

## Learning Principles at Secondary

Staff working at Secondary are committed to the following principles:

- Our broad and balanced curriculum is delivered using a variety of pedagogical approaches and methodologies
- Students are encouraged to consider different perspectives and to pursue their inquiries not solely relying on the teacher's input but with an ability to work independently
- Teaching is engaging and stimulating, enlists technology where appropriate, and is enriched by interdepartmental cooperation
- Staff engage in co-curricular activities and with the parent body and local community and, when in a position to do so, support colleagues who have organised whole school events such as drama productions or house events
- Students experience BBS Secondary in a context that is humane and supportive
