

PHYSICAL EDUCATION DEPARTMENT

Physical fitness and wise use of leisure time are two good reasons to take Physical Education. We urge each student to try to work Physical Education into his or her schedule at a time when you are not out for a varsity sport, if possible. No student may take more than one Physical Education class per term. Participation will determine the grade for each course. Careers related to Physical Education include coaching, teaching, recreational leadership, recreation and park management, physical therapist, recreational therapist. etc. Also, conditioning and weight lifting programs are becoming very popular for off-season athletes; many students are also using aerobics for fitness and muscle toning in their lives.
