18-21 of this report.

Proprietary funds: The District maintains two proprietary fund types (enterprise fund and internal service fund).

The Enterprise Fund is an accounting device used to charge for fees and rental services to recover costs of providing the services. The enterprise fund financial statements provide the information for the business-type activities.

The Internal Service Fund is an accounting device used to accumulate and allocate costs internally among the District's various functions. The District uses its internal service funds to account for insurance claims and premiums. Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

The basic proprietary fund financial statements are located on pages 22-24 of this report.

Fiduciary funds: Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The accounting used for fiduciary funds is the same as that used for proprietary funds. The District maintains one fiduciary fund - Charter Schools and Scholarships. The fiduciary fund financial statements are located on pages 25-26 of this report.

- 3) Notes to the basic financial statements: The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements are considered to be an integral part of the financial statements. The notes to the financial statements are located on pages 27-58 of this report.
- 4) **Other information**: In addition to the basic financial statements and accompanying notes, this report also presents certain *Required Supplementary Information* including budget to actual presentations for major funds and a schedule of property tax transactions. This information is located on pages 60-65 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted previously, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, liabilities and deferred inflows exceeded assets and deferred outflows by \$23.7 million at June 30, 2020.

Cash and investments represent 27.3 percent of total assets. Most of the \$246.4 million in cash and investments is related to the March 2017 and December 2018 bond sales, and will be spent as the bond work progresses.

Capital assets, which consist of the District's land, buildings, building improvements, construction-in-progress, vehicles, and equipment, represent about 71.3 percent of total assets.

The remaining assets are property tax and other receivables.

The District reports deferred outflows of \$85.5 million, which represent the deferred book loss that occurred as a result of the 2016 refunding of previously issued GO Bonds (\$26.1 million), as well as deferred items related to the District's pension plan (\$52.1 million) and other post-employment benefits (\$7.3 million). The deferred loss will be amortized over the life of the bonds and the deferred pension items are calculated as part of the PERS actuarial valuation.

The District's largest liability (78.2 percent) is for the repayment of general obligation and limited tax pension obligation bonds. The next-largest liability is the District's proportionate share of the net pension liability (PERS) and other post-employment benefits, which represents 16.5 percent of total liabilities. Other liabilities, representing 5.3 percent of the District's total liabilities, consist almost entirely of payables on accounts, notes, claims, and accrued salaries and benefits.

The District reports Deferred Inflows related to pensions and other post-employment benefits (OPEB) of \$21.3 million. Pension deferrals are reported as a result of the District adopting GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, and are representative of adjustments to estimates made in the most recent actuarial valuation for the pension plan.

The majority of the District's net position reflects its investment in capital assets (e.g. land, buildings, vehicles and equipment), less any related debt used to acquire those assets that are still outstanding. The District uses these capital assets to provide services to students and other District residents; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources (generally property taxes), since the capital assets themselves cannot be used to liquidate these liabilities.

GOVERNMENTAL ACTIVITIES FINANCIAL ANALYSIS

During the current fiscal year, the District's overall financial condition changed as indicated by a decrease of \$2.9 million in net position. Unrestricted net position decreased by \$3.3 million. At the same time, the District's investment in capital assets, net of related debt, increased by \$128.9 million.

Statement of Net Position

	Governmental Activities				Business-type Activities (in thousands)				Total Primary Government (in thousands)					
	(in thousands)			Increase

Restricted		13,891		15,220		-		-		13,891		15,220		(1,329)
Unrestricted		(174,680)		(170,985)		1,027		936		(173,653)		(170,049)		(3,604)
Total Net Position	\$	(24,716)	\$	(21,760)	\$	1,027	\$	936	\$	(23,689)	\$	(20,824)	\$	(2,865)

Net Position decreased primarily due to two factors:

- 1. Issuance of full faith and credit obligations increased long-term debt and current assets were utilized for the completion of bond projects during the year resulting in a corresponding increase in capital assets.
- 2. Pension deferred outflows decreased by \$10.8 million and Pension deferred inflows increased by \$5.3 million due to changes in PERS actuarial calculations.

The key elements of the change in the District's net position for the year ended June 30,2020 are as follows:

Changes in Net Position For the Year Ended

Net position - Beginning of Year		(21,760)		(15,975)		936		681		(20,824)		(15,294)	_	(5,530)
Net position - End of Year	\$	(24,716)	\$	(21,760)	\$	1,027	\$	936	\$	(23,689)	\$	(20,824)	\$	(2,865)

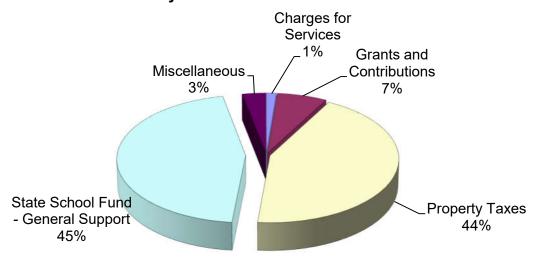

Property tax revenues increased by \$23.7 million from 2018-19. Tax receipts increased primarily due to increases in assessed values and building activity within the county and the addition of the local option levy tax. Taxes were levied appropriately to collect the permanent tax rate and funds to pay general obligation bonded debt. State School Fund (SSF) revenues increased by \$3.1 million, primarily due to an increase in funds received from the State School Fund. Miscellaneous revenue decreased due to lower investment earnings and a reduction in fees with the closing of school buildings due to the COVID-19 pandemic response in the spring of 2020.

Instruction and support services expenses increased in 2019-20 by \$26.3 million due to increased salary and benefit costs and with the addition of teachers due to the local option levy.

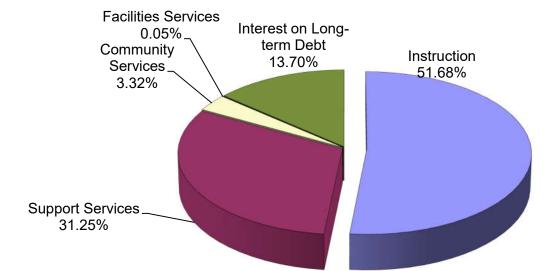

Interest on long-term debt increased by \$5.4 million related to interest charged to service the increased bond debt.

FY 2020 REVENUE PERCENTAGES:

Revenues by Source - Governmental Activities

FY 2020 EXPENDITURE PERCENTAGES: Expenses by Function - Governmental Activities

As illustrated above, State School Fund revenues represent about 45 percent of the District's total revenue sources. Property taxes comprise about 44 percent of revenues. Instructional expenses make up about 51.7 percent of the District's expenses, while support services are about 31.2 percent.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds: The focus of the District's governmental funds is to provide information on relatively short-term cash flow and funding for future basic services. Such information is useful in assessing the District's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of a fiscal year.

At June 30, 2020, the District's governmental funds reported combined ending fund balances of \$201.8 million, a decrease of \$113.1 million compared to the prior year. This decrease is primarily due to the spend down of the capital projects fund. Approximately \$23.6 million of the ending fund balance constitutes *unassigned fund balance*, which is available for spending at the government's discretion. Fund balance of \$164.3 million is restricted for capital projects, primarily related to bond work. The remaining \$13.9 million is restricted for debt repayment and grant activities, as authorized by voters and grantors.

<u>General Fund</u>: The General Fund is the main operating fund of the District. As of June 30, 2020, unassigned fund balance was \$23.6 million. As a measure of the fund's liquidity, it may be useful to compare total fund balance to total fund expenditures. Fund balance represents 11.6 percent of total General Fund expenditures. The fund balance increased by \$4.0 million during the current fiscal year. This is attributed to an active reduction of expenditures and cost containment measures implemented at the end of the fiscal year in response to the COVID-19 pandemic and the subsequent shift to distance learning.

<u>Special Revenue Fund</u>: The Special Revenue Fund has a total fund balance of \$6.1 million. This fund accounts for revenues and expenditures for grants that are restricted for specific educational projects. Principal revenue sources are federal, state, and intermediate grants. The fund decreased by \$469,647 due to transfers out to fund debt payments.

<u>Debt Service Fund</u>: The Debt Service Fund has a total fund balance of \$7.8 million, all of which is restricted for the payment of debt service. The fund decreased by \$858,485 due to payments of principal and interest that came due.

<u>Capital Projects Fund</u>: The Capital Projects Fund has a total fund balance of \$164.3 million. The fund balance decreased by \$115.8 million during the current fiscal year, primarily due to continued construction of a new schools and improvements at current sites.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital assets: The District's investment in capital assets includes land, buildings and improvements, vehicles and equipment, and construction in progress. During the year, the District's investment in capital assets increased by approximately \$128.9 million mainly due to the construction occurring at multiple sites paid for by the 2016 Construction Bond including the completion of Beatrice Morrow Cannady Elementary School.

The changes in capital assets from the fiscal year ended June 30, 2020, are as follows:

Capital Assets (Net of Depreciation) (in Thousands)

		Governmen				
					I	ncrease
	Jun	e 30, 2020	2020 June 30, 2019			ecrease)
Land	\$	64,924	\$	62,730	\$	2,194
Construction in Progress		176,576		151,505		25,071
Buildings and Improvements		391,168		291,731		99,437
Equipment		10,906		8,722		2,184
Total capital assets, net of accumulated depreciation	\$	643,574	\$	514,688	\$	128,886
accumulated acpreciation	<u> </u>	040,074	Ψ	014,000		120,000

Additional information on capital assets can be found in note 5 in the Notes to Basic Financial statements section of this report.

