

The Delaware Smile Check Program is a statewide, portable community preventive dental program dedicated to improving health outcomes through disease prevention, oral health education, and resolving barriers to care through case management.

## On-Site Services

- **Dental Screenings:** A licensed dental hygienist will check for signs of infection, cavities, gum problems, trauma, malformations or abnormalities in the teeth or tissues of the mouth.
- **Fluoride Varnish:** A fluoride application to strengthen teeth against decay and reverse early cavities.
- **Dental Health Education:** Customized education and resources to address the needs of each patient.
- **Oral Health Evaluation Report:** Dental screening report form sent home with the student.
- **Case Management:** Connect with families to assist in navigating the complexities of the health care system, connect to resources and assist with finding solutions for barriers to care they identify.
- **Dental Necessities:** Toothbrush, fluoride toothpaste, and dental floss.

## Virtual Services Offered

- **Dental Screenings:** A licensed dental hygienist will check for signs of infection, cavities, gum problems, trauma, malformations or abnormalities in the teeth or tissues of the mouth through a virtual screening.
- **Dental Health Education:** Customized education and resources to address the needs of each patient
- **Case Management:** Connect with families to assist in navigating the complexities of the health care system, connect to resources and assist with finding solutions for barriers to care they identify.

## Who can participate?

- Anyone insured by Delaware Medicaid, Delaware Healthy Children Program, or has no dental insurance.
- Age three-months-old and up.
- Those who have not received an exam, cleaning, or fluoride in the last seven months.

## What is the cost?

There is no out of pocket expense for any service provided.

Organizations/Schools/Facilities, visit: [Smile Check School Form - Delaware Thrives \(dethrives.com\)](#)

Adults and children interested in virtual screenings, visit: <https://dethrives.com/smile-check>

### Dental Screening and Referral System for Children

The Delaware Smile Check Program believes every child deserves a healthy mouth and smile. The program is a public health service that offers dental screenings (a visual evaluation) to identify oral health concerns and needs, application of fluoride varnish to strengthen teeth, customized dental education, and assistance with locating resources and treatment options for your child.

The Smile Check Program is available *free* to any child who has not received routine dental care (dental cleaning, examination, fluoride) in the past seven months.
