- Procures equipment, supplies and materials for the purpose of maintaining availability of required items and completing jobs efficiently and within budgetary limits.
- Responds to inquiries from students, staff, public, local health department, etc. for the purpose of conveying information regarding swimming pool operations.
- Serves as an on-site supervisor for pool operators, life guards, and water safety instructors for the purpose of providing guidance and direction in the completion of their work functions in accordance with established standards.
- Stocks chemicals and other supplies for the purpose of maintaining adequate quantities and security of items.

### **Other Functions**

- Performs other related duties as assigned for the purpose of ensuring the efficient and effective functioning of the work unit.

### **Job Requirements: Minimum Qualifications**

#### **Skills, Knowledge and Abilities**

SKILLS are required to perform multiple tasks with a potential need to upgrade skills in order to meet changing job conditions. Specific skill based competencies required to satisfactorily perform the functions of the job include: swimming, teaching swimming and rescue techniques in water, operating pool maintenance equipment, using standard office equipment and procedures, and handling hazardous materials.

KNOWLEDGE is required to perform basic math, including calculations using fractions, percents, and/or ratios; read a variety of manuals, write documents following prescribed formats, and/or present information to others; and understand complex, multi-step written and oral instructions. Specific knowledge based competencies required to satisfactorily perform the functions of the job include: pertinent codes, policies, regulations and/or laws; and pool equipment/mechanics.

ABILITY is required to schedule activities; gather and/or collate data; and use job-related equipment. Flexibility is required to work with others in a variety of circumstances; work with data utilizing specific, defined processes; and operate equipment using standardized methods. Some problem solving may be required to identify issues and select action plans. Problem solving with data may require independent interpretation; and problem solving with equipment is moderate to significant. Specific ability based competencies required to satisfactorily perform the functions of the job include: communicating with diverse groups; meeting deadlines and schedules; adhering to safety practices; and maintaining records.

### **Responsibility**

Responsibilities include: working under direct supervision using standardized routines; providing information and/or advising others; operating within a defined budget. There is a continual opportunity to impact the organization's services.

## **Working Environment**

The usual and customary methods of performing the job's functions require the following physical demands: swimming in shallow and deep water, significant lifting, carrying, pushing, and/or pulling, some climbing and balancing, frequent stooping, kneeling, crouching, and/or crawling and significant fine finger dexterity. Generally the job requires 40% sitting, 40% walking, 10% swimming, and 10% standing. The job is performed under temperature extremes and in a generally hazard free environment.

Experience Job related experience is desired.
