## Spring 2023 Family Engagement Activities

On surveys distributed to parents who attended the family engagement workshops in the fall, most parents indicated that they are interested in attending in person monthly conversations about parenting and schooling. Thus, four articles have been chosen from the [childmind.org](http://childmind.org) website. There will be one session repeated four times, twice in English, once in the morning and once in the evening, and twice in Spanish, also once in the morning and once in the evening.