Long-term debt: At the end of the current fiscal year, the District had total long-term debt outstanding of \$774.4 million, consisting of general obligation and pension obligation debt, and unamortized bond premium.

During the current fiscal year, the Districts' total debt increased by \$1.3 million as a result of full faith and credit obligation issuance in June, 2020.

Outstanding Bonded Debt (in thousands)

		Governmen						
			Ir	ncrease				
	Jun	e 30, 2020	Jun	e 30, 2019	_(D	Decrease)		
General obligation bonds	\$	698,341	\$	694,263	\$	4,078		
Pension obligation bonds		76,052		78,806		(2,754)		
Total long-term debt	\$	774,393	\$	773,069	\$	1,324		

State statutes limit the amount of general obligation debt a school district may issue to 7.95 percent of its total real market value. With a real market value of over \$20 billion the current debt margin for the District is nearly \$1.1 billion, which is significantly in excess of the District's outstanding general obligation debt.

In January 2017 Standard & Poor's Rating Services confirmed the District's rating for general obligation debt as "A+" with a stable outlook and Moody's Investors Service confirmed an underlying Aa2 rating. Additional information on the District's long-term debt can be found in Note 5 in the Notes to Basic Financial statements section of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The most significant economic factor for the District is the State of Oregon's State School Fund. For the year ended, June 30,2020, the State School Fund – General Support provided over 60 percent of the District's General Fund program resources. State provided funding for K-12 education for the 2019-21 biennium is \$9.0B, a 9.8% increase from the previous biennium. However, increasing PERS costs continue to cause significant strain on the 2020-21 budget and are anticipated to cause more financial pressure in future years.

The 2019 Oregon Legislature passed a new spending bill which will allocate an additional \$1B annually to schools through the Student Success Act. North Clackamas School district anticipated an additional \$13M in revenue from this act in the 2020-21 budget however, due to the COVID-19 pandemic and subsequent recession, the actual revenue will be \$4.3 million. These funds are required to be used to support student mental and behavioral health and increase academic achievement for students, including reducing achievement disparities for targeted student populations.

Because of continued growth in real estate values and increased building, property taxes are expected to grow at around 4 percent. Enrollment has been relatively flat in the past few years. For the 2020-21 school year, flat enrollment was expected but with the move to comprehensive distance learning in response to the COVID-19 pandemic, enrollment is down significantly and the district will have a lower ADM but will continue to receive state funding based on the 2019-20 ADM.

The District has completed a strategic planning process that will more closely align budgeting efforts action plan goals. The action plan goals include a focus on student achievement, equity, quality of programs, and stewardship of resources and assets entrusted to the district. This will be extremely important as the District has limited funds.

In June 2020, the board adopted the District budget for the fiscal year 2020-21. The adopted budget for the General Fund for the year ending June 30, 2021 is \$237.5 million. This is an increase of \$10.3 million from the 2019-20 adopted budget. This budget was adopted without budgeting for any financial impacts as a result of the COVID-19 pandemic due to the uncertainty and legally required deadline for adoption. The District anticipates making appropriate reductions and adjustments as the impacts of the COVID-19 pandemic continue.

REQUESTS FOR INFORMATION

This financial report is designed to present the user (citizens, taxpayers, investors, and creditors) with a general overview of the District's finances and to demonstrate the District's accountability. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Chief Financial Officer at 12400 SE Freeman Way, Milwaukie, OR 97222. An electronic copy of this and other prior year financial statements are available on the District's website at: http://www.nclack.k12.or.us/business/page/audit-reports.

1. Summary of Significant Accounting Policies

Reporting Entity

North Clackamas School District No. 12 (the District) is a municipal corporation governed by an elected Board of Directors. The Board approves administrative officials. The daily functioning of the District is under supervision of the Superintendent. As required by generally accepted accounting principles, all activities of the District have been included in the basic financial statements.

The District qualifies as a primary government since it has a separately elected governing body, is a legally separate entity, and is fiscally independent. There are various governmental agencies and special districts, which provide service within the District's boundaries, however, the District is not financially accountable for any of these entities, and therefore, none of them are considered component units or included in these basic financial statements.

Basis of Presentation

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The Statement of Net Position and the Statement of Activities display information about the District. These statements include the governmental financial activities of the overall District, except fiduciary activities. Governmental activities are financed primarily through property taxes, intergovernmental revenues, and charges for services.

The Statement of Activities presents a comparison between direct expenses and program revenues for each of its functions/programs. Direct expenses are those that are specifically associated with a function and, therefore, are clearly identifiable to that function. Program revenues include: (1) charges to students or others for tuition, fees, rentals, material, supplies, or services provided, (2) operating grants and contributions and (3) capital grants and contributions. Revenues not classified as program revenues, including property taxes and state supports, are presented as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter is excluded from the governmental-wide financial statements.

Net position is reported restricted when constraints placed on the net position use are either externally restricted, imposed by creditors (such as grantors, contributors or laws) or through constitutional provisions or enabling resolutions.

FUND FINANCIAL STATEMENTS

The fund financial statements provide information about the District's funds including those of a fiduciary nature. Separate statements for each fund category – governmental and fiduciary – are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as other governmental funds.

The District reports the following major governmental funds:

General Fund – This fund accounts for all revenues and expenditures except for those required to be accounted for in another fund. The principal revenue sources are property taxes and an apportionment from the State of Oregon. Expenditures in the fund are made for instructional purposes and related support services.

1. Summary of Significant Accounting Policies (Continued)

Basis of Presentation – FUND FINANCIAL STATEMENTS (Continued)

Special Revenue Fund - This fund accounts for the revenues and expenditures of specific educational programs funded from federal, state, local sources, and student body activities. Principal sources of revenue are federal and state grants paid to the District through state and county agencies and other grants paid to the District directly from state, local and private agencies as well as student body receipts.

Debt Service Fund - This fund is used for the accumulation of resources and payment of general obligation bond principal and interest. Primary resources in these funds are property taxes and earnings on investments.

Capital Projects Fund – This fund accounts for activities related to the acquisition, construction, equipping and furnishing of new schools and other facilities. Principal revenue sources are proceeds from general obligation bond issues and related interest earned on proceeds not yet expended.

Additionally, the District reports the following fund types:

Enterprise Fund – This fund accounts for activities related to community service including child care services. Principal revenue sources are charges for services and rentals.

Internal Service Fund – This fund accounts for costs incurred for employees' general health insurance. The principal revenue source is charges to other funds for services.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Fund are rental and lease charges for facility use and service charges to external customers for goods and services. Operating expenses for the Enterprise Fund include salaries and benefits, supplies, materials and administrative expenses. The principal operating revenues of the District's Internal Service Funds are charges to other funds for insurance. Operating expenses for the Internal Service Funds include self-insurance. All revenues and expenses not meeting these definitions are reported as nonoperating revenues and expenses in both the Enterprise Fund and the Internal Service Funds.

The private-purpose trust fund is used to account for charter school receipts and scholarship resources held by the District in a fiduciary capacity for use by charter schools and students. Disbursements from this fund is made in accordance with the trust and donor agreements.

Measurement Focus and Basis of Accounting

Government-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the District receives value without giving equal value in exchange, include property taxes, grants, entitlements and donations. On the accrual basis of accounting, revenue from property taxes is recognized in the fiscal year for which all eligibility requirements have been satisfied. Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

1. Summary of Significant Accounting Policies (Continued)

Measurement Focus and Basis of Accounting (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end. Property taxes and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt and claims and judgments, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in the governmental funds and proceeds from general long-term debt and acquisitions under capital leases are reported as other financing sources.

The Enterprise and Internal Service Fund employs the economic resources measurement focus and the accrual basis of accounting.

Budget

A budget is prepared and legally adopted for each governmental fund type and private purpose trust on the modified accrual basis of accounting. The budgetary basis of accounting is the same as accounting principles generally accepted in the United States of America basis for the governmental fund types and private purpose trust fund, except that capital outlay expenditures, including items below the District's capitalization level, are budgeted by function in the governmental fund types. The resolution authorizing appropriations for each fund sets the level by which expenditures cannot legally exceed appropriations.

Appropriations are established at the major function level (instruction, support services, enterprise and community services, facilities acquisition and construction, debt service, operating contingency and transfers) for each fund. The detail budget document, however, is required to contain more specific, detailed information for the aforementioned expenditure categories. Unexpected additional resources may be added to the budget through the use of supplemental budget and appropriation resolution.

Supplemental budgets less than 10% of fund's budget may be adopted by the Board at a regular meeting. A supplemental budget greater than 10% of a fund's original budget requires a hearing before the public, publication in newspapers and approval by the Board. Original and supplemental budgets may be modified by the use of appropriation transfers between the levels of control (major function levels) with Board approval. The District's appropriations lapse at year-end.

Cash and Investments

The District's cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition are considered to be cash and cash equivalents. Short-term investments are stated at cost, which approximates fair value.

The District's investments consist of U.S. Government Treasury securities, U.S. Government Agency securities and the State of Oregon Treasurer's Local Government Investment Pool (LGIP). The District's investments are reported a fair value based upon quoted market rates. Changes in fair value of investments are recorded as investment earnings. The LGIP is stated at costs which approximates fair value. Fair value of the LGIP is the same as the District's value in the pool shares.

The Oregon State Treasury administers the LGIP. It is an open-ended, no-load diversified portfolio offered to any agency, political subdivision or public corporation of the State that by law is made the custodian of, or has control of, any fund. The LGIP is commingled with State's short-term funds. In seeking to best serve local governments of Oregon, the Oregon legislature established the Oregon Short-Term Fund Board. The purpose of the Board is to advise the Oregon State Treasury in the management and investment options of the LGIP.

1. Summary of Significant Accounting Policies (Continued)

Property Taxes Receivable

Property taxes are levied and become a lien on all taxable property as of July 1. Collections dates are November 15, February 15, and May 15 following the lien date. Discounts are allowed if the amount due is received by November 15 or February 15. Taxes unpaid and outstanding on May 16 are considered delinquent. Uncollected property taxes are recorded on the Statement of Net Position. Uncollected taxes are deemed to be substantially collectible or recoverable through liens; therefore, no allowance for uncollectible taxes has been established. All property taxes receivable are due from property owners within the District.

Accounts and Other Receivables

Accounts and other receivables are comprised primarily of State school support and claims for reimbursement of costs under various federal and state grants.

Grants

Unreimbursed grant expenditures due from grantor agencies are reflected in the basic financial statements as receivables and revenues. Grant revenues are recorded at the time eligible expenditures are incurred. Grant monies received prior to the occurrence of qualifying expenditures are recorded as unearned revenue.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Oregon Public Employees Retirement System (OPERS) and additions to/deductions from OPERS fiduciary net position have been determined on the same basis as they are reported by OPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Capital Assets

Capital assets are recorded at original cost or estimated original cost. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are reported at their acquisition value on the date donated. The District defines capital assets as assets with an initial cost of more than \$5,000 and an estimated life in excess of one year. Interest incurred during construction is not capitalized. Maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following useful lives.

Buildings and improvements 10 to 50 years Vehicles and Equipment 5 to 30 years

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position and balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period(s) so will not be recognized as an outflow of resources (expense/expenditure) until that time. The government has four items that arise only under a full accrual basis of accounting that qualify for reporting in this category. The statement of net position reports the net PERS pension liability, Stipend, OPEB and bond refunding. These amounts are deferred and recognized as an outflow of resources in the period that the amounts become available.

1. Summary of Significant Accounting Policies (Continued)

Deferred Outflows/Inflows of Resources (Continued)

In addition to liabilities, the statement of net position and balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has four items that arise for reporting in this category. The balance sheet reports unavailable revenues from one source: property taxes. The statement of net position reports three types related to the net PERS pension liability, other postemployment benefits, and stipend benefit. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Retirement Plans

Substantially all of the District's employees are participants in the Oregon Public Employees Retirement System (OPERS). For the purpose of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about fiduciary net position of PERS and additions to/deductions from PERS's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The District offers its employees a tax deferred annuity plan established pursuant to Section 403(b) and 457(b) of the Internal Revenue Code.

Self-Insurance

The District is self-insured for losses and claims up to policy deductible limits ranging from \$5,000 to \$50,000 for property, comprehensive general and automobile liability, board of directors' liability, boiler and machinery, and fidelity bonds coverages. Additionally, the District is self-insured for workers' compensation.

Post Employment Health Care Benefits

Eligible employees who elect early retirement are entitled to participate in the District's group medical insurance plan. Such costs are recorded as expenses in the General Fund and are funded as premiums become due.

Compensated Absences

It is the District's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the District does not have a policy to pay any amounts when employees separate from service with the District. All unused vacation pay is accrued, if material, when earned in the government-wide financial statements. A liability is accrued in the governmental funds when the amount matures.

1. Summary of Significant Accounting Policies (Continued)

Long-term Debt

In the government-wide financial statements long-term debt is reported as a liability in the Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of applicable bond premium or discount. Bond issuance costs are expensed in the period incurred. Savings realized from advance refunding of debt are recorded as deferred outflows of resources and amortized over the remaining life of the related defeased debt.

In the fund financial statements bond premiums and discounts are recognized when incurred and are not deferred. The face amount of the debt issued, premiums received on debt issuances, and discounts are reported as other financing sources and uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Interfund Transactions

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. This includes interfund transfers occurring within governmental activities and interfund receivables and payables.

Interfund Receivables/Payables

The District maintains a cash pool that is available for use by all funds. The cash pool account is maintained in the General Fund, while activity between funds utilizing this cash is referred to as Due to/from Other Funds in each fund at the end of the fiscal year in the fund basis financial statements. All interfund loan balances are considered current and are eliminated in the government-wide financial statements.

Fund Balances

In the governmental financial statements, fund balances are reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

Governmental fund balances are classified as nonspendable, restricted, committed, assigned or unassigned. Following are descriptions of fund classifications used by the district:

Nonspendable fund balance includes items not immediately converted to cash, such as prepaid items and inventory.

Restricted fund balance includes amounts that have constraints placed upon the use of the resources either by an external party or imposed by law through a constitutional provision or enabling legislation.

Committed fund balance includes amounts that can be used only for the specific purposes pursuant to constraints imposed by a formal resolution of the School Board. The School Board can modify or rescind the commitment at any time through taking a similar formal resolution.

Assigned fund balance includes amounts assigned for specific uses as authorized by the Superintendent and/or Director of Finance.

1. Summary of Significant Accounting Policies (Continued)

Fund Balances (Continued)

Unassigned fund balance is the residual classification for balances not assigned to another category. The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds it is not appropriate to report a positive unassigned fund balance amount. However, in governmental funds other than the general fund, if expenditures incurred for specific purposes exceed the amounts that are restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in that fund.

The governing body has approved the following order of spending regarding fund balance categories: The spending of restricted fund balances on purposes for which such funds can be used to occur first when funds are spent for restricted and unrestricted purposes. When unrestricted classifications of fund balance are spent, the board will consider the committed amounts will be reduced first, followed by assigned amounts and then unassigned amounts.

To preserve a sound financial system and to provide stable financial base, the governing body has adopted a minimum fund balance policy. The District will target a minimum fund balance equal to no less than (5%) percent of the General Fund expenditures and other financing uses as a reserve for economic uncertainties.

Net Position

In the government-wide financial statements, net position is classified in the following categories:

Net Investment in Capital Assets – This amount consist of capital assets net of accumulated depreciation and reduced by outstanding debt attributed to the acquisition, construction, or improvement of the assets. In addition, the District has unspent bond proceeds in the form of cash and investments to fund bond expenditures in subsequent years.

Restricted net position – This amount is restricted when constraints placed on the net position use are either externally restricted, imposed by creditors (such as grantors, contributors or laws) or through constitutional provisions or enabling resolutions.

Unrestricted net position – This amount is all net position that do not meet the definition of "net invested in capital assets" or "restricted net position".

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

2. Cash and Investments

The District maintains a cash pool that is available for use by all funds except the agency fund. Each fund type's portion of this pool is reported on the Combined Balance Sheet as Cash and Investments or Due to/from other funds. In addition, cash is separately held by certain funds of the District.

2. Cash and Investments (Continued)

Cash and investments on June 30, 2020 consist of the following:

Petty Cash	\$ 2,000
Deposits with banks	77,736,205
Investments	 169,042,457
	\$ 246,780,662
Cash and investments are shown on the basic financial statements as:	
Statement of Net Position	
Cash and Investments	\$ 246,410,857
Statement of Net Position - Fiduciary Funds	
Cash and Investments - Private Purpose Trust	369,805

Deposits

Custodial credit risk - Deposits

Custodial credit risk for deposits is the risk that in the event of bank failure, the District's deposits may not be returned to the District. Insurance and collateral requirements for the deposits are established by federal banking regulations and Oregon law. State statutes require that the District's deposits be covered by the Federal Deposit Insurance Corporation (FDIC) or by a multiple financial institution collateral pool under ORS 295.015 which is administered by the State of Oregon Office of the Treasury.

246,780,662

Deposits with financial institutions include primarily bank demand and money market deposits. The balances in these accounts according to the District's records total \$77,736,205 on June 30, 2020. The bank statement records reflect a balance of \$79,224,001 at year end. Of this amount, \$750,000 is covered by the FDIC's general deposit insurance rules. As required by Oregon Revised Statutes, deposits in excess of federal depository insurance were held at a qualified depository for public funds. All qualified depositories for public funds are included in the multiple financial institution collateral pool that is maintained by and in the name of the Office of State Treasurer. As a result the District has no exposure to custodial credit risk for deposits with financial institutions.

Investments

State of Oregon statutes restrict the types of investments in which the District may invest. Authorized investments include obligations of the United States Government and its agencies, certain bonded obligations of Oregon municipalities, bank repurchase agreements, bankers' acceptances, time certificates of deposit, certain commercial paper, and the State of Oregon Treasurer's Local Government Investment Pool.

2. Cash and Investments (Continued)

Investment Type		Fair Value	Weighted Average Maturity in Years	% of Investment Portfolio
Commercial Securities US Treasury Securities Municipalities	\$	16,071,079 34,957,089 681,244	1.25 2.06 1.17	9.51% 20.68% 0.40%
U.S. Government Agency Securities Local Government Investment Pool	_	53,733,022 63,600,023	1.71	31.79% 37.62%
	\$	169,042,457	1.12	100.00%

The District categorizes its fair value measurements within the fair value hierarchy established by generally acceptable accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of an asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant observable inputs. Investments in Commercial Securities, U.S. Treasury securities and U.S. Agency securities are valued using quoted market prices (Level 1 inputs).

The "weighted average maturity in years" calculation assumes that all investments are held until maturity.

Interest rate risk – investments. Interest rate risks is the risk that changes in interest rates will adversely affect the fair value of an investment. The District minimizes interest rate risk by structuring the investment portfolio so that securities mature to meet the cash requirements for ongoing operations and capital construction projects, thereby avoiding the need to sell securities in the open market, and investing primarily in the Local Government Investment Pool (LGIP). Funds may be invested in the LGIP to the extent permitted by ORS 294.810. Excess amounts are invested in adherence with the portfolio maturity constraints.

Under the District's policy, investments of over 18 months will be avoided, unless they can be matched with specific expected use of funds as provided by ORS 294.135. The investment of capital bond proceeds are timed to meet construction payments.

Concentration of credit risk – investments. The Oregon State Treasurer's Local Government Investment Pool (LGIP) is subject to regulatory oversight by the Oregon Secretary of State and is not required to be categorized by risk. The LGIP is stated at cost, which approximates fair value. Fair value of the LGIP is the same as the District's value in the pool shares. The Oregon State Treasurer maintains the Oregon Short-Term Fund, of which the LGIP is a part. It is not registered with the U.S. Securities and Exchange Commission. The Fund currently has no credit rating as assigned by the credit rating agencies. On June 30, 2020 the fund's composite weighted rating was equivalent to S&P's AA ratings. The State's investment policies are governed by statute and the Oregon Investment Council (Council). The State Treasurer is the investment officer for the Council and is responsible for all funds in the State Treasury. Investments in the Fund are further governed by portfolio guidelines issued by the Oregon Short-Term Fund Board (OSTFB) and approved by the Oregon Investment Council (ORS 294.805 to 294.895).

2. Cash and Investments (Continued)

As a means of limiting its exposure to fair value losses arising from rising interest rates, no more than the stated percentage of the overall portfolio will be invested in each of the following categories of securities:

Investment Type	Maximum % of Holdings
U.S. Treasury securities	100%
Local Government Investment Pool	100% (or pool limit)
Fully insured Certificates of Deposit (CD)	100%
Bankers' Acceptances (BA's)	50%
Certificates of Deposits (CD)	25%
Repurchase Transactions	10%
U.S. Government agency securities and	
Instrumentalities of government sponsored	
Corporations.	100%

As of June 30, 2020, more than 5% of the District's total investments are in securities by the following issuers:

lssuer	<u>% of Total Investments</u>
Federal Agric Mortgage Assn	8.47%
Resolution Funding Corp	8.02%
U.S. Treasury	14.15%
Local Government Investment Pool	25.75%

As of June 30, 2020, the District was in compliance with the State of Oregon statutes regarding investments as discussed under Note 1 and the District's investment policies.

3. Accounts, Property Taxes and Grants Receivable

	General Fund	Special Revenue Fund	Debt Service Fund	Internal Service Fund	Total
Uncollected Property Taxes	\$ 2,715,406	\$ -	\$ 1,167,024	\$ -	\$ 3,882,430
Grants Receivables	779,489	4,196,236	-	-	4,975,725
Other Receivables	1,813,851			18	1,813,869
Total Receivables	\$ 5,308,746	\$ 4,196,236	\$ 1,167,024	\$ 18	\$ 10,672,024

Special revenue fund and Capital projects fund grants receivable are comprised of claims for reimbursement of costs under various federal and state grant programs.

4. Capital Assets

Capital assets activity for the year ended June 30, 2020 was as follows:

		Balance July 1, 2019		Increases	Decr	eases		Balance June 30, 2020

<u>Construction Commitments</u> - The District has active construction projects as of June 30, 2020. As of the end of the fiscal year, the District is committed under various accepted bid agreements and contracts for approximately \$115,094,856 for goods, services and construction of facilities.

5. Long-Term Debt

General Long-Term Debt

General Obligation Bonds – General obligation bonds are direct obligations and pledge the full faith and credit of the District. The District issues general obligation bonds to provide funds for the acquisition and construction of school facilities.

In December 2014, the District issued \$170,380,000 in general obligation bonds for the purpose of refunding portion of its general obligation bonds issued in 2007. The bonds were sold at a premium of \$28,237,296. A total of \$197,617,296 was raised to buy back bonds issued in 2007 with an outstanding principal balance of \$153,556,142 and valued as of December 18, 2014 of \$197,631,199. The difference of 986,097 was paid for cost of issuance of the bonds.

The 2014 refunding resulted in a deferred loss on the Statement of Net Position of \$35,334,060 due to the excess of the principal balance and premium of the new bonds as compared to the principle balance and premium outstanding for the bonds that were paid off. Although the stated amount of the bonded debt is now higher, the District will save a significant amount of money over the life of the new bonds due to the reduction in interest payments. The present value of savings on the total debt service of the refunding bonds in comparison to the old bonds is \$15,119,698. The deferred loss is amortized on the straight line basis over the life of the 2014 refunding bonds. The unamortized balance as of June 30, 2020 was \$26,096,631.

In May of 2016, the District issued \$23,830,000 in general obligation bonds for the purpose of refunding additional 2007 bonds. The bonds were sold at a premium of \$3,084,637. In addition, the District provided \$464,705 of its own funds to bring the total money raised to \$27,379,342. The 2007 with an outstanding principal balance of \$25,630,000 were paid off and transaction costs of \$209,421. The difference of \$1,539,921 is reported as a deferred loss on the Statement of Net Position and amortized over the life of the new bonds.

In March 2017, the District issued Series 2017B for \$182,350,000 in general obligation bonds to finance capital construction and improvements. Interest rates range from 4.0% to 5.0%, payable semiannually in June and December, beginning June 2020. The bonds mature on June 15, 2037 with principal payments due annually on June 15th. The District issued series 2017B deferred interest bonds for \$140,292,626 in general obligation bonds to finance capital construction and improvements. Interest rates range from 1.42% to 4.56% deferred interest is compounded and paid at maturity beginning June 2019. The bonds mature June 15, 2042.

In December 2018, the District issued Series 2018 for \$110,357,000 in general obligation bonds to finance capital construction and improvements. Interest rates on this issue is 5.0%, payable semiannually in June and December, beginning December 2019. The bonds mature on June 15, 2042 with principal payments due annually on June 15th.

Pension Obligation Bonds – On October 31, 2002 and April 2003, the District issued \$113,978,012 of limited tax pension obligation bonds to finance its portion of the unfunded actuarial liability (UAL) with the State of Oregon Public Employees Retirement System (PERS) as of December 31, 2000. On August 11, 2011, the District issued \$3,490,000 of limited tax pension obligation bonds.

Full Faith and Credit Obligation Bonds – On June 30, 2020, the District issued \$11,036,100 full faith and credit obligation bonds to provide funds for the District's bus transportation facility and subsequent improvements. Interest rate on the bonds is \$2.93% with final maturity June 1, 2035.

5. Long-Term Debt (Continued)

6. Interfund Receivables/Payables & Transfers

The composition of due to/due from balances as of June 30, 2020 is as follows:

	Due From Due to				
Major Government Funds					
General Fund	\$	-	\$	16,947,423	
Special Revenue Fund		156,002		-	
Debt Service Fund		-		4,519,253	
Capital Projects Fund		19,961,314		-	
Internal Service Fund		1,349,360		-	
	\$	21,466,676	\$	21,466,676	

The District maintains a cash pool that is available for use by all funds. Each fund type's portion of this pool is reported as either Cash and Investments or Due to/from Other Funds. Interfund receivables and payables (Due to / Due from Other Funds) arise during normal processing of receipts and disbursements for all funds through a single checking account and do not represent interfund loans.

6. Interfund Receivables/Payables & Transfers (Continued)

The interfund transfers during the year ended June 30, 2020 are as follows:

	=	Transfer Out		
Major Government Funds				
General Fund	\$	1,400,000	\$	3,114,398
Special Revenue Fund		1,340,077		1,912,662
Debt Service Fund		2,705,877		-
Capital Projects Fund		199,714		1,690,777
Internal Service Fund		1,000,000		-
Fiduciary Fund		72,169	-	-
	\$	6,717,837	\$	6,717,837

The District made transfers from the General fund to fund bus replacement and cover wage increases in the Special Revenue Fund, to cover principal and interest payments in the Debt Service Fund, to the Internal Service Fund to cover worker's compensation claims, to the Capital Projects Fund to cover principal and interest payments, and to the fiduciary fund to cover ending fund balance shortfall. The Special Revenue Fund made a transfer to the Debt Service Fund to cover bus financing payments and to the Capital Projects fund to cover principal and interest payments. The Capital Projects made transfers to the General Fund to fund unfilled positions and to Debt Service Fund to cover building payments.

7. Pension Plan

Plan Description

The District participates in the Oregon Public Employees Retirement System (OPERS), a cost-sharing, multiple-employer defined benefit plan. OPERS provides retirement, disability, and death benefits to plan members and their beneficiaries.

All benefits of OPERS are established by the Oregon Legislature pursuant to Oregon Revised Statutes (ORS) Chapters 238 and 238A. The plan complies with Internal Revenue Service rules prescribed in 401(a). The Oregon Legislature has delegated the authority to the Public Employees Retirement Board (PERB) to administer and manage the system. OPERS issues a publicly available financial report that can be obtained at: http://www.oregon.gov/pers/Pages/section/financial_reports/financials.aspx. OPERS prepares their financial statements in accordance with GASB statements and generally accepted accounting principles. The accrual basis of accounting is used for all funds. Contributions are recognized when due, pursuant to legal (or statutory) requirements. Benefits are recognized in the month they are earned and withdrawals are recognized in the month they are due and payable. Investments are recognized at fair value, the amount at which financial instruments could be exchanged in a current transaction between willing parties other than in a forced or liquidation sale.

There are currently two programs within OPERS, with eligibility determined by the date of employment. Those employed prior to August 29, 2003 are OPERS Program members, and benefits are provided based on whether a member qualifies for Tier One or Tier Two described below. Those employed on or after August 29, 2003 are Oregon Public Service Retirement Plan (OPSRP) Program members. OPERS is a hybrid retirement plan with two components: 1) the Pension Program (defined benefit; established and maintained as a tax-qualified governmental defined benefit plan), and 2) the Individual Account Program (IAP) (defined contribution; established and maintained as a tax-qualified governmental defined contribution plan).

The 1995 Legislature created a second tier of benefits for those who became OPERS Program members after 1995 but before August 29, 2003. The second tier does not have the Tier One assumed earnings rate guarantee.

7. Pension Plan (Continued)

Beginning January 1, 2004, all employees who were active members of OPERS became members of the OPSRP IAP Program. OPERS plan member contributions (the employee contribution, whether made by the employee or "picked-up" by the employer) go into the IAP portion of OPSRP. OPERS plan members retain their existing OPERS accounts; however, member contributions after January 1, 2004 are deposited in the member's IAP, not into the member's OPERS account.

a. Tier One/Tier Two Retirement Benefit Plan (Chapter 238).

Pension Benefits

The PERS retirement allowance is payable monthly for life. It may be selected from thirteen retirement benefit options. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (1.67 percent for general service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated under either a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefit results.

A member is considered vested and will be eligible at minimum retirement age for a service retirement allowance if he or she has had a contribution in each of five calendar years or has reached at least 50 years of age before ceasing employment with a participating employer. General service employees may retire after reaching age 55. Tier One general service employee benefits are reduced if retirement occurs prior to age 58 with fewer than 30 years of service. Tier Two members are eligible for full benefits at age 60.

The ORS Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003.

Death Benefits

Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided one or more of the following conditions are met:

- the member was employed by a PERS employer at the time of death,
- the member died within 120 days after termination of PERS-covered employment,
- the member died as a result of injury sustained while employed in a PERS-covered job, or
- the member was on an official leave of absence from a PERS-covered job at the time of death.

Disability Benefits

A member with ten or more years of creditable service who becomes disabled from other than duty-connected causes may receive a non-duty disability benefit. A disability resulting from a job-incurred injury or illness qualifies a member disability benefits regardless of the length of PERS-covered service. Upon qualifying for either a non-duty or duty disability, service time is computed to age 58 when determining the monthly benefit.

7. Pension Plan (Continued)

Benefit Changes after Retirement

Members may choose to continue participation in a variable equities investment account after retiring and may experience annual benefit fluctuations due to changes in the market value of equity investments.

Under ORS 238.360 monthly benefits are adjusted annually through cost-of-living changes. Under current law, the cap on the COLA in fiscal year 2017 and beyond will vary based on 1.25 percent on the first \$60,000 of annual benefit and 0.15 percent on annual benefits above \$60,000.

b. OPSRP Pension Program (Chapter 238A)

Pension Benefits.

The OPSRP Pension Program (ORS Chapter 238A) provides benefits to members hired on or after August 29, 2003. This portion of OPSRP provides a life pension funded by employer contributions. For general service employees benefits are calculated with the following formula: 1.5 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for general service members is age 65, or age 58 with 30 years of retirement credit.

A member of the OPSRP Pension Program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which termination becomes effective.

Death Benefits

Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse, receives for life 50 percent of the pension that would otherwise have been paid to the deceased member.

Disability Benefits

A member who has accrued ten or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary determined as of the last full month of employment before the disability occurred.

Benefit Changes after Retirement

Under ORS 238A.210 monthly benefits are adjusted annually through cost-of-living changes. Under current law, the cap on the COLA in fiscal year 2017 and beyond will vary based on 1.25 percent on the first \$60,000 of annual benefit and 0.15 percent on annual benefits above \$60,000.

Contributions

PERS funding policy provides for monthly employer contributions at actuarially determined rates. These contributions, expressed as a percentage of covered payroll, are intended to accumulate sufficient assets to pay benefits when due. This funding policy applies to the PERS Defined Benefit Plan and the Other Postemployment Benefit Plans.

Employer contribution rates during the period were based on the December 31, 2017 actuarial valuation. The rates based on a percentage of payroll, first became effective July 1, 2019. The District made lump sum payments to establish side accounts in 2002 and 2004, which reduces the District rates below the standard School District Pool rates. The District's contractually required contribution rate for the year ended June 30, 2020 was 16.75% of eligible payroll for Tier 1/Tier 2 members and 11.30% of eligible payroll for OPSRP members. Employer contributions for the year ended June 30, 2020 were \$14,822,647, excluding amounts to fund employer specific liabilities. \$12,057,725 was charged for the year ended June 30, 2020 as PERS benefit expenditures to be used for bond payments as they become due. In addition, \$4,658,287 in employee contributions were paid by the district for the year ended June 30, 2020.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources related to Pensions

At June 30, 2020, the District reported a liability of \$136,301,159 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2017 rolled forward to June 30, 2019. The District's proportion of the net pension liability was based on the District's projected long-term contribution effort to the Plan with the total projected long-term contribution effort of all employers, actuarially determined. At June 30, 2019 the District's proportion was .79% which was .05% less than its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the District recognized a pension expense of \$21.71 million. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	 erred Outflows f Resources	 Deferred Inflows of Resources		
Differences between expected and actual experience	\$ 7,516,607			
Changes in assumptions	18,490,807			
Net difference between projected and actual earnings on investments	-	\$ 3,863,999		
Changes in proportionate share	12,793,285	5,143,290		
Differences between employer contributions and employer's proportionate share of system contributions`	-	10,552,321		
District contributions subsequent to the measurement date	13,296,250	 		
Total	\$ 52,096,949	19,559,610		

District contributions subsequent to the measurement date of \$13,296,250 reported as deferred outflows of resources related to pensions will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other amounts reported by the District as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in subsequent years as follows:

	Pension
	Expense
June 30, 2021	\$ 13,357,495
June 30, 2022	1,233,420
June 30, 2023	3,561,494
June 30, 2024	1,311,666
June 30, 2025	(222,986)

Actuarial Methods and Assumptions:

Actuarial Valuations

The employer contribution rates effective July 1, 2019, through June 30, 2021, were set using the projected unit credit actuarial cost method.

For the Tier One/Tier Two component of the PERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (1) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (2) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 20 years.

For the OPSRP Pension Program component of the PERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (a) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (b) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 16 years.

Actuarial Assumptions

The total pension liability in the December 31, 2017 actuarial valuation was determined using the following actuarial assumptions applied to all periods included in the measurement:

Valuation Date	December 31, 2017
Measurement Date	June 30, 2019
Experience Study Report	2016, published July 26,2017
Actuarial cost method	Entry Age Normal
Actuarial assumptions:	
Inflation rate	2.50 percent
Investment rate of return	7.20 percent
Discount rate	7.20 percent
Projected salary increases	3.50 percent

Cost of living adjustments (COLA)	Blend of 2% COLA and graded COLA (1.25%/0.15% in accordance with <i>Moro</i> decision; blend based on service.
Mortality	Healthy retirees and beneficiaries: RP-2014 Healthy annuitant, sex-distinct, generational with Unisex, Social Security Data Scale, with collar adjustments and set-backs as described in the valuation.
	Active members: RP-2014 employee, sex-distinct, generational with Unisex, Social Security Data Scale, with collar adjustments and set-backs as described in the valuation. Disabled retirees: RP-2014 Disabled retirees, sex-distinct, generational with Unisex, Social Security Data Scale.

(Source: June 30, 2019 PERS CAFR; Page 71)

Actuarial valuations of an ongoing plan involve estimates of the value of projected benefits and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The methods and assumptions shown above are based on the 2016 Experience Study which reviewed experience for the four-year period ending on December 31, 2016.

Discount Rate

The discount rate used to measure the total pension liability was 7.20 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Defined Benefit Pension Plan was applied to all periods of projected benefit payments to determine the total pension liability.

Assumed Asset Allocation

Asset Class/Strategy	OIC Target
Cash	0.0
Debt Securities	20.0
Public Equity	37.5
Private Equity	17.5
Real Estate	12.5
Alternative Equity	12.5
Opportunity Portfolio	0.0
Total	100.0

(Source: June 30, 2019 PERS CAFR; Page 42)

Long-Term Expected Rate of Return

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in July 2017 the PERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model. For more information on the Plan's portfolio, assumed asset allocation, and the long-term expected rate of return for each major asset class, calculated using both arithmetic and geometric means, see PERS' audited financial statements at:

https://www.oregon.gov/pers/Documents/Financials/CAFR/2019-CAFR.pdf

TABLE 31

Long-Term Expected Rate of Return Asset Class	Target Allocation*	Annual Arithmetic Return ²	Compound Annual (Geometric) Return	Standard Deviation
Core Fixed Income	8.00 %	3.59 %	3.49 %	4.55 %
Short-Term Bonds	8.00	3.42	3.38	2.70

Commodities	1.88	5.43	3.84	18.95
Assumed Inflation - Mean			2.50 %	1.85 %

Based on the OIC Statement of Investment Objectives and Policy Framework for the Oregon Public Employees Retirement Fund, revised as of June 7, 2017.

² The arithmetic mean is a component that goes into calculating the geometric mean. Expected rates of return are presented using the geometric mean, which the Board uses in setting the discount rate.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate.

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.20 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.20 percent) or one percentage point higher (8.20 percent) than the current rate:

	_	1% Decrease (6.20%)	Di	Current scount Rate (7.20%)	1% Increase (8.20%)
District's proportionate share of the net pension liability (asset)	\$	218,274,212	\$	136,301,159	\$ 67,701,006

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued OPERS financial report. The effect of OPERS on the District's net position has been determined on the same basis used by OPERS.

Changes in Plan Provisions Effecting the Roll Forward

There are no changes in actuarial methods, allocation, and assumption since the December 31, 2017 actuarial valuation.

8. Other Post Employment Benefits

The District offers a postemployment health insurance subsidy and contributes to a retirement health insurance account through Oregon Public Employees Retirement System. The breakdown of the net OPEB liability, asset, deferred outflows of resources and deferred inflows of resources related to OPEB are:

	Health Insurance Subsidy		nce Health Insurance Account		Net	
Total OPEB Liability	\$	25,723,404	\$	-	\$	25,723,404
Total OPEB Asset		-		1,774,960		1,774,960
OPEB Deferred Outflows of Resources OPEB Deferred Inflows of Resources		7,022,136 646,750		133,991 347,596		7,156,127 994,346

Postemployment Health Insurance Subsidy (PHIS)

Plan Description – The maintains a single employer plan is comprised of both explicit and implicit benefits to employees attaining early retirement eligibility. Employees are generally "early retirement eligible" after attaining age 55 and completing 10 years of District Service or upon retiring from the District after completing 30 years of PERS covered employment. Licensed and Administrative employees are provided with an "allowance" that may be drawn down as a stipend or may be applied to pay for continued coverage under one or more of the District's benefit plans (i.e. the medical plan, the dental plan, the vision plan, and life insurance plan). These benefit fall within the scope of GASB 75 and are collectively referred to as "Stipend" benefits.

8. Other Post Employment Benefits – (Continued)

Postemployment Health Insurance Subsidy (PHIS)

Confidential employees are provided an allowance to pay for continued coverage under one or more of the District's benefit plans. Because this benefit is contingent on the retiree's continued coverage under the District's health plan the benefits is the Scope of GASB 75 and are referred as to as "Explicit Medical" benefits.

Per Oregon Revised Statutes (ORS) 243.303, the District provides health insurance coverage on a self-pay basis for retirees and eligible dependents until they are Medicare eligible. Healthcare premiums rates must be based on all plan members, both active employees and retirees. There is an implicit subsidy with respect to retired employees because the medical premium rates charged for coverage typically are less than actual expected retiree claim costs. This is due to medical premium rates being determined by blending both active employee and retiree experience. This additional cost is called the "implicit subsidy" and is required to be valued under GASB 75. There are 1933 active and 107 retired members in the plan.

Funding Policy – There is no obligation on the part of the District to fund these benefits in advance. The benefit from this program is paid by retired employees on a self-pay basis and the required contributions is based on projected pay-as-you go financing requirements.

Total OPEB Liability – The District's total OPEB liability of \$25,723,404 was measured as of June 30, 2019 and was determined by an actuarial valuation as of that date.

Actuarial Assumptions and Other Inputs - The total OPEB liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Valuation date	June 30, 2019
Measurement date	June 30, 2020, rolled forward
Actuarial cost method	Entry Age Normal, level percent of salary.
Actuarial assumptions:	
Discount rate	3.50% per year, based on all years discounted at municipal bond rate.
Inflation rate	2.50% per year
Salary increases	3.00% per year
Healthcare cost trend rates	Increase from 3.0% to 5.0% in 2018-2019 depending on plan selected by employees to an ultimate rate range of 3.0% to 5.0% beginning in 2020
Mortality rates	As developed for the valuation of benefits under Oregon PERS and vary by years of service.
Turnover rates	As developed for the valuation of benefits under Oregon PERS and vary by years of service.
Disability rates	As developed for the valuation of benefits under Oregon PERS and vary by employee age.
Retirement rates	As developed for the valuation of benefits under Oregon PERS and vary by employee age.

8. Other Post Employment Benefits (Continued)

Postemployment Health Insurance Subsidy (PHIS)

Changes in the Total OPEB Liability:

Balance at June 30, 2019	\$ 24,860,477
Service cost Interest Benefit payments	 1,198,657 849,377 (1,185,107)
Balance at June 30, 2020	\$ 25,723,404

At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Changes in assumptions Difference between expected and actual experience	\$	6,596,747 425,389	\$	559,386 87,364
Total	\$	7,022,136	\$	646,750

Amounts reported by the District as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in pension expense in subsequent years as follows:

	Expense			
June 30, 2021	\$	730,134		
June 30, 2022		730,134		
June 30, 2023		730,134		
June 30, 2024		730,134		
June 30, 2025		730,134		
Thereafter		2,724,716		

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate - The following presents the total OPEB liability of the District, as well as what that the District's total OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (2.50 percent) or one percentage point higher (4.50 percent) than the current rate:

	1%		Current		1%
	Decrease	С	iscount Rate		Increase
	 (2.50%)		(3.50%)		(4.50%)
Total OPEB Liability	\$ 27.835.769	\$	25.723.404	\$	23.750.190

8. Other Post Employment Benefits (Continued)

Postemployment Health Insurance Subsidy (PHIS)

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Trend Rate - The following presents the total OPEB liability of the District, as well as what that the District's total OPEB liability would be if it were calculated using a healthcare trend rate that is one percentage point lower or one percentage point higher than the current rate:

		Current Heatlh Care					
	1	1% Decrease		Trend Rates		1% Increase	
				·			
Total OPEB Liability	\$	23,460,932	\$	25,723,404	\$	28,292,337	

Retirement Health Insurance Account (RHIA)

Plan description

As a member of Oregon Public Employees Retirement System (OPERS), the District contributes to the Retirement Health Insurance Account (RHIA) for each of its eligible employees. RHIA is a cost-sharing multiple-employer defined benefit other postemployment benefit plan administered by OPERS. Oregon Revised Statute (ORS) 238.420 established this trust fund. Authority to establish and amend the benefit provisions of RHIA resides with the Oregon Legislature. The plan is closed to new entrants hired on or after August 29, 2003. OPERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Oregon Public Employees Retirement System, P.O. Box 23700, Tigard, OR 97281-3700.

Benefits

RHIA pays a \$60 monthly contribution toward the cost of Medicare companion health insurance premiums of eligible retirees.

Contributions

Because RHIA was created by enabling legislation (ORS238.420), contribution requirements of the plan members and the participating employers were established and may be amended only by the Oregon Legislature. ORS require that an amount equal to \$60 or the total monthly cost of Medicare companion health insurance premiums coverage, whichever is less, shall be paid from the Retirement Health Insurance Account established by the employer, and any monthly cost in excess of \$60 shall be paid by the eligible retired member in the manner provided in ORS 238.410. To be eligible to receive this monthly payment toward the premium cost the member must: (1) have eight years or more of qualifying service in PERS at the time of retirement or receive a disability allowance as if the member had eight years or more of credible service in PERS, (2) receive both Medicare Parts A and B coverage, and (3) enroll in a PERS-sponsored health plan. A surviving spouse or dependent of a deceased PERS retiree who was eligible to receive the subsidy is eligible to receive the subsidy if he or she (1) is receiving a retirement benefit or allowance from PERS or (2) was insured at the time the member died and the member retired before May 1, 1991.

Participating employers are contractually required to contribute to RHIA at a rate assessed each year by OPERS, currently 0.50% of Tier 1 and Tier 2 payroll and 0.43% of OPSRP of annual covered payroll. The OPERS Board of Trustees sets the employer contribution rate based on the annual required contribution (ARC) of the employers, an amount actuarially determined. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years. The District's contributions to RHIA for the years ended June 30, 2020, 2019, and 2018, were approximately \$120,163, \$455,249, and \$456,482 which equaled the required contributions each year.

8. Other Post Employment Benefits (Continued)

Retirement Health Insurance Account (RHIA)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2020, the District reported an asset of \$1,774,960 for its proportionate share of the net OPEB asset. The net OPEB asset was measured as of June 30, 2019, and the total OPEB asset used to calculate the net OPEB asset was determined by an actuarial valuation as of December 31, 2017, rolled forward to the measurement date. The District's proportion of the net OPEB asset was based on the District's actual, legally required contributions made during the fiscal year being compared to the total actual contributions made in the fiscal year by all employers. The District's proportionate share as of the measurement date is .9185% changed from .9427%, for the prior measurement date.

For the year ended June 30, 2020, the District recognized OPEB expense reduction of (\$346,011) related to the RHIA OPEB. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to the RHIA OPEB from the following sources:

	 ed Outflows esources	 eferred Inflows of Resources
Differences between expected and actual experience Changes in assumptions	\$ -	\$ 234,064 1,839
Net difference between projected and actual earnings on investments		109,558
Changes in proportionate share	13,828	2,135
District contributions subsequent to the measurement date	 120,163	
Total	\$ 133,991	\$ 347,596

\$120,163 reported as deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date will be recognized as an addition of the OPEB (asset) in the year ended June 30, 2021. Amounts reported as deferred outflows of resources and deferred inflows of resources related to the RHIA OPEB will be recognized in OPEB RHIA expense as follows:

	Expense					
June 30, 2021	\$ (172,336)					
June 30, 2022	(153,077)					
June 30, 2023	(19,640)					
June 30, 2024	11,285					
June 30, 2025	-					
Thereafter	-					

Actuarial Assumptions

The total OPEB asset in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

8. Other Post Employment Benefits (Continued)

Retirement Health Insurance Account (RHIA)

Valuation date	December 31, 2017
Measurement date	June 30, 2019
Experience study	2016, published July 26, 2017
Actuarial assumptions:	
Actuarial cost method	Entry Age Normal
Inflation rate	2.50 percent
Long-term expected rate of return	7.20 percent
Discount rate	7.20 percent
Projected salary increases	3.50 percent
Retiree healthcare participation	Healthy retires: 35%; Disabled retirees: 20%
Healthcare cost trend rate	Not applicable
Mortality rates	Healthy retires and beneficiaries: RP-2014 Healthy annuitant, sex-distinct, generational with Unisex, Social Security Data Scale, with collar adjustments and set-backs as described in the valuation. Active members: RP-2014 Employees, sex-distinct, generational with Unisex, Social Security Data Scale, with collar adjustments and set-backs as described in the valuation. Disabled retirees: RP-2014 Disabled Retirees, sex-distinct, generational with Unisex, Social Security Data Scale

Discount Rate

The discount rate used to measure the total OPEB liability at June 30, 2019 was 7.20 percent. The projection of cash flows used to determine the discount rate assumed that contributions from contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the RHIA plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments for the RHIA plan was applied to all periods of projected benefit payments to determine the total OPEB liability.

Long-Term Expected Rate of Return

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in July 2017 the PERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. Each asset class assumption is based on a consistent set of underlying assumptions and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model. For more information on the long-term expected rate of return for each major asset class, calculated using both the arithmetic and geometric means, see PERS audited financial statements at: https://www.oregon.gov/pers/documents/financials/cafr/2019-CAFR.pdf.

Retirement Health Insurance Account (RHIA)

Sensitivity Analysis

Sensitivity of the total OPEB liability to changes in the discount rate. The following presents the total OPEB liability of the District for the Retirement Health Insurance Account, as well as what the total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.20%) or 1-percentage-point higher (8.20%) than the current discount rate:

	1%	Current	1%
	Decrease	Discount Rate	Increase
	(6.20%)	(7.20%)	(8.20%)
District's Net OBEP Liability (Asset)	(1,376,052)	(1,774,960)	(2,114,858)

Stipend Benefit

Stipend Benefit – The District offers stipend benefits to all retired licensed employees and administrators as follows:

- Licensed Employees At least 10 years of District Service and eligible for PERS retirement. Employee must retire prior to July 1, 2018.
- Administrators Administrators must have been hired prior to July 1, 2015. At least 10 years of District Service as an Administrator, or 7 years as an Administrator with 20 years of total District Service and eligible for PERS retirement. Administrator hired prior to July 1, 2005.

Stipend Benefit for Licensed Employees – Eligible licensed employees may receive a \$30,000 benefit at retirement (benefit is prorated for employees who work less than full time) that may be paid in one of the following forms:

Option 1: Retiree may use \$30,000 to pay for continued coverage under one or more of the District's health plans (i.e. the medical plan, the dental plan, the vision, plan and the life insurance plan) on a pre-tax basis. Any remaining amount in the retiree's account balance at the age of 65 is paid in equal annual installments so that the entire balance is paid by the fourth anniversary of the employee's retirement. If the retiree dies before the account balance is paid, any remaining amount is paid as a lump sum to retiree's beneficiary.

Option 2: Retiree may receive \$30,000 as stipend payable over 4 years in equal installments. This benefit continues until the account balance is exhausted. If the retiree dies before the account balance is paid, any remaining amount is paid as a lump sum to retiree's beneficiary.

Stipend Benefit for Administrators – Eligible Administrators receive the lesser of 60% of salary at retirement or \$60,000 (benefit is pro-rated for employees who work less than full time) as retirement benefit that may be paid in one of the following forms:

Option 1: Same as Licensed Employee.

Option 2: Retiree may receive retirement benefit as stipend payable over five (5) years in equal installments. This benefit continues until the account balance is exhausted. If the retiree dies before the account balance is paid, any remaining amount is paid as a lump sum to retiree's beneficiary.

8. Other Post Employment Benefits (Continued)

Funding Policy – There is no obligation on the part of the District to fund these benefits in advance. The benefit from this program is paid by retired employees on a self-pay basis and the required contributions is based on projected pay-as-you go financing requirements.

Total OPEB Stipend Liability – The District's total OPEB Stipend liability of \$1,485,075 was measured as of June 30, 2019 and was determined by an actuarial valuation as of that date.

Actuarial Assumptions and Other Inputs - The total OPEB Stipend liability in the June 30, 2019 actuarial valuation was determined using the actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified. See table in health insurance subsidy section.

Changes in the Total OPEB Stipend Liability:

Balance at June 30, 2019	\$ 1,943,193
Service cost Interest Benefit payments	30,445 58,439 (547,002)
Balance at June 30, 2020	\$ 1,485,075

At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB Stipend from the following sources:

	rred Outflows Resources	Deferred Inflows of Resources		
Differences between expected and actual experience Changes in assumptions	\$ 112,227 -	\$	729,574 39,528	
Total	\$ 112,227	\$	769,102	

Amounts reported by the District as deferred outflows of resources and deferred inflows of resources related to OPEB Stipend will be recognized in pension expense in subsequent years as follows:

	 Expense				
June 30, 2021	\$ (60,682)				
June 30, 2022	(71,654)				
June 30, 2023	(115,541)				
June 30, 2024	(115,541)				
June 30, 2025	(115,541)				
Thereafter	(177,916)				

8. Other Post Employment Benefits (Continued)

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate - The following presents the total OPEB liability of the District, as well as what that the District's total OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (2.50 percent) or one percentage point higher (4.50 percent) than the current rate:

	1%		Current	1%		
	Decrease	D	iscount Rate		Increase	
	 (2.50%)	(3.50%)		(4.50%)		
Total OPEB Stipend Liability	\$ 1,542,788	\$	1,485,075	\$	1,428,120	

Tax Sheltered Annuity and Deferred Compensation Arrangements

The District offers its employees a tax deferred annuity program established pursuant to Section 403(b) of the Internal Revenue Code (the Code). Contributions are made through salary reductions from participating employee up to the amounts specified in the Code. As of June 30, 2020, 193 employees were participating in the plan. A total of \$44,309 employer paid contributions were made during the year then ended for 14 employees.

The District had a deferred compensation plan available for its employees wherein they may execute an individual agreement with the District for amounts earned by them to not be paid until a future date when certain circumstances are met. These circumstances are: termination by reason of death, disability, resignation or retirement. Payment to the employee will be made over a period not to exceed 15 years. The deferred compensation plan is one which is authorized under Section 457 of the Code and have been approved in its specifics by a private ruling from the Internal Revenue Service. The assets of the plan are held by the administration for the sole benefit of the plan participants and are not considered assets or liabilities of the District. As of June 30, 2020, 109 employees were participating in the plan. In addition, 79 employees also make Roth contributions using a 403(b) or 457 investment vehicle. These contributions are taxed when invested but not subject to income tax when withdrawn.

9. Accrued Compensated Absences

The General Fund is the primary fund where the compensated absences liability is liquidated. Activity for compensated absences for the year ended June 30, 2020, all of which are considered due within one year, as follows:

	Beginning Balance		Additions		Reductions		Ending Balance	
Accrued Compensated Absences	\$	519,320	\$	718,883	\$	519,320	\$	718,883
	\$	519,320	\$	718,883	\$	519,320	\$	718,883

10. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District carries commercial insurance. The District is self-insured for \$50,000 for each comprehensive general liability or automobile claim. The operations of the self-insurance program are reported in an Internal Service Fund, the General Self-Insurance Fund. Expenses are for reported and expected claims, administrative operating costs and the premium for its property insurance policies.

9. Risk Management (Continued)

The District established a Self-Insurance Fund to account for and finance its uninsured risks of loss related to injuries of employees. Under this program, the Fund provides coverage up to a maximum of \$300,000 for each Workers' compensation claim.

The District established the Health Self-Insurance Fund during the 1999-2000 fiscal year. The Health Self-Insurance Fund is used to pay for employee medical bills, stop loss insurance payment, and administrative fees.

The District purchases commercial insurance for claims and stop-loss for the Health Fund in excess of coverage provided by the above Internal Service Fund and for all other risks of loss. Settled claims have not exceed this commercial coverage in any of the past three fiscal years.

The General Fund makes payments to the above Internal Service Funds based on estimates of the amounts needed to pay prior and current year claims and to establish assets available to pay claim losses. Standards require that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of loss can be reasonably estimated. The Claim liability of \$5,501,391 reported in the fund at June 30, 2020 has been accrued. Liabilities include an amount calculated considering the effects of inflations, recent claim settlement trends including frequency and amount of payouts and other economic and social factors. The District provides currently for estimated losses to be incurred from pending claims and for incurred but no reported claims.

Changes in the fund's claims liability amounts for the years ended June 30, 2020 and 2019 are as follows:

	2020	2019
Estimated claims liability Current year cliams and changes in estimates Claims payments	\$ 6,096,451 36,042,384 (36,637,444)	\$ 5,851,124 35,759,142 (35,513,815)
Estimated claim liability	\$ 5,501,391	\$ 6,096,451

11. Contingent Liabilities

The amounts of grant revenue reflected in the financial statements are subject to audit and adjustment by grantor agencies, principally the federal government. Any costs that are questioned or recommended to be disallowed which ultimately result in disallowed claims may become a liability of the District. The amount, if any, of costs which may be disallowed by the grantor cannot be determined at this time, although District management expects such amounts, if any, to be immaterial. The District, in the regular course of business, is named as a defendant in various lawsuits. The likely outcome of these lawsuits is not presently determinable. The District is dependent on the State of Oregon for a substantial portion of its operating funds. Due to funding uncertainties at the State level, future funding for school district may be reduced. The ultimate effect of this possible reduction in funding on the District's future operations is not yet determinable.

12. Property Tax Abatements

The District's property tax revenues were reduced by \$150,452 under Enterprise Zones agreements by other municipalities within the District's boundaries.

NORTH CLACKAMAS SCHOOL DISTRICT NO. 12 NOTES TO BASIC FINANCIAL STATEMENTS Year Ended June 30, 2020

13. COVID-19

The COVID-19 outbreak worldwide has resulted in government mandated closures that have caused disruption in the District's ability to deliver-in-person education. The outbreak has affected local and global economies. The extent and duration of the impact of this outbreak on the operations of the District is unknown at this time.

14. Subsequent Events

On October 1, 2020, the District issued \$139,415,000 General Obligation Refunding Bonds. The net proceeds of \$138,616,158 were deposited with escrow agent to refund outstanding bonds.

NORTH CLACKAMAS SCHOOL DISTRICT NO. 12 NOTES TO REQUIRED SUPPLEMENTARY INFORMATION Year Ended June 30, 2020

1. Other Postemployment Benefits – RHIS, Stipend, and RHIA

RHIA and Stipend - The schedules of funding progress for other postemployment benefits will eventually present multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

RHIA – The amounts presented for each fiscal year were actually determined at December 31 and rolled forward to the measurement date. The amounts of covered payroll in the schedule of District's proportionate share of the Net OPEB (Asset) use the prior year's data to match the measurement date used by the OPEB plan for each fiscal year.

2. Employee Retirement Pension Benefits.

Changes in Plan Provisions

A summary of key changes in plan provisions are described in the Oregon Public Employees Retirement System's GASB information found at:

https://www.oregon.gov/pers/EMP/Pages/gasb-68.aspx

Changes in Assumptions

A summary of key changes implemented since the December 31, 2017 valuation are described in the Oregon Public Retirement System's GASB 68 disclosure information which can be found at: https://www.oregon.gov/pers/EMP/Pages/gasb-68.aspx

Additional detail and a comprehensive list of changes in methods and assumptions can be found in the 2016 Experience Study for the System, which was published on July 28, 2017, and can be found at: https://www.oregon.gov/pers/Documents/2016-Exp-Study.pdf

3. Budget

A budget is prepared and legally adopted for the General Fund and Special Revenue Fund on the modified accrual basis of accounting. The budgetary basis of accounting is the same as accounting principles generally accepted in the United States of America basis for the governmental fund types, proprietary fund type and private purpose trust fund type. The resolution authorizing appropriations for each fund sets the level by which expenditures cannot legally exceed appropriations.

Appropriations are established at the major function level (instruction, support services, enterprise and community services, facilities acquisition and construction, debt service, operating contingency and transfers) for each fund. The detail budget document, however, is required to contain more specific, detailed information for the aforementioned expenditure categories. Unexpected additional resources may be added to the budget through the use of supplemental budget and appropriation resolution.

Supplemental budgets less than 10% of fund's budget may be adopted by the Board at a regular meeting. A supplemental budget greater than 10% of a fund's original budget requires hearing before the public, publication in newspapers and approval by the Board. Original and supplemental budgets may be modified by the use of appropriation transfers between the levels of control (major function levels) with Board approval. Appropriations lapse at the end of each fiscal year.

Statistical Section

This part of the District's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

<u>Contents</u>	<u>Page</u>
Financial Trends	86
These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.	
Revenue Capacity	94
These schedules contain information to help the reader assess the District's most significant local revenue source, the property tax.	
Debt Capacity	100
These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	
Demographic and Economic Information	104
These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	
Operating Information	106
These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.	

Sources:

Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Permanent tax rates are determined by the State of Oregon Constitution and State Statutes. Existing districts cannot increase their permanent rate authority. Rates for bond debt service are set based on each year's requirements.

N/A Not Available

Source: Clackamas County Department of Assessment and Taxation.

⁽¹⁾ This is a weighted average rate as limited by ballot measure 5. Actual rates may vary by tax codes and lots because of differing compression.

⁽²⁾ Numbers in totals do not reflect the actual tax rate for any one property, but are the results of the potential combination of taxing units within District boundaries.

⁽³⁾ Complete information is not available for years prior to 2011-12. Additional years will be presented as they become available.

⁽¹⁾ ORS 328.245 establishes a parameter of bonded indebtedness for school districts. Aggregates are governed by real market values within the District based on the following:

Allowable Percentage of Real Market Value:

A Kindergarten through eighth grade, 9 x 4.95%

B Ninth through twelfth, 4 x .0075 3.00%

Allowable Percentage 7.95%

(2) Source: Measure 5 Real Market Value from Clackamas County Department of Assessment and Taxation

^A For each grade from kindergarten to eighth for which the District operates schools, fifty-five one-hundredths of one percent (.0055) of the real market value.

^B For each grade from ninth to twelfth for which the District operates schools, seventy-five one-hundredths of one percent (.0075) of the real market value.

- (1) Source: Debt Management Division, State of Oregon.
- (2) Net direct debt includes all tax-supported bonds. Self-supporting bonds are excluded.
- (3) The percentage of overlapping debt is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the overlapping district's taxable assessed value that is within the school district's boundaries and dividing it by the overlapping district's total taxable assessed value.

 These percentages are calculated by the State of Oregon Municipal Debt Advisory Commission.

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the oustanding debt of those overlapping governments that is borne by the residents and businesses of the District. This process recognizes that, when considering the District's ability to issue and repay long-term debt the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt of each overlapping government.

AUDIT COMMENTS AND DISCLOSURES REQUIRED BY STATE REGULATIONS

NORTH CLACKAMAS SCHOOL DISTRICT NO. 12 INDEPENDENT AUDITORS' REPORT REQUIRED BY OREGON STATE REGULATIONS

We have audited the basic financial statements of the North Clackamas School District No. 12 (District) as of and for the year ended June 30, 2020 and have issued our report thereon dated December 30, 2020. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to the following:

- Deposit of public funds with financial institutions (ORS Chapter 295).
- Indebtedness limitations, restrictions and repayment.
- Budgets legally required (ORS Chapter 294).
- Insurance and fidelity bonds in force or required by law.
- Programs funded from outside sources.
- Authorized investment of surplus funds (ORS Chapter 294).
- Public contracts and purchasing (ORS Chapters 279A, 279B, 279C).
- State school fund factors and calculation

In connection with our testing nothing came to our attention that caused us to believe the District was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations.

OAR 162-10-0230 Internal Control

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

Purpose of this Report

This report is intended solely for the information and use of the board of directors and management of the District and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.

Wilcox Arredondo & Co.

Certified Public Accountants Canby, Oregon December 30, 2020

GRANT COMPLIANCE SECTION

To the School Board North Clackamas School District No. 12 Clackamas County, Oregon

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF THE FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of North Clackamas School District No. 12 (District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 30, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express and opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified

115

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Wilcox Arredondo & Co.

Certified Public Accountants Canby, Oregon December 30, 2020

To the School Board North Clackamas School District No. 12 Clackamas County, Oregon

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH
MAJOR PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE REQUIRED BY UNIFORM GUIDANCE

Report on Compliance for Each Major Federal Program

We have audited North Clackamas School District No. 12's (District's) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2020. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

Report on Internal Control over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

NORTH CLACKAMAS SCHOOL DISTRICT NO. 12 NOTES RELATIVE TO SCHEDULE OF FEDERAL AWARDS Year Ended June 30, 2020

1. Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of North Clackamas School District No. 12 (District) programs of the federal government for the year ended June 30, 2020. The information in this Schedule is presented in accordance with the requirements of title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the District.

2. Summary of Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance and OMB Circular A-87, Cost Principles for State, Local, and Indian Tribal Governments) wherein certain types of expenditures are not allowable or are limited as to reimbursement.

3. Indirect Cost Rate

The District has elected not to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance due to the fact that the District has a negotiated indirect cost rate with Oregon Department of Education, and thus is not allowed to use the de minimus rate.

4. Federal Financial Assistance

Pursuant to Uniform Guidance, federal financial assistance is defined as assistance provided by a federal agency, either directly or indirectly, in the form of grants, contracts, cooperative agreements, loans, loan guarantees, property, interest subsidies, insurance or direct appropriations. Accordingly, non-monetary federal assistance, including federal surplus property, is included in federal financial assistance and, therefore, is reported on the Schedule, if applicable. Federal financial assistance does not include direct federal cash assistance to individuals. Solicited contracts between the state and federal government for which the federal government procures tangible goods or services are not considered to be federal financial assistance.

5. Major Programs

Uniform Guidance establishes criteria to be used in defining major federal financial assistance programs. Major programs for the District are those programs selected for testing by the auditor using a risk-assessment model, as well as certain minimum expenditure requirements, as outlined in Uniform Guidance. Programs with similar requirements may be grouped into a cluster for testing purposes

6. Subrecipients

The District had no subrecipients.

SECTION I - SUMMARY OF AUDITOR'S RESULTS

Financial Statements:

Unmodified Type of auditor's report issued:

Internal control over financial reporting:

Material weakness(es) identified? Yes No ✓
